

## Latah County News Paragraphs

### Items of Interest Taken From Neighboring Papers

The cost of harvesting the 1924 crop in the Palouse country will be much lighter than the harvesting cost of any crop since the beginning of the war, according to the estimated wage scale. While the cut in wages is considerable, it is not out of keeping with the cut which the farmer has been forced to accept when he has disposed of his farm products during the past several years.

The wage scale during the hay harvest, which is just coming to a close, was from \$2 to \$2.50 per day, against \$3.50 to \$4 last year. The wage scale for shocking, bundle pitching and other ordinary work during the grain harvest is expected to be from \$2.50 to \$3, and some believe that separator tenders, who received \$10 to \$12 the past several years, will not get above \$5. There seems to be plenty of men available to take care of the harvest, and as the harvest work is completed in the districts south, there will be still more men coming into the Palouse country.

It is thought that the cost of threshing will be correspondingly lower, because of the drop in wages, and sacks are selling at 10 1-2 cents, a drop of a cent and a half below last season's price. Many farmers in Latah county and eastern Whitman county are buying small outfits and will do their own threshing, cutting the cost considerably. In many cases several farmers are going in together and buying an outfit.—Star-Mirror.

One day last week the driving rod on one side of the engine that hauls the Clearwater "cannon ball" broke off a short distance from the crosshead and shattered a few ties before it could be stopped. Being built on the Ford order, however, the engine kept on "ramblin' right along" from Ahsahka to Stites on the remaining cylinder—a somewhat jerky ride, say some of the passengers who weren't used to Fords—but it got there just the same. Another engine helped the cripple back to Lewiston the next morning.—Kamiah Progress.

### Mrs. Mustoe Dead

Mrs. Chambers Mustoe, a pioneer of the Southwick section, died Sunday from complications following an illness of but a few days. Mrs. Mustoe came to the Potlatch section with her family more than 25 years ago, and was a lady who enjoyed the love and very high regard of all who knew her. She is survived by her husband and seven children, they being: Atley and Givens Mustoe, Southwick; Charles Mustoe, Sunnyside; Mrs. Peter Spekker, Lewiston; Mrs. William Stump, Southwick, and another daughter residing in Montana.

The funeral was conducted at 10 o'clock Tuesday forenoon at Southwick.

### Loses Foot in Crusher

While working at the yard of the Idaho Brick Company at Troy, Dean, 18-year-old son of D. J. Donaldson, N. P. Agent at Troy, had the misfortune of losing his left foot by getting it caught in the crusher. It seems that Donaldson had just dumped a load of clay into the crusher and had started for another load, apparently losing his balance he staggered backward and his foot went down into the crusher, tearing it off just above the ankle. The doctors had to amputate the leg just below the knee. Last reports are that the young man is getting along as well as can be expected.

## Idaho Memorial Association

Names of 29 Latah county soldiers and sailors who lost their lives in the World War are to be cast in bronze as a part of the permanent record to be preserved in the war memorial armory and gymnasium to be erected on the University of Idaho campus, according to Paul Davis, director of the Idaho war memorial association.

These names, published by the memorial association and the American Legion, are taken from war department records.

"We feel that this list is not complete," says Mr. Davis, "and that some names are missing. We would, therefore, appreciate the co-operation of every person and all civic, fraternal, religious and other organizations in helping us to secure the correct name of every man who gave his life for his country. It is imperative that this list contain the correct name, as it is our purpose to cast the entire list in bronze for the 'hall of memories' in the Idaho war memorial. For further information or for the purpose of correcting any name or adding additional ones, write to the Idaho Memorial Association, Box 1521, Boise, Idaho."

Latah county men whose names now appear on the list of those who gave their lives are as follows:

Moscow: Jewett L. Barnes, Thomas Cawthers, Lemuel H. Cushing, Ira A. Hawley, Frank A. Jameson, Dudley Loomis, John E. Pitzen, Carl L. Rogers and Lawrence Stephenson.

Genesee: William E. Caldwell, Walter Carlquist, Edward Joseph Lawen and Irwin J. Schooler.

Potlatch: Samuel C. Boller, Alva Bowman and John C. Robinson.

Arnold Aoved of Avon, Raymond J. Davis, Bovill; Carl Flaig, Helmer; John S. Wolfbrandt, Helmer; John D. Olson, Martin Matteson of Troy; Alvin E. Hamlet of Troy; Marten J. Groseclose, and Ray B. Taylor, Juliaetta; Archie G. Kunes, Crescent; Martin O. Lien, Kendrick, John Murray Clyde.

On the list of those who fell in the Spanish-American war, whose names also will be cast in bronze, is found the name of Ole G. Hagberg, of Moscow.

### Harrington Bank Fails

Harrington, Wash., July 11.—The First National bank of Harrington, organized in 1908, closed its doors today by order of the board of directors, pending an examination by federal bank examiners.

The last statement of the bank, at the close of business, June 30, showed resources of \$427,397 and deposits of \$223,478.

### Latah's Share \$13,616

A report just issued by Elizabeth Russum, state superintendent of public instruction, to E. G. Gallet, state auditor, shows that Latah county's share of the public school interest fund of \$343,421.89, will be \$13,616.46. Ada county will receive the largest share, \$25,047.46. Bannock and Canyon counties will each receive more than \$22,000. Release Immediate July 9, 1924

### Idaho Elk In Boston

Boston, July 11.—Three live elk, brought here by the Idaho delegation to the convention of the Benevolent and Protective Order of Elks for the parade yesterday, which concluded the fraternity's session in this city, were today given to the Franklin park municipal zoo. They were named by the Idahoans Little Bill, Miss Idaho, and Harry, the latter being the given name of state Secretary Fox of Pocatello, who led the state group.

## Lumber Yards Burned

A fire of unknown origin, which started about 8 o'clock Sunday evening in the rear of the Joe Fruchtel lumber yard, two miles east of Cavindish, completely destroyed 500,000 feet of shop lumber, owned by Mr. Fruchtel and under contract to the Troy Lumber company of Clarkston. The lumber is covered by blanket insurance.

