No. 15

LEAGUE SEASON WILL START NEXT SUNDAY

Julietta and Kendrick To Meet Here For First Game.

Sunday afternoon at 2:30 sharp Julietta and Kendrick, old rivals on the diamond, will start the league season on the Kendrick grounds in what promises to be a battle royal. Both teams are confident of winning, so it is likely to be "anybody's ball game." Julietta had a good team last year but has strengthened the lineup this season with a number of new men. Kendrick also has a number of new men, all veteran players, and local fans feel that the team is one of the best balanced aggregations that the town has turned out for years. They are looking for big things from Flesham, who should be in top form this year.

For years Julietta and Kendrick have played ball and seldom has one team had much advantage over the other in the number of games won. Last season, while neither town was at the top in the Valley league they put up some of the best games played during the season.

Both the Valley and Central leagues have the schedules made up and all details of organization completed. There are six teams in each circuit so that there will be six games played next Sunday. The Valley league contests go to Clarkston, Genesee and Kendrick. The Central league to Orofino, Nezperce and Lapwai.

There is more interest in the baseball program this season than ever before. Rules of the league limit the number of outside players that may be placed on the list of each team to two men. Each team is allowed a list of fifteen players, which lists have been placed on file with the secretary at Lewiston and passed upon by the managers of the various teams. Kendrick's list comprises the following: Charlie White, Glen Flesham, Walter McCall, Gus Blum, Jack Barnes, Gabe Forest, Tony Eichner, Jack Flesham, Earl Kulick, Frank Boyd, Walter Thomas, Al Hudson, Herman Wilson, Harley Eichner and Harry Flaig. Kendrick has all local men in the lineup with the exception of Charlie White.

The list of Julietta players is as follows: Ed Carlson, Elmer Campbell, Fred Albright, Coney Estes, Ralph Woody, K. Clark, John Schetzle, Bverett Millard, Fred Glenn, Ralph Millard, Doc Glenn, Jack McCall and Eugene Taylor.

Official umpires for the two teams are Wm. Schetzle, Julietta, and Ernest Davis, Kendrick.

The ball game next Sunday should be well supported by the general public. There is a heavy expense attached to keeping a team in the league and the only way to make it a success financially is for everyone to attend the games. The local business men donated very liberally toward the support of the team this season and they are looking for a winning club. The admission price has been fixed at 35c, which is less than is being charged by the majority of the clubs in the league. Don't fail to give your team hearty support next Sunday.

The schedule for Sunday is as follows:

Valley League: Pomeroy at Clarkston; Uniontown-Colton at Genesee; Julietta at Kendrick.

Central League: Grangeville at Nezperce; Winchester-Craigmont at Lapwai; Lewiston at Orofino.

Fined For Speeding

Lowell Maynard of Lapwai was arrested by Marshal Gardner, Monday afternoon, for speeding thru Main street of Kendrick. He was taken before Judge Carlson, who imposed a fine of \$10 and costs, or a total of \$15. Bystanders who saw the young man drive thru town estimated that he was going at least 45 miles per hour.

Al McKee of Lapwai was transacting business in Kendrick the first of the week.

Auto Turns Flipflop

Last Friday morning while Wm. F. Behrens was on his way from Julietta to Lewiston, he attempted to pass a Ford delivery truck near the Indian Cache ranch and was forced to take to the ditch, in order to avoid striking the Ford. He was going at a high rate of speed and when the Chevrolet coupe which he was driving struck the ditch, it turned a complete somersault, landing right side up with Mr. Behrens uninjured and still holding to the steering wheel. The car was practically a wreck.

The driver of the Ford took Mr. Behrens to Lewiston.

Mr. Behrens stated that when he attempted to pass the Ford he honked his horn, but evidently the driver of the Ford did not hear it and started to turn to the left without signaling. Mr. Behrens took to the ditch to avoid a collision.

Busy at Game Farm

Tribune: The season is on at the Idaho state game farm at Lapwai, with more than 1,200 Chinese pheasant eggs incubating under domestic hens. The breeding stock at the farm consists of 430 Chinese pheasant hens and 115 cocks. The daily egg pick-up is now about 200 and at the height of the season will perhaps reach 300 eggs.

Some of the eggs are sold but the larger per cent will be hatched on the farm, it being the purpose of Superintendent Charles W. Myers to raise between 5,000 and 7,000 young Chinese pheasants for release over the state this season. The state game department is stocking every section of the state where the conditions are favorable for these birds and through efficient administration of the game laws, expects to materially increase the supply of field game.

At the present time the game farm is having trouble in securing setting hens in sufficient numbers to operate the farm. Superintendent Myers said yesterday he will have need for an additional 100 domestic setting hens before the first of May and a letter or phone call will bring some one from the farm for all setting hens available.

Commercial Club Last Tuesday

At the regular meeting of the Kendrick commercial club, held last Tuesday evening, little else but routine business was transacted. The feature of the evening was the splendid chicken dinner, served by the management of the Commercial Hotel. It was a dandy feed and was fully appreciated by the goodly number present.

It was decided to have a social meeting the second Tuesday of May, at which time the ladies will be invited to attend. A musical program will be arranged by the entertainment committee and it is felt that a general good time will be spent.

C. R. Suksdorf of Troy was transacting business in Kendrick the first of the week.

Mr. and Mrs. Gus Luken have out-of-town guests at their home this week.

Meningitis Cases Convalescing

Quite some furore was occasioned in Genesee on Thursday evening of last week when the announcement was made by Dr. Armstrong of Moscow that there were two well defined cases of spinal meningitis in town, the victims being Mrs. Cecil Reed and Miss Leona Walker, daughters of F. A. Walker, who reside in the old C. H. DeBow property, a block north of the Herman stores.

Every precaution has been taken to confine the dread disease and little fear is now felt that it will spread.

At time of going to press the sufferers are said to be doing nicely and their complete recovery is looked for. — Genesee News.

ITEMS OF INTEREST FROM SOUTHWICK

Written For Gazette by Special Correspondent.

Miss McCollum spent the week end visiting with her parents in Orofino.

Miss Wilson spent the week end in Kendrick.

Mrs. Gordon Harris and son, Cecil, visited from Thursday until Sunday of last week in Lewiston with relatives.

Mr. Schoessler, the postmaster, is in Lewiston this week taking treatments. Jake Peterson is caring for the office during his absence.

Leslie Triplett and wife spent the week end in Lewiston.

Cecil Harris left Tuesday for Pullman where he has employment for the summer.

Mrs. Homer Hayward and son, Delbert and Mrs. Minnie Bunker and children drove to Culesac Sunday where they spent the day with Mrs. Ben Davis.

Doyle Hayward spent a few days of last week with his parents, returning to Moscow Monday, where he is attending school.

Dan Ziemann spent Easter with his parents.

J. R. King left Monday morning for Lewiston to serve as a juror.

Mr. and Mrs. John McIver returned home from Clarkston where they have been for a number of weeks.

Easter guests at the Ben McCoy home were Mr. and Mrs. Homer Betts, Mr. and Mrs. Wm. Jennings and two daughters, Helen and Margaret, E. McCoy and wife, Mr. France, Alden McCoy and George Douglas.

Easter services were held at the M. E. church Sunday.

Mrs. Vester Whiting spent a few days of last week with relatives in Leland.

Harold Whiting and family drove to Kooskia last Saturday where they spent Easter with her parents. They returned home Monday.

Mr. and Mrs. J. E. Hoppe spent Sunday at the Nels Longteig home.

A number of the young people attended the services at the Golden Rule school house in the Betts district, Sunday.

