

## Kendrick News 20 Years Ago

### Item Taken from the Gazette Published in 1904

"Burning Cinders" published in the Gazette the week after the big fire.

Drummers till further notice have eaten dust and tramped the streets while selling goods to the merchants.

Not Ringling's Circus come to town, just the big emporium of the Lincoln Hardware Co.

The bank looks as neat and tasty as though they had been established years. Good banks have that faculty and ours is one of the best.

There are more inquiries about corrugated iron than ever before. It's a popular building material.

Sentiment is against outsiders coming to take the cream of trade, which a friendly feeling should let go to those who lost in the fire. It looks as though one interloper was going to be froze out.

It's a poor drummer that has not taken an order for goods out of Kendrick the past week. They were telegraphic ones, too.

The fire insurance adjusters must have become scared. They secured headquarters at the top of the hill in the school house.

A safe opener (expert) was round with his tools this week and strange to say we welcomed him.

The corner leading to the depot is named "Shanty Town", the block by the Gazette "Circus Flat" and that by the drug store and Beckwith's is named the "Wayside Inn," while the bank is on "Bullion Avenue."

Beckwith, the first merchant on the ground after the fire, is holding his trade in good shape.

McCreas Bros. have a full stock of hardware they are unloading, also windows, sashes, etc.

At the council meeting Saturday evening it was decided to give the business men a year's time to become domiciled in brick establishments and the work of erecting temporary structures was carried on with a vengeance.

Since the fire the Canyon Echo has thought best to suspend publication and as we have purchased the name and subscription list of that paper all its patrons will receive the Gazette in place of the Echo and the Gazette editor is now busy adjusting the matter. The Juliaetta Enterprise having also suspended publication the same action has been taken by the Gazette editor and the Enterprise subscribers will receive the Gazette in lieu of the Enterprise.

G. M. Lewis' jewelry is at Whites' residence and will probably be in part of his new structure.

Dr. Rothwell is located at A. C. White's and Dr. Hunter in his old place while Dr. Moser has a splendidly appointed office in his big square house just above McGrew's.

Thus Kendrick takes up "the white man's burden" and her people rise in a glorious manner to the necessity of the occasion.

### Bad Auto Accident

Clay Cummings of Orofino died Monday evening from injuries received in an auto accident on the North Fork road above Ah-sahka, Sunday afternoon. He, with his wife and three children were driving up the river road in a Ford car. At a sharp curve they met another car driven by Chas. Ladd. Cummings couldn't check the speed of his car and in an attempt to drive around the other he got too close to the bank and his car rolled a hundred feet down to the river.

Mr. Cummings and the baby were rendered unconscious. The former died the following day without regaining consciousness but the baby will recover. Mrs. Cummings and the other children suffered numerous cuts and bruises but were not seriously injured.

## Juliaetta Cherry Pool

The Juliaetta Cherry Growers' association has received complete returns from the eight carloads of cherries shipped this season from Juliaetta, a total of 8470 boxes, says the Tribune.

The Bings and the Lamberts netted the growers an average price of 14.4 cents per pound, while the Royal Anns and the Black Republicans averaged six cents per pound, net, to the growers.

Of three carloads shipped to New York, a net price of 28 cents was received on one, 21 cents on the second, while from the third carload the net returns were but five cents per pound. The low prices came for cherries that were shipped mostly from points along the Clearwater valley.

The cherries, after having been picked, had to be hauled several miles to the railroad station, then often had to lie for hours on trucks in the hot sunshine, awaiting the arrival of trains, then had to be transferred at Arrow Junction and unloaded to the packing house at Juliaetta, and as a result the fruit reached its final destination in bad condition. In future the Clearwater valley cherry growers will probably have to work out a plan by which they will deliver directly to local packing houses, and from these packing houses directly into the cars—thus reducing the handling to a minimum.

Three carloads were shipped to Boston these netting the growers 15, 20 and seven cents per pound, respectively. The Boston average was 14 cents.

A carload shipped to Chicago brought 12 cents, net.

A carload shipped to Milwaukee netted 16 cents for Bings and Lamberts, while the Royal Anns netted but seven cents.

The total gross receipts for the eight carloads amounted to \$28,280.85, while the net returns to the growers amounted to \$19,846.

Taken as a whole, the growers seem to be well pleased with the returns, and already plans have been completed for a comparatively large increase of Bing and Lambert cherry orchards in the Juliaetta district. The area that is adapted to the growing of sweet cherries is so limited that it seems certain that he supply will never exceed the demand, providing such precautions are taken as to insure the fruit's arriving at its final destination in first class condition.

