

Kendrick News 20 Years Ago

Item Taken from the Gazette Published in 1904

The executive committee of the lodges have charge of the work of erecting a building for lodge purposes. They met in the bank and divided up the work among the several members. W. M. McCrea will secure plan and specifications; G. W. Suppiger will find site and D. T. A. McIntosh will do the financing of the project. The matter will be energetically pushed.

C. A. Russell and wife of Greenville, Pa., who have been visiting their brother, H. A. Russell, on American ridge the past month, left for their home Wednesday. They were greatly delighted with Idaho, especially the fruit which appeared to them something wonderful.

G. P. Barnum has secured the contract for erecting a corrugated iron structure for E. P. Atchison on the lot next to the Lincoln Hardware. This building will be occupied by Chase and will be used for a lodging house, confectionery and coffee house.

The Vollmer-Clearwater Co. has installed a gasoline engine of twenty horse power in their cleaning house at the lower warehouse.

Monday afternoon after the regular Stites-Spokane local had pulled into the Kendrick yards and was standing on the track, the engine being disengaged, 18 heavily loaded cars started down the track and gained speed every minute. No one seemed to know just how they got started but it is thought the motion of the livestock in the cars started them going. As soon as the engineer saw what was happening he started in pursuit of the runaways but could not catch them. When they passed thru Juliaetta they were going at the rate of 45 miles an hour. They flew down the track to Potlatch Junction where they crashed into the rear end of the Culdesac-Lewiston mixed train, telescoping the caboose of the runaway and the combination coach of the passenger in the nearest manner we have ever seen. Fortunately no one was on the runaway cars and Conductor Phillips who was in the caboose, heard them coming and got out of the way just in time.

After the collision the train went on about a mile before stopping. There were seven loads of livestock on the runaway train but not a single hoof was harmed.

Democratic Committeemen

At the meeting of the Latah county democratic convention at Moscow last Tuesday precinct committeemen for the county were elected as follows: J. W. Galloway, Bear Creek; William Watt, Bovill; P. P. Nolan, Cora; J. R. Walker, Cornwall; F. S. Curtis, Deary; K. Hodgins, East Moscow; George Campbell, Little Potlatch; Paul Cann, Genesee; J. E. Johnson, Harvard; M. McGarry, Helmer; N. M. Talbot, Juliaetta; Jody Long, Kendrick; H. W. Longfellow, Linden; J. H. Forney, North Moscow; F. M. Green, Troy; Thomas J. Thompson, Park; L. E. Kegley, Palouse; Walter Fiscus, Potlatch; John Lenhard, Princeton; John E. Hall, Southeast Moscow; Raymond Harland, South Troy; R. J. Morris, Southwest Moscow; W. B. McGraw, Texas Ridge; Frank Gerard, Thorn Creek; J. B. Kissinger, Viola; G. H. Sanders, West Moscow; George Boyer, Farmington.

Who Has Oldest Car?

To the man in the Potlatch country who has the oldest model car in running order we will give a year's subscription to the Gazette free of charge. Fords are eligible to be entered in this contest. The winner will have until Thursday, September 4 to enter his car. Bring in your antiques!

Smutless Wheat

Smutless wheat will be on the market in the central Idaho region in commercial quantities this year, marking its first appearance at any place in the world, so far as known, on a commercial basis, says the Tribune. It is expected to occupy a similar place in the cereals that various seedless fruits, developed by Luther Burbank, have in fruits. It is expected to be the biggest development the grain world has known, and a thing all farmers and grain dealers have been hoping for for many years.

The story of its development is interesting in that it was produced and developed in central Idaho. The original seed came from the experimental department of Washington State college five years ago. The college at that time was experimenting for a smutless wheat and obtained a variety which was smutless, but which did not satisfy them. Since that time they have continued to experiment at Pullman and have developed a smutless wheat known as ridit. It is understood that this wheat is to be sold to farmers this year, but not in commercial quantities.

The smutless wheat, as it has been called since the first 30 pounds was purchased at Pullman five years ago, has been developed by the late U. R. Warnacutt of Craigmont. Mr. Warnacutt worked four years with his smutless wheat, cultivating it year by year, but he did not live to see it sell in commercial quantities, his tragic death by a runaway early last spring cutting short the realization of his dream to be the first to produce smutless wheat that was a success.

During the four seasons the smutless wheat has been developing it has not been vitriol or treated for smut, nor has a kernel of the wheat smutted. In 1923 this smutless wheat produced 41 bushels to the acre, and this season it produced 30 bushels to the acre, or a little better than the average in the Craigmont region. The wheat remained absolutely smutless this year despite the fact that nine-tenths of the wheat on the prairie smutted some this season. There was a little better than 6,000 bushels of this wheat harvested this season by Mr. Warnacutt's son, and he recently disposed of it at a high price for distribution on a commercial basis.

