

## INTERESTING ITEMS FROM JULIAETTA

### Julietta School and Home Burn

Fire of unknown origin that started in an outbuilding at the Charles Noble residence Sunday, swept through his chicken house, wood shed, cellar and house, leaving nothing but a heap of ashes. All furniture was saved, but owing to his nearness to the city reservoir he did not have water force enough to fight the fire, which, according to Mr. Noble, could have been put out with a garden hose if the pressure had been as great as it is down town.

A heavy wind carried burning shingles to all parts of the town, some settling on the roof of the frame school structure. Before firemen could shift to meet the new emergency the school building was burning furiously.

Nobles carried \$1500.00 insurance on the house and barn, which latter was saved, but none on the furniture. Insurance on the \$18,500.00 school amounts to \$12,500.00. The piano, two heaters, the laboratory equipment and some of the library were rescued from the school building.

Additional damage was done to the Oriel Dumbauld residence near the school. The house had been repainted recently and was badly blistered by the intense heat. Fruit trees and flowers were scorched for several living near the school.

School directors of this district and of the Pilot Rock district are considering consolidation before rebuilding here. Lack of pupils will cause the Pilot Rock district to lose its school, if they do not consolidate. Rebuilding will be done this summer, regardless of the Pilot Rock action.

### Julietta Wins Two Games

For the fourth time this season Julietta took the game from Kendrick, at Kendrick, on Saturday, the score being 17 to 12. Julietta players made three home runs while Kendrick was credited with only one. Julietta made a total of 18 hits while Kendrick made but 10.

Two-base hits were made by Blum, Fleishman, Eichner, E. Millard, Levitt, Wilcox, A. Gruell and R. Millard. Three-base hits—Levitt 1, A. Gruell 1.

Struck out—By Albright 2, Gruell 4, Fleishman 4, Dammarrell 2, Rubens 4, Kennedy 1.

Score by innings:

Innings	1	2	3	4	5	6	7	8	9	R
Julietta	2	2	0	4	0	2	3	0	4	17
Kendrick	3	1	0	4	1	0	3	0	12	

Julietta won from Potlatch in a fast game on Sunday, at Potlatch, in which Julietta made 14 hits to three for Potlatch. Julietta bunched hits in the fourth and eighth innings, for three runs each inning and also made one run each in the first and second innings. Potlatch, with a base on balls, two hits and an error, were only able to score in the fourth inning. These two hits, with one made by the first man up in the first inning, were all the hits they could gather off Tylden.

Levitt went in at the start of the sixth inning and held them without a hit or run the balance of the game, only two men reaching first base. One was hit and one by a base on balls, but they could not get to second.

The score by innings:

Innings	1	2	3	4	5	6	7	8	9	R
Potlatch	0	0	0	3	0	0	0	0	0	3
Julietta	1	1	3	0	0	0	3	0	14	

Struck out—By Tylden 4, Levitt 2, B. Egan 5, Elsea 2. Base on balls—Off B. Egan 1, Tylden 2, Levitt 1.

Two-base hits—Levitt 1, Tylden 2. Three-base hit—Andrews 1.

### Fishing Trip

Four carloads of fishermen left Wednesday for the Salmon river country for a ten-days fishing trip. Among them were Mr. and Mrs. Herb Millard and children, Mr. and Mrs. Fred Nye and children, Mr. and Mrs. Floyd Millard and children and Blaine Groselose.

### Children's Day Program

All Sunday schools have been invited to unite with the Methodist school on Sunday, June 14, in observance of Children's Day. Each school is asked to bring two numbers for the program.

A basket dinner will be served at noon in the basement of the church and on the church lawn. Coffee will be furnished by the Methodist school. Everyone is cordially invited to attend.

## Pioneer Picnic at Peck

Peck this year will hold their pioneer picnic on Friday, June 12, to which the entire countryside is invited. There will be sports of various kinds including a big baseball game in the afternoon at 2:30. There will also be a baby show, and many other features of an entertaining nature.

Peck extends a cordial invitation to the entire world to come and help them celebrate the day. You'll enjoy it!