### THIS WIFE O' MINE.

Many a thing she makes me do,  
This wife o' mine;  
Many a place she drags me to,  
This wife o' mine;  
Many a time she won't obey  
Most of the time, I ought to say,  
And yet, I sort of like, some way,  
This wife o' mine.  
Many a time she's called me  
down,  
This wife o' mine;  
Many a time she does it brown,  
This wife o' mine;  
Many a time with folks about,  
Many a time she bawls me out;  
Many a time she's right no doubt.  
This wife o' mine.  
Many a time she costs a lot,  
This wife o' mine;  
Takes about all that I've got,  
This wife o' mine;  
Many a time she makes a haul,  
Making my bank account look  
small;  
In fact, she sometimes gets it all,  
This wife o' mine.  
Many a time she's quite a trial,  
This wife o' mine;  
Taking a lot to keep in style,  
This wife o' mine;  
Many a time she takes my dough,  
Many a time she scolds, I know;  
But I guess I'll keep her, though,  
This wife o' mine.  
—Seattle Times.

Mr. and Mrs. O. E. MacPherson and son, Donald, Mr. and Mrs. Byron Tupper and daughters of Clarkston are spending the week at Elk River, camping and fishing.

## Report on 1924 Smut Demonstrations

By County Agent O. S. Fletcher

During July field counts were made on the smut control demonstrations started in the fall of 1923 by the Latah County agricultural agent to compare copper carbonate with other treatments now commonly used by farmers of Latah County for the control of smut in fall wheat.

These demonstrations were a continuation of tests carried on during the two preceding years and were planned by Prof. Chas. W. Hungerford, head of the department of plant pathology of the University of Idaho, and carried on by the county agent and cooperating farmers under his supervision. Sixty-six comparisons of copper carbonate with other treatments were completed on fifty-one farms in thirteen of the principal wheat-growing communities of Latah County.

The county agent or Prof. Hungerford treated seed wheat with copper carbonate for all of the demonstrations. Copper carbonate manufactured by the Mountain Copper Company was used as the basis of comparison on all but one of the plots. In all cases the seed was treated with three ounces of copper carbonate to one bushel of wheat. Seed for twenty-two plots was treated with a power driven machine having a continuously revolving cylinder, while that for the remainder of the plots was treated in a large barrel churn which was turned for three minutes, with frequent reversals.

On each farm the wheat treated with copper carbonate was sowed the same day as that with which it was compared, and on land that had been handled the same during 1923, so that conditions on the different plots would be the same. Each farmer cooperating in these tests kept a record of the date of seeding; how the wheat not treated with copper carbonate was treated; whether the wheat was seeded on summer-fallow, and if not, what crop was grown on the land during 1923; condition of the soil at seeding time; and whether or not it rained just before or just after seeding.

In determining the percentages of smutted heads in the various fields two hundred heads were counted in a drill row in three or more places in each plot, care being taken to make counts on all slopes represented and on level ground. This was done in each seed treatment plot in each demonstration, and counts taken side by side to compare all treatments. All percentage figures given in this report are averages of all counts made on the various plots.

### Comparison of Various Treatments

On twenty-two farms copper carbonate was compared with one pound of bluestone to five gallons of water. On these farms there were 14.66 per cent smutted heads in the copper carbonate treated wheat and 16.37 per cent in that treated with bluestone.

Copper carbonate was compared with a solution of one pound of salt to five gallons of water on nineteen farms. In these nineteen lots there were 14.26 per cent smutted heads in the copper carbonate treated wheat and 11.09 per cent in that treated with bluestone and salt.

Seven comparisons were made between copper carbonate and one pint of formaldehyde to forty gallons of water. In these comparisons there was 15.55 per cent smut in the copper carbonate treated wheat and 13.64 in that treated with formaldehyde.

On four farms copper carbonate was compared with one pound of bluestone to four gallons of water, with results as follows: copper carbonate, 13.32 per cent smut, and bluestone, 5.00 per cent.

Copper carbonate was compared with various miscellaneous treatments in twenty-two

cases. These treatments were mostly weak bluestone or bluestone and salt solutions, or mixtures of bluestone and lime. The lots treated with copper carbonate had an average of 9.66 per cent smut, while that treated in miscellaneous ways had 11.56 per cent smut.

The sixty-six plots treated with copper carbonate had an average of 13.50 per cent smutted heads, while the average for all the plots compared with copper carbonate was 12.85 per cent.

