STATE OF IDAHO

EARLY HISTORY.

The word Idaho is an Indian term signifying the dazzling white snow crest on the principal mountain ranges, and translated to English it means "Gem of the Mountains."

Idaho was separated from Washington and became a territory by act of Legislature in 1863, and it was admitted to the Union as a state by a bill passed by Congress on April 3d, 1890. The Senate approved this bill on July 1, and it was signed by President Harrison on July 3, 1890.

LOCATION AND TOPOGRAPHY.

The state is bounded on the north for a short distance at the end of the "Pan-Handle" by British Columbia, on the northeast and east by Montana, and east by Wyoming, south by Utah and Nevada, and west by Oregon and Washington. It is irregular in shape, appearing on the map in the form of a gigantic easy chair, with the top to the north, fronting the east, being less than 50 miles wide at the northern boundary, nearly 300 miles along the southern boundary, and 500 miles along the western boundary, embracing an area of 84,600 square miles, being larger than the six New England states with Maryland included. It is larger than the states of New York and Maine combined. The state has an area of 55,228,160 acres. Of this 8,400,000 are classed as mountainous, 15,000,000 as agricultural land, 7,000,000 forest, 25,000,000 grazing lands, and 600,000 in lakes. Its vast mineral belts are included in the mountain area, as are also most of the forests. Stretching along its eastern edge, and separating Idaho from Montana and Wyoming, are the rugged mountains of the Bitter Root, Rocky and Wahsatch ranges. The Bitter Root occupying the northern, the Rocky the central, and the Wahsatch the southern link of its boundary. The "spurs" of these ranges, especially the Wahsatch, extend well over into Idaho, and they contain some of the State's best mineral belts. Their highest peaks reach altitudes ranging from 9,000 to 13,000 feet. On the south and southwest are the Owyhee mountains, which form an important link in the great divide between the waters of the Columbia and the Humboldt. The Sawtooth, Salmon River, Wood River and Boise are among the most prominent mountain ranges in Central Idaho, on the west are the Blue Mountains of Oregon and Washington. Idaho is, therefore, practically mountain locked, although from the south, southeast and west there are numerous depressions through which railways and wagon roads find easy natural access. The mountain scenery in the section north of the Snake River Valley is unsurpassed in any country in the world. The interior is a vast plateau, varying in altitude from 600 feet above the sea in its lowest valleys to 10,000 feet on the top of the highest peaks. Its numerous mountain ranges run in a variety of directions, the trend of the principal ones, however, being southeast to northwest. In these interior ranges are the mineral belts which first attracted general attention to Idaho. Alternating and nestling among the mountain ranges are many valleys, large and small, affording in aggregate a vast area of fertile lands. The arable portions range in size from one to twenty miles in width, and from twenty to one hundred miles in length. Traversing Southern Idaho is an extensive volcanic belt in the basin of the Snake River. This belt stretches far into neighboring territories, being 800 miles in length. In Idaho it averages about 50 miles in width. Some of the best valleys traverse it, but it is more noteworthy as the great winter grazing region of this and adjacent territories. Its nutritious herbs and grasses fatten thousands of cattle and sheep annually.

CLIMATE.

The climate of Idaho varies owing to the changing altitudes that obtain throughout the State, the annual mean temperature being 45 degrees.

The average or mean annual temperature at Lewiston, in northern Idaho, is 56 degrees, a milder showing by 5 degrees than is made in Ohio; milder by 10 degrees than Iowa, and milder by 12 degrees than Maine and New Hampshire. Boise City, in Western Central Idaho, with a much greater altitude than Lewiston, has an average temperature of 51 degrees, the same as Ohio, and 4 degrees warmer than Connecticut.

The rain and snowfall at Lewiston is about 24 inches; at Boise, 14.42 inches. In fact, the Snake River Valley is exceptionally mild throughout its course from Shoshone Falls westward and northward to its intersection with the western boundary of the State.

A section of greater mildness than Lewiston lies in the Snake River Valley, directly south of Mountain Home, Elmore county.

It is not generally understood that there is a large area of the State having an annual precipitation about equal to that of Southern Maryland, where crops are grown without irrigation. This section embraces Kootenai, Shoshone, Latah and parts of Nez Perce, Washington and Idaho counties.

Although the remainder of the State may be considered semi-arid, there are other large areas in the eastern counties where, owing to a kind Providence, the distribution of precipitation is such that the greater fall occurs in the spring months at the time when crops are in greatest need of moisture, thus enabling what is known as "dry farming" to be prosecuted extensively.

At Boise the lowest record during seven consecutive winters was 12 degrees below zero in January, and the highest 108 degrees in July. The signal officer reports that the mercury sank below zero only four times during one period of five years. The coldest weather record in twenty years was 27 degrees below zero. The normal wind velocity is very low, averaging 12 miles an hour, and seldom exceeding 30. While this is a fair representation of the climate of the agricultural portion of the State, it must be borne in mind that the much more elevated mining districts have winters as harsh as any region in the Alleghenies, the snowfall reaching seven to ten feet on the level. The Owyhee range, in the southwest part of the state, has an exceptionally mild winter climate.