The smutless wheat is described as having a smooth head, with no beard, being a red wheat similar in appearance to turkey red. It has some appearance of triplet wheat but is said to be superior to triplet, on account of having a higher gluten test and not smutting. Under proper maturing conditions the wheat will have a high gluten test, but it is not unlike marquis or turkey red in his regard. It is a winter wheat and is expected to out-yield other winter varieties.

LENORE LOCALS

Mr. and Mrs. E. Helton were visitors at the F. S. Daggett home last week.

Miss Vena and Alice Cramer of Crescent, spent the week end at the Harve Southwick home.

An Ice Cream Social was given at W. J. Green's home last Saturday night. A large crowd was present.

A birthday dinner was given at the Ray Southwick home last Sunday. Among those who were present are the following: Mr. and Mrs. J. R. King and son, Ray, Mr. and Mrs. Floyd Russell and family, Mr. and Mr. H. Southwick and family, Atlee and Given Mustoe and families, Vena and Alice Cramer, Darwin Tarr, Herbert Wise and Virgil Crumpacker.

William Blevins of Lenore has just purchased a new Ford car.

Opal Yates was a Sunday guest at the W. J. Green home.

J. P. McFadden, who has been under the doctor's care for the past week at Lewiston, returned home Saturday and is improved in health.

Charlie Harris was a Cream ridge visitor Sunday.

Mr. and Mrs. Lee McFadden and son, Norman, motored to Melrose, Sunday, to visit friends.

Latah Republicans Meet

There was a good attendance at the Latah county republican convention held at Moscow, Tuesday. Resolutions were drawn and various committees appointed. A Wilmot attended the convention as a delegate from Kendrick precinct.

The principal speech of the convention was made by Congressman Burton L. French in which he reviewed the history of the republican party during the past four years.

A nominating committee consisting of 7 members was appointed to select 6 delegates to the state convention which meets at Idaho Falls, August 26. The nominating committee consisted of R. R. Sherfy, Moscow; B. Jones, Potlatch; James Nelson, Bear Creek; W. W. Gray, Genesee; J. R. Collins, Moscow; J. L. Woody, Juliaetta; E. W. Travis, Potlatch.

The six delegates as selected by the nominating committee are: G. G. Pickett, Moscow; Wade F. Keene, Bear Creek; Joseph Murphy of Potlatch; Mrs. B. J. Jones, Palouse; Oscar Anderson, Thorn Creek and E. W. Porter of Juliaetta.

SOUTHWICK NEWS

Mr. and Mrs. Wm. Winters arrived from Camas, Wash. for a visit with relatives.

Mr. and Mrs. Floyd Russell and family and J. R. King and family spent the day, Sunday, with Mr. and Mrs. Ray Southwick of Lenore.

Mr. and Mrs. Hoppe spent the day, Sunday, at the home of Mr. and Mrs. Ben McCoy.

Miss Helen Russel is reported as being ill.

Miss Dollie Jones left for Rockford, Sunday, where she will stay with her sister and attend school this winter.

Miss Effie Shelby of Moscow, who has been visiting her parents, Mr. and Mrs. George Jones, left for her home, Sunday.

Herman Ziemann left for Seattle, Monday, where he expects to visit a few days.

Mrs. Luce and family is visiting her sister, Mrs. Asa Calvert.

George Christensen and family of Crescent spent Sunday with Mrs. Christensen's parents, Mr. and Mrs. R. M. Wright.

John Mabry has purchased the old building known as the Weidemer building and is tearing it down.

Mrs. Grant Bateman and children spent the day, Saturday, with Mrs. Nute Bateman.

A heavy rain fell Monday night and Tuesday which will be a benefit to the bean crop.

Steve Douglas and son, Alonzo, were dinner guests at Ben McCoy's, Sunday.

There are some smallpox cases in town, that of Mrs. Doc Triplett being the latest case reported.

Link Tabor returned to Southwick last Wednesday, after a ten-months visit with his relatives in Kentucky.

BIG BEAR RIDGE

Misses Agnes Rognstad of Clarkston, Wash., and Cordelia Emmett of Kendrick were week end guests at the home of Miss Johanna Hooker.

Mrs. W. W. Reid has returned home from Lewiston, where she has attended the state normal.

Wade Keene made a business trip to Moscow Tuesday.

Stanley Sneve has gone to Alberta, Canada, where he will remain indefinitely.

Union Sunday school was largely attended last Sunday.

Mr. and Mrs. A. Kleth and son, Theodore, were visiting friends in Deary, Sunday.

Mr. and Mrs. R. J. Johnson and family of Little Bear ridge were visitors at the Anton Nelson home, Sunday.

Preaching services at the Lutheran church, Sunday, August 24, at 10:30 a. m.

Mr. and Mrs. Halvor Lien, J. J. Shind and Ed Lien autowed to Lewiston, Saturday.