### Machine Versus Hand Treatment

Of the twenty-two comparisons between copper carbonate and one pound of bluestone to five gallons of water, seed for eleven of the copper carbonate lots was treated with the power machine while eleven lots were planted with seed treated in the barrel churn. Smut counts were as follows: Power machine, copper carbonate 17.84 per cent; bluestone 24.42 per cent; barrel churn, copper carbonate 11.49 per cent, bluestone 8.32 per cent.

Seed for six of the nineteen comparisons of copper carbonate with one pound of bluestone and one pound of salt to five gallons of water was treated with the power machine, while seed for thirteen lots was treated with the barrel churn. On these nineteen plots, results were as follows: power machine, copper carbonate 20.37 per cent, bluestone and salt 20.30 per cent; barrel churn, copper carbonate 11.44 per cent, bluestone and salt, 6.83 per cent.

Seed for a total of twenty-two comparisons was treated with copper carbonate with the power machine, while seed for forty-four plots was treated in the barrel churn. The results of the comparisons of these plots were as follows: power machine, copper carbonate 17.09 per cent, other treatments 21.15 per cent; barrel churn, copper carbonate 11.71 per cent, other treatments 8.70 per cent.

### Two Makes of Copper Carbonate Compared

Five comparisons were made of Mountain Copper Company's copper carbonate with Miller Products Company's carbonate, which they have given the trade name "Carbo." Each of these brands of copper carbonate carries more than fifty per cent of metallic copper and is very finely divided. Each adheres readily to the kernels of wheat. Averages of smutted heads were as follows: Mountain brand, 12.25 per cent, "Carbo", 12.31 per cent.

### Influence of Time of Seeding

Dates of seeding ran from October 2nd to November 19th. A tabulation of percentages of smut on plots seeded with various treatments shows that there was more smut in wheat sowed during October than in that sowed during November, and indicates that copper carbonate may be more effective on late seedings than in October seedings. This tabulation shows percentages of smutted heads as follows: October, copper carbonate 15.86 per cent, other treatments 14.86 per cent; November, copper carbonate 7.83 per cent, other treatments 8.68 per cent.

### Conclusion

The results of these demonstrations indicate that high quality copper carbonate, used at the rate of three ounces per bushel and applied with a power driven, continuous treatment machine, will control smut as well as any treatment now commonly used in Latah county, and better than a number of treatments now in common use.

Tests conducted during 1922 and 1923 did not justify recommending copper carbonate. The seed for those demonstrations was treated in a barrel churn, with two ounces of copper carbonate per bushel of wheat, and seed for the great majority of the 1923 test was treated with a distended copper carbonate carrying a low percentage of metallic copper. The copper car-

## Kendrick Precinct Vote

The vote in Kendrick precinct was light, as expected, as many of the voters in the precinct live on American ridge and were unable to take the time to vote on account of the busy time of the year.

G. F. Walker, local candidate for commissioner of the third district, polled a heavy majority over his opponent, Columbus Clark, by a vote of 75 to 7. Mr. Walker also carried Mr. Clark's precinct in Juliaetta by 30 votes.

Following is the vote in Kendrick precinct:

State Senator:

C. A. HAGAN ..... 32

WARREN TRUITT ..... 31

State Representatives:

ALFRED S. ANDERSON 56

GUY W. WOLFE ..... 52

County Commissioners, First District:

JOHN CONE ..... 49

G. O. STILLWELL ..... 20

County Commissioners, Second District:

J. G. GIBSON ..... 18

WILLIAM LENNOX ..... 8

ELMER M. PAULSON ..... 38

County Commissioners, Third District:

COLUMBUS CLARK ..... 7

G. F. WALKER ..... 75

Sheriff:

WALTER F. JAIN ..... 12

CHARLIE SUMMERFIELD ..... 55

JACK WILSON ..... 5

County Treasurer Ex-Officio Tax Collector and Public Administrator:

LEOLA R. KING ..... 66

Probate Judge:

ADRIAN NELSON ..... 61

County Superintendent of Public Instruction:

ELLEN PETERSON ..... 62

County Assessor:

EMMETT J. GEMMILL ..... 64

Prosecuting Attorney:

THOMAS A. FEENEY ..... 22

LAURENCE E. HUFF ..... 18

W. E. STILLINGER ..... 29

Corner:

F. M. LEITCH ..... 38

H. R. SHORT ..... 19

Surveyor:

HARVEY J. SMITH ..... 60

DELEGATES TO COUNTY CONVENTION

Kendrick Precinct:

N. E. WALKER ..... 1

PRECINCT COMMITTEEMAN

Kendrick Precinct:

M. B. McCONNELL ..... 53

bonate used for the 1924 demonstrations was the one that gave best results in 1923, and three ounces of copper carbonate were used in place of two, because results secured during 1923 by experiment station showed this to be the most satisfactory rate of treatment. The introduction of the power driven, continuous treatment machine, has also been an important factor in results secured this season.