## W. W. P. COMPANY TO REDUCE RATES

Reductions in residential and commercial lighting rates in the suburban territory outside of Spokane will be put into effect July 1, and will result in a saving of about \$150,000 a year to customers, according to the announcement today of Frank T. Post, president of the Washington Water Power Company. The rate reduction is the result of the increased use of electric service in the territory served by the company. Definite statistics on the new rates will be announced later.

At the stockholders' meeting held Monday afternoon Mr. Post made the following announcement:

"For several years it has been the policy of this company to have uniform rate schedules for all cities, towns, and communities except Spokane and Coeur d'Alene.

"For several weeks our rate engineers have been studying and analyzing our uniform rate schedules in the light of the increased uses of electric energy and the increased purchases of kilowatt-hours, with a view of determining whether or not our company would be justified in making certain rate reductions in our uniform schedules of rates. I am pleased to announce that with the approval of the Board of Trustees such reductions will be made in our uniform residential rates to be effective on July 1, of this year."

The rate schedules to be put in effect on July 1 will result in an annual saving to our customers of about \$150,000 a year.

## More Improvements

That the spirit of "clean up, paint up" has hit Kendrick is becoming more evident as time goes on. Last week we gave a small list of improvements to residence property in Kendrick and this week we add five more.

Tom Long, W. A. Perryman, E. E. McDowell and Mrs. Pemberton have all given their homes a coat of paint, which not only improves the looks but adds to the value of them.

Albert Kuykendall has improved his home property very materially by digging down the hill at the back and making a filled-in driveway. The job is very neatly done and adds much to the looks of his place.

There are few towns the size of Kendrick that have residents that keep their home any neater than the majority of the people of Kendrick.

The people take pride in their homes and naturally, a pride in their town—and ours.

## Suffers Painful Accident

Raymond Frazier was badly injured last Saturday while working on the Brocke place, when the tractor he was driving upset and he was pinned beneath. The muscles on his right forearm were torn to the bone and one small bone in his right hand was fractured.

He was taken to a Moscow hospital the same afternoon where an attempt was made to repair the damage. It is not known at this time whether it will be necessary to amputate the arm below the elbow.

## Hot Weather Hurt Wheat

The hot weather during the forepart of the week did some damage to growing grain in some sections, but with cooler weather it is thought the damage will not be great.

Most of the bean planting has been done and the farmers report that there is considerable moisture in the ground that has been kept well stirred, but that where it has been allowed to remain still there is but little moisture.

## Oscar Hartung Injures Knee

While working on a barn at the Wm. Wolff place last week Oscar Hartung fell from the barn, striking his right leg on a sharp rock, causing a deep laceration just below the knee. Six clips were required to close the wound.

## MAGPIE CONTEST DRAWS TO CLOSE—3155 EGGS HEADS

The magpie contest that has been going on for the past several weeks came to a close on Monday, June 1, with a total of 3155 eggs and heads of predatory birds having been brought in by the boys taking part.

These contests have been going on for the past three years, with a total of 10,977 eggs and heads having been brought in during the three contests. Taking these into consideration and the probable increase from all of them during the three years, it is readily seen that many thousands of birds have been stopped.

Most of the contestants have signified their intention to attend the meeting of the Kendrick Commercial club, to be held in the basement of the Methodist church next Monday evening, June 8, at 6:30 o'clock, when dinner will be served by the ladies aid of that church, at which time the prizes and trophy money will be given the contestants.

There will be a short musical program given by boys and girls from

out of town and several members of the Izaak Walton League of Moscow will be present and make short addresses. This is expected to be a very pleasant and entertaining meeting and everyone interested in the doings of the club and the betterment of our little city and the entire surrounding country, should be present.

Sherwin Schmidt is again high man in the contest, having brought in a total of 924 eggs and heads, giving him 1354 points. Sherwin lead in the contest last year with a total of 575 eggs and heads, while in 1929 Clarence Heimgartner was in the lead, with 1635 eggs and heads to his credit, when a total of 5861 eggs and heads were brought in by the contestants.

The total bounty amounted to \$31.55.

Schedule of points: Magpie eggs, 1 point each; magpie heads, 2 points each; hawk eggs, 15 points each; hawk heads, 30 points each.