Walter Koepf was the week end guest of Henry Brammer.

Mr. and Mrs. Henry Brammer and family spent Sunday at the home of his brother, Herman and wife in Leland.

Albert Wegner and wife returned Saturday from Spokane where they had been for a week.

Henry Brammer and wife spent Monday afternoon at the home of Carl Koepf.

Lloyd Eckman and wife have moved to the Wm. Jones residence west of town and Mr. Eckman is carrying the mail from Southwick to Kendrick.

Death of Rex Pickering

An item appeared in a recent issue of the Christian Advocate, stating that Rev. Rex Pickering, pastor at Tualatin, secretary to the president at Kimball School of Theology, died April 10, after a brief illness, at the home of his parents, Rev. and Mrs. C. A. Pickering, at Sherwood. Funeral services were held at Salem, Oregon, yesterday.

Rex Pickering attended the school here when his father was pastor of the local Methodist church. He later attended the University of Idaho, where he was graduated.

Splendid Easter Program

The Lohese Sunday school class, a group of high school students, prepared and presented the Easter program at the Presbyterian church Sunday morning. Music, songs and recitations, two playlets and a vocal solo with piano and violin accompaniment by three members of the Emery family made up the interesting program. Much credit is due the class and their teacher, Mrs. Thompson, for an hour of pleasure and profit to those who heard the program.

HAPPENINGS IN THE CAMERON SECTION

Interesting News From This Live Little Village.

Bill and Herbert Mielke, Fred Neuman and son, Glenn, drove to Spokane Thursday, returning Monday. Bill Mielke purchased a new Durant coupe while there, while Mr. Neuman had his son's tonsils and adenoids removed. Dr. J. E. Hoyt, a former resident of Kendrick performed the operation.

Carl Hartung and sons, Walter and August, were in Lewiston Thursday on business.

Mr. and Mrs. W. McCall spent Sunday with her mother, Mrs. Carl Hartung.

Miss Marie Schwarz spent Saturday and Sunday with Mrs. Fred Neuman.

Mr. and Mrs. Henry Wendt, Mr. and Mrs. Gus Kruger and Mrs. A. O. Wegner were in Lewiston, Saturday.

Walter Silflow left for Anathone, Wash., Tuesday.

Mr. and Mrs. John Schwarz, Mr. and Mrs. Fred Mielke and Mrs. Fred Neuman spent Sunday afternoon with Mrs. Stoneburner and Miss Emma Hartung.

Fred Silflow, Jr., Mr. and Mrs. Fred Silflow, Sr. and Mrs. A. O. Wegner spent Monday in Lewiston.

Mr. and Mrs. Bill McCoy entertained a few friends and relatives at a birthday dinner, Sunday in honor of their son, Clarence's birthday. Among those present were, Mr. and Mrs. Fred Schoeffler and family, Mr. and Mrs. Charlie McCoy and family and Mr. and Mrs. Otto Schoeffler.

Albert Schultz has been on the sick list the past week.

Herbert, Ernest and Lawrence Schwarz and Herbert and Edwin Mielke called on G. Cridlebaugh Tuesday night.

Fred Neuman and Heinrich Schmidt, while in Spokane took their first airplane ride. While landing the pilot turned his machine too quickly losing one wheel and causing the plane to plunge forward, breaking the propeller. Luckily no one was injured.

Miss Mary Wilken called on "Grandma" Schultz, Sunday.

Mrs. Albert Schultz, Sr. spent Sunday afternoon with Mrs. Carl Hartung.

Mrs. Ida Stoneburner and Miss Emma Hartung were visitors at the home of Carl Hartung Monday.

G. F. Cridlebaugh spent the Easter vacation in Lewiston.

School was dismissed on Friday giving the students a three-day vacation.

Mrs. Fred Neuman called on Mrs. Reiche, Thursday.

Carl L. Wegner and family took dinner with August Meyers and family, Sunday.

Henry Wendt and family were visitors at the Carl Koepf home Sunday.

Mr. and Mrs. August Hartung were in Agatha Saturday. They hiked down from the top of the grade.

The past few days of good weather have brought the farmers out into their fields. The spring work is progressing nicely.

He Knows His Ships

Troy News: Troy has never laid claim to being a seaport, or even a port of call for any kind of water craft, though sometimes after a freshet our creek carries enough water, if it were properly spread out, to float a good sized Injun dugout. But nevertheless a full rigged ship has come to town. It has been on display the past week in Williamson's store window, being a perfectly constructed model of a fishing schooner of apparently large proportions. The ship is the handiwork of Mr. Johnson, who recently arrived here from the East. Mr. Johnson undoubtedly knows how ships are built. If there has been a rope, spar, cross-tree or hawser left out of this beautiful model, laymen and landlubbers can't miss it.

Ramey's Entertain Bridge Club

Last Saturday evening Mr. and Mrs. R. H. Ramey entertained the Okoke Bridge Club at a delicious, cafeteria style supper. The guests formed a "bread" line and marched to the kitchen where each filled his own plate and then found his place and partner at the table, by means of clever place cards bearing answers to a number of new jokes. The hostess read the questions and each guest responded with the answers from the back of the place cards. Thus the supper was interspersed with bursts of hilarity whenever a particularly good joke was read. After supper bridge was enjoyed for several hours. Mrs. Ramey had a very unique plan of giving the prize. Slips were drawn and the lucky slip went to Mrs. J. Long who was presented with a lovely Easter angel cake.

Vocal and instrumental music was enjoyed during the evening.

Letter From The Hills

I had not intended to write again, but this morning it is damp outside, having rained last night, so concluded I would write you concerning one or two of the beautiful drives we have taken lately.

Dr. Parker, one of the owners of a chain of dentistry offices, situated in a number of cities in the west, was kind enough to take Mrs. Hull and myself in his \$8500 car, on one of the most scenic drives we have ever witnessed, up above the clouds to Palace Verde. I think it a much more scenic road than the Lewiston hill. It overlooks the ocean, and the road on both sides is covered with flowers. We went up one side of the mountain and down the other to San Pedro, thence among the shipping at Wilmington where a large number of gunboats are stationed.

We have also taken a drive to Montebe Park, about thirty miles from Long Beach, going thru the large manufacturing district where we stopped and viewed several museums, returning thru the vast orange, lemon and walnut groves.

We are in a very pleasant part of the city and Mrs. Hull is very much taken up with the place, especially with the flowers. In one cluster there were 133 great big lilies.

We are anxious to get home but hope the cold weather will be over before we get there. We are both well and of course are taking in everything and enjoying our stay here. Mrs. Beckwith has just phoned that she will come over to take us to her home tomorrow.

Day after tomorrow we intend to again visit the Whites at Los Angeles. We will leave for home about the 7th, reaching Kendrick about the middle of the month.

H. P. Hull.

Easter Service

Rev. Taber preached an able Easter sermon at the Presbyterian church Sunday morning, following the christening of Paula Mae McKeever, Mary Margaret Davidson, Lida Jean Carroll, John Edward Knepper and Barbara William Davidson. The union choir gave several pleasing Easter numbers, Mrs. Hugh Stanton at the piano.

In the evening services were held in the Methodist church with a large congregation present.

Prominent Lewiston Man Passes

Thomas D. Barton, one of the well known citizens of Nez Perce county, passed away at his home in Lewiston, Tuesday morning, death being due to heart disease. He had been ill for several months prior to his death. Mr. Barton was county auditor until January 9th, when he found it necessary to give up his work on account of ill health. For many years he served the county as an officer, first as sheriff, then commissioner and finally auditor and recorder.