### Advantages of Copper Carbonate

Three years study of the copper carbonate method of seed treatment on farms in Latah County show copper carbonate to have the following advantages:

1. It causes no injury to germination, and less seed can be used.

2. Wheat treated with copper carbonate will start quicker and grow more vigorously in its early stages than that treated with bluestone or formaldehyde.

3. The treatment is easier to apply than wet dips.

4. Grain treated with copper carbonate may be treated and stored indefinitely without injury.

### Precautions to Observe

The following precautions should be observed when using copper carbonate:

1. Avoid inhaling copper carbonate dust. (Treat where there is a free circulation of air).

2. Avoid feeding treated grain to livestock.

3. Use as clean seed as can be obtained.

## Latah County News Paragraphs

### Items of interest Taken From Neighboring Papers

L. C. Fountain completed the work of surfacing the streets and roads adjacent to Juliaetta last week and the crusher has been moved to a point about two miles up the Potlatch ridge grade where it is intended to crush rock for that grade. In every way Mr. Fountain has proved himself to be a dependable man, in the way he proceeded with the work here and the personal interest he took in it. The Village Board was fortunate in securing such a man to deal with. —Juliaetta Record.

Eli Hollingsworth is mourning the loss of some 30 small chickens and an old hen which he found dead in the chicken pen the other day. They had all had their heads mashed and were piled in a box. Mrs. Hollingsworth is at a loss to know who did it or why it was done, but whoever was to blame should be dealt with severely.

From the nature of the act it is evident that some person or persons did it for an injury to Mr. Hollingsworth and he says if they will only show themselves he will make them understand that he resents the act. —Genesee News.

F. Rader, of Spokane, arrived in Deary Tuesday to take charge of the construction work on the new high school building. Mr. Rader is a construction engineer with the contracting firm of Alloway & George, who secured the contract to erect the school. During the week Ira Altig has been hauling rock from Bear Creek for the foundation. Many with whom the board has discussed the matter say that a stone foundation, properly put together, is preferable to cement and it costs less.

The contract calls for the completion of the building by November 1st. This is a month earlier than it will be needed, as the school will probably not move into it until the Christmas holidays. The interval will give the rooms time to dry out and become seasoned inside and out.

The heating contract went to Arnold-Evans Co. of Spokane; plumbing to Powell & DeLong, Moscow; electrical installation, to Electrical Furnishing Co., Spokane. The building, completed will cost the district \$18,114.00. This includes a number of things that had not been taken into account when the board had estimated the cost at \$18,000, so that the figure is somewhat below the original estimate. It includes a septic tank, for instance, that had not been figured in before. There will be a considerable saving on the excavation, since the amount of dirt moved was a good deal less than had been roughly figured. —Deary Press.

The threshing season is in full swing this week, although some machines were at it last week. The yields are running much better than expected and show that in spite of the dry weather this country can stand the test and produce good crops. C. O. Nelson was the first to bring in new wheat at the F. M. Green Grain Co., his yield being 22 bushels per acre. George Carlson brought in the first load at the Idaho Bean & Elevator Co., his wheat going about 25 bushels per acre. From reports received thus far, wheat is yielding from 20 to 35 bushels per acre. —Troy News.

### GOOD MEDICINE

A doctor received a letter something as follows: "Dear Doctor: your medicine did me a world of good. Before I started taking it, I didn't have strength enough to spank my baby, but now I can whip my husband. The Lord bless you."

### SOUTHWICK NEWS

Mrs. Minnie Bunker has returned home after an extended visit with relatives in Michigan.

J. W. Henderson and family spent the day, Sunday, with Mr. and Mrs. Harold Whiting. Mr. and Mrs. R. M. Wright visited at the Julius Hoppe home, Sunday.

Mr. and Mrs. Floyd Russell had as Sunday guests: Mr. and Mrs. J. R. King and son, Mr. and Mrs. Ray Southwick and son, Mr. and Mrs. Ben McCoy and daughter, Edna Southwick, Mae Grant and Jennie Maxwell.

Mrs. Frank Thornton and family spent Sunday with her mother, Mrs. Martha Thornton.

Grandma Wells went to Crescent, Sunday, to spend the day with her daughter, Mrs. Soudser.