Following is the names of contestants and the number of eggs and heads brought in during the present contest:

	M.P.	M.P.	Hwk.	Hwk.	Ttl.

## Nevada Has Another "Scourge"

A news dispatch from Reno says that millions of new-born grasshoppers are visiting that part of the country and are attacking crops of all kinds. The dispatch says that the farmers and agricultural experts are battling the pests.

The worst of the infestations in this state is in Lake valley, on the shores of Lake Tahoe, where grass on 400 acres has been eaten by the pests. A mass of the insects 50 feet wide and a half mile long, all crawling in one direction, was said to have been noted in one spot near the lake.

It might be a good idea to call out their divorce lawyers and birth-control experts. They both claim records over there—and it might work on the grasshoppers.

If you live here you should be interested in your town.

## Big Bend In Bad Shape

L. H. Daugherty returned Saturday from a business trip through the Big Bend country. He reports the crops there as being in terrible shape, saying that many of the farmers will not even get their seed back. He said it is especially bad in the Soap Lake region. He also reported that the crops are spotted in the Palouse country, many fields showing the result of the drying winds.

## Store Room Nearly Completed

The store room in the Raby block being prepared for the Ellis Cash Store is fast nearing completion, and it is expected that it will be ready for occupancy soon. The room has been made over from the foundation up, including new plastering.

Flattery fares far in a day—and doesn't go slow at night.

## Cherry Growers Worried

Cherrygrowers of the Lewiston-Clarkston valley, as well as those in the Julietta district, are somewhat worried over the cherry situation in these districts. The Oregon Packing company has removed all equipment from the Lewiston cannery and it will be necessary for the growers to ship their products to some coast point.

The Oregon Packing company had agreed to pay the growers 7 cents a pound for their crop until 1936. Now the company has discontinued packing at Lewiston and is now offering the growers 2 cents a pound on the trees. This is the only community abandoned by the company.

## Memorial Day Not Observed

Memorial Day was not observed in Kendrick in a general way, only observance of a private nature being carried out. Of course everyone observes the day from an individual or family standpoint, but it seems that few communities as a whole observe the day.

The banks, postoffice and a few business places in Kendrick were closed for the day, but otherwise no observance was noticeable, other than picnic parties and small family gatherings to take advantage of the holiday.

## Went Fishing

Mr. and Mrs. A. K. Carlson and children spent Sunday at Soldiers Meadow, where there was supposed to be fishing, but there was a fisherman every ten feet around the entire lake. Result—one fish.

## RENO'S DIVORCE MILL MAKING FAST TIME

Reno's divorce mill is fast distancing the mills of the gods. The mills of the gods grind slow, but exceedingly fine. Reno does not claim to be slow by any means, as testified to by the following news item from the only wide-open town in the whole United States:

A weary county clerk and his hard-worked staff checked back over their files today and found that 331 divorces had been granted and 317 suits filed during the first month's trial of Nevada's new six week's residence law in Washoe county alone. It was impossible to estimate the number of actions filed and divorces granted in the other 16 counties of the state.

The Reno Evening Gazette estimated today that the local divorce colony paid out close to \$100,000 in attorney's fees during May and that they paid probably as much for rent and other expenses. The average attorney's fee is \$250 a case.

## Also Went Fishing

A party made up of Ben and Nora Callison, Ernest Roberts and H. B. Thompson, left real early Saturday morning for Soldiers Meadow for the purpose of luring enough of the finny tribe to their hooks to at least make the skillet smell like fish. But alas, the four would-be nimrods were doomed to disappointment, and the only reason we can give is that the fish just were not there. The four of them brought back (or caught) three fish, and that was the extent of it. But there was one redeeming feature—there was plenty to eat and Mr. Thompson claims that more than made up for the fish they didn't catch. They had a splendid time, and that was what they went for.

## Entertained at Bridge

Mrs. W. L. McCreary entertained the members of the Bridge club and a few invited guests at a bridge party Wednesday afternoon in honor of Miss Gertrude Sampson of Geesehead, who was visiting at the McCreary home. Mrs. W. J. Carroll received first prize and Mrs. Frank Boyd the second, and Miss Gertrude Sampson was given the guest prize. Light refreshments were served during the afternoon.

