

KENDRICK WINS FROM JULIAETTA SUNDAY

Big Crowd To See First Game of The Season.

The ball game last Sunday between Juliaetta and Kendrick, played on the local diamond, more than came up to expectations. In spite of the fact that neither team has had much practice, plenty of thrills and classy plays were pulled off during the game.

It developed into a pitchers' battle between Fleshman and Albright. While Fleshman allowed nine hits, they were scattered except in the first inning, and as the game progressed he improved. In the seventh inning Kendrick bunched four hits and netted four runs. In the ninth Campbell relieved Albright.

Charlie White, Kendrick's star catcher, made three sensational putouts at home plate at critical stages of the game. Boyd in left field assisted with two perfect throws and Kulick on short deserves credit for the third.

Bill McCall distinguished himself on first with two fast plays, making a long running catch of a foul and stabbing a hot grounder for a put-out, that might otherwise have resulted in a score for the visitors.

E. Millard in right field for Juliaetta made a beautiful catch that again cut off chances for Kendrick runs.

Following is a resume of the game in detail:

Juliaetta	Ab	R	H	SO	E
K. Clark, ss.	5	0	1	0	0
Woody, 2b.	5	0	1	0	0
Carlson, c.	5	1	2	0	1
Estes, 1b	4	1	1	1	0
Schetzle, 3b.	4	0	1	2	3
F. Glenn, cf.	4	1	0	0	0
D. Glenn, lf.	4	0	1	0	0
E. Millard, rf.	4	1	2	0	0
Albright, p.	3	0	0	3	0
†Campbell, p.	1	0	0	1	0

Totals 38 4 9 7 4
†Campbell for Albright in 8th.

Kendrick	Ab	R	H	SO	E
Boyd, lf.	5	1	1	1	0
T. Eichner, 2b.	4	1	3	0	1
J. Fleshman, 3b.	4	2	1	1	1
McCall, 1b.	4	1	0	1	1
Kulick, ss.	4	0	1	1	3

Sold Troy Brick Plant

Troy News: At a special meeting of the stock holders of the Idaho Fire Brick company, held at the company's office last Monday afternoon, all but two shares of stock being represented, it was unanimously voted by all stock represented, that the offer of James F. McCarthy and associates be accepted and that the entire property and assets of the Idaho Fire Brick company be sold to them. Mr. McCarthy is president of the Hecla Mining company, of Wallace. Interested with him in the purchase of the local brick plant, it is understood, are Mr. Hale, president of the Coeur d'Alene Hardware & Foundry company, and several other prominent men of the mining district.

Letter From Mrs. Kelly

Mrs. K. R. Kelly, who taught the seventh and eighth grades in the Kendrick schools a number of years ago, writes from North Carolina as follows:

"I look forward each week to receiving my paper as a letter from home. I would not do without it.

"Our winter here has been quite severe for this country. We have had very little snow but so much cold wind and rain. But spring has surely come for I heard a whip-poor-will last week and today a great serenade from our annual mocking bird. The peach trees are all in pink and the pears in white, but no apple blooms yet. We are hoping for a good fruit crop this year as there was none last year. Spring here is late this year, not much in advance of Idaho.

"I have seen some great changes here, so many good roads, so many consolidated rural schools. There are few horses but plenty of mules in the fields. The black people are numerous and quite prosperous. Each has his car as a rule, but he plows with a mule.

"The great amount of vacant land and the poor soil are discouraging. So many white people have moved to the factory towns. Much of the farming is being done by negroes. There is more land for rent than there are renters to farm it. It is quite a discouraging condition for a farmer. Taxes are high and crops often poor.

"I am living a busy life caring for my mother. She has been seriously ill for a month with heart trouble. We hope for her partial recovery but her condition is not very encouraging. She is quite old and does not respond to treatment.

"Mrs. K. R. Kelly."

In a Mudhole at Midnight

Dr. and Mrs. Morehead had rather an unpleasant experience one night last week while returning from a call in the Southwick community, about midnight. Their car got stuck in a mudhole and settled down for the night. It was not far from the Carl Lohman place, so the doctor and his wife walked thru a drenching rain to the house where they were made comfortable for the balance of the night. Mr. and Mrs. Lohman were in Lewiston so the boys were hosts and in the morning got a fine breakfast for their guests. It was nearly noon before the car was finally pried out of the mud and headed for Kendrick.

HAPPENINGS IN THE CAMERON SECTION

Interesting News From This Live Little Village.

Friday, Wilma Schultz, Selma Hattung, LeVerne Spekker and Edward Rein went to Leland to take the state examinations.

Exams for the eighth month were given Thursday.

Last week the pupils were given a chance to make up any failing grades received during the term. Many availed themselves of this opportunity.

Most of the classes will have completed their text book by May 4. The remainder of the term will be devoted to extensive reviews.

George, Alex and Emil Larson and Fred Siffow, Jr. and sons, Marvin and Emil, attended the ball game in Kendrick, Sunday. After the game they drove to Bear ridge to visit with George Larson.

Charley Schultz and family attended the show in Kendrick, Sunday.

A. O. Wegner and family and George Ehlers and family were callers on Mrs. Albert Schultz Sunday evening.

Albert Schultz was taken to Lewiston, Wednesday, accompanied by Rev. Rein. He underwent an operation for appendicitis at the St. Joseph hospital. Mrs. Schultz went down Friday, with Mr. and Mrs. Leonard Wolff. She returned home Sunday. Mr. Schultz is recovering as well as could be expected. Mrs. Schultz went to Lewiston again Wednesday with Mr. and Mrs. A. O. Wegner.

Mr. and Mrs. Clarence Hewitt and sons, Everett and Donald, drove to Clarkston, Sunday, to visit with Mrs. Hewitt's parents, Mr. and Mrs. Thomas Phillips.

Otto Siffow and family visited at the home of Mr. and Mrs. O. Reiche.