N. E. Ware attended the Latah county democratic convention at Moscow, Tuesday, as a delegate from Bear Creek precinct.

Nez Perce Conventions

County conventions for Nez Perce county's three parties, republicans, democrats and progressives, were held in Lewiston, Tuesday, at which time delegates were appointed for the state convention and state committeemen named.

The republicans took action concerning the abolishment of the present primary law and a return to the convention system. Twelve delegates were named by them, each to have a one-third vote at the state convention. Following is the list of delegates: Jess Hoffman, Leland; Mrs. Dorothy Rich, Lapwai; Mrs. C. T. Stranahan, Hatwai; F. S. Randall, E. V. Beck, Noel B. Martin, R. J. Jenks, Mrs. F. S. Randall, Mrs. Minnie Faust, A. A. Seaborg, M. A. Means and C. T. Stranahan. F. S. Randall was named state committeeman.

A twelve minute session concluded the business of the democratic convention. The delegates named to attend the state meeting are: S. O. Tannhill, J. L. Armstrong and W. Porter Shafer. S. O. Tannhill was elected state committeeman.

Twenty-five delegates attended the progressive convention which was held at the DeFrance hotel. Delegates named are: J. D. Zurcher and D. Wyatt. F. M. Talbot was elected committeeman to the state convention.

CAMERON ITEMS

X Otto Schoeffler motored to Lewiston, Thursday evening, returning Saturday morning.

X Miss Minnie Blum returned from Genesee, Monday, where she spent several weeks visiting relatives.

X Mr. and Mrs. Fred Riggers of Nezperce were the Sunday evening guests of Mr. and Mrs. Carl Koepf.

X Mrs. E. Bruniek has been on the sick list for the past week.

X Rev. Rein, Fred Silflow, Sr., Aug. Brammer, Herman and Paul Silflow went to Elk River, Monday, for a few days fishing.

X Mr. and Mrs. F. Silflow, Sr., entertained the following at dinner, Sunday, in honor of their son, Walter's birthday: Rev. and Mrs. Rein and family, Mr. and Mrs. Aug. O. Wegner and family, Mr. and Mrs. F. Silflow, Jr. and family, Mr. and Mrs. Gus Kruger and daughter, Mr. and Mrs. Henry Wendt, Mr. and Mrs. Otto Silflow and Herman and Paul Silflow.

X Mr. and Mrs. Henry Brammer and family, Grandmother Brammer and Mrs. Blum were callers at the Rev. Rein home, Sunday evening.

X Herman Ehler was visiting at the Otto Silflow home, Monday.

X Miss Ruth Boemeke was the Sunday afternoon visitor of Miss Minnie Blum.

X Mr. and Mrs. Carl Koepf and Mr. and Mrs. F. W. Silflow, Jr. and family were visiting at the Herman Koepf home, Sunday afternoon.

X Mr. and Mrs. Wm. Rogers and son Wilson, of Moscow were the Sunday dinner guests of Mr. and Mrs. Aug. O. Wegner.

X Herman Newman and friend of Kellogg, Idaho, were the week-end guests of Mr. and Mrs. Fred W. Newman.

LINDEN LOCALS

X Mrs. Browning and children of Fernwood, Idaho, are visiting her parents, Mr. and Mrs. J. O. Hunt.

X Mrs. Mary Vaughan spent the week end with Mrs. Whisler.

X Mr. and Mrs. Gus Farrington are the proud parents of a new daughter, who arrived Sunday to make her home with them.

X Threshing on the ridge has been delayed by the recent rain. So far the grain has yielded better than had been expected. The average being around 25 bushels to the acre, while one field of Jenkins Club made 31 bushels to the acre.

X Otis Stone of Lewiston spent Sunday evening at the A. Alexander home and was accompanied home Monday morning by Mrs. Stone and children who have been visiting there.

X Mr. and Mrs. C. H. Fry and children and Mrs. S. H. Fry spent Sunday afternoon with Mr. and Mrs. Zimmerman.

X Mrs. George Garner spent Monday in Elk River with her sister, Mrs. Bohn.

Latah County News Paragraphs

Items of interest Taken From Neighboring Papers

The republican and democratic central committees met here Saturday afternoon and outlined briefly the coming campaign, and selected their chairman for the coming year.

J. S. Heckathorn, cashier of the First National bank of this city, was elected republican central committee chairman, given a unanimous vote of committeemen. He was authorized to appoint his own secretary and to select a committee of seven to act in an advisory capacity. Mr. Heckathorn will not fill the appointments until Monday.

The meeting was held at the county courthouse, and was attended by practically all the committeemen elected at the primary election, held August 5. The meeting first opened at 12 o'clock, but in the absence of a number of committeemen known to be coming, adjourned till 2 o'clock.

G. P. Mix, nominee for state representative, was re-elected democratic chairman at that party's committee meeting also held this afternoon, while Francis E. Ball, nominee for state senator, was chosen secretary. The democratic meeting was held in the offices of Judge J. H. Forney in the Commercial building and called for 2 o'clock.