Those present were Mesdames L. J. Herres, A. K. Carlson, W. J. Carroll, Frank Rider, R. H. Ramey, Geo. Leith, Wade Keene, Harold Thomas, Frank Boyd, O. J. Morehead, Miss Gertrude Sampson and the hostess, Mrs. McCreary.

## Our "Gin Marriage Law"

It seems that mefeely three little words, "Gin Marriage Law" have caused a general depression in the marriage marts of the entire state. All counties heard from thus far have sent up a wail that has reached far afield. Nez Percé county is complaining that May was the poorest month in that line since 1888, and over at Moscow the marriage clerk will probably have to close up that part of his shop for lack of patronage.

Even the 90-day divorce law fails to bring any business to the counties to offset the "gin" marriage law. The present laws make it harder to get married and easier to get "fled loose."

## Gypsies Here Tuesday

A "band" of gypsies of the usual greasy, dirty type visited Kendrick Tuesday forenoon, but they must have had rather poor business as they did not tarry long. Most business houses where they made their appearance told them to be on their way. They always have some excuse for getting into a place by asking where a certain place is, or where they can buy a certain article and then they just want to look at your hand—and then, if you don't look out, your watch or some other loose article will come up missing.

There is only one way to deal with that kind of pests, and that is to get them out of town as soon as possible.

## Has Sore Hand

Mrs. M. A. Deobald is favoring her right hand very much these days. Some seven years ago she had the misfortune to run a nail in the back of her hand and while it had healed, it had bothered her all these years, so she went to a surgeon and he removed the troublesome part. She hopes soon to be able to use the member as of old.

### Jack Holt In "Hell's Island"

The feature picture at the Audian Theater for Friday, Saturday, and Sunday nights will be "Hell's Island" with Jack Holt and Ralph Graves in the leading male rolls. Every picture fan knows and likes Jack Holt in the kind of roll he portrays in "Hell's Island."

Jack Holt and Ralph Graves as "Mac" and "Griff," two Americans serving in the French Legion, have laughingly fought through many a campaign, military and amorous, together. The advent of Marie, cabaret entertainer in the oasis of Bel Abbas marks a turning point in the relations between the two men. A serious note creeps in until their former friendly rivalry changes to bitter enmity. Mac is shot in the back by a Riff sniper, but thinks his former pal, Griff, has done it. He vows vengeance little suspecting that Griff has disobeyed orders to save his life. Griff is sentenced to Hell's Island for ten years for refusing to go ahead in battle and leave his unconscious pal on the field. At Hell's Island the main characters are brought together and a powerful climax is effected.

For novelty and sheer dramatic force, nothing like it has ever been done before.

### Rabbit Breeders Meet

An enthusiastic meeting of the rabbit breeders of this section of the country was held at the home of Mr. and Mrs. Frank W. Ellis Wednesday night, when an association was formed, the name selected for the organization being The Potlatch Rabbit Breeders Association. Those in attendance at the meeting were Rev. and Mrs. O. G. Ehlen, Mr. and Mrs. Gruell, Mr. and Mrs. A. C. Deeter, Tom Fox, Ira Foster, Mrs. Biddison, Mr. and Mrs. Mike Hedden and Mr. and Mrs. Ellis.

The following officers were elected: Rev. O. G. Ehlen, president; Tom Fox, vice-president; Frank W. Ellis, secretary and treasurer.

Rev. Ehlen appointed the following committees: Constitution, Mr. Gruell, Mr. Foster and Mrs. Ellis. Market, Frank W. Ellis, Crayton Biddison, Ira Foster.

Rev. Ehlen invited the association to meet at his home on Wednesday night, June 17.

These meetings are open to all rabbit raisers.

### Kendrick Drops Two Games

Kendrick seems to have been playing in hard luck in the two ball games played Saturday and Sunday on the home lot. Juliaetta came over Saturday and hung another scalp to their belt when they walked away with the game by a score of 17-12.

The game was said to have been a loose one and there were numerous errors. Juliaetta got 18 hits to Kendrick's 11. Juliaetta used two pitchers while Kendrick used four.