On Saturday, Otto Schoeffler and wife drove to Grangeville to visit with friends. They returned Monday morning.

Rev. and Mrs. E. A. Rein enjoyed a visit over the week end from their friends, the Misses Amanda and Beota Just of Ritzville, Wash., and Miss Alma Rock, head nurse of St. Joseph hospital, Lewiston.

Rev. Ehlers of Lewiston came Sunday to visit with Rev. and Mrs. E. A. Rein.

Mr. and Mrs. O. Henry and son, Vernon, were callers at the homes of Rev. Rein and Grandma Schultz.

Vernon Davis is working for Albert Schultz now.

Henry Brammer and family and Herman Meyers and family took dinner with Mr. and Mrs. August Brammer, Sunday.

Carl Koehn and family and Henry Wendt and family called on Mr. and Mrs. August Brammer Sunday afternoon.

Mrs. Brunsiek enjoyed a visit from Mr. and Mrs. Chas. Thornton and family of Lewiston, and Mr. and Mrs. Bill Bleck of Southwick, Sunday.

Mrs. Carl Koepf motored to Lewiston with Mr. and Mrs. A. H. Blum, Wednesday.

Wm. and Herbert Mielke and Fred Neuman drove to Lewiston Tuesday on business.

Mrs. Carl Lohman went to Lewiston, Sunday, for medical treatment.

Mrs. Ida Stoneburner and Miss Emma Hartung entertained the following at dinner Sunday: Mr. and Mrs. Carl L. Wegner and children, Mildred, Selma and Edward; Mr. and Mrs. A. O. Wegner and children, Erna, Robert and Harry; Mr. and Mrs. George Ehlers and children, Hilga, Donald, Melvin and Howard; Miss Mari Schwarz and Grandma Wegner.

Carl Hartung and son, August, are doing construction work at Arrow Junction this week.

Grandma Schultz went to Lewiston, Sunday with Mr. and Mrs. Thornton to visit her son, Albert, who is in a Lewiston hospital.

Mrs. George Ehlers spent Wednesday afternoon with Mrs. Carl L. Wegner.

Mrs. Dottie Stanton of Lewiston was looking after property interests here last Saturday.

NEWS FROM THE KENDRICK SCHOOLS

Daily Doings in the Grades and High School

Those of the first grade receiving 100 in spelling every day last week were Ethel Frazer, Myrtle Humphrey, Quentin Dammarell, Harriet Ross, Lorraine Taber, Dick Carlson, Harry McNeal and Helen Gardner, and in the second grade were: Bill Schulze, Dwight Langdon and Phyllis Thomas.

The primary room is planning on giving a program in a few weeks, to which the parents and any friends interested in that work, may come.

The first grade has started on another reader, and the second grade will finish a reader this week and then take up a new one.

Class Play Next Wednesday

"The Little Clodhopper", a comedy drama will be presented by the Senior Class of the Kendrick High School, at the New Kendrick Theatre, Wednesday afternoon at 3:00 o'clock and Wednesday evening, April 25 at 8:00 o'clock.

Judy is a little clodhopper from the poorhouse. Her father deserted her years before but now is a rich man in a hospital in Texas. He writes to the scheming Mrs. Chiggerson-Boggs, who was the former matron of the poor house, and asks her to locate his lost child. Mrs. Boggs, knowing Judy is an heiress, determines to marry her to her son, George, but Carmian, who is in love with George, arranges that Judy shall appear as a thief. The theft, and Judy is accused. "I'll prove who's the thief—you or me". Then Boggs—but come and see for yourself in this catchy, active comedy with dramatic climaxes at the end of each act.

Cast of Characters:
September Green, a young book agent, full of pep, Robert Dammarell.

Ocey Gump, a fresh young country product, by heck!—Harold Parks.

George Chiggerson, an innocent little lamb from the city, Gerald Ingle.

Mrs. Chiggerson-Boggs, his doting mamma with a smooth scheme, Pearl Johnson.

Miss Julietta Bean, a Splinter-ville boarding house keeper, Margaret McDowell.

Charmian Carter, who thinks she's a vampire, Lizzie Jones.

Judy, a little clodhopper from the poor house, Hester Knepper.

Death of Mrs. Nancy Baker

"Grandma" Baker was born March 8, 1840, in Buchanan County, Kentucky. She was united in marriage to Thomas Baker, January 19, 1864, at Louisa, Kentucky. To this union nine children were born, seven of whom survive her. The living children are Mrs. Jane Hurlley of Lamar, Colorado; Frank and Harry Baker of Deary, Idaho; Mrs. Hattie Osborn and Mrs. Nettie Carlson of Deary, Idaho; Mrs. Vinnie Osborn of McCleary, Wash.; Bert of Greer, Idaho. Mr. Baker and two sons, Columbus and Edward preceded her in death. Sixty-two grandchildren and 48 great-grandchildren also survive her, nearly all of them being present at the funeral.

Mrs. Baker was 88 years old at the time of her death. Early in life she united with the Baptist church and lived a faithful, christian life to the end.

Funeral services were held at the United Brethren church on Texas ridge in charge of Rev. E. A. Jones, pastor of the Baptist church of Juliaetta. The body was laid to rest beside that of her husband in the Elmwood cemetery.

Rev. Jones gave the following tribute: "Grandma was ready to go home. What is earth's loss is heaven's gain, and the silver lining to this dark cloud resting upon her loved ones is in the fact that it is their privilege and will be their pleasure to join her in the Glory Land where there is no more parting or separation."

Dean Thompson Resigns

Dr. Francis A. Thompson, for the past 10 years dean of the school of mines at the University of Idaho, has accepted the presidency of the Montana school of mines at Butte, according to word received here from Helena Tuesday morning, says the Star-Mirror.

Dean Thompson probably will assume his new duties about July 1. Notice of his election was received by Dean Thompson from Melvin A. Brannon, chancellor of the greater University of Montana, following his election by the board of regents recently. The Butte institution is one of the few separate mining schools of the west, and is in the heart of one of the greatest mining areas in the entire world.