—Star-Mirror.

Bliss Moore, construction engineer for this section of the North and South highway, states that it is expected to begin work of resurfacing that section of the highway from the Washington state line to a point some three miles south of Genesee.

The crusher is already on the ground and as soon as the necessary material arrives and is put in place work will be begun—and not too long before it is needed, either.

The Genesee section of the North and South highway is in splendid condition and it is hoped that when the next legislature convenes a law will be passed giving commissioners the right to protect the road in soft weather by limiting roads or prohibiting traffic entirely when the occasion demands. That is the way the state of Washington protects her highways—and it should be done in the state of Idaho.—Genesee News.

A new industry for Troy is being launched this week—a bakery August Hedeon, who prides himself on being a good cook, has sensed that the people of Troy and vicinity consume an immense amount of bread all of which comes from outside towns and naturally takes away considerable money from Troy. Consequently he delved into the matter, with the result that he has purchased an electric equipment for an up-to-date bakery. The plant will be installed in the Christie building, which is being repapered and otherwise put in first class shape, with the necessary remodeling to house the plant. The oven has a capacity of 800 loaves of bread daily. Mr. Hedeon expects to be ready for business in about one week. We understand that he will have the support of the local business men in this new enterprise, and he will endeavor to give the best of service.—Troy News.

X The building now going on here is giving employment to a large number of men at good wages. Masons, mortar and cement mixers, carpenters and common laborers to the number of 20 or more are busy on the various jobs. In addition, several trucks, drivers and pitmen are employed in getting out sand and rock, and delivering brick and other building mater-

Frank L. Moore for Governor

Latah county democrats are heartily in favor of Frank L. Moore of Moscow as the democratic nominee for governor, and the county convention at Moscow, held Tuesday afternoon in the offices of Judge Forney, instructed the delegates to the state convention to devote their best efforts toward securing Mr. Moore's nomination says the Star-Mirror. Mr. Moore has been prominently mentioned for some time in the newspapers of south Idaho as the most likely candidate for the democratic nomination and it is understood that the delegates from the northern counties will go to the convention united in their effort to bring about his nomination.

The convention was well attended. Delegates were present from all parts of the county, and practically every nominee of the party in Latah county was present. Frank L. Moore, John E. Hall and G. P. Mix were elected delegates to the state convention, which will meet in Twin Falls, August 26. Mr. Mix was elected state committeeman.

Mr. Mix, who had been elected county chairman by the central committee last Saturday, and Francis Ball of Troy, who has been elected secretary tendered their resignations, because of both occupying places on the legislative ticket. Mr. Mix for the legislature and Mr. Ball for the state senate. Glenn Saunders was elected county chairman, with authority to select a secretary.

The county organization will not adopt resolutions until after the state convention, in order that their expressions may be in harmony with the platform of the state democracy.

A Marathon Winner at 40

American athletes won the Olympic games of 1924, but the individual star was Albin Stenroos, a Finn, who won the Marathon race of 26 miles. No one including himself, that he had a ghost of a chance. He is far past the age of maximum athletic prowess, being 40. He has a wife, 2 children, clerks in a mens furnishing store. He finished more than a mile ahead of his nearest competitor, on his arrival his heart was beating only 110 to the minute, about equal to the average walker's heart beat, but he lost 1-2 pounds in perspiration during the 26-mile grind. When does a man become a "has been"?

TEXAS RIDGE

Mr. and Mrs. Herb Slocum and children were entertained at Sunday dinner at the Martin Frantzich home.

Mr. and Mrs. Taylor and children visited at the Allen home near Avon, Sunday.

Mrs. Oscar Dahlgren and two children of Deary spent a few days last week at the L. K. Dahlgren home.

Mrs. Charley Carlson and children went to Clarkston, Friday.

Mrs. Harry Baker and Lawrence were Sunday guests at the Dahlgren home.

Mrs. M. L. Pierce and Mrs. Bennett Anderson were Sunday afternoon callers at the Osborn home.

Helen Slocum is visiting friends on Bear creek this week.

Mr. and Mrs. Birchmier autowed to Lewiston, Friday, for peaches, but as luck would have it, they returned without any. Peaches seem to be scarce this year.

Mr. and Mrs. George Drury are visiting their sons, Earl and Bliss, in Montana.

The quota of local teachers is still incomplete as a domestic science teacher with the required qualifications has not been elected. The position here combines high school English and domestic science which apparently is a difficult one to fill. The board has a number of applications on file and action upon them will be taken in the near future.

As it arrives by rail. Our town has never had such a busy year. More like it will follow. No boom, but a steady, healthy growth.—Deary Press.

Now is a Good Time to Buy

Coffee, Flour Sugar

Especially if You Buy at this Store

The present market on coffee justifies a much higher price than we are charging. We know that quality for quality our price is lower than the average just now.

Sugar is advancing but we have a low cash price for immediate sale.