Lapwai came over Sunday and the Braves hung a score-scalp to their belt that showed they had bested the locals by a score of 12 to 3. The Indians landed on the pellet 12 times but Kendrick could locate it but 7 times. There were also numerous errors in this game.

The batteries were—Lapwai, Raymond and McCormick. Kendrick—Fleishman and Davis.

### No Grain Report

The government grain report failed to arrive this week, supposedly on account of the unsettled condition of the market throughout the country, or perhaps because Saturday was a legal holiday. We will more than likely have it again next week.

### THE FOOT

The human foot has a skeleton structure of twenty-six bones. These are covered with tendons, ligaments, muscles, and nerves, which quietly do the bidding of our minds when healthy, and insist on making their woes known when abused, or shod in improperly fitted or defectively repaired shoes.

Each of the twenty-six bones has its own function. Each relies on and at the same time supports its neighbor until the whole presents a marvelous efficient unit of the human body.

## The Harvester-Thresher Savings Investment Plan

### MAKES IT EASY FOR YOU TO OWN A McCORMICK-DEERING HARVESTER-THRESHER

*Under This New Plan Every Responsible Grain Grower Can Pay for His McCormick-Deering Out of a Part of the Savings His Combine Will Make*

**C**ROP production cost figures compiled by McCormick-Deering Harvester-Thresher users show savings in harvesting and threshing costs of 20 cents or more per bushel when compared with government average costs for farms with similar yields.

We are so confident that thousands of additional grain growers can make proportionate savings with a McCormick-Deering Harvester-Thresher that we are announcing the McCORMICK-DEERING HARVESTER-THRESHER SAVINGS INVESTMENT PLAN, under which you or any other responsible grain grower can purchase a combine now and meet the first payment after harvest with just a part of the savings made possible by the new machine—with two more years to pay the balance.

Keep in mind that under this plan you get a time-tried and time-tested combine backed by 18 years of field experience with harvester-threshers. It is sold to you by a well-established McCormick-Deering dealer in your own community, whose stocks and service are supplemented by this large, permanently established International Harvester branch house right here in your own section.

In McCormick-Deering dealers' stores the repair bins are well stocked with genuine IHC repair parts. Thousands of these dealers maintain completely equipped service stations, offering factory-

standard service on McCormick-Deering Harvester-Threshers and Tractors and all International Harvester equipment. Additional service stations are being established as rapidly as they are justified by business in the community. As a direct result, McCormick-Deering service is better today than it was last year or 10 years ago; our resources and reputation are your guarantee that it will be still better when the harvester-thresher, tractor, or any other machine you buy today is 10 years old.

Consider well the value of this superior service before you select a harvester-thresher. You want to buy where you get the greatest value; not just the day you sign the order, but through every day and every year you rely on your purchase for cost-reducing performance at home and in your custom work. Consider, too, the advantage of being able to pay for your combine under the McCORMICK-DEERING HARVESTER-THRESHER SAVINGS INVESTMENT PLAN . . . making it doubly advantageous for you to buy your equipment where you can get the absolute assurance of good, quick, complete service which is offered you by this International Harvester branch and the McCormick-Deering dealer serving your community.

See the McCormick-Deering dealer for full details of the McCORMICK-DEERING HARVESTER-THRESHER SAVINGS INVESTMENT PLAN.

## IF ICHABOD CRANE HAD A FLASHLIGHT

By JOHN G. LONSDALE  
 President American Bankers Association

WE ALL remember the story of Ichabod Crane and the headless horseman. There was the dark form by the side of the road—

John G. Lonsdale

thundering hoofs on the Sleepy Hollow highway—and Ichabod fleeing in confused terror before this terrible monster.

If Ichabod had only known that his hobgoblin was an inventive rival disguised with a pumpkin head, he would have had a good laugh and gone on with the business of vanquishing his competitor.

What Ichabod really needed was a modern flashlight. Then he would have discovered the trickery at once. Many business men need the flashlight of analysis to uncover the hobgoblins in their business and then they might sit back and laugh at their rivals who hesitate to investigate and learn the truth.