Baseball Dance Here Tonight

The management of the Kendrick baseball club will give a dance at the Fraternal Temple tonight. There will be good orchestra music for the occasion and everyone is assured of a jolly good time. Everybody is cordially invited to be present.

Birthday Party

Miss Jane Plummer entertained a few of her friends at a birthday party Monday evening. The color scheme was in orange and white with orange favors at each plate. Dainty refreshments were served. Those present were: Katherine Emery, Margaret Schulze, Margaret Daugherty, Jean Ramey, Phyllis Cummings, Evelyn Housley, Bessie Blevins, Edna Bolon, Annabel and Josephine Davis. The evening was spent playing games.

Stock Exchange Continues

Genesee News: A total of 29,419 shares, or 98 per cent of the common stock of the Washington Water Power company held in the west has been deposited for exchange for preferred stock of the American Power & Light Co., according to word received here. The closing date for depositing stock for exchange has been extended from March 31 to and including May 1. The Spokane and Eastern Trust Co. at Spokane is the western depository.

Under the terms of this offer holders of common stock of the Washington Water Power Co. will receive two and two-tenths shares of the American Power & Light preferred stock for each share of their common stock.

Mr. and Mrs. H. P. Hull returned on the afternoon train last Monday from Long Beach, California, where they spent the winter. Mr. Hull stated that Mr. and Mrs. James Emmett left before they did and were headed for Kendrick in their car. The Emmetts expect to spend the summer here.

New Seed House

Under the name, Lewiston Seed
Co., A. E. Wade, J. M. Reese, C.
H. Ede and eastern associates,
have arranged to enter the
wholesale and retail seed business
in Lewiston.

For the present they are open-
ing a store on the south side of
Main street, near the Alexander
Department store, opposite the
Breier building, and will have
railroad warehouses and cleaning
machinery as the business may
require.

A. E. Wade was for several
years agricultural agent for Lewis
county, but has had charge of the
seed and potato department of
the Duthie company since its
organization.

J. M. Reese has also been in
the employ of the Duthie com-
pany, having had charge of the
bean and warehouse department.
C. H. Ede is from Orofino,
Idaho, and was engaged in bank-
ing in that place for many years.

These people will be associated
with a large bean concern in the
east and plan to be prepared to
buy and ship beans in car load
lots in the bean growing sections
of the nearby territory. They
are experienced seedmen and will
keep on hand garden and field
seeds, also poultry feed and sup-
plies, giving special attention to
beans and seed potatoes.

They bespeak a share of the
business in their line. (Advt.)

Marcelling at Barber Shop

Every Thursday there will be
two ladies at the Kendrick bar-
ber shop who will do marcelling.
They come from the Idanha par-
lors at Lewiston and their work
is of the highest class. Phone
your appointments to the local
shop. Don't forget, Miss Mar-
garet Willows and Miss Georgine
Smith will be here every Thurs-
day. 16-1

WHAT FARM ACCOUNTING MEANT IN THE MANAGEMENT OF A FARM

**Successful Farmer Tells How Pencil Helped Guide His
Operations and Swell His Income—An Aid to
Better Credit—Shows Profits and
Prevents Losses.**

THE owner and operator of one of the most successful dairy farms in Wisconsin prepared recently for the Agricultural Commission of the American Bankers Association a first hand statement of the part farm accounting has played in the management of his enterprise. This operator, W. J. Dougan, tells the following story:

"When I started farming I began keeping a simple cash account, but soon found that it was not sufficient accounting for farm purposes. Such a record did not take into consideration the vital factors of improvements, growth of livestock or depreciation.

"Since 1910 I have kept a complete account on the accrual basis. The accounts, however, are no more than any farmer can easily keep. The outstanding benefits from keeping such accounts might be listed as follows:

The Way It Works

"1. Income tax reports made easier.—Accurate and dependable income tax reports can be made from the yearly accounts. By keeping them on file I am always ready to satisfy the tax inspectors.

"2. Accounting makes possible a budget system.—With the accumulated data of the past years, I can make out the budget for the coming year. The income being fairly stable, the budget problem is to adjust the expenditures. If one branch of the business will need extraordinary expenditures such as new machinery, there must be a cut in some other branch, such as building or livestock purchased, or fencing.

"3. Accounting gives a true basis for credit.—Especially has accounting meant for me larger credit and happy relations with my banker. With a

complete financial statement before him the banker can intelligently determine what credit I should have. With a full knowledge of the farm profits in the past, I know what credit I should accept. No farmer or business man should accept credit from his bank unless he is able to put the money into productive investment, and his margin of profit assures the ability to repay the loan within a reasonable time.

"For the farm this reasonable time cannot be three or six months. The farm turnover is too slow for that. A helpful and just period of farm credit for working capital must be from one to four years.

"There is another benefit from accounting—the benefit of knowing whether one is going up or down. By extra sales one might be flush of money and buy heavily, thinking he is coming out ahead, but in reality he is sacrificing the future. On the other hand, one might feel pinched, and have little money to spend, but in reality he is laying up capital."

The bankers Agricultural Commission has suggested the following form of farm credit statement, indicating the records necessary to be kept:

SUGGESTED FARM CREDIT STATEMENT
(Adapted from blank used by Federal Reserve Bank, Chicago)
One Of The First Important Factors In Farm Accounting

[illegible]

COUNTY KEY BANKERS

Who are they? County representatives of the agricultural committee of the state bankers association. By whom appointed? Preferably by the agricultural committee in cooperation with the President and Secretary of the State Bankers Association, and the Extension Director of the College of Agriculture. What are their duties?

1. To get in touch with each bank in their respective counties and get a line on what each is doing agriculturally.
2. To represent the agricultural committee of the state association in any county matters pertaining to agriculture in which banks or the bankers association are interested.
3. To serve as the medium through which the assistance of banks of the county can be obtained to meet an emergency such as a sudden outbreak of disease or insect pest.