AGRICULTURE.

The agricultural districts of the State are widely scattered, owing to the broken condition of its surface, but the southern and central portions contain the most of the 25,000 square miles of land suitable for this purpose. There are, however, fine large tracts scattered through the rich valleys of the northern portion, which are well watered by natural springs, numerous streams and heavy precipitation of rains, which makes them more valuable than much of the land in the southern portion, which requires irrigating continually. The agricultural resources of Idaho rank high, and the future for the industry is very promising. All varieties of spring and fall wheat are grown successfully. The average yield being 30 bushels to the acre, and in some places in the northern portion 100 bushels per acre. Barley, oats and rye are profitably grown. Hay, timothy, clover and alfalfa are the leading crops, and yield from six to eight tons per acre for the season and make a large growth for pasture besides. All kinds of vegetables and fruits grow abundantly, also roots and forage plants. Some flax is grown in northern portions; corn in the warm southern counties; also broom corn, sugar cane, tobacco and sweet potatoes.

DAIRYING.

This is a growing industry all through the northern and southern portions of the State, where access can be had to the railroads, but it is nevertheless very profitable throughout the State, as the products find ready market in the extensive and numerous mining camps where hundreds of men are employed, and which are scattered all through the mountainous regions. The products of the farm, garden and dairy are taken into those camps by farmers and sold at good figures, which gives them a large revenue.

FRUIT GROWING.

This industry has increased with great rapidity during the past few years, until it has become one of the leading industries of the State. Apples, prunes, pears, peaches, apricots, nectarines, plums and cherries, and all varieties of small fruits are extensively and profitably raised and fast becoming famous for perfection in quality, superior flavor and high color in all markets in the country. Hardy fruits can be found on many of the high elevations. The crop seldom fails—some orchards yield as high as 50,000 bushels of fruit annually. Grapes succeed admirably, and attain a high perfection in size and quality for table use and wine making, while berries of all kinds grow with great vigor and yield most extravagant crops.

STOCK RAISING.

Idaho ranks high as a stock growing state. It contains a summer, winter and spring range, suitable to horses, cattle and sheep. The herds grazing from the valleys in winter and follow the range up the mountains in summer. The natural grasses are usually found in such quantities the year round that stock will thrive without hay or grain.

IRRIGATION.

The vast and forbidding desert of Idaho, in the drainage basin of the Snake River, is to be transformed, it is promised, into a green garden of productiveness under the national irrigation law by the government engineers. The government has already spent over \$3,000,000 in irrigation works and a vast amount of arid land has been transformed into a veritable Garden of Eden. In irrigated parts of the State apples, plums, apricots, grapes and melons reach a high state of perfection, men have become wealthy from the careful cultivation of twenty and forty-acre tracts, and enough can be raised from five acres to support a family. The desert lands of Minidoka, producing only sage brush, are now only waiting water. Ten years will be allowed for the settler to pay back to the government the cost of the works, divided pro rata among the land reclaimed. Neither the Desert Land act nor the community clause of the Homestead act can be utilized for entering land under any of these government irrigation projects, but only the old-time Homestead law requiring actual residence and improvement for the full period of five years. Practically all the great Minidoka tract is today public land, so that the future homemaker will deal directly with Uncle Sam, and will pay no profit to the middleman or speculator. At the point where the water is to be taken from the Snake River, just at the head of the Minidoka Rapids, the Snake has cut its way, during countless centuries, through a bed of solid, black lava rock. The western portion of these plains will, in a few

years, be the most thickly settled region of Idaho under this system of irrigation, as the Boise, Payette and Weiser Rivers run parallel within easy distance of each other, and the diversion of their waters will reclaim an immense area of land.

LUMBER AND TIMBER.

This industry, although quite extensive in some locations, does not compare as yet with the coast slope, but great preparations are being made to push it as soon as transportation facilities are furnished them. The forest area of Idaho is computed to contain an area of 7,000,000 acres, composed of bull, white and yellow pine, red and yellow fir, white cedar, hemlock, cottonwood, tamarack, white red and black spruce, scrub oak, mountain mahogany, birch, alder, willow and some yew trees. In many counties the timber is very dense and of the finest quality. Much of these lands are being taken up by parties representing large interests, and will soon make extensive preparations for converting the forests into lumber. The white pine and red fir of the State exceeds anything of its kind in the country.

MINERALS.

Quite a space would have to be devoted to this subject to do justice to the matter, for it is one of the leading industries of the State, and one of the most profitable. Since the first discovery of gold in 1863, the output of gold and silver has been in excess of \$450,000,000. The lead mines of the Coeur d'Alene district in Shoshone county are the richest in the world, and produce 55 per cent. of the lead in the United States. Extensive and rich copper fields have been found in different parts of the State.

Owyhee county has some of the best opal fields in the United States, and the brilliancy of the stones compare favorably with any found elsewhere. Marble has been found in large quantities and of fine quality in Bear Lake, Cassia and other counties. Vast coal fields have been located, and are simply waiting for the means of transportation facilities to be fully developed.