The saw mill, which is a short distance from the yards, was saved as was about 250,000 feet of lumber at one end of the yard. Heroic efforts of about 100 of the residents of the community, who used buckets and water from the mill water tank, saved the mill and one third of the lumber.

When discovered the fire had gained great headway, and efforts on the blaze itself were futile and the fighters confined their efforts to the front end of the yard and the mill.

Several cars of the lumber have been shipped from the Peck station to the Troy Lumber company at Clarkston, and the entire output of the mill was under contract to the Clarkston firm. Until delivery was made, the lumber was the property of Mr. Fruchtel.

### To Receive Federal Aid

Expenditures totaling \$413,056 of forest road funds for the construction of roads within or adjacent to the national forests of Idaho have been approved, according to an announcement from the Forest Service, United States Department of Agriculture.

One of the projects involves the construction of three and a half miles along the Elk City highway within the Nez Perce National Forest. The sum of \$75,000 has been allotted for this work. This road is expected to be especially beneficial to the mining community around Elk City as well as highly desirable for the better protection of the Nez Perce forest.

Six miles in the Lolo Pass section of the Selway forest will be built at a cost of \$100,000. For improving nearly seven miles of highway along the North Pacific road in the Coeur d'Alene forest the sum of \$45,000 has been allotted with \$5,000 additional offered by the state. This road is a link in the Yellowstone Trail.

For the extension of the Ketchum-Clayton road to the town of Ketchum, a distance of about seven miles, the sum of \$50,000 has been set aside. To complete the road from Lowman to a point six miles east the sum of \$26,600 has been allotted.

The North Fork-Payette highway within the Payette National Forest will be extended from Gardena to Horseshoe Bend, a distance of about five miles, at an estimated cost of \$97,000. In the Caribou National Forest an addition of five miles to the Freedom-Soda Springs road is to be made, for which \$16,000 has been allotted. The sum of \$5,000 will also be spent on this project by local authorities.

The sum of \$53,500 from Federal funds and \$6,000 from Local funds will be spent on the construction of 22 miles along the Victor-Irwin highway within the Targhee forest.

An additional \$39,900 has been set aside for maintenance of the highways heretofore built or which are under construction.

### Moscow Garage Fire

Ten thousand dollars' damage was done in a fire in the machine shop of the Idaho Garage & Motor company of Moscow, Wednesday. Explosions of gasoline tanks in automobiles in the shop made control of the blaze difficult. Seven automobile were destroyed. Two were insured. Damage to the building was covered by insurance. The fire is believed to have been caused by loose electric wiring.

## Hurt In Auto Wreck

Mrs. Herman Taylor of Southwick was painfully injured when the car in which she was riding turned turtle, cutting a deep gash in her right foot. She was taken to Moscow hospital where it was found that she had cut two arteries in her right foot.

The accident happened Saturday noon while coming down Waundcher Gulch grade, in a Ford car owned and driven by R. C. Davis, which car was equipped with a universal transmission. It is believed that the shift slipped out of gear which left the car without any brakes. In an endeavor to stop the car Mr. Davis run it into the bank and it turned turtle, pinning Mr. Davis and Mrs. Taylor under it. However, he was able to lift one side so that they got out.

A passing car brought them to Kendrick for medical attention, and owing to the fact that the doctor was out of town, Mrs. Taylor was taken to Moscow on the afternoon train. Mrs. Taylor was in a very weak condition by the time she arrived at Moscow on account of losing so much blood and she was detained at the hospital for several days.

Mr. Davis received a badly sprained arm together with several bruises about the body. The car was practically a total wreck.

### Grab Fake Heart Peddlers

San Francisco, July 10.—E. L. Schwarz and his wife were arrested by federal agents today on a charge of using the mails to defraud through conducting a fake marriage bureau.

According to the authorities, the couple advertised mates for persons single and lonely. To promising applicants, the two were said to have sent photographs of girls employed in the movies, with the request to the hopeful bachelors that money for transportation and expenses be forwarded, so that the girls might be delivered immediately. More than 65 letters pertaining to these transactions were found the agents said, and sums of money had been paid for brides who never materialized.

The investigation was started on complaint of a man in Medford, Oregon.

### To Open Highway Bids

Spokane, Wash.—Bids for surfacing 11 miles of the North and South highway between White Bird and the top of the hill south of Grangeville will be opened in a few days, according to reports received at Spokane. The estimated cost of this work is \$35,000, of which the federal government contributes \$20,000, supplemented by a state appropriation of \$12,000 and \$3,000 from Idaho county.

When this work is completed, the 20 miles between Grangeville and White Bird will give the Salmon river valley a standard highway that can be traveled throughout the year, thus completing an important link in the North and South

### AS WE HEARD IT

A watermelon is about the hardest animal to carry, especially if you are in a hurry, ever invented. Grab up a big fifty pound melon, round at both ends and in the middle, and attempt to carry it in your arms any distance, and it will tax your strength and ingenuity. The melon seems to be endowed with more curious ways of slipping and twisting than if it were alive and trying to get away. Many youthful citizens say that the best way to avoid trouble in trying to carry a big melon from a patch when the moon is looking down is to break it open and eat it on the spot. This avoids many complications and also avoids carrying a big melon a quarter of a mile and finding it green when you get there.

## Death of R. S. Whetstone

Robert S. Whetstone, who for the past 40 years has been a resident of American ridge, died at his home Saturday morning, July 12, at the age of 64 years. Death was due to complications.

He was apparently in fairly good health up to Friday of last week when he was taken sick and passed away at 7:30 Saturday morning.

Mr. Whetstone was born in Washington county, Iowa, on February 16, 1858. He remained on the farm there with his parents until 18 years of age and then started in life for himself. He first came to Oregon, where he remained for four years, visiting different portions of the state, then in 1880 he came to the region now embraced in Latah County. He settled north of Troy and engaged in saw milling for five years. In 1885 he sold out his plant and bought the farm on American ridge, three miles northwest of Kendrick, where he resided until his death.