At this time, when business and banking are making strenuous efforts to have a clear vision ahead, it is especially important that the power of research and analysis be employed to their fullest extent. When these twin brothers of good management have been pressed into service in all fields, I am confident we shall see a further lessening of periods of stress. However, I believe business in general has learned the valuable lesson that any prosperity that is not leavened with a little adversity would not seem basically safe or sound.

## RESERVE SYSTEM'S DIVIDENDS ANALYZED

Bankers Find Increased Payments to Member Banks Would Be Small Inducement.

Various proposals that member banks in the Federal Reserve System should participate more largely in its earnings through an increase in the dividend rate above the present fixed 6 per cent "would be a very small financial inducement" to them, it is declared in a recent study of this subject by the Economic Policy Commission of the American Bankers Association. This is shown, the commission says, by a theoretical forecast, on the basis of the past six years, of additional earnings that would be disbursed to member banks during the next six years under two plans introduced in bills before the United States Senate.

"The Fletcher bill provides that Federal Reserve Bank earnings, after present 6 per cent dividends to members and completion of a 100 per cent surplus, should all be distributed as extra dividends to the stockholder banks," the report says. "If the earnings of each Federal Reserve bank were distributed among its own members there would be no extra dividends in the Boston, New York, Philadelphia, Cleveland, Chicago and San Francisco districts during the next six years, but the other six Federal Reserve Banks would pay annual extras at the following rates: Richmond, 6.03 per cent; Atlanta, 4.09 per cent; St. Louis, 3.50 per cent; Minneapolis, 9.51 per cent; Kansas City, 5.43 per cent; Dallas, 4.83 per cent.

"If the earnings were pooled and paid out to all members in all districts each member would receive an average annual extra dividend of .78 per cent. Under this plan no franchise tax as now would be paid by the Federal Reserve Banks to the Federal Government.

Another Plan Analyzed  
 "The Glass bill would provide that, after present 6 per cent dividends, one-half the remainder should be paid to member banks as an extra dividend with the residue going to surplus and Federal Government as franchise tax. The average annual extras to members would be as follows: Boston District, 2.51 per cent; New York, 4.8 per cent; Philadelphia, 2.05 per cent; Cleveland, 2.09 per cent; Richmond, 3.26 per cent; Atlanta, 4.67 per cent; Chicago, 3.20 per cent; St. Louis, 2.02 per cent; Minneapolis, 4.75 per cent; Kansas City, 2.74 per cent; Dallas, 3.31 per cent; San Francisco, 1.87 per cent.

"If these extra funds were pooled the result would be an extra average annual dividend of 1.73 per cent for each member. Under this plan the system would still pay as now an annual franchise tax, amounting to \$1,941,996 on the average."

By way of concrete instance, the report says, a member bank having capital and surplus of \$200,000, therefore holding Federal Reserve Bank stock amounting to \$8,000 on which it is receiving \$300 under the present 6 per cent dividend arrangement, would with the addition of each 1 per cent to the dividend rate receive an additional income of \$80 a year.

"If each member bank will figure out for itself the dollar-and-cents gain it would enjoy we are confident it will be agreed that the gains are small as against the economic disadvantages which can be pointed out," it concludes.

## U. S. EMPLOYMENT SERVICE READY FOR BUSINESS

The Idaho office of the U. S. Employment service, directly under the supervision of the Secretary of Labor, W. N. Doak, is now established and ready for business, at Room 300, City Building, Boise, Idaho, with Thomas W. McDonough, state director for Idaho, in charge. Every effort will be put forth to extend and develop the employment service in cooperation with state, municipal and other civic agencies. The Boise office is established in cooperation with the Boise City Employment office, the latter in time to be absorbed.

It is the purpose of the director to make placements of wage-earners, improve their working conditions, to advance their opportunities for profitable employment, furnishing and publishing employment information as to opportunities for employment, maintaining a system for clearing labor between the several states, co-operating with the Veterans' administration to secure employment for veterans, and cooperating with and coordinating the public employment offices throughout the country.

Employer and employee alike are urged to accept the Federal Employment service as the most practicable medium and agency for employment yet conceived. All officers and other workers in this service have been pledged to and shall give, without reserve or division, the fullest measure of effort and cooperation, to the end that the purposes and principles of the United States Employment service shall be fulfilled. Applications will be cheerfully accepted from all who apply and diligent efforts shall be made to find employment for all applicants, without favor or discrimination.