NEWS FROM THE KENDRICK SCHOOLS

Daily Doings in the Grades and High School

Mr. Carroll, because of urgent business, was unable to deliver his address to the high school pupils last Friday. Mr. Tenney, on five minutes notice, filled in with a talk which would have been to his credit had he had days for preparation. His topic was: "Ten Reasons Why We Should Finish High School."

His talk was followed by the Freshman program which consisted of a solo, "Love Ship" by Lillian Long; Reading, Daniel Lyons; Dialogue, "Roses and Romances", Muriel Crocker, Bessie Blevis, Eleanor Herres, Lillian Long; Monologue, "Betty at the baseball game," Helen Clem; "The School Psalm", Wilmet Humphrey. The closing number "The School Psalm" was the 23rd Psalm revised. It began, "Mr. Jarvis is my teacher, I shall not pass" and ended, "History shall follow me all the days of my life and I shall dwell in the bughouse forever." After Mr. Humphrey ceased speaking there was a moments hushed silence, then several deep and fervent "Amen's" were audible.

The seniors are studying a very interesting and beneficial subject this week which covers the use of slang.

The members of the senior class have ordered their announcements.

Watch for the little Clodhopper who is coming to Kendrick in the near future from Splintersville.

"The Lohese Club" girls spent a very enjoyable evening in their room at the church last Monday evening where they toasted marshmallows.

The fifth and sixth grades gave their teacher, Miss N. Weaver, a delightful surprise party at the school house last Friday evening. The party was well planned and the evening was spent in playing games and contest. The "peanut hunt" was especially enjoyed. Refreshments of sandwiches, pickles, cake and jello were served later in the evening.

The seventh and eighth grades had a birdhouse exhibit Friday. George Schulze won first and William Holt won second for the best bird-houses.

The April examinations are being given to the seventh and eighth grades by Mr. Cook. John Wilson and Jack Plummer are each writing on a few subjects to be sent in to the county superintendent. The rest of the eighth grade are just taking them for practice and review.

The seventh grade expect to send their papers in geography in to the county superintendent, Miss Ellen Peterson.

Elizabeth Carlson has been absent for the last two weeks on account of sickness.

The pupils in the first grade receiving 100 in spelling for last week were: Myrtle Humphrey, Ethel Fraser, Georgina Garoutte, Quentin Dammarell, Helen Gardner, Harriet Ross, Lorraine Taber, Quentin Perryman. For this week were: Myrtle Humphrey, Doris Garoutte, Lorraine Taber, and Harry McNeal.

In the second grade for last week were: Bill Schulze, Walter Frazier, Larry Langdon, Floyd Candler, Irene Thornton, Phyllis Thomas and Jewel Cummings. This week were: Dwight Langdon, Wanda Johnson, Floyd Candler, Irene Thornton and Phyllis Thomas.

For seat work Friday afternoon the primary children made little Easter baskets and cut out white bunnies. These they left on their desks while they went out to play at recess and much to their surprise and delight they found the rabbits had laid candy eggs for them, in their baskets and were sitting on top of them.

Mr. and Mrs. Ray Snyder of Grangeville spent the week end in Julietta with relatives. Ray visited in Kendrick for a while Sunday.

It is said that most men can operate a typewriter as fast as they can think. Maybe that's why there are so few men stenographers.

Road knockers are not all buried in graveyards—because some of them are still alive.

Some people find it rather a strenuous business to keep up with the procession and their banker at the same time.

E. W. Howe: Men are bad, there seems to be no doubt of it. But how much of the blame belongs to men, how much to nature?

Doug Fairbanks, over the radio: "The worst that happens to you may be the best that happens to you if you don't let it get the best of you."

"He who laughs last," says a lady, "is usually the dumbest."

There is a young bachelor in Kendrick who looks so worried that people usually take it for granted that he is married.

It is hard to decide which is worse, says an exchange, the chronic hand-shaker or the persistent leg-puller.

Any considerate motorist will give a woman half the road, quotes the Altoona Tribune, if he knows which half she wants.

The average man is said to have 24 pounds of carbon in his body. "The way some of them knock," says an exchange, "you would think they were 50 per cent carbon at the very least."

WHAT ABOUT OUR ROADS?

What has become of the glorious era of road building that was to be launched by those who were responsible for the demise of Kendrick highway district's road program? Were these promises mere empty propaganda, used for the purpose of killing the proposed bond election in this district? It is reasonable to suppose that such must be the case. Parties who kill a public enterprise and have nothing better to substitute for it, can hardly be classed as public benefactors.

ors.

PLANT CLOVER SEED

There are probably few countries that are more favorably adapted to diversified farming than the Potlatch, both from the standpoint of soil and climate conditions. A crop that has proved profitable here for a number of years, is clover seed. A number of growers have experimented to a more or less extent with this crop and secured good returns from it.

This spring J. M. Woodward of Leland plans to seed 90 acres to clover, using wheat as a nurse crop. Sixty acres of this amount will be seeded to Alsike and the balance to sweet clover. Next year the clover will produce a crop of seed. The profit is not only secured from the sale of the seed crop, but also from the increased productivity of the land. It has been stated on good authority that sweet clover will leave 20 tons of roots per acre in the soil. Rotating this crop with grain will keep Potlatch soil up to its maximum fertility.

CLEAN-UP DAY

Every effort should be made next Tuesday to clean up the town. This day has been set aside by the town council as clean-up day. Next week is also National Clean-up Week. There is a tremendous amount of work to be done along that line in Kendrick. There are several dozen dilapidated old sheds that ought to be hauled out, along with the other clean-up work. The only hope of getting this work done properly is to secure the co-operation of the ladies. We are going to make an appeal to them. If your husband has an old shed in the back yard that he has been intending to tear down for several years and never seems to get around to it, won't you please make life so miserable for him that he will finally, in desperation, and as a matter of self defense, grab his axe and raze the old shed. If you will use your best efforts along this line, we venture to say that next Tuesday Potlatch canyon will echo and re-echo with the crash of falling timbers.

Will you go "The Way of All Flesh?" See this big picture at the New Kendrick Theatre this week. 15-1

Utilization of China Clay

The main industrial utilization for high grade residual kaolin of china clay, as anticipated by the Idaho Ceramic Materials Company at Troy, Idaho, will be in the manufacture of all kinds of porcelain ware, as filler in paper, rubber and paint and in the manufacture of the metal aluminum. Makers of various porcelain and whiteware products, of which over \$120,000,000 worth are produced in the United States annually are rapidly establishing plants on the Pacific coast. The west is growing and with the growth in population and wealth, is coming industrial development. California leads the western states in the development of the porcelain industries. Washington and Oregon are outstanding in the development of the pulp and paper industry. The largest market for Troy china clay will undoubtedly be as filler in the manufacture of paper. The northwest has many paper mills now in operation. These mills have doubled their combined output the last two years, and many new mills are under construction. The northwest contains the largest remaining stands of economically located pulpwood timber in the United States. The upper Mississippi and the Ohio valley territory now has the largest paper mills and this territory consumes the largest tonnage of china clay for filler and coating purposes. Approximately 400,000 tons of filler clay are consumed by these United States paper companies annually, several companies using as high as 25,000 tons yearly, the bulk of which is imported from England. The pulpwood timber supply for these mills is rapidly nearing exhaustion, so that it has become vital to these companies to seek new locations. The Pacific Northwest offers the largest resources of economically located pulpwood as well as domestic china clay equal to the imported product. Abundance of water power, splendid shipping facilities, favorable climate and other factors favorable to paper manu-

KENDRICK, IDAHO

FARM POULTRY

VARIOUS ENEMIES OF YOUNG CHICKS

Young chickens have many enemies such as hawks, crows, owls, rats, foxes, skunks, weasels, cats, and dogs, all of which have about the same tendencies, for, once they start to harass a flock, they will not stop until the chickens are full-grown. The best way to cope with them generally is to prevent them from catching the chickens.