BIG LOAF FLOUR

We have it and the price is away below the present market. None better at any price.

Treat Your Wheat Dry With Copper Carbonate and Save 10 to 25 per cent of Your Seed and a Large Proportion of Your Dockage for Smut

The difference between 1 per cent smut dockage and no dockage on approximately 34 acres of 40 bushel wheat would pay for a Calkins Improved Wheat Treating Machine in one year.

25 per cent of the ordinary seeding rate of 1½ bushels with wheat at a dollar a bushel would pay for a Calkins Improved Wheat Treating Machine in one year on a seeding of 180 acres.

Dry treatment is now the standard method in the big wheat producing areas of Oregon and Washington to the west of us.

Do not make the mistake of treating your wheat any other way than with the Calkins Machine.

Sold exclusively in your territory by the

Skuse Moline Co.

Lewiston, Idaho

Call or write about special prices on the first 8 machines sold this fall. Ask us to call at your place. When you write ask about trade allowances for old separators before August 31 on your new DeLaval.

Agents—Sell guaranteed hosiery direct from the mill to the wearer; all styles and colors; salary paid for full time or spare hours; no money needed for samples. International Mills, 1143, Norristown, Pa. 20-30

It is well to use pails with a partly covered top, because this keeps out 50 per cent of the dirt and other impurities which would otherwise get into the milk.

Even in the dairying centers dairying is not profitable except where good pastures are provided.

THE AMERICAN PRESS ASSOCIATION

To our notion the 1924 model optimist is the man who thinks he can get rich raising poultry.

Being mayor of Kendrick is a bigger job than it looks. On practically every matter that requires decision there are several hundred different ideas and the individual holding each little idea thinks his is the best. It is impossible to satisfy everyone but it is generally the case that the mayor decides every question in a manner that, in his own judgment, is for the best interests of the town in general. What he requires more than advice is co-operation.

Heard in a millinery store: I don't care to go to animal shows, I married a bear.

William Allen White: A butler is a he hired girl.

A Kendrick man who has been drinking too much moonshine imagines a jackass is following him, but those who know him say that it's his shadow.

A woman to her husband: For twelve years I have endured your stinginess—now give me 30 cents at once.

In choosing G. F. Walker as their candidate for commissioner from the third district, the republicans acted wisely. Mr. Walker will be elected by a big majority not because he is a republican, but because he is in every way capable and fitted for the office. —Deary Press.

F. Corish, local tailor, deserves all the business in this territory, deserves all the business that can be thrown his way. His pressing and cleaning establishment is a credit to the town and the work he turns out is as good or better than can be done in the city shops. It is a great convenience to have a shop like this in Kendrick and the best way to keep it here is to have Mr. Corish do your pressing and cleaning for you.

The recent rains in this section will be beneficial to the farmers generally. Aside from improving the condition of the roads they have provided sufficient moisture to mature the late beans in fine shape. There are many small green pods on the late bean stalks and these will fill and mature rapidly with two or three weeks of warm weather. The fall pasture will also start and make a good growth before cold weather comes.

Many Realize Rotation of Crops Is Important

Most farmers nowadays realize the value of rotating crops according to some systematic scheme that may best suit the purpose of the farmer, yet on very many farms corn is grown year after year on the same land. The Ohio experiment station has been conducting rotation experiments and growing crops on the same land continuously for the last 30 years and the results they have obtained are, therefore, quite reliable. On one field, where corn has been grown continuously without manure for 17 years, the average yield has been 28.1 bushels per acre. On an adjoining field corn has been rotated with oats for 17 years. On this field eight crops of corn and nine crops of oats have grown during that period. Corn has averaged 41.7 bushels per acre and oats 39.8 bushels. This field also was not fertilized. This two-year rotation of corn and oats teaches a most valuable lesson, for the field has almost produced as many bushels of corn as the field that was in corn every year, and at the same time has produced an average of nearly 40 bushels of oats per acre during the years that this crop was grown.

Clover failures may result from improper soil conditions, diseases, non-adapted seed, improper methods of seeding, or the use of harmful nurse crops.

Soy beans should not be planted until the ground is warm and the field free of weeds. The ground should be thoroughly worked and the weeds killed before the crop is planted.

Einkorn, Spelt and Emmer Crops

Of Interest to Field Workers
Who Seek Information
as to Adaptation.

(Prepared by the United States Department of Agriculture.)

Conclusions drawn from experiments with emmer, spelt, and einkorn, three distinct kinds of crops related to wheat, are presented in a new bulletin just issued by the United States Department of Agriculture. Department Bulletin 1197 should be of interest to farmers and more especially to field crop workers who want information as to the adaptation of these crops to the conditions in various sections of the United States. The bulletin seeks also to prevent, so far as possible, the exploitation of these rather minor crops in sections where they are not adapted.

Emmer Not Hardy.