Rubies are found in Latah county, and the stone quarries of fine granite and other grades are found in many places.

IDAHO COMMERCIAL LAWS

Prepared especially for this publication by Messrs Pence and Tennyson, of the Boise City Bar.

Acknowledgments may be taken within the state at any place, by a Justice or Clerk of the Supreme Court; within the city, county or district, for which the officer was elected or appointed, a judge or clerk of a court of record; a County Recorder, a Notary Public, or a Justice of the Peace.

Without the state, but within the United States, and the jurisdiction of the officer; a justice, judge or clerk of any United States, State, or Territorial Court of Record; a commissioner appointed by the Governor; a Notary Public, or any officer having authority under the laws of the state or territory where the acknowledgment is taken. Without the United States, a Minister, Commissioner, Charge d'Affairs, a Consul or Vice-Consul, of the United States resident and accredited where taken. Judge of a Court of Record of the county where taken, Commissioner appointed by the Governor, or a Notary Public. Deputies may take in the name of their principals. A conveyance or incumbrance of the homestead, or that part of the community property occupied or used by the husband and wife as a residence, is void unless acknowledged by the wife.

ACTIONS—Common law pleading abolished and Code system adopted.

ARREST—(Civil)—Defendant may be arrested in action for recovery of money or damages arising upon contract, where he is about to depart from State, with intent to defraud creditors, or when action is for wilful injury to person, character or property, knowing property to belong to another; in action for fine or penalty, on promise to marry, or for property or money embezzled, or fraudulently misapplied, or converted to his own use by a public officer, or an officer of a corporation, attorney, factor broker, agent or clerk, in the course of his employment, as such, or by any other person in a fiduciary capacity; or for misconduct or neglect in office or in a professional employment, or for a wilful violation of duty; in an action to recover possession of personal property unjustly detained when the property or any part thereof has been concealed, removed or disposed of to prevent its being found or taken by the sheriff. When defendant has been guilty of fraud in contracting the debt or incurring the obligation for which the action is brought, or in concealing or disposing of the property, for the taking, detention or conversion of which the action is brought. When the defendant has removed or disposed of his property, or is about to do so, with intent to defraud creditors. Affidavit showing existence of necessary facts and bond required.

(Federal Statute on Bankruptcy abrogates State law.)

NEGOTIABLE INSTRUMENTS—What is known as the "Uniform Negotiable Instrument Law" is operative in the State of Idaho, since March 10, 1903, as to all instruments of that character made and delivered since said date.

ATTACHMENTS—May issue in all actions upon judgments or contracts for the direct payment of money, unsecured by mortgage or lien upon real or personal property, or if so secured, when such security has without any act of the plaintiff or person to whom the same was given, become valueless; also in all cases in an action upon a judgment or contract against a non-resident. No showing of fraud is necessary. Affidavit must be filed and undertaking given before writ issues. Any creditor of a defendant may share pro rata with the attaching creditor by starting suit within 60 days after posting of notice of attaching creditor.

GIVING OF WORTHLESS CHECKS AND DRAFTS—Any person who shall in payment of any debt in whatsoever manner contracted give any check or draft upon any bank or banking association wherein such person shall not have sufficient funds or credit for the payment of the same shall be guilty of a misdemeanor, and upon conviction thereof shall be fined not to exceed five hundred dollars or imprisoned in the county jail not to exceed six months, or both such fine and imprisonment. Effective May 7, 1903.

SALE AND TRANSFER OF STOCKS OF GOODS IN BULK.

Sec. 1. It shall be the duty of every person who shall bargain for or purchase any stock of goods, wares or merchandise in bulk, for cash or credit,

to demand and receive from the vendor thereof, and if the vendor be a corporation, then from a managing officer or agent thereof, at least five days before the consummation of such bargain or purchase, and at least five days before paying or delivering to the vendor any part of the purchase price or consideration therefor, or any promissory note or other evidence of indebtedness therefor, a written statement under oath containing the names and addresses of all of the creditors of said vendor, together with the amount of indebtedness due or owing, or to become due or owing, by said vendor to each of said creditors, and if there be no such creditors a written statement under oath to that effect; and it shall be the duty of such vendor to furnish such statement at least five days before any sale or transfer by him of any stock of goods, wares or merchandise in bulk.

Sec. 2. After having received from the vendor the written statement under oath mentioned in Section 1 of this Act, the vendee shall, at least five days before the consummation of such bargain or purchase, and at least five days before paying or delivering to the vendor any part of the purchase price or consideration therefor, or any promissory note or other evidence of indebtedness for the same, in good faith notify or cause to be notified, personally or by wire, or by registered letter, each of the creditors of the vendor named in said statement, of the proposed purchase by him of such stock of goods, wares or merchandise; and whenever any person shall purchase any stock of goods, wares or merchandise in bulk, or shall pay the purchase price or any part thereof, or execute or deliver to the vendor thereof or to his order, or to any person for his use, any promissory note or other evidence of indebtedness for said stock, or any part thereof, without having first demanded and received from his vendor the statement under oath as provided in Section 1 of this Act, and without having also notified or caused to be notified all of the creditors of the vendor named in such statement, as in this Section prescribed, such purchase, sale or transfer shall, as to any and all creditors of the vendor, be conclusively presumed fraudulent and void.