A fence around the poultry yard about four or five feet high with fine mesh at the bottom and with the bottom buried in the ground three or four inches will provide protection against many animals including dogs, foxes, and skunks. If rats or weasels bother the chickens, any refuse or tall grass where they might hide or breed should be removed, according to poultrymen at the New York State College of Agriculture at Ithaca.

It has sometimes been found necessary to cover the chicken yard with two-inch mesh wire for protection from hawks and crows. At the Maine experiment station, however, and on many poultry farms, streamers tied a few feet apart on twine strung across the field or the chicken run prove successful and no overhead cover was needed.

Owls may kill chickens which roost in trees or exposed places, or they may even enter open windows of brooder houses. To avoid this danger, it is well to keep the chickens in the houses at night and, perhaps, screen the windows.

Little Money Is Spent in Aiding Poultrymen

A recent analysis by the United States Department of Agriculture shows that less money per \$1,000 valuation of the commodity is spent by the government in aiding poultry and egg producers than of any other farm crop.

On the basis mentioned, poultry interests receive 14 cents, tobacco 42 cents, cotton 50 cents, pork and pork products 65 cents, Irish potatoes 79 cents, vegetables 84 cents, small fruits \$1.08, orchard fruits \$1.66, dairy cattle and products \$1.80, citrus fruits \$2.40, beef cattle and products \$2.85,

sheep and sheep products, \$3.27, and bees and bee products \$3.61.

Poultry and eggs, the fifth agricultural interest in the United States in value, affect more producers and dealers than any other industry and receive proportionately less federal agricultural appropriation. The appropriations made for poultry are divided among various bureaus. In the Department of Agriculture alone, nine different bureaus handle poultry funds.

Table Gives Relative

Size of Turkey Breeds

The following table will give the relative sizes of the breeds of turkeys:

	White	Bourbon
	Pounds	Pounds
Adult tom	36	28
Yearling tom	33	24
Young tom	25	20
Hen	20	18
Pullet	16	14

These are the standard weights and show the White Holland to be the lightest of the three breeds, but we find that there is a great tendency for the White Holland turkeys to run over the standard weight somewhat. Of the three breeds the White ones are considered to be the most domestic and will usually range closer to home than either of the other breeds. The Bourbon Reds would come between the other two breeds in regard to ranging habits.

Poultry Facts

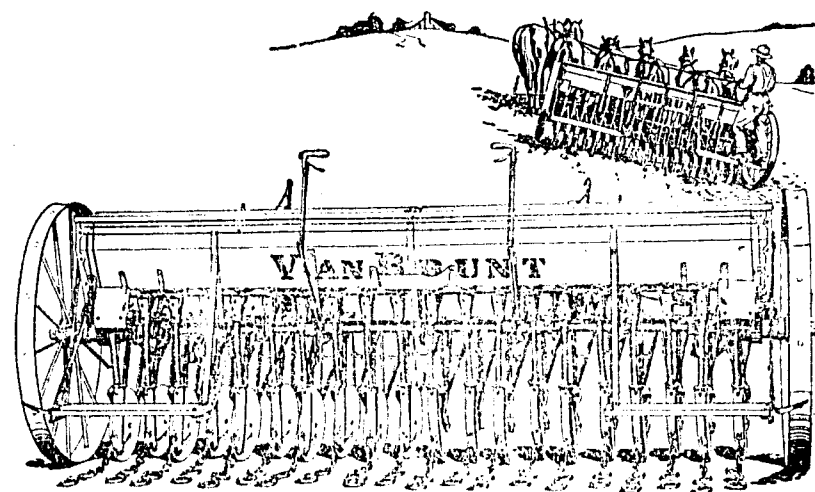

Much disease can be kept out of the poultry flock by burying or burning the dead birds.

Burn or bury dead chickens. Every decaying carcass is an incubator breeding germs and disease.

One means of getting the pullets to lay in the winter is to give them plenty of water and proper food in the fall.

Records of both the dams and daughters furnished by cow test associations show that good bulls are needed if the average production of our dairy cows is to be increased.

If that new concrete floor in your dairy stable is to be a real improvement, it must have the right dimensions, the gutters must be the right width and depth, and the floor must not be too smooth and slippery.

Here is the Drill For Perfect Seeding

The NEW KENDRICK THEATRE

How about that printing job? Don't wait until you are clear out, bring it to the Gazette Office.

DAIRY

USE OF TONICS IS MONEY WASTE

The use of tonics for dairy cattle is a waste of money, according to E. J. Perry, extension specialist in dairying at the New Jersey State College of Agriculture, New Brunswick.

Mr. Perry writes in the New Jersey Agriculture, official publication of the college and of the state experiment station: "Every year thousands of dollars are spent by farmers for stock food or tonics which are supposed to stimulate the appetite and keep the cow's system in running order. Results at various experiment stations show that it does not pay to spend money for these patented mixtures. If a cow is managed and fed with reasonable care her appetite does not need stimulating. If she is sick a veterinarian should be called. If a cow is in a run-down condition, has passed the tuberculin test, has solid teeth in her head, and does not respond either in milk or flesh to good old-fashioned feeds such as well-cured hay, silage, corn, oats, bran, and oil meal, there is some vital ailment which it is doubtful if a tonic will cure."

He continues: "It must be admitted of course, that animals sometimes show an improvement following the use of a stock food or tonic, but if the truth were known, this improved condition or higher milk yield would have to be attributed to better all-round care and feeding of the animals. The directions accompanying the tonics are quite likely to specify proper feeding methods."

The writer concludes that if a herd is fed the right kind of roughage and grain there is no need for feeding any patent mixtures of a so-called tonic nature.

Healthy Vigorous Calf

Changed to Skim Milk

A healthy vigorous calf can be changed from whole milk to separator or skim milk when it is about four weeks old. Delay making the change on less thrifty calves until they are five or six weeks old. The change to skim milk must be made gradually, requiring a week to ten days. Each day a little less whole milk is used and a little more skim milk is put in

its place. It is not necessary to put anything in the milk to take the place of the cream, but the calf should be given a handful or two of grain following the milk. Three parts oats, one of bran and one of linseed oil meal is a good combination. A little choice clover or alfalfa might also be placed before the calf so it can nibble on it when hungry.

An allowance of ten to fifteen pounds daily, divided into two equal feeds, will be about right at the start and this can be gradually increased to about twenty pounds daily if a good supply is available. The amount given to a young calf should be decided according to its health and vigor.

Two important precautions are to feed the milk while still warm and fresh and to clean the feeding pails thoroughly after every feeding.