Winter emmer, say the investigators, is not hardy enough to be grown on the great plains north of Kansas, and even in Kansas it may be winterkilled. It is less productive than winter wheat. Because of its low yields it should not be grown in any part of the United States or Canada.

Spring emmer should not be grown except possibly to some extent in North Dakota, eastern South Dakota, and southern Minnesota for the purpose of increasing crop diversification. In all sections of these states it is outyielded, on the average, by the leading va-

METHODIST CHURCH

Sunday school at 10:00 a. m.
Preaching at American ridge at 11:00 a. m. Everybody make an effort to get out to this service as it is the last preaching service in the conference year. The theme of the sermon will be, "The Magnetism of the Cross; or the Uplifted Christ."

Preaching at 8:00 p. m. Subject: "Regeneration, or the necessity for the new Birth." Don't fail to hear this discourse on a vital Bible doctrine.

A most cordial invitation extended to all.

TRAVELER FINDS "SUPER-SERVICE"

Northern Pacific Trains a Pleasure
To Ride On

"The road of super-service" is the way P. E. Harris, prominent Seattle business man, designates the Northern Pacific. Mr. Harris writes:

"Once more it has been my pleasure to have completed another trip over the Northern Pacific and while I always have known the road maintained the best of service in every department, I take this opportunity of saying it might properly be classed as the road of super-service."

"My heartiest best wishes go with the hope that the road will continue to grow in popularity as well as prosperity."

Each day the Northern Pacific makes new friends and retains its old. Those "famously good" meals—Northern Pacific dining cars operate all the way through between Chicago, St. Paul, Minneapolis and the North Pacific Coast—club cars, barber, bath, valet, library and other facilities mark this line as one of America's leaders. Low summer fares to Yellowstone Park and Pacific Coast points now in effect. Ask the local Northern Pacific representative for details. (87)

Everybody's Going to see

At the New Kendrick next
Friday and Saturday

rieties of barley or oats, or both, although in some years at some experimental stations it will outyield these crops. Even under conditions where rust and drought are common, emmer does not compare favorably with barley and oats.

Spelt Is Productive.

Winter spelt is more productive than barley and oats in a limited portion of Maryland and Virginia where ex-

periments have been conducted, and apparently also in Utah. The limits of its adaptation have not been determined, but it is probable that it will be found to give best results in comparison with other small-grain feed crops in the area between the spring and winter oats and barley areas. It does not produce as high net yields of threshed kernels as does winter wheat, even in those districts where it appears promising.

Tonight & Saturday

The most sacred of human emotions and relations menaced by the Demon who would separate those "whom God hath joined together!" See this piercing photodrama of a beautiful young mother who fought fiercely with her baby against wealth for her husband's affection.

You owe it to your happiness to see this piercing exposition of life after the honeymoon—it's the most powerful and entertaining picture of its kind ever filmed. You will remember it as long as you live. Every husband and wife and those contemplating marriage should see this picture.

SUMMONS

IN THE DISTRICT COURT OF THE SECOND JUDICIAL DISTRICT OF THE STATE OF IDAHO, IN AND FOR THE COUNTY OF LATAH

Eva Luella Smith (Sometimes written Eva L. Smith), Plaintiff, vs. Jordan P. Smith, the unknown heirs of James E. Fisher, deceased, the unknown devisees of James E. Fisher, deceased, the unknown heirs of Leah Smith, deceased, the unknown devisees of Leah Smith, deceased, Mena P. French, the unknown heirs of John Weisgerber, deceased, the unknown devisees of John Weisgerber, deceased, and all unknown owners of and unknown claimants to the following described real estate situated in Latah County, State of Idaho, to-wit: The N½ of the NW¼ of SE¼ of Sec. 6 and 2½ acres in the NE corner of the NE¼ of the SW¼ of said Section 6, the same being in a square 20 rods each way from said corner, all in Twp. 38 N. R. 1 W. B. M., Defendants.

THE STATE OF IDAHO SENDS GREETING To the above named defendants:

You are hereby notified that a Complaint has been filed against you in the District Court of the Second Judicial District of the State of Idaho, in and for the County of Latah, by the above named plaintiff, the nature and general terms of which is to require each and all of the above named defendants to appear in the above entitled cause and to set forth any right, title, or interest that said defendants or either of them may have or pretend to have in and to the above described real estate, and to quiet the title thereto in the name of the plaintiff, and to reform a certain deed of record in book 73 of Deeds at Page 27, and to reform a certain deed of record in book 79 of Deeds at page 535, of the records of Latah County, State of Idaho.

And you are hereby directed to appear and answer the said Complaint within twenty days of the service of this Summons, if served within said Judicial District, and within forty days if served elsewhere; and you are further notified that unless you so appear and answer said Complaint within the time herein specified, the plaintiff will take judgment against you as prayed in said Complaint.