4. To be responsible for interesting the banks of the county in one or more of the agricultural projects approved jointly by the state committee and the college of agriculture.

1. By correspondence.
2. Present projects or plans at county banker meetings.
3. Make personal visits to banks of the county, preferably in company with the county agent.

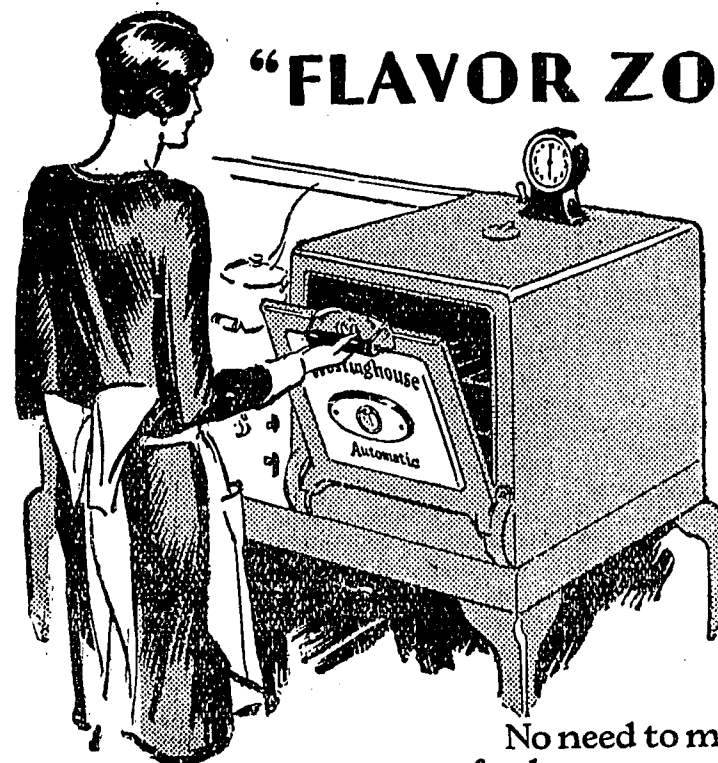

Kentucky's Purebred Sire Special, sponsored by the Kentucky Bankers Association, left Louisville recently, making morning, noon, and afternoon stops every day. Besides exchanging a purebred sire for a scrub bull at every station, registered heifers, gilts, sheep, and pens of purebred poultry were to be given away. Exhibits and discussions, together with the preparatory work in which over 500 people are engaged, should stimulate raising the average production of Kentucky livestock, according to F. C. Dorsey, of Louisville, Representative of the Agricultural Commission American Bankers Association.

Prepare Now For The Hot Weather

By having a Westinghouse Automatic Electric Range installed in your home. The hot weather will not bother you then--Your kitchen will be Cool, Clean, Convenient and more Economical.

You can forget your roast
with the automatic
 "FLAVOR ZONE" oven

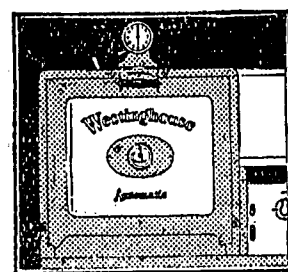

No need to manually labor and fuss for hours over a roast or oven dinner any more.

The Westinghouse FLAVOR ZONE oven browns and cooks *automatically*—without the least attention.

Just put your dinner—roast and vegetables—in the oven, make two simple adjustments, and then forget it. Don't go near the oven—don't touch the roast—until dinner time.

No other range, either fuel or electric, can perform first the browning and then the cooking operation under full automatic control. No other range can give you such complete freedom from the kitchen.

Come in and let us demonstrate this new and better cookery. No obligation.

Westinghouse

THE ONLY RANGE WITH THE
AUTOMATIC FLAVOR ZONE OVER

Special!

For a
Short
Time
ONLY!

is all you need to pay to have a Westinghouse Full Automatic Electric Range installed in your home and we give you a long time in which to pay the balance.

Westinghouse Automatic Electric Iron FREE

In addition to the reduced price during this sale of Westinghouse Electric Ranges, we give absolutely FREE with each range purchased, one Westinghouse Automatic Electric Iron. This iron sells regularly at \$7.50.

We will take your old stove as part payment on a Westinghouse Electric Range.

Crop Rotation Aids Beekeeper

Sweet Clover Termed One
of Best and Most Reliable
Plants for Honey.

Crop rotation and soil improvement programs, while not primarily intended to benefit the beekeeper, have nevertheless been very greatly to his advantage in Ohio, Virgil N. Argo, specialist in apiculture for Ohio State university, points out. One result of the progressive farming methods has been a very great increase in the Ohio acreage of sweet clover, which Argo characterizes as "one of the best and most reliable of all honey plants." The acreage of sweet clover in Ohio has increased in the last decade from about 100,000 acres to between 300,000 and 350,000 acres.

Honey-Producing Areas.
"Originally," Argo says, "there were two natural honey-producing areas in the state. Almost all the western half, covered with a glacial soil derived from limestone, supported the growth of clovers, and there were

crops of alsike and white clover honey each year. In the northeastern corner of the state was the buckwheat section.

"Improved methods of agriculture have enlarged these nectar sources. In western Ohio there has been a remarkable increase in the use of sweet clover. It gives a honey of exceptionally fine flavor and appearance and yields nectar every year. In northeastern Ohio there has been an increase in the use of lime as a soil treatment, with more and more land planted to alsike and white clover. Even the buckwheat area of the state now produces heavy crops of clover honey when weather conditions are favorable.

Taste of Clover Honey.
"Sweet clover honey has a distinctive spicy taste not found in white clover and alsike honeys. Buckwheat honey, the darkest on the market in this country, has a very strong flavor and is preferred by some persons, but there is not such a market demand for it as for the clover honeys."