Sec. 3. Any vendor of a stock of goods, wares or merchandise in bulk, who shall knowingly or wilfully make or deliver, or cause to be made or delivered, any false statement, or any statement of which any material portion is false, or shall fail to include the names of all of his creditors in any such statement as is required in Section 1 of this Act, shall be deemed guilty of perjury, and upon conviction thereof shall be punished accordingly.

Sec. 4. Any sale or transfer of a stock of goods, wares or merchandise out of the usual or ordinary course of the business or trade of the vendor, or whenever thereby substantially the entire business or trade theretofore conducted by the vendor shall be sold or conveyed or attempted to be sold or conveyed to one or more persons, shall be deemed a sale or transfer in bulk, in contemplation of this Act: Provided, That nothing contained in this Act shall apply to sales by executors, administrators, receivers or any public officer acting under judicial process.

Effective May 7, 1903.

Sec. 2653. Every corporation not created under the laws of this State must before doing business in this State, and every such corporation now doing business in this State must within three months after the taking effect of this act, file with the County Recorder of the County in this State in which is designated its principal place of business in this State a copy of the Articles of Incorporation of said corporation duly certified to by the Secretary of State of the State in which said corporation was organized, and a copy of such Articles of Incorporation duly certified by such County Recorder with the Secretary of State, paying to the latter the same fees as are provided by law to be paid for filing original Articles of Incorporation, and must within three months after the passage of this act or from the time of commencement to do business in this State, designate some person in the county in which the principal place of business of such corporation in the State is

conducted upon whom process issued by authority of or under any law of this State, may be served, and within the time aforesaid must file such designation in the office of the Secretary of State, and in the office of the Clerk of the District Court for such county, and a copy of such designation certified by either of said officers, must be evidence of such appointment; and it is lawful to serve on such person so designated any process issued as aforesaid, and such service must be deemed a valid service thereof. Such notice and designation of agent on whom process may be served, shall run from the time of filing same as herein provided, until his successor is appointed by such filing, or said office becomes vacant by resignation filed by such agent in the office in which his appointment is filed, or by his death, or removal from such county; and in case of such vacancy said corporation shall within sixty days thereafter refill said office as herein provided. No contract or agreement made in the name of, or for the use or benefit of such corporation prior to the making of such filings as first herein provided can be sued upon or be enforced in any court of this State by such corporation, and such corporation cannot take or hold title to any realty within this State prior to making such filings, and any pretended deed or conveyance of real estate to such corporation prior to such filings shall be absolutely null and void; and any and all officers, agents and representatives of said corporation, or persons claiming to be officers or agents of the same, who shall make or attempt to make any contract or agreement or contract any indebtedness in the name of such corporation or for its use and benefit, before such original filings are made, or while such corporation is in default, upon filing a reappointment as herein provided, shall be jointly and severally personally liable upon and for all such contracts and agreements as principal contractors. Every such corporation which fails to comply with the provisions of this section shall be denied the benefit of the Statutes of the State limiting the time of the commencement of civil action, and any limitations in such Statutes shall only run in favor of any such corporation during such time as shall be within the State—such person duly designated, as aforesaid, upon whom such service can be made: Provided, further, that such foreign corporations complying with the provisions of this section shall have all the rights and privileges of like domestic corporations, including the right to exercise the right of eminent domain and shall be subject to the laws of the State applicable to like domestic corporations.

Sec. 2. All acts or parts of acts in conflict with this act are hereby repealed.

Approved March 10th, 1903.

Effective May 7, 1903.

COURTS—Justice's Court has civil jurisdiction up to \$300; Probate Court has civil jurisdiction up to \$500. District Courts are courts of general jurisdiction.

DEEDS—Deeds must be signed by grantors, or attorney in fact authorized in writing and proved or acknowledged, and recorded in the office of the Recorder of the county where the property is situated. Reviver of action only by written instrument.

STAY OF EXECUTION—Only after appeal taken, by an undertaking to pay judgment.

IDAHO FISH AND GAME LAWS

(Synopsis of the Fish and Game Laws approved March 4, 1907.)

Sec. 1. The administration of the fish and game law of the state is delegated primarily to the State Fish and Game Warden, and to one or more deputies in each county. These officers, together with Sheriffs, Deputy Sheriffs, Constables, City Marshals and Police Officers, who are constituted ex-officio Fish and Game Wardens, are empowered to enforce the game laws of the state, by search and seizure and the arrest of violators of the law, with or without warrants.