In 1887 he was married to Miss Jennie Price daughter of Mr. and Mrs. George Price, at Moscow, Idaho, on December 20, 1887.

Mr. Whetstone was a man of sterling character and was held in high esteem in this community. He was always progressive in his farming operations and in county affairs and was always ready to help those who were in trouble and to do anything that was for the betterment of his community. In his death this community has lost one of its most valued citizens.

Funeral services were held at the American ridge church and interment made in the American ridge cemetery, Monday afternoon at 2 o'clock, Rev. Rein of Cameron having charge of the services.

Robert Morgan, Archie Morgan, Grant Morgan, Arthur Morgan, Clyde Nickles and Walter Cochran, all nephews of Mr. Whetstone were pallbearers.

Mr. Whetstone is survived by his wife, six brothers and one sister.

### Will Open Tailor Shop

F. Corish of San Francisco, who for the past 15 years has been engaged in the cleaning, pressing and tailoring business, will open a shop in the Kendrick State Bank building, in the room between the bank and the new Kendrick Theater. He expects to be open for business in the near future and will be equipped to handle all kinds of cleaning and pressing and tailoring.

### Speed of Automobiles

"Did you ever take the trouble to figure just how fast we travel by automobile? Do we realize the terrific speed when we are traveling at only twenty miles an hour, which seems slow to the average driver? Look at your watch and see how long it takes to tick one second of time. Then look at the following table and you will begin to realize just how fast you are traveling. Fast driving may be exhilarating, but it is dangerous to the driver as well as the public in general.

For safety's sake cut this out and paste it on the shield of your auto where it will take you a little more than a second to look at it.

"Table of speed traveling from one to 60 miles per hour. Miles per hour. Feet per second.

## Forest Fires Are Beyond Control

### Many Homeless in Kellogg Country.

Forest fires in north Idaho and northeast Washington, which had yesterday burned over several thousand acres of timberland, also destroyed the surface workings of four mines, a number of ranch homes, lumber company property and several hundred thousand feet of lumber.

Mine employees and ranchers and their families in Pine creek, near Kellogg, Idaho, to the number of more than 100 had fled over the mountains to safety, and between Newport and Ione, in Pend O'Reille county, Washington, ranchers and their families had gathered at the Chicago, Milwaukee & St. Paul railroad, ready to escape on flat cars if the flames become more menacing.

For a distance of 30 miles up the Pend O'Reille river valley, in Pend O'Reille county, from Cusick to Ione, forest fires were burning, and the flames were uncomfortably near seven towns. They were Diamond City, Lost Creek, Tiger, Ione, Lake Cusick and Blue Slide. Near Blue Slide three ranchers were reported burned out.

The Nabob mine near Kellogg lost its surface buildings, valued at \$200,000, and the buildings of the Jim Blaine, Little Pittsburg and Douglas mines in the same vicinity also were destroyed. Several ranches in the Pine creek district were burned over and their homeless owners, with the mining company refugees, were being cared for at Kellogg.

Fighting desperately to save a valuable stand of timber near the mouth of Big creek in the Lolo national forest near Missoula, a crew of 150 men is trenching about one of the worst fires of the present season.

Two fires in the Clearwater forest, the Dorris and Cayuse creek blazes continued in size to 1000 and 800 acres.

Reports from the Bear creek fire state that this conflagration is nearly under control.

### Fowler's Car Over Grade

Wednesday evening about 8 o'clock, while going up Brady gulch grade in his brand new Overland Light four touring car, Harry Fowler came near having a fatal accident. It seems that he attempted to shift from intermediate to low on the steep hill near the Blackburn place, but had let his engine die down to low before shifting. The car started to back down the grade before he had gotten it into low gear. Harry tried to check it with the emergency brake and the foot brake but they did not hold and it backed off the grade, turning completely over with him and his family under the car. Mrs. Fowler received a sprained leg and several bruises and Harry hurt his back and side, but the children came out without any injuries worth mentioning.

The car was badly smashed up, having completely ruined the top, smashing the windshield and badly denting the right side of the back seat, the front right tender also was smashed and the left front door twisted out of place. The car was brought in on its own power.

While Mr. and Mrs. Fowler were pretty badly bruised and shaken up they are very fortunate to escape without more serious results.

### Death of Fred Petzrick

Fred Petzrick of Juliaetta, who for the past two and one-half years has been confined to his bed at a Moscow hospital, died Thursday, from tuberculosis. Funeral services were held at Moscow, Sunday and interment made in the Moscow cemetery.

### TEXAS RIDGE

Mrs. Roy McKay of Moscow, was a visitor at the Jake Alber home last week.

Mr. and Mrs. Randall of Clarkston spent a few days last week at the home of their daughter Mrs. Frantz.

Mr. and Mrs. Herb Slocum and children and Mr. Bailey were guests at the Clyde Bailey home on Bear ridge Sunday.

Herman Baker and Charley Carlson motored to Clarkston, last Thursday for apricots.

Sylvia Baker returned home Sunday from Greer where she had visiting at the home of her uncle.

There was a party at the Gibson home last Thursday night, in honor of Mr. Gibson birthday.

Mr. and Mrs. Al LaBoile were Sunday guests at the home of their daughter Mrs. Mallory in Deary.

Rev. Nichol of Spokane will preach in the U. B. church Sunday afternoon.

Mr. and Mrs. Martin were entertained at the James Miller home Sunday evening.

### BIG BEAR RIDGE

Mrs. Will Hecht entertained the Ladies guild Wednesday afternoon.

Frank Whitcombe is enjoying a visit with his sister.

Mrs. J. J. Slind entertained the Lutheran Ladies Aid Monday afternoon.

Rev. F. A. Ware and family are visiting at the home of his brother, N. E. Ware.

Mr. and Mrs. A. Lee and children of Deary spent Saturday and Sunday with Mr. and Mrs. Halvor Lien.