WITNESS MY HAND AND SEAL OF SAID DISTRICT COURT, This 14th day of July, 1924.
HARRY A. THATCHER,
Clerk of said District Court,
(Seal of Court Affixed.)
By ADRIAN NELSON,
Deputy Clerk.
A. H. OVERSMITH, Attorney for plaintiff, residence and Post Office address at Moscow, Idaho. 26-6f.

Feeding Will Regulate

Quantity of Milk Flow

The question of the richness of the milk has received much attention by experiment stations in this country and in Europe, and the evidence is conclusive that the fat percentage of the milk cannot be changed permanently by any method of feeding. Certain experiments have shown that sudden changes in the ration, for example, greatly increasing the protein or oil content of the ration, may result in a small fat increase for a few days with some cows, with others no effect is produced. In any case the results are only temporary. No ration or method of feeding has been found by means of which a Shorthorn or Holstein can be made to give milk as rich as that of a Jersey or Guernsey.

However, the feed and management does not have a marked influence on the quantity of milk produced by the cow. The amount of milk a cow produces depends upon the ability of the cow to convert feed into milk and butterfat and upon the feed and care a cow receives. No cow can be made to produce milk above her capacity, no matter what kind of feed she gets nor how much.

Calf Feed Important

Experience has taught the importance of feeding the calf milk of uniform temperature from day to day. Best results are obtained when this temperature is kept between 80 and 100 degrees Fahrenheit. A young calf should not be fed milk that has started to sour. The pail should be thoroughly cleaned after each feeding in the winter time as well as during the summer season.

Clipping for Cleaner Milk

The production of clean milk is made easier by clipping the cow's udder and the tail from the switch up. This will prevent particles of dirt heavily infected with bacteria from dropping into the pail. Another practice that will aid in keeping the milk clean is washing the udder with a moist cloth and drying it thoroughly before starting to milk.

Dairy Hints

Screen milkhouse.

Cool cream down immediately and keep cool until sold.

Place a salt box in the pasture and keep salt before the cows constantly.

Observe new pastures and plan to seed the poor grass spaces next year.

Cream separators and other dairy utensils should always be cleaned properly immediately after use.

All utensils which come in contact with milk and cream should be kept clean at all times.

Milk pails and other utensils should be free so far as is possible from crevices where dirt may lodge and be hard to remove.

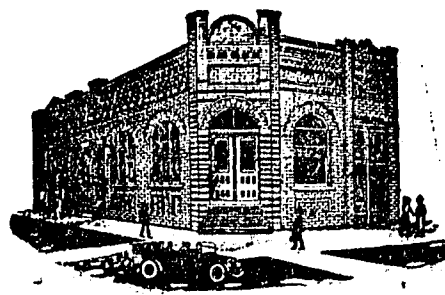

The milker should always milk with clean, dry hands. It is a filthy habit, to say the least, to milk with wet hands, and it is a mistaken idea that milking with wet hands makes milking easier.

Cleanliness in milking should be exercised at all times. Before milking begins, the cow's udder and flanks should be wiped off, preferably with a damp cloth, in order to prevent particles of straw or loose hair getting into the pail.

You'll have to come to see

At the New Kendrick next Friday and Saturday

Many large industrial concerns throughout the United States owe their success to some conservative policy adopted and strictly followed out.

Every farmer should adopt this policy. How many acres of land on your farm are unproductive that could be made useful? For example, some farms have an old fence that serves no useful purpose but which occupies valuable space. An isolated tree here and there that could easily be removed and an overhanging hedge-fence which takes up space that could be used.

By adopting conservative methods in this as well as other lines you can increase your total production with practically the same amount of time and expense.

Isn't it worth thinking about?

Start a checking account with us this fall. No accounts too large and none too small.

Showing at the New Kendrick, Tonight and Saturday

GLEANINGS

Harold Hanson of Reardon, Wash., spent the week end with his folks in Kendrick.

X Born to Mr. and Mrs. Robert Spencer of Moscow, Friday morning, August 15, an eight pound son.

X Bill Clem bought a used Chandler Dispatch model car the first of the week from P. C. McCreary of Genesee.

The R. D. Newton and M. B. McConnell families drove to Winchester, Sunday, to spend the day with Mr. and Mrs. G. S. Porter.

A. K. Carlson received delivery of a new Essex coach last week.

Ed Baker of Juliaetta had sale bills printed at the Gazette shop the first of the week to advertise a sale for Saturday, August 30.

O. E. MacPherson and R. B. Knepper were in Lewiston on business last Saturday.

P. C. McCreary and son of Genesee visited in Kendrick several hours last Sunday. Mr. McCreary is publisher of the Genesee News.

E. W. Lutz, cashier of the Lewiston National bank, contemplates the erection in the near future of a new bungalow, of hollow tile materials, at his lot on Seventh Avenue and Ninth street, opposite the handsome residences of Messrs. D. D. Hoffer and Fred Jeffreys. Architect R. S. Loring is now preparing the plans.

X Fred Weyen of Leland is driving a brand new Ford truck with which he is hauling his crop to market.

