## RUTHERFORD B. PARKS IS CALLED BY DEATH

Rutherford B. Parks, 67, pioneer resident and retired farmer of Potlatch ridge and Kendrick, and a resident of Lewiston since last October, passed away at 5:00 a. m. Sunday morning at a Colfax hospital, following major surgery, which in turn was complicated by a paralytic stroke.

Mr. Parks, who resided at 1208 Fourteenth avenue, Lewiston, at the time of his death, was born July 21, 1877, on Manitoulin Island, Province of Ontario, Canada. At two years of age he moved with his parents to Iona County, Michigan, where the family resided until September, 1889. From there they moved to Kent, Washington. After four years there, the family next took residence in Sprague, Washington. In the fall of 1896 they came to Kendrick, Idaho, where they stayed for three years, before moving to Leland.

On November 5, 1898, Mr. Parks was married to Leona Hamilton. To this union were born three sons: Hugh R., Homer A., and Charles Harold, all of Potlatch Ridge.

For many years he was prominently identified with the farming interests of Potlatch ridge, where he located in 1896.

After Mr. Parks' retirement four years ago, he took up residence at Kendrick, moving back to Leland in July of last year and then to Lewiston in October of the same year.

Mr. Parks, known familiarly as "For" or "E. B.", always took a keen interest in community affairs. While a resident of Potlatch ridge he made his home at Leland, and served for many years on highway district and school district boards. He was a booster for good roads, and always willing to take time from business affairs to boost for them.

Shortly after moving to Kendrick he was elected to the Village Board and served four years as a trustee. He also was a firm believer in farm organizations and was one of the original members of the Kendrick Rochdale, serving as that organization's secretary for many years.

Mr. Parks was an active member of the Methodist church for 45 years, and a member of the I. O. O. F. lodge for 23 years.

His parents, his three sisters, and one of his brothers preceded him in death. Those left to mourn their loss, therefore, include the following: His wife, Leona, of Lewiston; one brother, Raymond, of Peck, Idaho; three sons, Hugh R., Homer A., and Charles Harold, all of Potlatch Ridge. Eleven grandchildren and two great-grandchildren also survive.

Funeral services were held Tuesday afternoon at 2:00 o'clock from the Brower-Wann chapel, Lewiston, with the Rev. P. Malcolm Hammond as officiant. Interment was in the Normal Hill cemetery.

Members of the local Odd Fellows lodge attended the services in a body.

We cannot say, and we will not say that he is dead. He is just away. With a cheery smile, and a wave of the hand, He has wandered into an unknown land. And you—O you—whose the wildest year.

For the old-time step and the glad return, Think of his fareing on, as dear In the love of there, as the love of here. Think of him still as the same, we say. He is not dead—he is just away.

**William B. Long Passes On**

William B. Long was born near Flora, Illinois, August 8, 1873, and died at Snohomish, Wn., April 28, 1944, of a heart ailment.

He was united in marriage to Lillie M. Wright of Iowa, about 1895, and to this union six children were born, Lettie of Southwick, Ida, Opal, Edna and Riley of Seattle, and Archie and Manfred, who preceded him in death. His wife passed away in 1911. There are also six grandchildren and three great-grandchildren.

After coming west he made his home in or near Juliaetta for a number of years, where he made many friends. He moved to Snohomish, Wn., about 10 years, where he resided until his death.

Funeral services were held Sunday at the Methodist church with the Rev. George Calvert in charge. Interment was in the Juliaetta cemetery. Pall bearers were Ed. Taylor, Wm. Scheltze, Elmer McAllister, Creighton Biddison, Herb Millard and James Whalen, all old-time friends.

Music was furnished by Mrs. M. C. Halliday, Mrs. Bruce Sherman, Mrs. Phil Johns and Eugene Taylor.

## Sells Fuel Department

A deal was closed last week in which Herman Travis became the owner of the Presto-Log and fuel department of the Kendrick Dray & Ice, and he is now operating that business.

Wally Brocke, however, will continue to handle coal until his present stocks are exhausted.

Mr. Travis and family will move here soon.

## NEWS FROM LOCAL MEN IN THE ARMED FORCES

Van Nuys, Calif. April 17, 1944

Dear McCrearys:

I have been receiving my paper as regularly as the seasons and really enjoy reading about everyone. I have found some addresses of friends I had lost track of, and am going to try and get in touch with those close here in California. It is rather hard to get very far, as the time of it is limited and bus service is rather slow, though very good otherwise.