Changing Feed to Hens

Lowers Egg Production

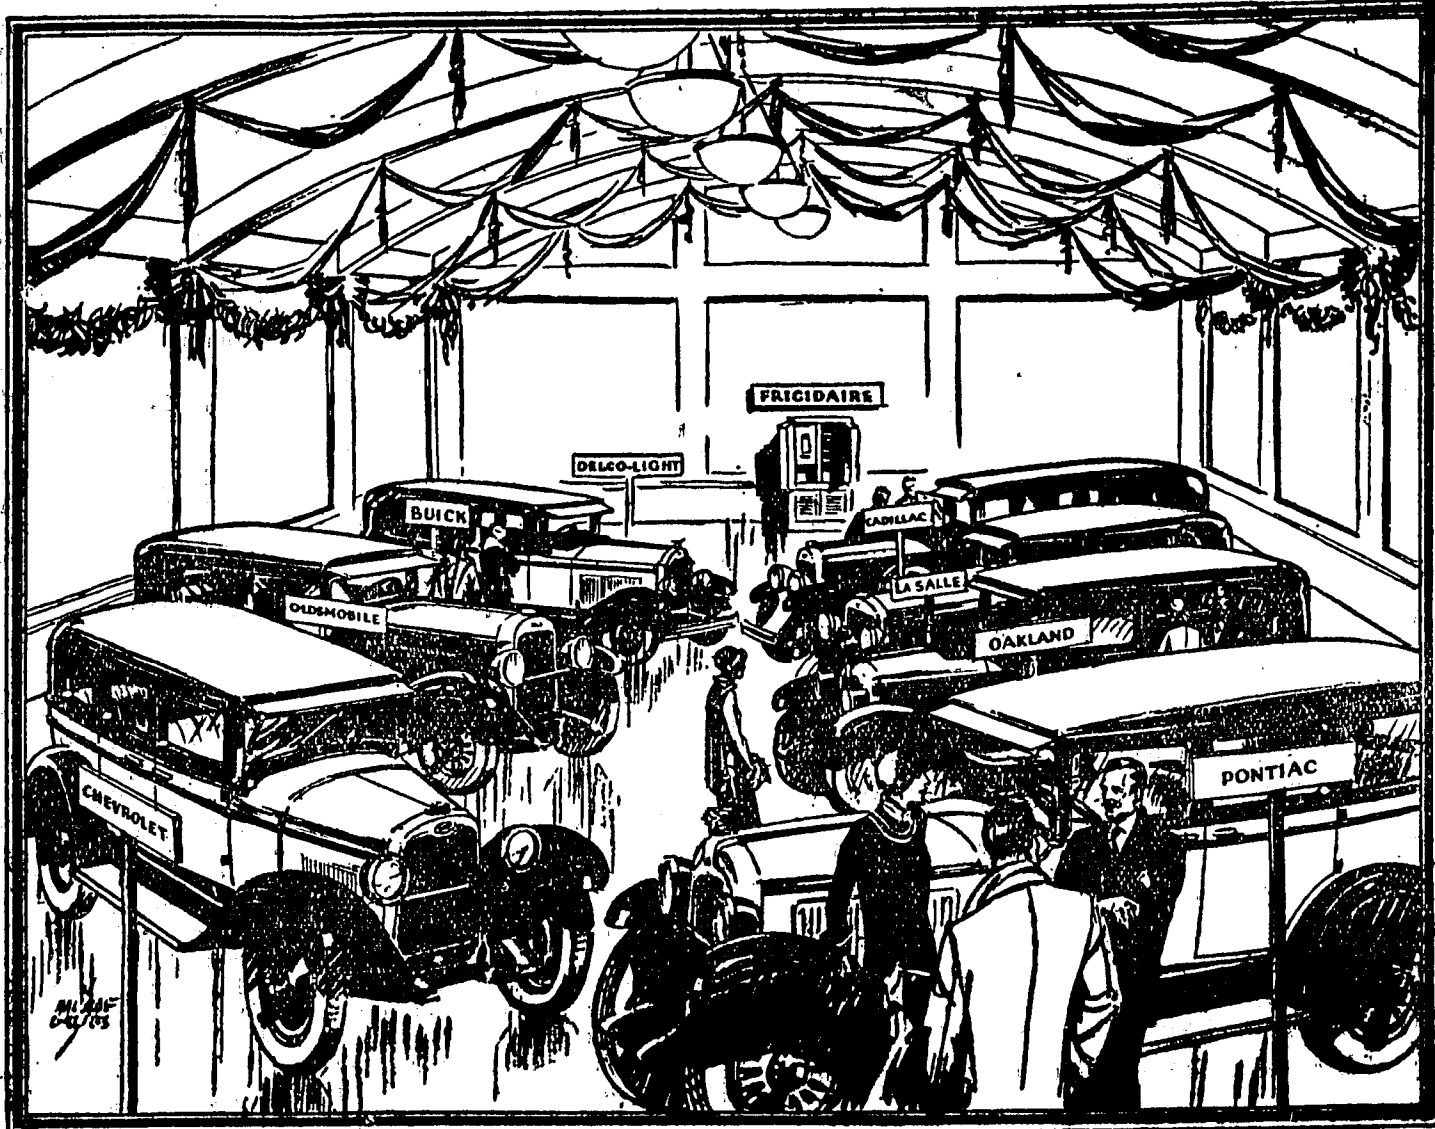

Many poultry keepers become dissatisfied with the way their hens are laying and immediately, without trying to figure out the cause, decide to change to a different kind of feed. They may be getting a fair egg production but think they can get a much better one, and therefore they change the feed.

There is only one time when it is safe to make a change in feed, that is, a radical one and this is in the spring when all chickens, if they amount to anything at all, will lay eggs. A change at this time will not have the serious effects that a change during the fall, winter or summer will have.

In the first place, choose a good feed, one that has been tried and has given good results. Then stick to this feed. If something goes wrong, look to the way in which this feed is being fed. Don't make any radical change, however, as birds are very susceptible to any such changes at this stage of their lives. Such changes are apt to cause a molt with a consequent drop in egg production.

Cow Is Market

"That's good hay," an extension worker remarked to a busy farmer, who was putting a load of alfalfa in the barn. "But," he added, "a good many other farmers near here are getting better prices for their hay than you are likely to get for this." "How's that?" the surprised farmer then asked. "Because they are feeding it to better live stock. Improved animals pay better return for the feed they get," was the extension worker's reply.

Bring this complete automobile show into your own home

THE national automobile shows in New York and Chicago were too far away for most Americans to attend. But by clipping the coupon below, you can bring a representative automobile show into your home.

At the shows General Motors exhibited a complete line of automobiles—"a car for every purse and purpose."

They are the quality cars of their respective price classes. They range in price-at-the-factory from \$495 to \$5,500. They include 89 models of every type and kind. They embody improvements tested and proved at General Motors' Proving Ground, which, together with the Research Laboratories, is maintained to assure continuous progress.

"A car for every purse and purpose"

The General Motors cars are briefly described below. The new models offer *more* performance, *more* comfort, *more* beauty than ever before in automobile history. *All* have 4-wheel brakes. *All* closed bodies are by Fisher. *All* have Duco finish. *All* are built of quality materials. And for their convenient purchase, General Motors has provided the standard low-cost GMAC Plan.

CHEVROLET. 7 models, \$495 to \$715. Bigger and better than ever before. 4-wheel brakes. Longer wheel base. Still more powerful engine. Luxurious Fisher Bodies. Shock absorber springs. New hood. New Duco colors. New instrument panel and other improvements. *ALSO* truck chassis: 1/4-ton, \$395. 1-ton, \$495.

PONTIAC. 8 models, \$745 to \$875. The lowest-priced quality "six." Improved from radiator to tail-light. For example: 4-wheel brakes, new GMR cylinder head, increased power, locking device, more luxurious Fisher Bodies. Finished in Duco in new colors.

OLDSMOBILE. 7 models, \$925 to \$1085. Entirely redesigned by General Motors, the new Oldsmobile has earned the title of "The Fine Car at Low Cost." Longer, roomier, more powerful—and the last word in styling. Fisher Bodies. 4-wheel brakes.

OAKLAND. 9 models, \$1045 to \$1375. The All-American Six. Advanced engineering and precision construction. Longer, lower and more beautiful. Bodies by Fisher. Every convenience. 4-wheel brakes. New Duco colors. Harmonic balancer.