Mr. and Mrs. Attlee Mustoe, Mr. and Mrs. Given Mustoe and family, Mrs. Gehre, Pearl Stump and Mrs. Stalnaker went to Mason Meadows, Sunday, to spend the day.

Miss Frances Faris is spending this week in Moscow, the guest of Rev. Bell and family. Thrashing is practically over around Southwick until the spring grain is ready.

George Christensen and family of Crescent were visiting relatives in Southwick, Sunday. The foundation to the new Catholic church has been laid but work on the building will be suspended until after harvest.

Mrs. J. L. Harris spent last Saturday with Grandma Wells.

Mrs. Wm. Berriman spent the day, Tuesday, with her daughter Mrs. Doc Betts.

Mr. and Mrs. Jake Berriman and Mr. and Mrs. Wm. Berriman drove to Linden, Sunday, to visit Mrs. Farrington, who is quite ill.

Mr. and Mrs. Michels of Orofino were Sunday guests of Mr. and Mrs. Pete Stump.

Mrs. J. W. Montgomery of Portland is visiting at the home of Mr. and Mrs. Nels Longteig for a few days.

### HARD TO BALANCE

A doctor brought a dyspeptic farmer a big, brown pill.

"I want you to try this pill at bedtime," he said. "It's a new treatment, and if you can keep it on your stomach it ought to cure you."

The next day the doctor called again. "Did you manage to keep the pill on your stomach?" he asked eagerly.

"Well, the pill was all right so long as I kept awake," said the farmer, "but every time I fell asleep it rolled off."

## Arrested for Drunkenness

A man by the name of Benston from somewhere in the Deary country was arrested last Saturday afternoon in Kendrick by Marshal Gardner on the charges of drunkenness and disorderly conduct. He was confined to the village bastille.

About half an hour later Otto Schupfer saw smoke pouring from the jail and gave the alarm of fire. After considerable difficulty the jail doors were opened and Benston was found unconscious on the floor, overcome by the smoke. He was shortly revived in the open air and told the bystanders that he had taken off his shirt and hat, pushed them under the door and set fire to them.

Benston was taken before Judge Walker, Saturday evening, where he pleaded guilty to the charge and was fined \$20, which he paid.

### Might as Well

A wealthy old lady, falling ill, called a lawyer to assist her in making her will. She tried to go into a good deal of detail in her instructions, the lawyer said soothingly: "Now then, don't you worry about disposing of this property, just leave it all to me." "Well," answered the old lady, "I guess I might as well. You'd get most of it anyway."

nolds of Wayne county, Indiana. He  
sends along a sketch showing how  
the cooler looks when in use, says the  
Indiana Farmers' Guide. He says:

"Take a length of ordinary red tile,  
16 inches in diameter, and close one  
end of it by setting the tile upright in  
any level spot, a floor, a board or  
smooth ground. Pour into it to the

Drain Tile Used as a Cooling Tank  
for the Milk Can.

depth of about an inch and a half, any  
good portland cement, mixed fairly  
thin with water. Add a little fine sand  
to the mixture, if you have it, or the  
pure cement mixture will do. Let it  
stand until it hardens. It is then ready  
for use.

"Fill the tile with water and place  
the can of milk in it. The water seeps  
through the pores of the tile, evapo-  
rates on the outside surface, reducing  
the temperature of the water on the  
inside to the minimum and holds it at  
that lower temperature for an indefi-  
nite time. If there is a slight breeze  
blowing, which increases the evapora-  
tion, the temperature of the water will  
get quite low—as low as 55 to 65 de-  
grees—and remain so."

Mr. Reynolds says he knows this  
will actually "do the trick every time,"  
and is little trouble and expense.

Liberal Feeding Gives  
Best Results in Dairy

The successful dairyman has ever  
been a liberal feeder. The stingy feed-  
er or the one who measures out feed  
in meager quantities is never to be  
ranked among the successful. A visit  
to a barn recently where records of  
high rank, and one of them possibly  
a world's record, are being made,  
showed the boys feeding a large vari-  
ety of concentrates in liberal quan-  
tities along with first-class alfalfa and  
silage. True, each cow was being fed  
according to the amount of her milk  
production, yet the allowance was very  
generous. To feed each cow in pro-  
portion to her daily milk flow is eco-  
nomical and need not detract from  
feeding an amount that will stimulate  
her greatest milk flow.