Sec. 2. It is unlawful for any person to destroy any of the fish and game of the state, or to capture or kill any of the game animals or birds in violation of the laws. Any person or association or corporation may establish or own a private park, lake or stream, or both, and may preserve and propagate such fish and game which would be protected by the Game Warden. Such fish and game may be used by the owner as he sees fit, but he will not be entitled to sell the same out of season, and such owner will be surrounded by the same restrictions for shipping as those fishing or hunting in public domains of the state. It is a misdemeanor for anyone to ship fish or game without a license, and express, railroad and other transportation companies or common carriers are forbidden to receive any fish or game for shipment unless they are presented with a duplicate of such licensed shipping permit.

Sec. 3. It is unlawful to fish with seine, net, spear, basket, trap or similar devices, except in Bear Lake, from July 15th to the following May 1st. It is, however, lawful to catch any kind of fish with hook and line attached to a pole held in the hand, at any time of the year.

It is further provided that salmon may be speared or caught on a four-inch snag-hook.

It is unlawful to catch any kind of fish through the ice at any time of the year or to fish within three hundred (300) feet of a fish ladder in any public water.

Sec. 4. The sale of game or fish is forbidden by this act at any time of the year, except as provided in Section 3. It is provided, however, that before any person shall use a seine in the waters of Bear Lake, such person shall first procure the presence of some person authorized by the Game Warden, and such person thus appointed shall receive as compensation not to exceed three (\$3.00) Dollars per day from the person drawing the seine, and the fish so caught or taken from said Bear Lake may be sold upon a permit issued by the State Game Warden.

Sec. 5. The amount of fish taken from public waters of the state is limited to twenty (20) pounds of trout, bass, cat-fish or sunfish in any one day, and all persons are forbidden to have more than thirty (30) pounds of fish in their possession at any one time. It is unlawful to take bass or trout from any of the waters of the state less than four (4) inches in length, and the possession of such fish is misdemeanor.

Sec. 6. It is unlawful to deposit sawdust or chemicals in the streams, or anything that will drive the fish away or destroy them.

Sec. 7. Mongolian pheasants and Canadian grouse are protected for a period of four (4) years, and the killing of these birds within that period is forbidden.

Quail are protected between the first day of December and the first day of November, but they may be killed between the first of November and the first of December, by procuring a license.

Killing more than eighteen (18) birds in any one day is forbidden, and they cannot be sold at any time.

It is unlawful for any person to ensnare or entrap any of the birds protected by the state at any time of the year.

Sage hens are protected all the year around, except from the first day of August to the first day of September, and no more than twelve (12) may be killed in any one day.

Snipe or plover are protected except between the fifteenth day of September and the first day of January.

The season for prairie chickens, partridge, pheasants, turtle doves, etc., is between September 1st and December 1st, and it is unlawful to hunt them at any other season of the year.

The season for grouse is between August 15th and September 1st. For wild ducks between September 15th and January 1st. The number that may be killed in any one day is limited to twenty-four (24).

The season for wild geese is the same, and the number to be killed in any one day is limited to three (3).

It is a misdemeanor to destroy the nests, eggs or young birds of any game bird during the breeding season.

Sec. 8. The season for moose, buffalo, antelope, beaver, deer, elk, sheep and goats is from September 15th to December 31st, but trapping by means of pitfalls or other means is forbidden at all times, and the use of dogs to hunt, chase or capture them is also forbidden at all times.

Females may hunt or fish without a license, but every male must have a license before he can do either, and must be over twelve years of age. The license for bonafide residents of the state is one (\$1.00) dollar, to be paid any justice of the peace, or probate judge, or to the State Game and Fish Warden. The license will state the name and place and residence of the person holding the same, and cannot be transferred.

A non-resident must pay twenty-five (\$25.00) Dollars, which will entitle him to permission to hunt and to kill any kind of big or small game. For five (\$5.00) Dollars a non-resident will receive a bird license, which will permit him to hunt and kill such number of each kind of birds as is stipulated in the license. For one (\$1.00) Dollar a non-resident may receive a license which will permit him to fish with hook and line in any of the streams or public waters of the state.

The licenses all have a synopsis of the game laws on the back thereof.

Sec. 9. It is unlawful during the open season of the year for any person to hunt or kill more than one elk, two deer, one mountain sheep, one mountain goat; and all licenses issued state the number of each kind of animals that may be killed.

The license entitles the holder to ship within or without the state, under direction of the Game Warden.

It is unlawful for any person or corporation to sell any fish or birds protected by this act and any such attempt will be punished as provided by this act.

Sec. 10. Transportation companies and common carriers and their employes are forbidden to receive for shipment any game or fish except as provided by the same.

Sec. 11. Song birds are protected and the destruction of any birds of this nature is forbidden by law except the English sparrow, magpie and bee bird.

Sec. 12. It is the duty of the officers named in Section 1 to inspect all depots, warehouses, restaurants, hotels and market places and prevent the shipment of fish and game contrary to law.

Sec. 13. For the purpose of protecting the wild game of the state it is necessary to protect the forests from the ravages of fire and it is unlawful for any person to willfully or maliciously set on fire any timber, underbrush or grass, and upon conviction thereof any person may be punished by a fine

not exceeding three hundred (\$300.00) Dollars, or imprisonment not exceeding six (6) months, or both.