BUICK. 16 models, \$1195 to \$1995. The largest value in Buick's famous history. Beautiful low bodies by Fisher. Getaway like an arrow from a bow. Vibrationless beyond belief. Famous 6-cylinder "Valve-in-head" engine. Sealed-in chassis.

LASALLE. 16 models, \$2350 to \$2975. This beautiful car was designed as companion car to Cadillac. Has V-type 90 degree 8-cylinder engine which has made Cadillac the standard fine car of the world. Built in Cadillac factory. Continental in appearance.

(All prices F. O. B. at the factories)

CADILLAC. 26 models, \$3295 to \$5500. "What," General Motors asked last year, "can possibly be done to improve Cadillac?" The result is embodied in the new models now on display, representing the high-water mark of Cadillac's long history. Sumptuous bodies by Fisher and Fleetwood. 500 color combinations to choose from.

FRIGIDAIRE—The Electric Refrigerator. General Motors has applied the processes which have made the automobile available to every family, to the production of electric refrigerators. Frigidaire is the refrigerator made by General Motors and it is now the world's largest selling product in its field.

DELCO-LIGHT Electric Plants. Provide the conveniences and labor-saving devices of the city for the farm. Electric light and power plants, water pumps, etc. Used in more than a quarter-million homes.

CLIP THE COUPON

Mark on the coupon below the General Motors product or products that you would like to see. Check all of them, if you wish, for the illustrated catalogues are so detailed as to form a show in themselves. In your own home you may examine the whole General Motors line, point by point, at your leisure. With the catalogues will be sent free a little book entitled "Principles & Policies." You will find it unusual reading, for it takes you behind the scenes and shows just what General Motors is and what it is doing to continue to merit public goodwill.

Name Address

Electricity, Barometer of Business

"Electricity is of almost universal use. It enters to some extent into all industry and to a very great extent in many industries. It enters into the majority of homes. There are said to be more than 65,000 different uses of electricity. A force so general and so pervasive surely indicates by the measure of its consumption the condition and trend of business." ST. LOUIS GLOBE-DEMOCRAT

WHEN a commodity becomes an essential element in so many of a people's activities that its consumption is an index of prosperity, its interests are identical with those of the communities it serves.

Here in eastern Washington and northern Idaho there has been a steady and ever-increasing demand for electricity since the first station was built in 1886. This growth promises as much in the future and is a barometric prophesy of the increase in business and activity to be expected in the next decade.

CHICKS CAN'T LIVE WITH COCCIDIOSIS

Coccidiosis is one of the most de-
structive of all young chick diseases,
and if the disease has once gained
headway in the flock the chicks must
die. The disease may be prevented
next year by disinfecting the brooder
house and rearing the chicks away
from the older fowls.

The symptoms of this disease, ac-
cording to Dr. Leonard W. Goss of
the college of veterinary medicine of
Ohio State university are loss of ap-
petite; the young birds sit around
with drooping wings, eyes closed, and
it sometimes may be noted that the
droppings are streaked with blood.

"On opening the chicks," the doctor
writes, "it is observed that there is
considerable inflammation of the in-
testines, some just back of the gizz-
ard, but the most inflammation is
found in the ceca or blind gut. Hem-
orrhages occur in these parts, and
they may be well distended with blood,
or in the more advanced stages the
blood may be washed out, leaving a
cheesy-like mass."

"In this mass are the coccidia
which are the cause of the disease
and are passed out in the droppings.

The best method of curing the dis-
ease is to prevent it, so sterilize the
brooder house before the chicks are
again put into it, using strong con-
centrated lye, which will dissolve the
organisms, and move the house to a
clean, fresh sod away from the other
fowls."

POULTRY FACTS

ORNAMENTAL AND OTHER CHICKENS

(Prepared by the United States Department
of Agriculture.)

Chickens of the Continental Euro-
pean, oriental, game, ornamental, and
miscellaneous classes of chicken have an un-
usual appeal, and a breeder who may
first be attracted to such fowls by
their unusual plumage or form may
later develop a flock which has de-
cided utility value, says the United
States Department of Agriculture.
Farmers' Bulletin No. 1507-F, "Stand-
ard Breeds and Varieties of Chickens
II," just issued, discusses the qualities
of the various breeds and varieties
listed so that the inexperienced person
may make a wise selection by reason
of familiarity with the merits of each.

The Continental European class in-
cludes several breeds, among them the
Polish. This breed was formerly popu-
lar in the United States, but with the
increase in popularity of the Leghorn,
interest in the Polish variety waned.
It is still popular, however, as an
ornamental fowl. A characteristic
feature of all Polish birds is a crest
surmounting the head.

There are bantams in several classes
of the larger chickens and also classes
of bantams for which there are no
corresponding larger breeds. The bul-
letin discusses the more important
characteristics of the breeds and vari-
eties in the classes mentioned.

A copy of the new publication may
be obtained free upon application to
the Department of Agriculture, Wash-
ington, D. C.

Finishing Poultry for

Market Difficult Task

Finishing fowls for market is not
fully comprehended by the average
poultryman. It is practically an art,
and one must be guarded largely by
previous conditions.

In the case where birds have been
confined to a yard the entire season,
they may be penned in a small en-
closure and finished up for market in
about ten days simply by feeding them
all they can eat.

But when fowls have had unlimited
range it is best not to shut them up
and begin stuffing them from the start.
Such a course is often attended by
considerable loss. Fattening must be
done gradually.

A favorite fattening mixture is
made as follows: Corn meal, three
parts; ground oats, one part; bran,
one part; crude tallow, one part—all
parts by weight.

The entire mess should be scalded
and given for the first three meals of
the day, with all the corn and wheat
the fowls will consume at night. Sweet
potatoes are also excellent for fatten-
ing. They should be cooked and thick-
ened with cornmeal. They will put
more flesh on a hen in the shortest
time than any other food known.

Picking Geese Feathers

Geese yield an abundant crop of
feathers, but they should not be
picked until after the breeding season.
The feathers are ripe for picking
when the quills appear dry and do not
contain blood. Although the demand
for these feathers is increasing, the
feathers add to the profit of geese
raising. Geese should not be picked
just before marketing as the feathers
must be right for the fowls to bring
highest prices.

Much disease can be kept out of
the poultry flock by burying or burn-
ing the dead birds.

In mixing a ration the physical ef-
fect of a feed must be considered as
well as the chemical nutrients.

Poultry yards are necessary on the
farm, if the flock is to be properly
cared for. Disease prevention and
control are impossible if the hens
range all over the farm.

Ground oats may be used for grow-
ing stock or laying hens when fed in
limited quantities.

A straw loft in the poultry house is
an advantage to the flock owner. The
straw loft helps to keep the house cool
during summer and warm during win-
ter.

Too much salt is a poison for hens,
but they need a little just as humans
do. A pound to 100 pounds of mash
improves their appetite and aids diges-
tion.

Let the chickens on the farm rough
it and rustle for themselves and they
will give little in return.

The hens should exercise and have
plenty of green food. If they are fed
properly and not overfed, you will
have no trouble with soft-shelled eggs.

Brilliant Affair

During a fire in an eastern vil-
lage the editor of the local paper,
being unable to locate the regular
reporter, sent out the young wo-
man who "did" the society gos-
sip. Here is her report, as it ap-

peared.