W. B. McGraw has begun on work tearing down the Steele school house. A modern school building will be erected.

The K. D. Ingle and Amos Moore families enjoyed an outing and huckleberry trip in the woods near Bovill Sunday.

Rev. and Mrs. Peter Hesby and children of Deary were visiting friends here the first of the week.

Mrs. A. Holbeck and daughter of Big Timber, Montana are spending the week with friends here.

The Lutheran Congregation from Deary, came down to attend services here Sunday morning. From church they all autoed to the A. Kleth home with well filled lunch baskets, and gave Mr. and Mrs. Kleth and family a most pleasant surprise. The afternoon was spent in visiting and everyone enjoyed a social good time.

### CARD OF THANKS

We wish to thank our neighbors and friends for their many acts of kindness, their sympathy and assistance during the illness and death of our husband and brother, and for the beautiful floral offerings.

Mrs. R. S. Whetstone and relatives.

### NOTICE OF SALE FOR STORAGE CHARGES

Notice is hereby given that the undersigned, L. W. Houck, will offer for sale in Houck's Garage in Juliaetta, Latah County, State of Idaho, on Saturday, the 19th day of July, 1924, at two o'clock in the afternoon, the following described personal property, to-wit:—

Terms of sale: Cash on date of sale.

Dated and signed on this 17th day of July, 1924.

L. W. Houck,  
Lien holder.  
28-2t.

Highest and Lowest Points.  
The vertical distance from the highest point on earth to the lowest point in the sea is more than eleven and a half miles.

## FARM FACTS

When a bird is killed, bugs rejoice.

Co-operative marketing of farm products is another way of answering the Biblical question: "Am I my brother's keeper?"

Before sowing sweet clover you should make some tests for acidity of the soil. Sweet clover must have a sweet soil.

Give the alfalfa a chance. Do not plow it up because it looks thin to start with. It usually starts poorly and may come up.

Don't turn the stock out too soon. The early grass is watery and has a low feeding value, and it is hard on the grass, causing the roots to weaken, injuring the later stand.

## FIND UNKNOWN RIVER IN NORTHERN ALASKA

Interesting Letter Tells Life  
in Far North.

Washington, D. C.—The story of an explorer's life in the northern Alaskan wilderness and the discovery of uncharted streams is contained in a letter brought back to civilization by an Eskimo from the geological survey party headed by Dr. Philip S. Smith and made public by the Interior department. The expedition is exploring naval petroleum reserve No. 4.

In exploring the Colville river, the letter, written March 30, states that Doctor Smith found a river about 200 yards wide, which flows westward and then turns northward. The party plans to continue the river explorations, but they must reach the coast in time to catch the last ship out of the Arctic ocean before the September freeze.

### Find Grove of Willows.

The party has established a base camp at the head of the Unakserak river, about ten miles from the divide between the Unakserak and Colville rivers, at latitude 67°45'30", at an altitude of 2,200 feet. On this divide the party has discovered groves of willow trees as large as a man's wrist, which they are using for fuel.

The letter explained that the supporting party of seven men and 120 dogs turned back on March 10, and the main expedition was proceeding with three sleds and thirty-three dogs. The sleds soon will be abandoned, and the journey continued in canoes on the Colville river.

The letter, which was written by Dr. J. B. Mertie, Jr., gives the following description:

"During the summer, I have been engaged chiefly in making astronomical observations with the transit. I have seven good observations on latitude and azimuth, which check one another very well.

### Able to Find the Time.

"Having my azimuth, I also have local time from transits of the sun. And what with watches, and their known ratings, we are in a position to make a fair computation of longitude. I am also able to rate our watches from successive transits of the sun, day after day at this camp.

"Such diversion keeps me very busy, and the days pass very quickly. Once in a while, say once a day, when it gets too cold sitting in the tent, I warm up by cutting wood for a half hour or an hour. All of us are well. None of us have been seriously frost-bitten yet, and I think the most severe weather of the winter is past now. So, all in all, everything is going fine, and the success of the expedition seems assured. Just tell that to the doubters."

## Asks Fifteen Years' Wages From Stepfather's Estate

Columbus, Ohio.—Milking cows, cleaning the barn and tilling the field for 15 years without compensation.

That is what Margaret Hallen charges in a petition filed in common pleas court, asking that she be made a beneficiary in the estate of her stepfather, William Welsh.

Miss Hallen says when she was twelve years old her mother married Welsh. He promised, she alleges, to give her a third interest in his estate if she would do chores on the farm. At his death, she says, her mother, as executrix, sought to carry out the agreement, but Welsh's son, Henry S., protested. The estate is valued at \$9,540.

### Savants to Visit Lapps

Gothenburg.—The Lapps, mysterious nomads of the North, are again to be studied by scientists. Dr. G. Clyde Fisher, of the Museum of Natural History, New York, is now here on his way to Swedish Lapland to observe the love, customs and daily life of these people.

## Doubting Banks, Keep \$400,000,000 in Socks

Washington.—In the collective ginger jars and stockings of the United States there is a total of more than \$400,000,000 jealously hoarded away, according to estimates by Joseph S. McCoy, United States treasury actuary, for the current issue of the American Bankers' Association Journal.

Eight thousand Americans may safely be put in the miser class, McCoy believes. They just like to see their money and gloat over it and call it pet names, and among them they are keeping \$44,000,000 out of circulation.

Then there are the children's banks. Probably 2,500,000 kids have such banks, and there is perhaps an average of 60 cents in each, making a total of \$1,500,000 thus hoarded away. McCoy doesn't go so far as to charge the kids with wanting to let their money stay in the pin-proof receptacles.

About half of the entire hoarded wealth of the United States is in the cupboards and under the mattresses of foreign-born residents, who aren't yet used to banks. And farmers are hoarding a total of \$125,000,000, McCoy says.

The Mighty Photodrama of  
Flesh and Steel.