There will be coordinated service throughout the entire country, making available its good offices to all those seeking employment in cooperation with free state and local offices.

The Federal Employment service will likewise undertake, in the broadest sense, to take care of interstate labor placements in cooperation with employers and employees. The farm-labor service will be expanded and enlarged and the veteran placement service will be nation-wide in character. In addition, the industrial activities of the United States Employ-

ment service is being reorganized as a basis which will afford every opportunity of placing employees in contact with jobs and giving employers a ready field from which to draw all needed labor necessary to carry forward any kind of work.

The first monthly review of the labor situation under the new arrangement will be made late in June for that month by the new director who has been busily engaged in establishing contacts in every part of the State. The May report will be made as before by Quince Record of Denver, heretofore director of several Northwest states, including Idaho. After the May report is completed, Mr. Record will confine his future reports to the State of Colorado only.

Under the new practice, employment information will be gathered from every part of the State and

reports will be broadened to include statistics from every possible source so that a complete picture of the employment situation will be maintained at all times. This information will come from labor organizations; state, county and city officials; all civic organizations; manufacturers' associations; chambers of commerce, banking institutions; state department of labor and cooperating employment offices representative farm and business men and any other employers of labor.

It is believed that the result of this Service will be that demands for labor in any section of the state can be filled and that the number of surplus men in certain districts will be reduced to a minimum.

## More Road Work

About one-half mile of new road  
on the Ingvald Kleth place was com-  
pleted by workers in two days. This  
new piece of road eliminates two hills  
and one bad curve and will otherwise  
add very materially to the road from  
the standpoint of permanency.

Men were at work in the road at  
the May hill, at the top of Brady  
gulch, where many small improve-  
ments will be made before the grad-  
ing is completed. When this road is  
completed it will give Kendrick a  
gravel road from the top of the hill  
to the Troy Highway district.

#### Now Running Water Wagon

Street sprinkling was started on Main street Wednesday. It caused much favorable comment as the dust has been quite bad for the past few weeks. It is to be hoped that the village can find ways and means of putting on a light coating of oil.

#### Had Picnic Supper

A few of the residents of the east part of town filled their baskets and went to the village park where an old-fashioned picnic supper was spread. The little park is beautiful now and is an ideal place for a picnic.

### CAMERON NEWS ITEMS

#### Commencement Exercises

The 1930-31 term of the Cameron school came to a close last Friday evening with the Closing day program and graduation exercises. Long before the scheduled time for the program to start, the halls, steps and even the lawn were crowded with people. The building was entirely inadequate to accommodate the crowd that gathered to witness the program. This is the largest crowd that ever turned out to any Cameron school affair.

The first hour of the program was given to the entire school in which songs, drills and recitations were given. The last forty-five minutes were devoted to the graduation exercises. Between the two parts of the program, a special song number was sung by the Misses Erna Wegner, Martha Brammer, Marie Schwarz and Wilma Schultz, with piano accompaniment by Miss Mildred Wegner. In the processional march, the lower six grades formed in two lines, between which the school board, consisting of the Messrs. Fred W. Newman, William McCoy and Fred W. Silflow and Rev. O. G. Ehlen marched, escorted by the graduates, Glen A. Wegner, Reva E. Berreman and Wayne A. Wegner. Reva Berreman was class salutatorian and Glen Wegner, valedictorian. Selma Wegner, a seventh-grader, gave the class creed, Cecil Specker, another seventh grader gave the Class history and Wayne Wegner read the class will. Following this the graduating class was presented to the School Board by Mr. Cridlebaugh.

Mr. Newman, clerk of the board, received the class and presented the diplomas, which were acknowledged by Glen Wegner.

Little Robert Wegner played two numbers on his accordion at the close of the exercises.

Mrs. Jacob Schmidt and the Messrs. William Hartung, Donald Hartung and Henry Schmidt arrived from Spokane Sunday afternoon for a week's visit with friends and relatives. They returned home Thursday afternoon.