Sec. 14. Any person who shall build a fire in or near any forest or other inflammable material upon the public domain, shall before leaving said fire totally extinguish the same; failing to do so he may be convicted and fined as above stated.

Sec. 15. It is the duty of the Game Warden, deputies, and other officers above mentioned, to see that all the provisions of this act are enforced.

Sec. 16. The damming of streams to prevent fish from going up or down is forbidden, and all persons or corporations operating any mill, factory or power plant or any other manufacturing concern run by water and having either head or tail races without first furnishing suitable screens or other devices to prevent fish from entering therein, are subject to conviction and the misdemeanor is punishable as such.

Sec. 17. All persons or corporations who may divert for irrigation or other purposes from any of the natural streams shall erect and maintain an appliance at the head of a ditch or canal for the purpose of preventing fish from entering therein, as the Game Warden may deem necessary. Failure and neglect to do so after ten days' notice in writing creates a liability to have the place closed by the Game Warden.

Sec. 18. Any person who shall have in his possession any game, fish or birds, taken wilfully, is guilty of a misdemeanor. It is unlawful to store or receive any fish or game within the state except as follows: During the open season for such game or fish, when same is stored by the person lawfully in possession of it, and any person receiving such game or fish for cold storage shall be guilty of misdemeanor if they have in their possession any such game after the close of the season.

Sec. 19. Any fish or game warden appointed under the provisions of this act or any sheriff, or deputy sheriff, city marshal or police officer may, without warrant, arrest any person found violating any of the provisions of this act.

Sec. 20. Any officer neglecting to do his duty shall be guilty of a misdemeanor.

Sec. 21. All acts and parts of acts now in force relative to the protection of fish and game are hereby repealed.

Approved March 4th, 1907.

IDAHO MINING LAWS

(Abridgement of the Mining Laws of the State of Idaho, Locating Claims.)

Mining claims hereafter located upon veins or lodes of quartz, or other rock in place bearing any of the metals or other valuable deposits mentioned in section 2320, of the Revised Statutes of the United States, may extend to three hundred feet on each side of the middle of the vein or lode; Provided, that when the locators have set stakes, posts or monuments described in Section 2 hereof, to indicate the line of the vein, ledge or lode, such stakes, posts or monuments must be taken for the purpose of such location, to mark correctly the line thereof, and such line must not afterwards be changed so as to affect rights acquired or interfere with any locations made subsequent thereto.

The locator, at the time of making the discovery of such vein or lode, must erect a monument at such place of discovery, upon which he must place his name, the name of the claim, the date of discovery and distance claimed along the vein each way from such monument. Within ten days from the date of discovery he must mark the boundaries of his claim by establishing at each corner thereof, and at any angle in the side lines, a monument, marked with the name of the claim and the corner or angle it represents; also at the time of so marking his boundaries he must post at his discovery monument his notice of location, in which must be stated:

1. The name of locator.
 2. The name of the claim.
 3. The date of discovery.
 4. The direction and distance claimed along the ledge from the discovery.
 5. The distance claimed on each side of the middle of the ledge.
 6. The distance and direction from the discovery monument, to such natural object or permanent monument, if any such there be, as will fix and describe in the notice itself, the location of the claim.
- Within sixty days after such location, the locator or his assigns, must sink a shaft upon the lode to the depth of at least ten feet from the lowest part of the rim of such shaft at the surface. And of not less than sixteen square feet area. Any located claim upon which work has been done in compliance with the above requirements is not, unless abandoned, subject to relocation for a period of ninety days from and after the date of location.
- Within ninety days after the location of the claim the locator or his assigns must file for record in the office of the county recorder of the county or of the deputy recorder of the mining district in which the claim is situated, a substantial copy of his notice of location.

Within sixty days after any time set or period allowed for the performance of labor, or making improvements upon any lode, or placer claim, the person in whose behalf such work or improvement is performed, or some person for him, must make and record an affidavit in substance as follows:

County of.....
State of Idaho.

Before me, the subscribed, personally appeared.....
who being first duly sworn, says that at least.....dollars worth
of work for improvements were performed or made upon.....
claim, situated in.....mining district, county of.....
State of Idaho: That such expenditure was made by, for, or at the expense of
.....owner of said claim, for the purpose of holding
said claim and all stakes, monuments or trees marking boundaries of said
claims are in proper place and positions.

Subscribed and sworn to before me this.....day of.....191..

The fee for administering the oath and recording the foregoing affidavit, when taken before the county recorder or deputy mining recorder shall be fifty cents. Such affidavit, or a certified copy thereof in case the original is lost shall be prima facie evidence of the performance of such labor.

The location of abandoned claims shall be done in the same manner as if the location were of a new claim; but the locator may instead of sinking a new discovery shaft, sink the original discovery shaft ten feet deeper than it was at the time of his location.

No location notice shall claim more than one location, whether the location is made by one or several locators, and if it purport to claim more than one location it is absolutely void.