See the two screeching iron monsters rushing head on toward destruction—the thrilling race between the iron monster and the auto. Hundreds of scenes that will put on your toes. Don't miss it.

It roars! It pounds! It crashes! It thunders! It rushes and careens through a hundred soul-tingling episodes of staggering drama and then, like the crack of doom, breaks wide open in one of the most thrilling, dramatic and scenic sequences ever flung before the eye of man! This picture stars Ralph Lewis, Ella Hall, Jane Morgan, and several other noted players.

### FIRST FLOATING FAIR SENT OUT BY GERMANY

Pilgrimage to Ports of Europe, Asia and Africa.

Hamburg, Germany.—The first German floating fair will leave Hamburg July 30 on a voyage which will occupy ten months and take the fairship, "Industria I," as far east as Yokohama. The ship is to give testimony to postwar German enterprise, and is to carry the "Made in Germany" label to distant points of Europe, and to Asia and Africa. If the experiment proves successful a second ship is to be outfitted for a trip to North and South America.

There will be room for 750 exhibitors on this floating fair ground, and in addition to a printing shop, banking facilities, stenographic rooms, post and telegraph, film and magic lantern

service and a news bureau. The film service is to show German places of interest, especially industrial towns and industrial processes.

It is planned that the floating fair shall stop from three to eight days in every harbor visited. The route is as follows: Helsingfors, Stockholm, Copenhagen, Southampton, Lisbon, Malaga, Barcelona, Palermo, Naples, Piraeus, Constantinople, Smyrna, Jaffa, Alexandria, Port Said, Aden, Karachi, Bombay, Colombo, Madras, Calcutta, Rangoon, Penang, Delhi, Singapore, Batavia, Soerabaya, Macassar, Bangkok, Manila, Canton, Shanghai, Tsingtau, Kobe, Vladivostok, Osaka and Yokohama.

### Great Flagons of Milk

Quench America's Thirst

Washington.—Americans are consuming more milk than ever before, the Department of Agriculture has announced, saying that the household

consumption of milk was 212 quarts per person last year, compared with 200 quarts in 1922. Consumption of butter was 17 pounds per capita, compared with 16½; of cheese, 3.91 pounds, compared with 3.74; of condensed and evaporated milk, 13.25 pounds, compared with 12.89, and of ice cream, 2.68 gallons, compared with 2.43 gallons.

Milk production was 7,000,000,000 pounds more last year than in 1922, the total output having been 100,738,062,000 pounds.

### Dig Dinosaur's Bones

#### From Rock in Museum

Washington.—Charles W. Gilmore, curator of vertebrate paleontology at the Smithsonian Institution, has begun excavating from solid rock the skeleton of an enormous dinosaur which he presented to the institution last autumn. More than five years will be required, Mr. Gilmore estimates, to place the skeleton in such condition that it will be ready for exhibition in the national museum.

The skeleton, which is the largest specimen ever brought to the Smithsonian, measures 80 feet in length and 14 feet in height. To bring the bones to Washington from their original resting ground in the dinosaur national reservation, near Jensen, Utah, required the exertions of a large number of men. The bones and rock in which they are imbedded weigh 50,000 pounds. At one stage of the journey, the excavators were forced to transport them 150 miles by automobile.

Three men, working eight hours a day for four months, Mr. Gilmore said, will only be able to disinter three of the dorsal vertebrae of the reptile. Some sections are already being arranged by workmen, but 34 packing cases containing more than 80 vertebrae are still lying unopened in the basement of the museum.

Norman H. Boss, preparator in fossil vertebrates, is assisting Mr. Gilmore to reconstruct the skeleton.

### Famous Stone of the

#### Czars Out of 'Hock'

Nice, France.—The famous 43-carat sapphire blue diamond once belonging to Emperor Nicholas of Russia, has been taken out of the municipal pawnshop here, where it has been held for three years as security for a loan of 200,000 francs borrowed by Mlle. Suzanne Thuillier, to whom Nicholas is said to have given it.

Mlle. Thuillier came to France from Russia with nothing but the stone and once she had pawned it she was unable to get it out because creditors with claims aggregating 2,000,000 francs thought the diamond was safer in the pawnshop.

Finally a Nice jeweler financed Mlle. Thuillier and she took out the stone, for which she is said to have just received 10,000,000 francs. The stone is declared by jewelers to have come from a Buddha in a Hindu temple a thousand years ago.

### Won't Bear Telling.

"A man dat brags about allus tellin' de truth," said Uncle Eben, "generally 'pears to find it easier to tell it 'bout somebody's else's business an 'bout his own."—Washington Evening Star

### FIND CHILDREN GROW FASTER IN THE FALL

#### Maximum Gain Between August and September.

New York.—Children between the ages of four and thirteen, both girls and boys, grow faster and better during August and the three following months than at any other period of the year, according to results of careful study into the question of child nutrition by the New York Association for Improving the Condition of the Poor.

Boys make 55.3 per cent and girls 59.8 per cent of the total yearly growth between August 1 and December 1. The period of maximum gain is in the late summer and early fall, and the period of minimum advancement falls in the late spring and early summer.

While the same tendency holds for both boys and girls, it is most marked among the girls.

The following table gives the average gain in pounds by months and the percentage of the annual gain made in each of the months of the year:

Months	Boys		Girls	
	Av. gain in lbs.	Pct. of annual gain	Av. gain in lbs.	Pct. of annual gain
January	.67	9.9	.53	8.3
February	.51	7.6	.43	6.7
March	.43	6.4	.36	5.6
April	.43	6.4	.34	5.3
May	.25	3.7	.05	.8
June	.06	.9	.08	1.3
July	.26	3.9	.35	5.4
August	.89	13.2	.79	12.3
September	1.01	15.0	1.06	16.6
October	1.00	14.8	1.00	15.6
November	.84	12.3	.99	15.3
December	.51	7.6	.53	8.4
Total yearly	6.74	100.0	6.41	100.0
Aver. monthly	.56	8.3	.53	8.3

xin May the girls showed an average loss of .05 pound. This is equivalent to 0.8 per cent of the total gain.