J. F. Brown was a Troy visitor the first of week.

Jim Helton bought a 1924 model Star car from the Potlatch Electric Co. the first of the week, trading in a light Overland touring car on the deal.

H. C. LaHatt, son of L. S. LaHatt, local jeweler, went to Sandpoint last Saturday where he has a position in a bakery.

X It is reported from the American ridge that a field of Jenkins Club wheat on the Harry Langdon place averaged 46 bushels to the acre. This is the best yield so far reported. Ed Lien of Bear ridge got 42 bushels to the acre, which is the second best. Either yield is good enough.

"Jimmy," said the teacher, "why is it that lightning never strikes in the same place?"

"Because," said Jimmy confidently, "after it hits once the same place ain't there any more."

Prot. and Mrs. W. W. Gatenby will present 22 music students representing Juliaetta, Kendrick and Clarkston, in a piano recital in the Methodist church, Juliaetta, August 28, 7:45 p. m. Miss Alberta Walker and Master Howard Damarell will represent Kendrick.

Mr. and Mrs. Delbert Riggie of Craigmont, Idaho, spent Sunday in Kendrick at the home of Mr. Riggie's parents.

Don Labos, who works on the section here for the N. P., was taken to Lewiston last week and underwent an operation Saturday morning for appendicitis at the St. Joseph hospital.

First Laborer: "Are you working, Joe?"

Second Laborer: "Sure, I got a dandy job fixin' de trolley trucks. I have to quit every minute or so to let the cars pass."—Life.

Word was received from Rev. James Thompson, district superintendent of the Presbyterian church to the effect that Rev. Max F. Stone will occupy the pulpit at the Presbyterian church here Sunday morning, Aug. 24.

Dr. George Anderson, a specialist of Spokane and a partner of Dr. Eppien, was at the Frank May home, Sunday. He was called there on account of the serious illness of Mr. May, whose condition remains unchanged.

X Harry Hupp of Little Bear ridge says that his beans will average between six and seven sacks to the acre. He estimates that the yield was reduced considerably by the last extreme hot spell, otherwise he would have had a bumper crop. But even six or seven sacks is far from a poor crop.

Halvor Nelson of Farmington, Wash., is transacting business in Kendrick this week.

Mr. and Mrs. P. A. Swegle of Seattle, Wash., arrived the first of the week to visit their daughter,

Mrs. A. H. Dautenberg.

Miss Alice LeBisto, who has been spending the summer with the Long's on Cedar ridge, returned to her home in Spokane, Friday.

Mrs. A. N. Roberts of American ridge has been on the sick list for the past two week.

X Mr. and Mrs. Wm. Lively of Chehalis, Wash. left for their home Sunday, after a six-weeks visit at the Warney May home.

Herman W. Long of Burke, Idaho, made a two weeks' visit with home folks near Crescent. He is employed in the mines at Burke.

X Miss Marian Rummel of Clarkston, Wash. is visiting her friend, Miss Erma Sparber, on American ridge this week.

Prof. and Mrs. A. O. Strauch and daughter returned from Pullman, Tuesday, where they spent the past two months. Prof. Strauch has been attending summer school at W. S. C.

Mrs. Julius Petrick left Tuesday for St. Paul to visit her daughter. She also has seven sisters in Minneapolis with whom she will visit before returning home. She expects to extend her visit over a period of several months.

The new tourist park for Moscow was formally opened to the public Wednesday of this week. The kitchen and dining room were constructed at an expense of \$900. The park is located on the old fair grounds.

R. J. Blankenship of Potlatch ridge was transacting business in Moscow the first of the week.

X The recent rains are not only beneficial to the farming interests but reports come from the Clearwater country that a number of forest fires have been extinguished and little danger is now felt from fires in that section during the balance of the summer.

Geo. E. Knepper and daughter, May, Dr. and Mrs. Wm. Weniger and son, spent the week end at Forest, Idaho, on a brief camping trip.

Rev. Geo. Pinke of Cavendish was a Kendrick visitor Tuesday. He is candidate on the progressive ticket in Clearwater county for the office of state senator.

Dairy Facts

Speaking of poor relations, consider the scrub bull.

Give dairy cows more clean drinking water and shade.

If pastures are short, give the cows a larger grain ration.

The way to improve common stock is by using good sires.

Clean water should be placed before the calf at all times.

Let the calf suck its dam for the first four or five days or until the milk is fit to use. Then wean the calf.

Blood will tell, but not blood alone. The best bred cow in the world won't keep up good milk production unless she has plenty of feed rich in materials that produce milk.

Culling the cows is a constant job. No matter how good your herd, there is always a chance to improve. When you get high up the scale of production the culling process may be very profitable.

Tuberculosis control must be regarded as a long-time problem. Its eradication cannot be accomplished in one clean sweep. A very gradual reduction is all that can be expected and that will take persistent and consistent effort.

At the New Kendrick next week