New Type Feed Grinders Becoming Very Popular

The last ten years has seen a very significant change in the design and construction of small feed grinders. In years gone by practically the only type which was available to the farmer was the burr type, which worked very satisfactorily and of which thousands were sold and put into successful use.

The new type, however, that is coming into use seems to be very popular. It is known as the hammer mill and differs from the burr mill in having swinging hammers which strike the material to be ground and crush it much as a baseball bat would crush an apple if it were swung at it. These hammers are mounted on a rotating cylinder and are rather numerous, so that not very much of the material gets away. The hammers are made of manganese steel, a very hard substance, strongly resistant to wear.

The degree of fineness to which material is ground is regulated by screens at the bottom through which the material can pass. So long as it is not fine enough to pass through the screens, it will be subjected to the action of the hammers until finally it is reduced to required fineness.

Easy to Capture Rats While They Are Young

Rats, like the poor, we have always with us, but it is at this season that they are generally thickest, owing to the 100 per cent results of their breeding. Fortunately, however, the adolescents among them can very nearly always be caught if only a regular campaign is undertaken

N. E. Walker

Kendrick - Idaho

against them. This is a good method: Cut some corks up into pieces the size of small peas and fry the fragments well in bacon fat or lard. Dish out the result into a tin plate and leave this near the creatures' haunts (though don't let your household pets or chickens get at the stuff). The younger rats will eat greedily thereof and perish in consequence.

Hints for the Farm

Gulleys in an eroded field are the ear-marks of shiftless farming.

Cod liver oil fed to hens that are housed closely during winter helps keep up egg production.

Fifty cents' worth of acid phosphate added to a ton of manure makes it worth two tons of manure.

The successful farmer of today is the farmer who uses power successfully. One-mule farming is too inefficient to pay.

Best results are obtained when lime for alfalfa is applied before the seed is sowed if the soil is sour, for lime acts slowly.

Sweet clover may be seeded during the winter months when the soil is honeycombed from freezing and thawing. Under most conditions, it is best to seed the crop in the spring either alone or with oats as a nurse crop. When the crop is seeded during the winter, nonscarified seed should be used. For spring seeding, the scarified seed is preferable.

Turkeys on Farm Means an Additional Revenue

Turkeys on every farm will mean additional revenue for the many necessities needed on the farm. An increased production will not lower prices, for during the past three years in all of the large cities campaigns have been put on by the leading produce men urging the consumption of turkeys during the entire winter season and not just a holiday feast. The success of this campaign last season shows that people are anxious to eat turkey any time, for on August 1 there was less than two and one-half million pounds of turkey in storage. Most of this will be consumed before the 1927 crop is sent to market. With the same demands of last season turkeys should bring an exceptionally high market price this fall and winter.

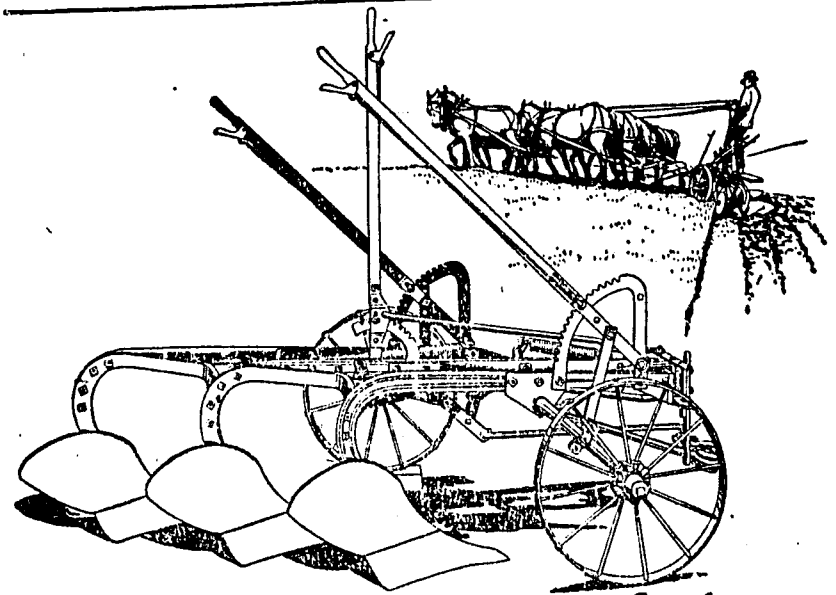

For Turkey Fattening Ration Use Much Grain

The North Dakota experiment station gives a good home mixed turkey ration which consists of 100 pounds ground barley, 100 pounds ground oats, 100 pounds ground wheat and 50 pounds of meat scraps. If this ration is kept before the turkeys in a self-feeder at all times with a feeding of grain at night, it will do much toward increasing the returns at market time.

Milk makes a fine food, and if not available, meat scraps, tankage or dried buttermilk are fine protein foods. The animal protein fits in best with other feeds at the rate of 15 per cent to 25 per cent of ground feeds.

Cull Flock Closely

Culling the flock closely will not only save feed and labor, but it will also help to remove crowded conditions that often prevail on account of the growing young flock. The disposal of cockerels is often advisable for a similar reason. It is better to keep a small flock of birds that pay their way than to keep a large flock in which there are a lot of drones that eat up the profit made by good birds. Birds that should be culled are sure to show a loss in the future.

It's Your Duty to Investigate This Plow

Before you buy a new plow it's your duty to investigate this sensational new gang. Old plowmen in the Palouse Country say this is the best plow they have ever worked with. You'll be sure to like its work and you'll appreciate its advantages. It's the

New John Deere Steel Gang

The John Deere New Steel Gang is designed especially to meet the needs of the farmers of the Pacific Northwest by the most skilled plow-makers in the world. Behind this plow is the experience of almost a century in the manufacture of steel plows.