### The report says:

"The rate of growth in both height and weight over a given period of time is quite as important, in judging a child's state of development as his attained stature and weight at any given period. Physicians, teachers, school nurses and nutrition workers must rely on the gains made during short periods of from three to six months to determine whether the child is doing well, for obviously all healthy children must be expected to gain steadily in both height and weight."

### Winning Glider Built of Scrapped Wire and Tin

Koenigsberg, Germany.—Old broomsticks, baling wire and scraps of tin salvaged from milk and bully beef cans were chiefly used in constructing the glider in which Ferdinand Schulz in an experimental flight remained in the air eight hours forty-two minutes and eight seconds and thereby established a world's record for heavier than air machines without motors.

The plane was constructed by Schulz during odd moments when he was not busy teaching a school class here in east Prussia, which is his home. The flight took place at Rossitten.

Schulz appeared last year with a glider made of hop poles and scrap tin, but his machine was rejected by the technical committee and he was not allowed to compete in the meet on the theory that it was unsafe.

Schulz says he could have remained in the air much longer had he made proper preparations for an extended flight. He had neglected to take along gloves, and was in his shirt sleeves; toward afternoon he felt the cold keenly. Finally, he says, he became so hungry that he decided to land and as he did not have a watch with him, he was most surprised when informed he had established a record.

### American Cities' Debts Grow Billion a Year

New York.—The bonded indebtedness of municipalities of the United States continues to increase, and new securities are being issued at the rate of about a billion dollars annually, according to a commentary upon the debt of more than two hundred cities by C. E. Rightor, chief accountant, Detroit bureau of government research. A tabulation gives the classified debt of the various cities, the net bonded debt and the per capita debt on January 1, 1924.

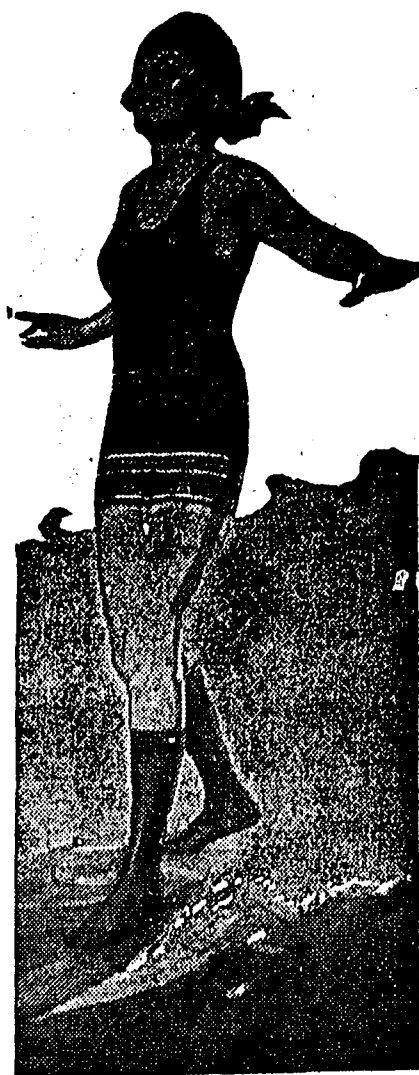

The average per capita debt of all cities of 2,500 or more is \$70.80, but the per capita debt ranges from \$253.62 for Norfolk to \$10.06 for Quincy, Ill., omitting Washington, D. C., which has only a few old bond issues outstanding. The per capita indebtedness in general is below that of thirteen principal Canadian cities, in which it ranges from \$363.05 in Edmonton, Alberta, to \$112.02 in Hamilton, Ontario.

### Efficiency in Use of Fuel Shows Increase

Washington.—Efficiency in use of fuel by public utility power plants has increased 33 1-3 per cent in the last four years, according to a statement issued by the Department of Interior, which shows that a ton of coal in 1919 produced 625 kilowatt hours of electricity, compared with 836 hours in 1923. The total amount of electricity generated increased in this period from 39,000,000,000 kilowatt hours to 55.7 billion kilowatt hours.

### To Climb Canadian Peaks

Edmonton, Alberta.—An attempt to scale Mount Bobson will be made this summer by the Alpine club of Canada. Arrangements also are being made for an expedition to scale Mount Logan, Canada's highest peak, in 1925.

## Jantzen at Honolulu

WHERE swimming skill competes with style—where all the shore's a stage—where swimmers know "what's what" in suits—there you'll find the Jantzen most popular.

At Honolulu beach, for instance, more persons wear the Jantzen than any other swimming suit. No matter where you are though, you will be correctly clad if you're in a Jantzen.

Let us demonstrate the original Jantzen-stitch of all-wool, the patented bow-trunk pattern, non-rip crotch, and other Jantzen improvements.

You will find the 1924 Jantzens in fashionable new colors for men, women and children.

Get your swimming suit here from our complete stock.

# AMAIZO OIL

The perfect oil for frying, for shortening and for mayonnaise making. Amaizo makes better foods with less effort and more economy.

### ELEVEN ADVANTAGES OF AMAIZO OIL

1. Fries beautifully, thoroughly, quickly.
2. Does not smoke at cooking temperature.
3. Does not carry the flavor of one food to another, so can be used over and over.
4. Heats quickly.
5. Measures easily and accurately.
6. Blends rapidly with other ingredients.
7. Necessitates no melting.
8. Makes delicate, delicious cakes—is an ideal shortening.
9. Maintains the delicious natural flavor of foods.
10. Does not curd in mayonnaise.
11. Its can is dustless, rustless, easy to handle and store.

## Notice of Primary Election

NOTICE IS HEREBY GIVEN, That on Tuesday, August 5th, 1924, at the polling place to be provided by the precinct committeemen of the respective parties holding such primaries, in the various election precincts of the County of Latah, State of Idaho, a primary election will be held for the nomination of candidates for county offices, and for the election of precinct committeemen, and for the election of delegates to attend the county conventions.