I know Don Jones must have enjoyed his visit with everyone. He isn't too far from Los Angeles, so hope to see him one of my days off.

The weather has been grand and I like California more each day. I don't forget Idaho, though, and hope that soon I will be due for a leave and able to visit home.

I have been on night duty the past month, which has kept me well occupied as I worked 12 hours, 7:00 to 7:00 a. m. It was rather rugged, as the boys would say, but am now on an 8-hour shift, from 12:00 midnight until 8:00 a. m., which is really swell. You can go out in the afternoon and also part of the evenings, which is a great help. Several of us go to the "Stables" close by and ride horseback for an hour or so in the mornings and also to the beach at Santa Monica in the early afternoon. Am I getting a wonderful suntan!

Helen and I have been together several week-ends since she came to Terminal Island. We have had a lot of fun. One week-end was spent with some friends of mine connected with the Nursing Field, who are wonderful people. We had the time of our lives. Just like being in our own home and not even thinking G. I. We call each other every week, also write. We are lucky to be so close together. I got a good letter from Irvin today, saying he was released and was back at the job. He didn't say what he was doing, but know he would like the job much better than the last one he had. Do you know if Roy and Fred, Jimmie and Roy Long are still in Australia? He hasn't mentioned them for some time.

How is the weather there now? Is all the cold weather gone? The wind blows quite often here in the evenings and it gets quite chill at night.

Is the bowling alley still the center of attraction? I never think of home without wondering who is playing that night and how much fun I had there just before coming into the Service. "Thank You" very much for sending the paper and to let you know I've been getting it regularly. Say "hello" to all and I'm hoping to be home in a month or so on leave.

Sincerely  
Margaret Halseth  
Note: Margaret's address follows:  
2nd Lt. Margaret Halseth, A. N. C.  
Birmingham Hospital  
Van Nuys, Calif.

Sgt. and Mrs. Jay Armitage spent the week-end in the Ross Armitage home. Jay has been stationed for the past month at Geiger Field, Spokane, for a rest and medical check-up, and stated Monday, just before going back to Spokane, that he expected soon to be transferred to the Santa Monica Air Base for reassignment to duty.

At present Jay is a nose gunner, but says he has occupied all gunner positions.

Jay has seen many hours of combat flying in the South Pacific, but doesn't know where he may be sent on his next assignment.

Italy April 11, 1944

Dear Mac and Bill:

Well, here I am with a new APO, so I thought it was about time I wrote you a few lines to let you know about it and get the paper coming this way. I have received four papers since I've been in Italy; the latest one was dated February 3rd, and I received it about a week ago.

So far I like it here a lot better than I did in Africa. It is beginning to look like spring. The mountains right around are getting green, but there is still snow on the higher peaks.

I have seen quite a lot of war-torn country and most of the little towns are blown up and damaged quite badly. I got to see Mt. Vesuvius. I suppose you have read about it in the papers by now. It had erupted just a few days before we saw it, killing several people in a nearby town. I guess it is one of the worst volcanoes in the world.

Well, my paper is about gone, so will close for now, and thanks again for the paper.

Sincerely  
Cpl. Marvin Garner  
Camp Adair, Oregon  
April 24, 1944

Dear Mac and Bill:

Today I received my copy of the Gazette, it usually comes on Monday, and I want you to know that I appreciate receiving it. I enjoy reading the letters from the fellows in Service, even though there are very few of them that I know.

They have most of us band fellows working in offices at the Post Headquarters in the morning now. The afternoons are devoted to our band work. I am working in the Army Emergency Relief office, which is under the control of Special Service. I like the office work for a change, but wouldn't care about doing it all the time.

On Sunday, May 14th, Jack Benny

## Mrs. Silvie Cook Honored

The following article, taken from the Galena, Wash., paper, "Wings," should be of interest to all:

"The courage and staunch patriotism of Mrs. Elizabeth Cook, an employee in the Plexiglas Shop, Manufacture and Repair, was clearly demonstrated April 13.

"Mrs. Cook lost the ends of the two first fingers on her right hand that day while operating a small jointer used to surface the edges of Plexiglas sheets. The piece she was surfacing slipped and her fingers were caught in the cutter knives.

"Without fuss, she merely crying nor fainting, Mrs. Cook grabbed hold of the hand and walked to the nearest dispensary for treatment. She was taken to the base hospital, given an anesthetic and treated. She went home at quitting time that day.