A higher feed bill usually goes with  
cheaper production per unit. Recent-  
ly some figures from a herd were  
shown. One cow that had eaten more  
feed than any other in the herd had  
at the same time produced butterfat  
at one-third the cost, as compared to  
some others in the herd. A hearty,  
rugged dairy cow has a vigorous ap-  
petite. To feed her well is to enable  
her to develop her full capacity. Judg-  
ment, of course, must be used and  
feeds that are economical and suitable  
must be supplied. For heaviest pro-  
duction and for cheapest production  
liberal feeding gives best results.

Find Corn Silage Most  
Valuable for Dairy Cow

In feeding trials with dairy cattle,  
covering three years, it was found that  
corn silage was 1 per cent more val-  
uable than kafir silage, and kafir silage  
was 10 per cent more valuable than  
cane silage for milk production. When  
the amount of milk produced per  
acre was considered, however, the  
cane silage led the corn and kafir on  
account of the greater yield. Using  
the following yields for corn, cane and  
kafir—corn, 11.8 tons per acre; cane,  
18 tons per acre; and kafir, 11.8 tons  
per acre—an acre of cane would pro-  
duce 30,000 pounds of milk when fed  
in a dairy ration, an acre of corn, 22-  
000 pounds of milk, and an acre of  
kafir, 21,070 pounds of milk.

## Fall Freshened Cows

Cows freshening in the fall and fed  
on dry feed through the winter while  
fresh will give a better flow of milk  
during the year. The milk flow tends  
to decrease during the latter part of  
this period and spring pasture will  
stimulate it at this time. The calf  
will be in good condition to begin  
grazing at this time and does not need  
the care it would were it a spring  
calf. There is more time in the winter  
to take care of the calves and do  
extra milking.

J. W. Emmet, Clerk. 32-2t

## SUMMONS

IN THE DISTRICT COURT OF  
THE SECOND JUDICIAL DIST-  
RICT OF THE STATE OF  
IDAHO, IN AND FOR THE  
COUNTY OF LATAH

Eva Luella Smith (Sometimes  
written Eva L. Smith), Plaintiff,  
-vs- Jordan P. Smith, the unknown  
heirs of James E. Fisher, de-  
ceased, the unknown devisees of  
James E. Fisher, deceased, the un-  
known heirs of Leah Smith, de-  
ceased, the unknown devisees of  
Leah Smith, deceased, Mena P.  
French, the unknown heirs of  
John Weisgerber, deceased, the  
unknown devisees of John Weis-  
gerber, deceased, and all unknown  
owners of and unknown claimants  
to the following described real  
estate situated in Latah County,  
State of Idaho, to-wit: The N½ of  
the NW¼ of SE¼ of Sec. 6 and  
2½ acres in the NE corner of the  
NE¼ of the SW¼ of said Section  
6, the same being in a square 20  
rods each way from said corner,  
all in Twp. 38 N. R. 1 W. B. M.,  
Defendants.

THE STATE OF IDAHO  
SENDS GREETING To the above  
named defendants:

You are hereby notified that a  
Complaint has been filed against you  
in the District Court of the Second  
Judicial District of the State of  
Idaho, in and for the County of  
Latah, by the above named plaintiff,  
the nature and general terms of  
which is to require each and all of  
the above named defendants to ap-  
pear in the above entitled cause and  
to set forth any right, title, or in-  
terest that said defendants or either  
of them may have or pretend to  
have in and to the above described  
real estate, and to quiet the title  
thereto in the name of the plaintiff,  
and to reform a certain deed of rec-  
ord in book 73 of Deeds at Page 27,  
and to reform a certain deed of rec-  
ord in book 79 of Deeds at page  
535, of the records of Latah County,  
State of Idaho.

And you are hereby directed to  
appear and answer the said Com-  
plaint within twenty days of the  
service of this Summons, if served  
within said Judicial District, and  
within forty days if served elsewhere;  
and you are further notified that  
unless you so appear and answer  
said Complaint within the time  
herein specified, the plaintiff will  
take judgment against you as prayed  
in said Complaint.

WITNESS MY HAND AND  
SEAL OF SAID DISTRICT  
COURT. This 14th day of July,  
1924.

HARRY A. THATCHER,  
Clerk of said District Court,  
(Seal of Court Affixed.)

By ADRIAN NELSON,  
Deputy Clerk.  
A. H. OVERSMITH, Attorney for  
plaintiff, residence and Post Office  
address at Moscow, Idaho. 26-6t.