The polls in the several election precincts on the day of said primary election shall be open from one (1) o'clock in the afternoon until seven (7) o'clock in the evening.

The names and addresses of all persons for whom nomination papers have been filed and who are to be voted for, with the party designated and title of each officer, and the number and names of delegates of each political party the several precincts are entitled to select to the county convention, are as follows, to-wit:

### REPUBLICAN PARTY

State Senator: C. A. Hagan ..... Moscow, Idaho.  
Warren Truitt ..... Moscow, Idaho.

State Representatives: Alfred S. Anderson ..... Moscow, Idaho.  
Guy W. Wolfe ..... Moscow, Idaho.

County Commissioner, First District: John Cone ..... Princeton, Idaho.  
G. O. Stillwell ..... Princeton, Idaho.

County Commissioner, Second District: J. G. Gibson ..... Moscow, Idaho.  
William Lennox ..... Moscow, Idaho.  
Elmer M. Paulson ..... Moscow, Idaho.

County Commissioner, Third District: Columbus Clark ..... Juliaetta, Idaho.  
G. F. Walker ..... Kendrick, Idaho.

Sheriff: Walter F. Jain ..... Genesee, Idaho.  
Charlie Summerfield ..... Moscow, Idaho.  
Jack Wilson ..... Moscow, Idaho.

Treasurer and Ex-Officio Tax Collector and Public Administrator: Leola R. King ..... Moscow, Idaho.

Probate Judge: Adrian Nelson ..... Moscow, Idaho.

County Superintendent of Public Instruction: Ellen Peterson ..... Moscow, Idaho.

Assessor: Emmett J. Gemmill ..... Troy, Idaho.

Prosecuting Attorney: Thomas A. Feeney ..... Genesee, Idaho.  
Laurence E. Huff ..... Moscow, Idaho.  
W. E. Stillinger ..... Moscow, Idaho.

Coroner: F. M. Leitch ..... Moscow, Idaho.  
H. R. Short ..... Moscow, Idaho.

Surveyor: Harvey J. Smith ..... Moscow, Idaho.

Dated at Moscow, Idaho, this 15th day of July, A. D. 1924.

HARRY A. THATCHER,

County Auditor, Latah County, Idaho

### NOTICE OF TIME AND PLACE FOR PROVING WILL IN THE PROBATE COURT OF LATAH COUNTY, STATE OF IDAHO.

In the Matter of the estate of Fred O. Petrick, Deceased.

Notice is hereby given that Monday the 4th day of August, 1924, at ten o'clock A. M., of said day in the Court Room of said Court at the Court House in Moscow, Latah County, State of Idaho, has been fixed as the time and place for proving the Will of the said Fred O. Petrick, deceased, and for hearing the Petition of Otto Schupfer for the issuance to him of Letters Testamentary thereon.

Witness my hand and the seal of the said Court on this 15th day of July, 1924.

ADRIAN NELSON,  
Ex-Officio Clerk of the above entitled Court and Probate Judge.

### SUMMONS IN THE DISTRICT COURT OF THE SECOND JUDICIAL DISTRICT OF THE STATE OF IDAHO, IN AND FOR THE COUNTY OF LATAH

Eva Luella Smith (Sometimes written Eva L. Smith), Plaintiff, -vs- Jordan P. Smith, the unknown heirs of James E. Fisher, deceased, the unknown devisees of James E. Fisher, deceased, the unknown heirs of Leah Smith, deceased, the unknown devisees of Leah Smith, deceased, Mena P. French, the unknown heirs of John Weisgerber, deceased, the unknown devisees of John Weisgerber, deceased, and all unknown owners of and unknown claimants to the following described real estate situated in Latah County, State of Idaho, to-wit: The N $\frac{1}{2}$  of the NW $\frac{1}{4}$  of SE $\frac{1}{4}$  of Sec. 6 and 2 $\frac{1}{2}$  acres in the NE corner of the NE $\frac{1}{4}$  of the SW $\frac{1}{4}$  of said Section 6, the same being in a square 20 rods each way from said corner, all in Twp. 38 N. R. 1 W. B. M., Defendants.

THE STATE OF IDAHO SENDS GREETING To the above named defendants:

You are hereby notified that a Complaint has been filed against you in the District Court of the Second Judicial District of the State of Idaho, in and for the County of Latah, by the above named plaintiff, the nature and general terms of which is to require each and all of the above named defendants to appear in the above entitled cause and to set forth any right, title, or interest that said defendants or either of them may have or pretend to

have in and to the above described real estate, and to quiet the title thereto in the name of the plaintiff, and to reform a certain deed of record in book 73 of Deeds at Page 27, and to reform a certain deed of record in book 79 of Deeds at page 535, of the records of Latah County, State of Idaho.

And you are hereby directed to appear and answer the said Complaint within twenty days of the service of this Summons, if served within said Judicial District, and within forty days if served elsewhere; and you are further notified that unless you so appear and answer said Complaint within the time herein specified, the plaintiff will take judgment against you as prayed in said Complaint.

WITNESS MY HAND AND SEAL OF SAID DISTRICT COURT, This 14th day of July, 1924.

HARRY A. THATCHER,  
Clerk of said District Court, (Seal of Court Affixed.)

By ADRIAN NELSON, Deputy Clerk.  
A. H. OVERSMITH, Attorney for plaintiff, residence and Post Office address at Moscow, Idaho.

26-6t.

# No Car Like It!

42 horsepower! 50 miles and more an hour—hour after hour—without over-heating—without loss of power—without carbon cleaning!

And at the end of a long sustained high speed, your motor will be cooler, will need less water than any similar sized poppet-valve engine.

This engine's power curve keeps climbing up while the power of a poppet-valve car is dropping off. Furthermore, the Willys-Knight is entirely free from those engine repairs which make up 50% of the upkeep cost of practically all poppet-valve cars. It has no cams—no springs—to get out of order. A car you can keep season after season. Take a ride today.