For the convenience of prospectors and locators, the County Recorders of the several counties must appoint a deputy at any place where he may deem it necessary, and at all places more than twenty miles distance from an existing office whenever ten or more mining locators interested, petition for the appointment of a deputy. Upon failure of any recorder to appoint a deputy for ten days after the petition in writing has been presented to him, the resident miners in such district may appoint temporarily, one of their number to act as the recorder for the district.

It is the duty of the County Recorder to forward within fourteen days to the Deputy Mining Recorder of the district where the claim is located, all location notices, both quartz and placer, not already recorded in such district, and the Deputy Mining Recorder shall record all such notices in his records and return the same to the County Recorder.

Placer claims, as mentioned in section 2329, of the Revised Statutes of the United States, may be located for the purpose of mining deposits and precious stones after the discovery of such deposits.

The locator of any placer mining claim located for the purpose of mining placer deposits or precious stones, must at the time of making the location, place a substantial post or monument as is required in the location of quartz claims at each corner of the location, and must also post on one of the same a notice of location containing the date of the location, the name of the locator, the name and dimensions of the claim, the mining district (if any) and county in which the same is situated. Within fifteen days after making the location, the locator must make an excavation upon the claim of not less than one hundred cubic feet, for the purpose of prospecting the same. Within thirty days after the location, the locator must file for record in the office of the County Recorder of the county, or of the Deputy Recorder of the mining district in which the claim is situated, a substantial copy of his copy of notice of location, to which must be attached an affidavit such as is required in the case of quartz claims.

At or before the time of presenting a location notice for record, whether it be for a quartz or placer claim, one of the locators named in the same must make and subscribe an affidavit, in writing on or attached on the notice, substantially in the following form, to-wit:

State of Idaho
County of.....ss.

I, do solemnly swear that I am a citizen of the United States of America (or have declared my intentions to become such), and that I am acquainted with the mining ground described in this notice of location, and herewith called the ledge, lode or claim; that the ground and claim herein described or any part thereof has not, to the best of my knowledge and belief, been located according to the laws of the United States and of this State, or if so located, that the same has been abandoned or forfeited by reason of the failure of such former locators to comply in respect thereto with the requirements of the said laws, and (in

case of quartz claims) that I have opened new ground to the extent or depth of ten feet as required by the laws of Idaho.

Subscribed and sworn to before me this.....day of.....A. D. 19..

The fee to be tendered for making such record, administering the oath to the locator and certifying the same, for indexing the names appearing on the notice and to include recording the notice by the recorder, as hereinafter required, and the indexing by said recorder, is two dollars.

MINING PARTNERSHIP.

A mining partnership exists when two or more persons who own or acquire a mining claim for the purpose of working it and extracting the mineral therefrom are actually engaged in working the same.

A purchaser of the interest of a partner in a mine when the partnership is engaged in working it takes with it notice of all liens resulting from the relation of the partners to each other and to the creditors of the partnership.

RIGHT OF WAY ACROSS CLAIM.

The owner, locator, or occupant of a mining claim, whether patented under the laws of the United States or held by location or possession, may have and acquire a right of way for ingress and egress, when necessary in working such mining claim, over and across the lands or mining claims of others, whether patented or otherwise.

MINING TUNNELS.

Any person or company who has or may hereafter have a tunnel or cross-cut, the mouth of which is located upon his own ground or upon the ground in his lawful occupation, shall have the right to drive and continue the same through and across any located or patented claim in front of the mouth of such tunnel, but not to follow or drive upon any vein belonging to the owner of such claim.

Each tunnel or cross-cut may be driven and worked for the purpose of drainage and for the purpose of reaching and working mining ground of the tunnel owner beyond the intersected claim. The owner or owners of any vein or any claim or claims so intersected, or his duly authorized agent, shall have the right to enter such tunnel upon application to the owner or owners or person in charge of such tunnel without resorting to any process of law for the purpose of making a survey and inspecting such vein or veins as may be crossed within the boundary lines of such intersected claim, and if the owner or owners of such tunnel shall, by bulk heading, damming back, or in any manner prevent the inspection of survey herein provided for, or if such owner or owners shall in any manner prevent the natural drainage of water from such intersected claim or claims without the consent of the owner or owners thereof, it shall work a forfeiture of all rights granted under section 1 of this act.

If any ore, the property of the owner of the claim intersected or crossed be extracted in driving such tunnel, it shall be the property of the owner of the vein from which it was taken, and the owner of the tunnel shall be liable

for all actual damages or injury done to the owner of the claim crossed by his tunnel.

In all actions between the tunnel owner of others involving the right to any vein discovered in such tunnel, the burden of proving that the vein so discovered is not the property of the adverse claimant in such action shall be on the tunnel owner.

RECORDING MINING CONTRACTS.

Written contracts relating to prospecting or mining, or to the formation of co-partnership for that purpose, when signed by the parties thereto and indorsed by at least one witness, may be recorded in the office of the county recorder of the county wherein it is proposed to prosecute the business of said co-partnership, or where the property affected by such contract is situated.

Such record shall be constructive notice to all persons of the matters contained in such contract or co-partnership agreement.

SPECIAL NOTICE.