## CRESCENT CLIPPINGS

Visitors of the Frank Souders  
Sr., family over the week end  
were: Mr. and Mrs. Frank Soud-  
ers, Jr., and son, Mrs. Russell  
and Arley Nicewonder of Win-  
chester, Mr. and Mrs. Frank Car-  
rey, Jr., of Lenore, Mrs. E. J.  
Wells of Southwick and Burton  
Souders who has been working  
on Cream ridge.

Mr. and Mrs. Percy Rew and  
children were Sunday visitors  
at the Axel Eckman home.

Wm. Meyer went to Kendrick  
Wednesday, and returned Sun-  
day.

Several Crescent citizens voted  
at the primaries at Cold Hill,  
Tuesday.

## STONY POINT

Mrs. Charles Palmer and chil-  
dren of Kelso, Wash., and Miss  
Minnie Clark of Fix ridge visit-  
ed the last of the week at the  
home of their aunt, Mrs. Geo.  
Dygett.

Bill Fowler and Lew Stevens  
were business callers in this  
vicinity.

Miss Mable Heimgartner left  
Sunday for Fix ridge to help  
cook for threshers at the Will  
Heimgartner home.

W. S. Cox of Milton, Oregon,  
is spending a few days at the  
Jess Cox home.

Mrs. Ike Steensma returned  
home Tuesday from Texas ridge  
where she helped Mrs. Sylves-  
ter Evans cook for threshers.

Jess Cox has a crew of boys  
hoing beans this week.

Mr. and Mrs. Geo. Frederick-  
son went to Moscow, Sunday.

Mr. and Mrs. Ike Steensma  
visited relatives on Texas ridge,  
Sunday.

A field of fall wheat on the  
Wm. Zum Hofe farm made an  
average yield of 40 bushels to  
the acre.

## GLEANINGS

Prof. Ralph Greene, whose father was station agent in Kendrick years ago, was in Moscow last Friday and Saturday. He is spending the summer with his parents at Palouse. For the past two years he has been an instructor in the University of the Philippines. He is a graduate of the University of Idaho and Harvard and will return to Harvard this fall to take post graduate work.

✓ Mrs. E. H. Dammarrell and children returned the first of the week from a visit at the Asplund home near Deary.

✓ Mr. and Mrs. Walter Thomas left early Sunday morning for the Loehsa country to spend their vacation. They made the trip in their car and took a complete camp equipment with them.

✓ Wade Keene went to the Red River Hot Springs, Sunday, and returned with Mrs. Keene, who has spent the past month there for her health.

An economical young lady says that her overhead expense appalls her since she had her hair bobbed.

Mr. and Mrs. E. W. Lutz, Eleanor and Phil spent Saturday afternoon in Kendrick with friends.

Miss Mable McKeever underwent an operation for acute appendicitis at St. Josephs hospital at Lewiston, Tuesday night. She is reported to be recovering as rapidly as could be expected. Her brother Dr. McKeever, was called from here Tuesday evening on account of her illness and her father, Charles McKeever of Coeur d'Alene drove to Lewiston late Tuesday night.

Mr. and Mrs. M. B. McConnell and daughter, Jane, Mr. and Mrs. Ralph Knepper and family drove to Pullman, Sunday, to spend the day with the Oldfield family. Mr. and Mrs. A. R. Shumaker, whose home is near the Oldfields, left early Sunday morning for a 10 day trip to the coast.

Dr. and Mrs. Wm. Weniger of Corvallis Oregon, arrived Tuesday afternoon by automobile for a visit with relatives here. Mrs. Weniger is a daughter of Geo. E. Knepper. Dr. Weniger is head of the department KENDRICK GAL 3 Hussian of physics at Oregon Agricultural College.

✓ A hot check artist was operating in Kendrick last week and left a trail of worthless paper behind him, taking in lieu thereof a pocket full of hard cash.

✓ G. T. Gregson of Spokane, A. K. Carlson and Tom Long left yesterday for the upper Clearwater country on a fishing trip.

✓ Jane McConnell, Jaunita and Edna Stanton, Eleanor Herres and Nettie May McDowell are rehearsing for a big show to be held at the Grand Theater next Thursday.

W. A. Perryman and son, Clarence, left Wednesday morning by auto for a vacation trip to the coast.

✓ The Vollmer-Clearwater Co. started the wheat washer this week at the flour mill. All smutty wheat will be put through the washer before being shipped. After going thru the washer the wheat comes out bright and clean without a trace of smut. It requires two men to operate the washer. The water is secured from the town system.

✓ Mrs. Jack Odem arrived Wednesday afternoon from Grangeville to visit her sister, Mrs. Frank Benscoter on American ridge.