Two of the outstanding advantages that are responsible for the better performance of the New John Deere Steel Gang are the easy-handling and light draft. Levers within convenient reach have a big range of adjustment and are exceptionally easy to operate, any boy can handle them easily.

Because of its wide wheel base and special hitch adjustment, the New John Deere Steel Gang holds to its work on hillsides.

This plow has unusual clearance—23 inches from beam to share point—which permits work in trashy conditions.

The strong steel beams are guaranteed not to bend or break. Stagger spokes give the wheels greater strength and durability.

Remember, the John Deere Steel Gang is equipped with genuine John Deere steel or chilled bottoms, the world's standard for clean-scouring, pulverizing and long wear.

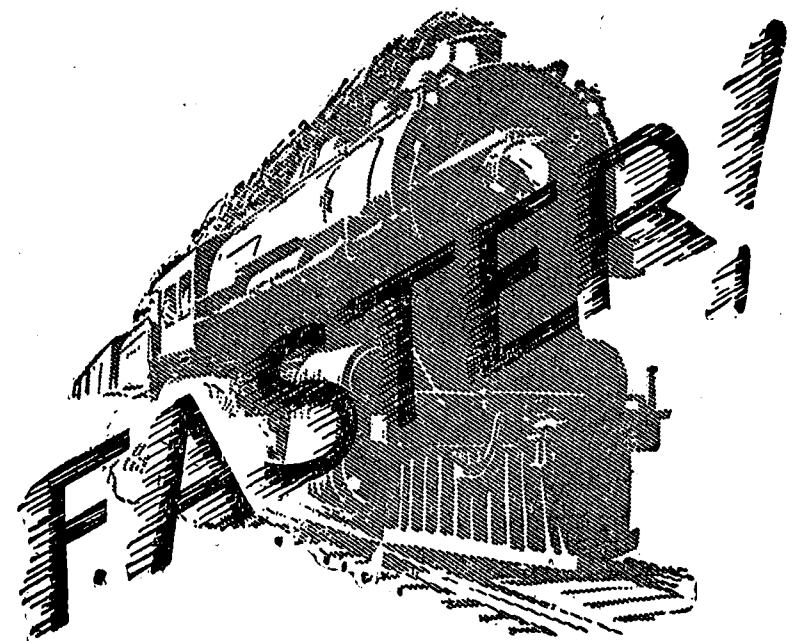

Inspect this sensational new plow at our store.

Cletrac, The New and Better Crawler Tractor

The only tractor dependable the year round. Does any job, goes anywhere, any time and never tires out. Your farm drudgery will be a thing of the past. You will be done farming with a Cletrac while your neighbor hardens in his horses and gets ready for that slow, old way. Do your plowing, harrowing, disking; cultivate beans, drill wheat. The Cletrac leaves no solid packed wheel tracks.

Late models come with much larger track pins and sleeves, heavier shafts, larger track shoes. Models W12-20, K15-25, A30, Model 40 and Model 100.

I also have several used wheel tractors at a bargain.

I also handle Baldwin Combines, both pull and pack models; new Oliver plows and discs, Superior drills, at reasonable prices.

SAVE LEGUME HAY FOR WINTER FEED

Save about six pounds of good
legume hay for every bird in your
poultry flock for use this winter.

For legume hay, especially if it is
leafy and of good quality, makes an
excellent winter substitute for the
succulent green food hens like so well
during the summer. Feeding trials at
the Ohio agricultural experiment
station, Wooster, have demonstrated
the truth of this, according to the ex-
perimenters, D. C. Kennard and R. M.
Bothke.

Alfalfa, red clover, and soy bean
hays appear to be about equally val-
uable. Regardless of the kind, it is
necessary that the hay be made of the
immature plant, so as to carry a
large proportion of leafy material,
especially valuable for chickens.

The hay must be carefully cured
without getting wet, the scientists
suggest, so that it will hold its bright
green color. This insures retention of
its valuable water-soluble constitu-
ents. Usually the second or third cut-
ting of alfalfa and clover is best. Soy
bean hay is best cut when the seeds
are just beginning to form in the
pods.

Perhaps the best way to feed hay to
poultry is to cut it in half-inch
lengths. It can then be put into a
wire-netting basket feeder and kept
before the birds all the time. Uncut
hay may be put into feeding racks
made of plaster lath placed vertically
2 inches apart. Still another way is
to tie the hay in a bundle and suspend
it from the ceiling so as to be 5 or
6 inches from the floor.

Examine Bands on Wings and Legs of Chickens

Don't forget the pedigree stock
these days. They are your best chicks.
Examine the legbands and wingbands
to see that they are not cutting into
the flesh and that none of the bands
have worked loose and are likely to
be lost.

Some breeders use legbands for the
first few weeks of the chicks' lives
and later transfer these bands to the
wings. If this practice is followed on
your farm, see that this rebanding
time has not gone too long and that
the bands are not cutting into the
shanks. If it is not convenient to
change these bands to the wings just
now, loosen them enough so the legs
will not be injured and the bands will
not drop off.

Other breeders put the bands right
in the wings when the chicks are
hatched. Catch up these chicks and
look over the condition of these wings
and bands. They may have been
pinched too tightly at the start or for
some reason may be partly torn out.
Many of these bands may have to be
loosened and some may have to be
tightened. Make a practice of ex-
amining the condition of the bands
every three weeks.

Coccidiosis Symptoms

Weakness, ruffled feathers, drowsi-
ness, and sometimes bloody droppings,
are outward symptoms of coccidiosis.
Perform a post-mortem and examine
the intestines. If the blind pouches
are enlarged and filled with a firm
cheesy material, that is an additional
symptom of coccidiosis. Some feeding
experiments have proven that a diet
of nothing but buttermilk may be
helpful in controlling this disease. A
practical method is to kill all badly
diseased chicks.