Mr. and Mrs. Herman Newman and children of Kellogg arrived Sunday evening for a short visit with Mr. and Mrs. Fred W. Newman and "Grandpa" Newman.

Miss Martha Brammer is spending the week at the Carl L. Wegner home.

Visitors at the Wm. McCoy home over the week-end were Mr. and Mrs. Chas. McCoy and daughter and Mr. and Mrs. Claude Ripley and daughter of Lewiston.

Miss Helen Mielke arrived Monday morning from San Francisco for a two week's visit with her parents and relatives.

Miss Adilene Rodgers was taken to a Lewiston hospital last Saturday after a long illness.

Henry Bleck and his mother visited at the Emma Brunseick home over the week-end.

G. F. Cridlebaugh spent Decoration day in Lewiston.

Mr. and Mrs. Herman Meyer, Mrs. Carl L. Wegner, Mrs. F. W. Silflow, Jr. and Mrs. Aug. F. Wegner motored to Ritzville Wednesday to attend a meeting of a missionary society to which the congregation of the local Lutheran church may affiliate itself. They returned home on Thursday.

Among those who went to Elk River for a fishing and outing trip were: F. W. Silflow, Paul Silflow, Aug. Brammer, Herman Silflow, O. W. Henry, Albert Brammer, Mr. and Mrs. Fred Newman and children, Mr. and Mrs. Herman Newman and children, Misses Helen Mielke and Marie Schwarz and Edwin and Ted Mielke.

#### Cameron School Notes

The average age of the graduates was 12 years and 11 months, the youngest being 11 years, and six months old. The average grade received in the state examination was 91.5 per cent.

Madeline Schultz received a certificate of award for having perfect attendance during the school term. Two others would have won the same had not one case of tardiness been against each one's record.

We wish to express our appreciation of the assistance given us in our program by the following: The Misses Erna Wegner, Marie Schwarz, Martha Brammer, Wilma Schultz and Mildred Wegner, the Messrs. F. W. Newman, F. W. Silflow, William McCoy and Rev. O. G. Ehlen.

The per cent of attendance for the year was 96.6.

Mr. Cridlebaugh will return to Cameron next fall to teach his fifth term of school here.

#### Parents of a Son

Mr. and Mrs. Joseph Tschantz are the parents of a baby boy, who arrived at their home on June 1. The little stranger was made welcome and arrangements made for entertaining him for an indefinite period. Mother and babe are doing nicely.

#### TEAKEAN GOSSIP

William Hoke of Kendrick was a visitor at the J. H. Butler home Sunday.

Mrs. L. Clanin, Mrs. J. Lind and Mrs. Charles Sewell visited Mrs. Ed. Choate Sunday afternoon.

Otto Silflow of Cameron brought his truck up and got a load of cedar shakes last week from the Groseclose place.

Emery Wilson of Arrow is spending the week at the home of his uncle, Simon Baugh.

Mrs. Gilbert Erlewine started alone in her car for Libby, Montana, to join her husband, last Friday.

Aaron Wells and Arlos Wells were visitors at the Orval Choate home Monday.

Mr. and Mrs. Fred Daniels and family were dinner guests at the home of Mrs. Carrie Herring Sunday.

Mrs. Wm. Groseclose and Mrs. J. H. Butler were callers at the J. Lind home Tuesday.

Mrs. Simon Baugh went to Asotin, Wash., Sunday to spend a short time to see if the altitude at that place

will be better for her. If so, they expect to move the family there.

On Thursday, June 11, the people of the community are expected to work at the Teakean cemetery. There is a great deal of work to be done. New fence posts are to be set and there is lots of brush to be cleaned away. All who are in any way interested are invited to come and help with this work. Men and women will all find plenty to do. One day may not be enough to do all the work.

#### Entertained at Dinner

On Decoration Day the home of Mr. and Mrs. Eddie Deobald was the scene of a very pleasant dinner party when they entertained Mr. and Mrs. Elmer Bechtol and family, Mr. and Mrs. Otto Schupfer and family, Mr. and Mrs. Bryan Deobald and family, Mrs. Mary Bechtol and Mrs. M. A. Deobald at the noon hour. There were 23 present.