# WILLYS-KNIGHT

Mr. and Mrs. A. W. Longfellow and F. C. Lyons returned Saturday evening from a visit with Mr. and

Mrs. Earnest Goodnight at Payette Lakes.

Mr. Weyen enjoyed a visit from his parents last week who live at Spokane.

Mrs. Arthur Bohn and Eva Smith spent Sunday with friends in Elk River. They were accompanied home by Allie Foster.

Mrs. Lester Hill and Mrs. Norsh spent Friday at the Fry home.

Mr. and Mrs. George Garner made a business trip to Moscow Monday.

Mr. and Mrs. Elmer Hudson and little son arrived from Barnaugh, Mo., Monday. They are visiting Mr. and Mrs. Clem Israel.

## CAMERON ITEMS

The company machine started threshing clover Monday and will later thresh grain.

Miss Bertha Hartung spent a week visiting her sister, Mrs. Wm. Wolff of Fairview.

Mr. and Mrs. Geo. Ehlers and family and Mr. and Mrs. C. L. Wegner and children were visiting at the John Groh home in Bovill, Sunday.

The Lutheran Ladies Aid met at Luther Hall, Sunday afternoon, for its monthly business meeting. Lunch was served after the meeting. The Lutheran church Council also had a meeting at the church on Sunday.

Mrs. Fred Riggers and two sons of Nez Perce motored over Saturday to spend several days with friends. Mrs. Riggers is a sister of Carl Keopp.

The Misses Edna and Louise Schmidt of Spokane, are visiting relatives here.

Maragret and Madaline Schultz are visiting their grandmother, Mrs. H. Wolff of Fairview.

Miss Lela Webster of Leland, is visiting her cousin, Mrs. Fred Schoeffler.

August Hartung is assisting Mr. Blum in the shop this week.

## SOUTHWICK NEWS

Mr. and Mrs. Wm. Hewett of Sunnyside, Wash., are visiting relatives in Southwick.

Geo. Christensen and family of Crescent were Southwick visitors Tuesday.

Ivory and Earl King returned to Seattle, Monday, after a two week's visit with relatives here.

Frank Thornton and family motored to Clarkston Sunday.

Wm. Whitinger and wife went to Gilbert, Tuesday, to visit their son, Fred and family.

Mr. and Mrs. Gordon Harris and Mr. and Mrs. John Stalnaker and daughter, Clara spent Saturday and Sunday at Mason Meadow where Mr. Stalnaker is stationed on the fire patrol.

Chas. Mustoe and wife are here from Granger, Wash., having been called here by the death of his mother.

Roy Southwick for Lewiston, Sunday, to meet the board of county commissioners, who are in session there.

Nels Longteig and family went to Mohler, Sunday, to visit his brother, Iven. From there they expect to go on a fishing trip for a few days.

Wm. Henderson and family drove to Potlatch, Sunday, to take their daughter, Mrs. Milton Benjamin, who has been visiting them the past week, home.

J. E. Hoppe went to Kendrick, Tuesday on business.

"Did you know that they have a machine now that can tell when you're lying?"

"Tuh! I married one of them."

"Conan Doyle claims dogs and cats will have a place in heaven."

"Well, it may be heaven for the dogs, but it will be hell for the cats."

Mrs. Newlewed was in tears. "I don't believe you love me any more," she sobbed. "You don't take a bit of interest in anything I do."

"My dear, that's positively absurd," he soothed her. "Why, do you know that after we ate that welsh rarebit you made last evening I lay awake nearly all night thinking what a fine little cook you were?"—Judge.

The cheapest man we know has it figured it is cheaper to marry than buy a phonograph.

Even if h-l isn't paved with good intentions, it'll be hot enough to make some folks hop high.

## HIS ANSWER

He was selling a coat to a woman customer. "Yes, ma'am," he said, "I guarantee this to be genuine skunk fur that

will wear for years."

"But suppose I get it wet in the rain," asked the woman.

"What effect will the water have on it? What will happen to it then? Won't it spoil?"

"Madam," answered the furrier, "I have only one answer: Did you ever hear of a skunk carrying an umbrella?"—Ex

## Advantages of Concrete

Concrete is well adapted for the construction of a variety of equipment on live stock farms. When used for feeding floors, manure pits, and foundations, it improves sanitary conditions. Structures made from it are rat proof and aid in controlling such pests. Concrete has the additional advantages of being durable, fireproof, and easily disinfected.

Good onion soil is good cabbage soil. Both require the richest soil and the best cultivation in the garden for their best and successful development.

Celery demands rich soil, plenty of moisture and growth must be kept going a top speed for a good crop. If allowed to languish during a drought it is likely to become tough and stringy.

## WHO WRECKED THE TRAIN?

Through the night two express trains were tearing toward each other with lightning speed.

In the little watch-tower the faithful switch tender turned on the danger signal. But by mistake, the green light of safety gleamed forth. Little did the faithful engineers realize that death and destruction lurked ahead as each threw his throttle open a little wider.

For a fraction of an instant the switch tender in the little tower was stupefied. Then he threw open the door, raced down the tower steps and into the corral where he put a bridal on his horse and dashed after the receding train. The train had to slow down for grades. The horse was gaining steadily when it suddenly stepped into a gopher hole, spraining its leg, and throwing the rider several feet ahead.

On, on came the roaring trains. There seemed to be nothing further the switch tender could do. At last a thought—a forlorn pitiful chance. He searched his pockets, found a match and struck it. He protected the tiny blaze from the wind with his hand and then applied the match to the thick, dry woods and shrubbery. In an instant a wall of fire fanned by a brisk wind was tearing toward the railroad track with the speed of an antelope. Would the fire reach the railroad in time to keep the iron and steel monsters from crashing?

This is one of the many spectacular features in "Westbound Limited," Emory Johnson's terrific railroad drama which will be shown at the New Kendrick theater, tonight and Saturday. Special music tonight by Kaufman's 6-piece orchestra of Lewiston, formerly Mann Brothers No. 2. 29-1t