Josephine Roxanna Stump of Southwick visited her aunt, Mrs. Patterson at Pullman this week.

✓ The Ku Klux Klan held a meeting at the New Kendrick Theater last Monday evening. Prominent members of the Klan spoke to a large audience from Kendrick and the surrounding country.

## Killed by Gunshot

Olive Choate, the 12 year old daughter of Mr. and Mrs. Fred B. Choate of Teakan, died Wednesday from a gunshot wound through the back just above the hips. The gun was accidentally discharged by her 10 year old sister at a range of 6 feet. The accident took place about 11 o'clock in the morning and death followed about 1 o'clock in the afternoon.

## Installs Cleaner at Moscow

C. F. Bryne has established headquarters for a very modern bean and pea cleaner at Moscow. This gives him the advantage of recleaning the beans purchased by him from the surrounding country as well as a large tunnage of peas from the Moscow and Palouse district.

Mr. Byrnes states that the pea business among the Moscow and Palouse farmers has become as extensive as that of the bean industry in this section. He has already made purchases of early Alaska peas netting the farmers 5 cents per pound direct from the thrasher.

## Meyer Wins Suit

The judgment of the state supreme court, reversing the district court for Nez Perce county in the case of August Meyer vs. August Schoeffler and involving a small tract of land in the Southwick section, has been received, says the Tribune.

The action was instituted in the district court to eject the defendant from the property but the lower court found for the defendant on the grounds of adverse possession. The case was appealed to the supreme court with the result that the higher court has awarded the property to the plaintiff. The case was tried in the district court before the late Judge Wallace W. Scales.

## The County Election

A large vote was polled in Latah county last Tuesday, interest centering on the republican primary in which there were a number of interesting contests.

With no contests the democratic vote was light. Following is the ticket:

State senator, Francis E. Ball, Troy; representatives, G. P. Mix, Moscow; J. E. Johnson, Harvard; commissioner first district, P. P. Nolan, Cora; second district, John E. Hall; third district, Fred Strobel, Moscow; sheriff, Grant Robbins; treasurer, Audrey Herrington, Moscow; prosecuting attorney Frank L. Moore, Moscow; coroner John J. Pickard, Troy.

Result of republican primaries for offices in which there were contests, with a number of small precincts yet to hear from, follows:

State senator—C. A. Hagan, 984; Warren Truitt, 917. County commissioner, 1st district, —John Cone 1028; G. O. Stillwell, 537.

County commissioner 2nd district —Elmer Paulson, 882; J. G. Gibson 540; Wm. Lennox 494.

County commissioner 3rd district—G. F. Walker 985; Columbus Clark 777.

Sheriff—Charles Summerfield, 974; Walter F. Jain, 701; Jack Wilson, 350.

Prosecuting attorney, W. E. Stillinger, 751; L. E. Huff, 705; T. A. Feeney, 484.

Coroner—H. R. Short, 709; F. M. Leitch, 668.

State representatives—Alfred S. Anderson, Guy W. Wolf.

County treasurer—Leola R. King

Probate judge—Adrian Nelson.

County superintendent — Ellen

Peterson.  
Assessor—E. J. Gemmill.  
Surveyor—Harvey J. Smith.

## LINDEN LOCALS

Mr. and Mrs. Patterson and children from Spokane visited at the home of Mr. and Mrs. James Ball one day last week.

Mrs. Frank Farrington, who has been quite ill for the past two weeks, remains about the same.

Mr. and Mrs. F. C. Lyons and son were dinner guests at the Longfellow home, Sunday.

Aunt Carris and Arley Allen visited at the James Langdon home in Juliaetta, Saturday.

Mrs. Vaughn is spending a few days the first of the week visiting her cousin, Frank Vaughan, at Cream ridge. Ted is working with a threshing machine on the ridge.

Mr. and Mrs. Lou Alexander and children spent Sunday at the A. Alexander home.

Mrs. McPhee went to Elk River, Monday, to visit her daughter, Mrs. Edgar Bohn.

Mr. and Mrs. Jke Berriman and children of Southwick spent Sunday with Mr. and Mrs. Frank Farrington.

The Linden post office was moved the first of the month from the A. Alexander home to the store. Mr. Saddler is now our new postmaster.

Walter Darby returned from Lewiston, Sunday, where he went to have his tonsils removed.

Mr and Mrs. Clem Israel and daughters, T. P. Fisher, Mrs. Aljins and daughter, Vada and Eva Smith enjoyed a picnic dinner in Leopold Canyon, Sunday. The occasion was in honor of Clem's birthday.