"A brilliant fire was held yes-
terday afternoon at the resi-
dence of Mr. and Mrs. Slippy, in
Hope street. A large number of
people attended the function.
Mrs. Slippy, who recently had her
hair shingled, made a charming
escape in an exceedingly hand-
some henna silk blouse, the pat-
tern of which appeared in our
woman's page last week. The
firemen, who presented an at-
tractive appearance, were suit-
ably garbed in blue, the tunics
being full cut. The weather was
quiet delightful for an affair of
this kind, a strong wind blow-
ing. It is rumored that the fire
was on a larger scale than any
previous affair of a similar kind
for years. It is also rumored
that it cost Mr. and Mrs. Slippy
about \$25,000."—Ex.

The greatest picture in years
is "The Way of All Flesh." It
will be shown at the New Kend-
rick Theatre tonight, Saturday
and Sunday afternoon at 4:15. A
marvel of the screen. 15-1

Notice of Annual School Meeting and Election

In Kendrick Joint Common
School District No. 24, Latah
County, Idaho.

Notice is hereby given, That
the annual school meeting of
Joint Common School District
No. 24, County of Latah, State
of Idaho, will be held on Satur-
day, the 21st day of April, 1928,
and the said meeting shall con-
vene at 1:00 o'clock P. M. on
said day and continue uninterr-
uptedly until the business, prop-
erly coming before said meeting
is disposed of, at the school house
in said District; that at said
meeting the following business
will be transacted:

1. One trustee to serve for a
term of three (3) years will be
elected.

2. The length of time school
will be taught in said District
for the ensuing year and the
seasons of the year in which the
same shall be taught will be de-
termined.

3. That at the said annual
meeting in said District there
will be determined the amount of
money to be raised by special
taxation, the levy for which
purpose shall not exceed ten (10)
mills on each dollar of taxable
property of the District, and shall
determine the purpose for which
the money derived therefrom
shall be expended, naming in
each instance the proportion of
the whole amount which is to be
used for the various and separ-
ate purposes.

4. That at said meeting gen-
eral questions pertaining to
school interests will be taken up
and disposed of.

The name and names of all
candidates for election of trustees
together with the term for which
nominated shall be placed on file
with the Clerk of the Board at

least six (6) days prior to the
day of election, excluding the day
of election.

That the election at said meet-
ing will be by secret and separ-
ate ballot.

Dated this 30th day of March
1928.

E. E. EMBRY,
Clerk of Joint Common School
District No. 24, of Latah County,
Idaho. 14-3

NOTICE OF SHERIFF'S SALE ON FORECLOSURE OF MORTGAGE

In the District Court of the Second
Judicial District of the State of
Idaho, in and for the County of
Latah.

STATE OF IDAHO, Plaintiff,
vs.

Samuel Gruell, Jr., and Ella Gruell,
husband and wife, and Anna W.
Eaves Carsow and O. C. Carsow
and C. D. Adams, doing business un-
der the name and style of Adams
Grocery, Defendants.

UNDER AND BY VIRTUE OF

AN Order of Sale issued out of and
under the Seal of the above entitled
Court on a judgment and decree of
foreclosure and sale rendered in said
Court on the 25th day of February,
1928, and entered and filed in said
Court on the 9th day of March, 1928,
and docketed with the Clerk of said
Court, in favor of the above named
plaintiff and against the above named
defendants, said order and writ being
duly attested on the 9th day of
March, 1928, and to the Sheriff of
Latah County, Idaho, directed and
to me CHARLIE SUMMERFIELD,
as such Sheriff, delivered on the 14th
day of March, 1928, for execution
whereby I am commanded and re-
quired to proceed to notice for sale
and to sell the property mentioned
and described in said judgment and
decree in the manner provided by
law and to apply the proceeds of
such sale to the satisfaction of said
judgment and decree with interest
and all costs and attorney fees.

The property described to be sold
by said judgment and decree and said
order is situated in the County of
Latah, State of Idaho, and is de-
scribed as follows, to-wit:

Lot Three (3), Four (4), Five (5),
and Six (6) of certain tracts known
as the Juliaetta Orchard Tracts near
Juliaetta, Idaho, according to the
records in the Auditor's office of La-
tah County, Idaho.

NOTICE IS HEREBY GIVEN,

That on the 16th day of April, 1928,
at the hour of 2 o'clock P. M. of
that day, at the front door of the
County Court House in Moscow, La-
tah County, Idaho, I will sell all, or
so much of the above described prop-
erty as may be sufficient to satisfy
the judgment as set out in said Or-
der and Writ with interest and all
expenses and costs, at public auction,
to the highest bidder therefor in law-
ful money.

Dated this 16th day of March, 1928.

CHARLIE SUMMERFIELD,
Sheriff.

By Geo. K. Moody, Deputy. 12-4

Cletrac, The New and Better Crawler Tractor

The only tractor dependable the year round. Does
any job, goes anywhere, any time and never tires out.
Your farm drudgery will be a thing of the past. You
will be done farming with a Cletrac while your neigh-
bor hardens in his horses and gets ready for that slow,
old way. Do your plowing, harrowing, disking; culti-
vate beans, drill wheat. The Cletrac leaves no solid
packed wheel tracks.

Late models come with much larger track pins and
sleeves, heavier shafts, larger track shoes. Models
W12-20, K15-25, A30, Model 40 and Model 100.

I also have several used wheel tractors at a bargain.

I also handle Baldwin Combines, both pull and pack
models; new Oliver plows and discs, Superior drills, at
reasonable prices.

LOCAL NEWS

Ivan Mushlitz of Troy was a business visitor in Kendrick, Wednesday of this week.

Born to Mr. and Mrs. Wayne Herres of Lewiston, Tuesday, an eight pound daughter.

Mr. and Mrs. E. H. Emery were Lewiston visitors Tuesday afternoon of this week.

Mr. and Mrs. E. E. Bechtol and children of Moscow visited relatives here and on American ridge last Sunday.

Mr. and Mrs. E. G. Dirks of Lewiston visited their daughter Mrs. Walter Thomas, last Sunday.

Herman Wilson returned recently from Missouri and Colorado, where he spent the winter with relatives.

Miss Edith Dammarell, who is teaching at Kamiah, spent her Easter vacation here with her folks.

Mrs. W. A. Perryman and daughter, Thelma, drove to Lewiston and return Tuesday of this week.

Herman Schupfer returned the first of the week from a business trip to Portland.

Wm. Hedges of Moscow was transacting business in Kendrick and vicinity the first of the week.

Jack Pickerd of Troy was a Kendrick visitor yesterday morning.

Mrs. L. J. Herres went to Lewiston Wednesday to see her new grand-daughter.

C. L. Robertson of Spokane has been employed by the Carlson Hardware Co. to sell hardware and implements in this territory. His family will probably move here later.

Mrs. Frank Davis, whose home is in California, visited Mrs. Joday Long the first of the week.

Jaunita Stanton of Lewiston visited this week in Kendrick at the home of her uncle, Hugh.

Some time ago Eddie Galloway shot an eagle on his ranch on Bear ridge. The bird measured nearly eight feet from tip to tip. It was stuffed and mounted by Otis Gentry and is now on exhibition in the window of the barber shop. The bird carried away several of Mr. Galloway's pigs before he was able to get a good shot at it.

Champ Fiddlers

At the old fiddlers' contest, held at the New Kendrick Theatre last Friday evening, A. G. Peters of Leland won first place, by a vote of the audience. He and J. E. Frazier of Kendrick tied on the first ballot with 73 votes each. On the second ballot Mr. Peters won.

Saturday night Mr. Peters and John Lewis of Juliaetta, played for the championship of the Potlatch country. Mr. Lewis got the largest number of votes.