Soft-Shelled Eggs

Soft-shelled eggs may be prevented
first by seeing the hens get plenty of
minerals. This is accomplished by
having both oyster shells and cracked
rock known as hens grit in front of
the hens constantly and by feeding a
dry mash which contains about 20
per cent beef scraps. In case you are
using milk in place of beef scraps,
add about 5 per cent of what the
packers call raw bone meal. This
will keep indefinitely if kept cov-
ered up.

Laying Supplements

The best supplement to any ration
is direct sunlight and green feed, ac-
cording to tests conducted by the
Ohio experiment station. Successful
feeding for egg production depended
largely upon the use during late fall
and winter of alfalfa, clover, soy
bean hay and cod liver oil as supple-
ments. Grains and their by-products
and packing house by-products do not
usually make a complete ration. The
legume hays improved the hatchability
of eggs.

Quick Leap Year Work by These Girls

These five young ladies, employees of one department store in Cincinnati, appear to have taken quick advantage of their leap year privileges, for they are all displaying engagement rings. Left to right, they are: Martha Her-
web, Lola Keltz, Myra Duffy, Gladys Walter and Rae Beer.

results Speak louder than words!

WORDS never plowed a piece of land nor
harvested a crop! Every claim for bet-
ter, quicker, cheaper farming can truth-
fully be made for "Caterpillar" Tractors, but
its the results . . . the profit making expe-
riences of hundreds of "Caterpillar" owners in
Idaho and Washington . . . that SHOUT in
favor of this superior farm power, and MEAN
THE MOST to the farmer who wants to re-
duce his operating costs and still increase his
farm profits.

And yet another proof of this superiority is the
manner in which "Caterpillar" always wins the
hearty approval of farmers when placed in dem-
onstration against tractors of other makes.

The first three months of 1928 saw more than
5 times the number of "Caterpillar" Tractors
delivered to Inland Empire farmers than during
the same period of 1927.

Ask These

"Caterpillar" Owners

Mr. Jarvis, principal of the Kendrick schools, made a week-end trip to South Idaho, leaving here last Friday afternoon and returning Sunday night.

Mrs. Ray Snyder and children of Grangeville, visited at the home of Mr. and Mrs. J. G. Gardner last Friday and Saturday.

James Calkins of Spokane visited his sister, Mrs. Ralph Knepper, over the week end.

Frank Nesbit, local druggist, is driving a new Chrysler sedan, which he purchased last Saturday.

Orphie Hupp of Spokane visited relatives in this community the first of the week.

Vic Casebolt of Bovill spent Sunday here visiting with Jack Barnes. Mr. Casebolt has charge of the office of the Washington Water Power Co. at Bovill.

Wayne Herres of Lewiston spent Sunday here visiting his parents, Mr. and Mrs. L. J. Herres.

Duke Patterson of Lewiston was transacting business in Kendrick, Tuesday of this week.

Registrars in the Potlatch community of Nez Perce county were appointed for the primary election as follows: Southwick, Mrs. John Stalnaker; Leland, Mrs. Robert Smith; Lenore, Mrs. C. F. Hersy; Myrtle, Mrs. Verna McKay.

John Dammarell is having an old shed on the corner of his residence property, torn down and a neat garage erected in its place. It will materially improve the appearance of the property.

Mr. and Mrs. John Hamley of Pendleton were visiting friends in Kendrick a short time Tuesday. Mr. Hamley is a former Kendrick resident, leaving here after the fire in 1911. He has turned the management of his business in Pendleton to his sons and says he expects to devote the rest of his life to playing golf.

Frank Lyons and Arley Allen were transacting business in Moscow the first of the week.

Miss Georgine Smith of Leland spent last Friday and Saturday in Kendrick visiting Hester Knepper and Irene Davis.

Mrs. Lester Taber was a Moscow visitor Tuesday morning.

Born to Mr. and Mrs. Edwin Brandon, Friday, April 13, a son.

Mrs. R. H. Ramey expects to leave today for Wenatchee to spend a few days with friends.

Last Friday afternoon Mrs. Hugh Thompson entertained a number of little folks at her home to celebrate her son John's birthday. Games furnished amusement after which dainty refreshments were served.

Truck And Car Collide

A Ford roadster driven by Otto Schupfer, and a truck driven by Alva Craig, ran together at the drug store corner in Kendrick yesterday morning. Both the car and truck were considerably damaged, but no one was seriously injured. Mrs. Marvin Long, sister of Mr. Schupfer, was thrown from the car by the impact and suffered a slightly wrenched back, but was otherwise not injured.

Mr. Schupfer was driving east on Main Street and Mr. Craig was turning the corner at the drug store to go west when the collision occurred. Both motor vehicles were taken to garages for repairs.

Petition For Nez Perce Bonds

Petitions are being circulated throughout Nez Perce county by farmers interested in the road improvement program for the rural districts, the plan being to file with the board of county commissioners such a representative list of petitioners as to warrant the calling of a special bond election to submit to the voters the proposal of increasing the county bond debt \$240,000, says the Tribune. The present county bond debt is \$400,000 but the county has on hand a sinking fund of approximately \$200,000.

The county bond debt is retired by moneys received from automobile licenses and the revenues from this source are now sufficient to increase the bonded debt by \$240,000 without imposing any additional burden on the

taxpayers. The county last year received \$67,619.96 as its part of the automobile licenses which was an increase of \$11,275.77 over the revenues of 1926. For the first three months of 1928, the county has received \$51,622.38, which is an increase of \$3,305.70 over the receipts of the first three months of 1927.

Basing interest on the proposed bond issue at five per cent with a five per cent sinking fund, the receipts of the county for 1927 would be sufficient to handle a total bond issue of \$676,196.60 and with increasing revenues in sight for 1928, the county taxpayers will be assured of having the enlarged bond issue entirely retired by the receipts of auto licenses. The recent sale of bonds by the city of Lewiston was on the basis of a 4½ per cent interest rate and it is expected the county will be able to secure as favorable an offer as the city of Lewiston.