It shall be the duty of any person, persons, company or corporation, engaged in working any mine, mines, mining premises or in developing any mining claim or claims, whether quartz or placer, or in the running of any tunnel, or in the erection or repair of any building or other structure, or in the construction of any canal, ditch, railroad, wagon road or aqueduct, in every case where mechanics or laborers are employed in or about the properties above mentioned, to make, record and publish a statement, under oath, setting forth such data as are provided in section 2 of this act.

The statement required by the preceding section shall contain the following data:

1. The name or names of the owner or owners of the mine, mines, mining claim or premises, tunnel, building, canal, ditch, railroad, wagon road, aqueduct or other structure upon which work is being done or upon which it is intended to begin work.
2. The name or names of the person, persons, company or corporation engaged in or who contemplates engaging in work upon any of the properties or structures mentioned herein.
3. The conditions under which said person, persons, company or corporation is prosecuting said work, whether as owner, agent, lessee, contractor, sub-contractor, contemplative purchaser or lien holder.
4. The principal office of said person, persons, company or corporation, and, if a corporation, the state or county where incorporated and the agent in this state on whom service may be had.
5. The day of the week or month when payment of the laborers, mechanics and material men will be made and the place where said payments will be made.
6. A statement of all mortgages and liens against the property on which work is being done, with the amount of each of said incumbrances and whether or not the same is due.

REGARDING ALIENS.

That any person, whether citizen or alien (except as hereinafter provided), natural or artificial, may take, hold and dispose of mining claims and mining property, real or personal, tunnel rights, mill sites, quartz mills and reduction works, or necessary or proper for the reduction of ores, and water rights used for mining or milling purposes, and any other lands or property necessary for the working of mines or the reduction of the products thereof: Provided, That Chinese, or persons of Mongolian descent not born in the United States, are not permitted to acquire title to land or any real property under the provisions of this act.

It shall hereafter be unlawful for any county government or municipal or private corporation organized under the laws of this State, or organized under the laws of another state or territory or in a foreign country and doing business in this State, to give employment in any way to any alien who has failed, neglected or refused, prior to the time such employment is given, to become naturalized or declare his intention to become a citizen of the United States.

INSPECTOR OF MINES.

The Inspector of Mines shall receive as full compensation for his services a salary of twelve hundred dollars per annum and ten cents a mile for each mile actually traveled in the discharge of his official duties, and all necessary expenses for clerk hire, postage, stationery, printing and the compensation of deputies.

The Inspector of Mines shall not, at the time of his appointment, or any time during his term of office, be an officer, director or employe in or of any mining corporation in this State, or in or of any milling corporation in the State engaged in the business of smelting or reducing ores.

It shall be the duty of the Inspector of Mines, at least once each year, to visit in person each mining county in the State of Idaho and examine all such mines therein as, in his judgment may require examination for the purpose of determining the condition of such mines as to safety and to collect information and statistics relative to mines and mining and the mineral resources of the State, and to collect, arrange and classify mineral and geological specimens found in this State and to forward the same, to the State School of Mines.

It is hereby made the duty of the owner, lessor, lessee, agent, manager or other person in charge of each and every mine, of whatever kind or character, within the State to forward to the Inspector of Mines at his office, not later than the first day of June in each year a detailed report showing the character of the mine, the number of men then employed and the estimated maximum number of men to be employed therein during the ensuing years.

Whenever the Inspector of Mines shall receive a formal complaint in writing, signed by three or more persons, setting forth that the mine in which they are employed is dangerous in any respect, he shall, in person, visit and examine such mine: Provided, That all complaints shall be duly verified by the parties complaining before some officer authorized by law to administer oaths.

And it shall be the duty of the Inspector of Mines, upon the neglect or refusal of any owner, lessor, lessee, agent, manager, or other person, in charge of any mine or working, notified of the unsafe or dangerous condition of his mine, promptly to comply with the requirements of the notice served upon him to at once notify the attorney general of such neglect or refusal, and the attorney general must thereupon immediately commence

action in the name of the State against the party so notified for the recovery of the penalty mentioned in section 5, in any court of competent jurisdiction, and the amount so recovered shall be paid into the general school fund of the state and constitute a part thereof.

With the consent and approval of the governor, the Inspector of Mines may appoint such deputy inspector as in his judgment may be necessary. Such deputy inspectors shall be allowed as full compensation for all services five dollars per day for each day actually engaged in the performance of their duties.

Whenever a serious or fatal accident shall occur in any mine in the State of Idaho, it shall be the duty of the owner, lessor, lessee, agent, manager or other person in charge thereof, immediately and by the quickest means, to notify the Inspector of Mines or his deputy, as may be most convenient, of such accident; and upon receiving such notice, the Inspector or his deputy, or both, shall at once repair to the place of the accident and investigate fully the cause of such accident, and the Inspector or his deputy shall be present at any coroner's inquest held over the remains of any person or persons killed in any such accident, and shall have the power at such inquest to examine and cross-examine witnesses, and may have process to compel the attendance of necessary witnesses at such inquest.