Surprise Party

Tuesday evening Mr. and Mrs. Silvie Cook were pleasantly surprised, when about eight o'clock a group of friends came to spend the evening. Cards and conversation were enjoyed for several hours, after which the self-invited guests served a dainty lunch. Those present were Messrs. and Mesdames E. Long, Barnes and the Misses Ledbetter, Nannie and Mary Weaver.

The Right Figures

A man with an uncanny mania for juggling with figures placed a pad of paper, a pencil in his friends hands, said: "Put down the number of your living brothers. Multiply it by two. Add five. Multiply the result by five. Add the number of living sisters. Multiply the result by 10. Add the number of dead brothers and sisters. Subtract 250 from the result." The friend did as directed. "Now," said the other with a cunning smile, "the right figure will be the number of deaths, the middle figure the number of living sisters, the left-hand figure the number of living brothers." So it was!

Crescent Clippings

Most of the neighborhood attended the Easter and Birthday dinner at the school house, Sunday. Besides celebrating Easter, the following birthdays were al-

so noted: Mrs. Sarah Keeler (Saturday), Ida Forest (Sunday), Burton Souders (Monday) and Mrs. M. L. Robeson (Tuesday).

Mr. and Mrs. Orval Craig and family visited with Mrs. Craig's parents, Mr. and Mrs. M. L. Robeson, Sunday.

Ernest Loeser returned from Penawawa, Wash., where he has been working for some time.

Mrs. Sarah Keeler is visiting with her granddaughter, Mrs. Gus Farrington.

Mr. and Mrs. Wm. Riley and baby visited with Mrs. Riley's parents, Mr. and Mrs. A. Dorendorf over the week end. Rudolph Rhinehart, who has been visiting at the Dorendorf home for some time accompanied them home.

Next Tuesday Clean-up Day

Next Tuesday, April 17, has been designated by the Village Board as Clean-up Day. On this day all residents and property owners are requested and urged to collect in boxes or sacks or other convenient receptacles all rubbish about their premises and place same in a convenient place to facilitate its removal to the dumping grounds by trucks furnished by the Village. The rubbish must be ready on school hill not later than 8 o'clock Tuesday morning as the trucks will not make a return trip if you are not ready. Trucks will be in the business section and on the flat by 10 o'clock. By order of the Village Board. 14-1

Kendrick Men Praise Picture

Paul Schulze, proprietor of the Main Street garage, and Walter Thomas, proprietor of the Kendrick Hardware Co. stated this week that "The Way of All Flesh", which is being shown at the New Kendrick Theatre, tonight, Saturday night and Sunday afternoon at 4:15, is the best motion picture they ever witnessed. Mr. Schulze said: "I saw this picture at Berne, Wash. two months ago and I intend to see it again. It is absolutely one of the greatest pictures ever made." Mr. Thomas made the following statement regarding it: "The Way of All Flesh" in my estimation is one of the greatest pictures on the screen. I have seen it twice and want to see it again this week when it is shown here. This is a picture that deserves the hearty support of the people of any community where it is shown. Personally I cannot say too much in its favor." 15-1

Left His Knife

A negro preacher was denouncing the sins of his congregation. "Bredren and sistern, Ah warns yo' 'gainst de heinous sin of playin' dice! Ah charges yo' 'gainst de black rascality of liftin' pullets. But 'bove all else, bredren and sistern, Ah demolishes yo' 'gainst de crime of melon stealin'." A brother in the back seat made an odd sound with his lips, rose and snapped his fingers. Then he sat down again with an abashed look. "Whooffo, mah fren," said the parson, sternly, "does yo' get up

Providing Winter Dust

Bath Quite Important

During one of the periods of dry, clear weather, a supply of dry, fine-grained soil should be stored in a place where it will neither get wet nor freeze severely during the colder months. Nothing has been found that quite takes the place of a dust bath for hens. Of course, we can rid them of lice by treatment with sodium fluoride, blue ointment or a commercial louse powder, but these do not replace the enjoyment that a hen gets in dusting herself in a box of dust or mixture of dust and ashes. And the chance to dust herself is particularly enjoyed during the winter months. Thoroughly dry, well-pulverized dirt stored in a dry building in boxes or

barrels or even bags will add greatly to the comfort and contentment of the flock throughout the winter.

Cut Down Profits

Overcrowding and lack of sanitation in a poultry house will cut down the profits in a short time regardless of the quality of the stock. No matter how good the quality of your pullets, it will pay better to sell part of them rather than overcrowd the houses in an attempt to keep them all over winter. Overcrowding pullets usually results in slow growth and lack of weight in the flock and this means a high mortality rate and low egg production.

A combination of dried buttermilk and meat scraps is usually depended upon to furnish the animal protein portion of mash mixture.

Wheat bran is largely used in all chick mash. It is bulky but fairly digestible and has a laxative tendency which is beneficial. It is fairly high in protein.

In New York the Pacific Coast extra white eggs sell for more than the New Jersey and nearby extra whites. A good reputation is worth money.

Birds that should be culled are sure to show a loss in the future and the sooner they are sold, the greater will be the returns, in proportion to costs.

INVESTIGATE

The extensive and rapidly increasing industrial utilization of high grade RESIDUAL CHINA CLAY west of the Rocky Mountains.

Bear in mind that white sedimentary clays are very common in the United States but that large, clean, accessible and workable deposits of iron free, residual china clays are

VERY RARE AND VERY VALUABLE

American manufacturers are compelled to import nearly 500,000 tons of such rare clays annually, despite an import duty of \$2.50 per ton and an average landed price double the quotations on competitive domestic supplies.

Residual China Clay, comparable to the finest imported English China Clay exists near Troy, Idaho, in an immense blanket deposit, located on high ground, under shallow overburden, capable of cheap production, convenient to a swiftly growing western market.

We invite you to participate in this new industry by subscribing for stock at \$1.00 per share, fully paid and non-assessable.

Your Home Stores

Quoting from a circular sent out by a large chain store:

"From the days of the trading post the Farmer and the Storekeeper have fought side by side to push onward the frontier lines of civilization. Together they fought a winning battle against the wilderness; together they founded a nation.

"The Old Country Store—once the social and civic center of community life—has long since vanished, but the Merchant's responsibility to the community is as great as when all problems of common interest were settled around its pot-bellied stove."

Times have changed many things and Your Home Store is now a Department Store, where a wide variety of goods of quality are sold at reasonable prices. Yes, the old time country store has gone and many reading this will give thanks to the country merchant, who in the homestead days, by extending credit, made it possible for your forefathers to stay with the land until it began to produce.

The Chain Store and Mail Order Houses may have helped in these times, but were never pioneers. They came when the way had been made smooth and do not ask for your produce, and you must not ask them for credit even in times of need. They simply want your Cash, and in return, in many cases sell you goods that have been cheapened in order to make a lower price.

It is an established fact that the great mail order houses are now trying to get away from the fearful expense of the mail order business by establishing retail stores over the country.

Large chain stores and mail order houses with their high salaried officers and tremendous overhead expense Can Not and Do Not sell the same identical goods cheaper than Your Home Merchant, but sell goods that cause you to buy oftener, thereby, in the end costing you more money.

YOUR HOME MERCHANT

as a part of the community is a Home Owner and Taxpayer, rejoices in your success and sympathizes with you in your sorrows. He extends material help in times of need, and in so doing has not grown rich in money or in increased number of stores, but has helped to make the place in which he lives a center for the activities of the country surrounding the town in which he does business.

There are many other good things that could be said for "Your Home Merchant," and in order to find out all the "Reasons Why You Should Trade at Your Home Store," we will give \$5.00 in merchandise to the person giving us the greatest number of reasons. Number each reason and send them in not later than May 1st to the