The funds secured by the proposed issue of \$240,000 are to be divided between the rural roads and the Lewis and Clark highway in Nez Perce county. It has been agreed that a fund of \$100,000 will be immediately made available for the improvement of the rural roads and that it will be divided between the districts of the county on the basis of assessed valuation. If the bond issue is successful, this money will be available for road improvement before bad weather of winter sets in. Many of the districts are already planning their improvement programs, feeling there will be no objections to the bond issue since the plan will result in no increase in the taxes.

School Election Tomorrow

The annual school election will be held tomorrow afternoon at the school house in Kendrick at 1 o'clock, according to a notice in this issue of the Gazette. One trustee will be elected to serve a term of three years. The length of time school will be taught and the amount of the levy for next year will also be decided. It is hoped that there will be a good attendance at this meeting.

To Pomeroy Next Sunday

The Kendrick ball team will journey to Pomeroy next Sunday to have it out with that fast ag-

gregation. Local fans feel that their chances of winning are good. A big crowd is expected to follow the team and give the boys loyal support. It has been suggested that the fans who are going to see the game, take a lunch along and have a big picnic dinner in the Pomeroy park. If the weather is favorable the idea will probably be carried out.

Woodmen Lodge Notes

Last Wednesday evening the local Woodmen Lodge took in 13 new members. They will receive their final initiation at the big meeting to be held on Lewiston Hill, May 1. At this time it is expected that at least 150 Woodmen in the Lewiston district will be initiated.

On May 2 the district convention will be held in Kendrick, starting in the morning at 10 o'clock with a business meeting. In the afternoon there will be sports and probably a ball game. A banquet will be held at the Fraternal Temple in the evening.

Porcelainware From Troy Clay

A number of very fine samples of experimental porcelain ware produced by the H. F. Coors Co. of Inglewood, California, from a quantity of clay refined in the laboratory of the Idaho Ceramic Materials Company, are on display at Perryman's Confectionery.

A letter from the manufacturer which accompanied the shipment is quoted in part as follows: "Briefly, Troy clay was used as direct substitute for English china clay in our regular body and the results were very interesting and pleasing, bearing out the chemical analysis of your minus two hundred mesh material in that it is far more refractory than the English clay. This is not a detriment but in many cases would be a distinct advantage. Because of its refractory qualities, the body did not mature at our heat, 2500 degree F., but this condition could easily be remedied by manipulation of the other ingredients. No work has been done along this line as yet, the entire test being a direct substitution of the clay only. Another advantage your clay has over the English is, that it is more plastic and possesses considerable drying strength which

is a quality almost absent in the case of English clay."

The fine results obtained by direct substitution by the H. F. Coors Company, manufacturers of the finest porcelain ware on Pacific Coast, indicate conclusively that China Clay from the Troy district can readily be substituted for the renowned English China Clay and that its use will improve the ware.

In the opinion of competent opinions, the Idaho Ceramic Materials Company controls the largest, cleanest, richest, most accessible and easily and cheaply worked deposit of Residual China Clay in the U. S.—Contributed.

Harmonica Playing Contest

The management of the New Kendrick Theatre has been requested by several harmonica or mouth harp players to stage a contest. There are several real artists around these parts on the mouth harp and they will be given a chance to do their stuff on Friday night, May 4, at the theatre. So enter your name now. A list of contestants will be published next week.

Rev. L. E. Taber of Kendrick and Mrs. Mary McCall of Juliaetta have requested that their names be entered as soon as the date was set. 16-1

Great Mail Robbery at Kendrick

"The Great Mail Robbery" to be shown at the New Kendrick Theatre, tonight only, is a thriller from start to finish. It shows a gang of bandits attacking one of the fast U. S. mail trains and the U. S. Marines and Air Forces are called into action to protect the mails. Full of action and has a splendid story interwoven. Saturday Night, we will show "Subway Sadie" a comedy riot. More fun than the "Cohens and the Kelly's". 16-1

Get a marcel next Thursday at the Kendrick Barber Shop. Margaret Willows and Georgia Smith of Lewiston in attendance. 16-1

GENERAL REPAIR SHOP

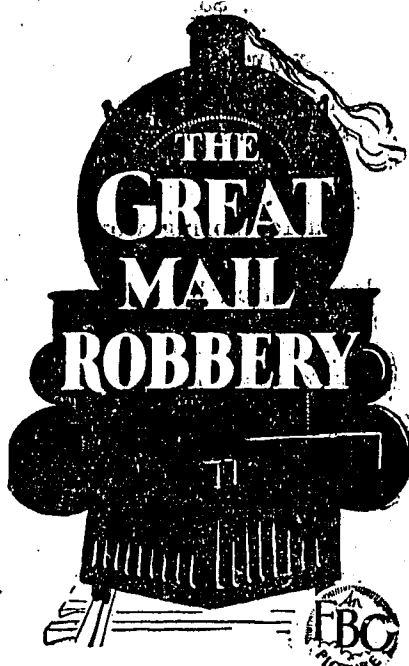

Blacksmithing, Wood Work, Tire Setting, Wagon or Autos, Disc Sharpening, Machine and Gun Repairing.

FRANK CROCKER

Tonight Only

One of Exciting Railroad Stories---

A blood tingling thrill packed drama!

Never before has so many thrills been crammed into one picture. See the giant locomotive of the fast mail train come to a groaning stop the dynamited tracks fly skyward. See the airplanes and U. S. Marines fight to save the mails from the bandit gang.

A picture that will put you on your toes!

Saturday ONLY

You'll laugh 'til you tear a ribe loose!

Charlie Murray, Dorothy Mackall, Jack Mulhall

It's a scream all the way thru!

Don't Miss It!

Sunday Afternoon Show

Will start after the Baseball game is over between Juliaetta and Genesee. You will have time to get here and still see the ball game. Good picture, don't miss it.