"The next day she stayed at home but on Saturday, April 15, Mrs. Cook came back to the shop and asked for some light duty until her hand was healed. Her only comment was that she didn't want to cause too serious a lost time accident to mar the wonderful record Manufacturing and Repair has had.

"There are no medals given to people like Mrs. Cook. But her loyalty, her courage and patriotism will give absentee employees something to think about."

## Charles Mulkey Passes

Charles Thomas Mulkey, a resident of the Bovill and Cedar ridge section for many years, and well-known throughout this section, died at the home of his son, Delbert L. Mulkey at St. Maries, April 25, 1944, following an illness of some five weeks.

He was born at Breneugh, Mo. On January 5, 1908, he was united in marriage to Ida A. DeFrees, and to this union a daughter and son were born, both of whom survive him. They are, Clara M. Brudesh and Delbert L. Mulkey. He is also survived by three grandsons, two daughters, Carrie Burt, Master, Fort Scott, Kansas, and Nan Veach, Hunt, Interton, Ore.; and a brother, L. D. Mulkey, Portland, Ore.

Funeral services were held April 28, 1944 at 2:00 p. m. at St. Maries, with interment in the Woodlawn cemetery there. Pallbearers were Oscar Blake, Elmer Simons, G. J. Shaw, S. Procajio, Walter Briggs and Alfred Reed.

## High Bowling Scores

## Fifth War Loan Coming

The Vth War loan drive will be launched June 12, and extend through July 8. In this effort America is faced with the most gigantic war financing program the world has ever known. The sum of \$16,000,000,000 is the total quota — \$6,000,000,000 of which is to be raised by individuals.

Reaching and exceeding, if possible, the quota for sales to individuals is not only of supreme importance, but it is also essential in the nation's fight against inflation.

## KENDRICK SUFFERS EXODUS OF SEVERAL RESIDENTS

**Move To Spokane**

Mr. and Mrs. Kenneth Brocke and family left Sunday for Spokane, where they have purchased a home and will live. Kenneth will be employed at the Spokane Airfield.

It is with real regret that Kendrick residents see Mr. and Mrs. Brocke and family move away — perhaps they will return when the war is over.

**Leave For Bremerton**

Mr. and Mrs. Frank Abrams and children left Monday for Bremerton, Wash., where they will visit with their parents, Mr. and Mrs. O. E. Havens, and where Frank will be employed until he receives his call to the Armed Services, he having passed his physical examination some six weeks ago.

Frank is somewhat disgusted with the situation, for at the time he passed his physical, he was told to be ready for call in three weeks. He returned to Kendrick, resigned his job, sold his home and furnishings and was ready to go — but still hasn't been called!

Mrs. Abrams will make her home with her parents while Frank is in the service. He expects to return to Kendrick at the close of the war.

**Moves To Lewiston**

Mrs. Vera Stewart completed the moving of her Beauty Shop equipment to Lewiston Sunday, and will continue her profession in that city, where she has purchased a home.

Her daughter, Theo Shepherd, is employed in that city, and will live with her mother, as will a niece.

Mrs. Stewart has operated the Beauty Shoppe here for the past seven years, and she will be missed.

**Will Make Home In Lewiston**

Mrs. Rose Farrington disposed of her home on the schoolhouse hill to the Bud Harris family last Saturday, and expects to move to Lewiston soon, where she will make her home. Her daughter, Evelyn, is employed in the branch postoffice there, and they will reside together.

Mrs. Farrington is an old-time resident of the Cedar ridge and Kendrick communities, and her absence will be keenly felt.

**Students In Music Festival**

Although Kendrick has no music teacher in its schools this year, local students volunteering to take part in the Music Festival in Lewiston last Friday and Saturday, were coached by Mrs. Harold Thomas, and really made a wonderful showing.

Students taking part and their competitive ratings are as follows: Noel Thomas, flute — Superior. Dick Harris, saxophone — Excellent. Bob Lind — vocal solo — Excellent. Gay Deobald, vocal solo — Good. Beverly Schupfer, piano solo — Good.

**Junior Red Cross Ships Articles**

Mrs. Marvin Long, director of the Kendrick Junior Red Cross, which operates in the Kendrick schools, has given us a complete report of that organization's activities recently, as follows:

The Junior Red Cross shipped on Friday of last week part of their completed quota of articles for the Service Men's hospitals. This shipment included joke books, bound stories and scratch pads from the grade school rooms; Mrs. Deobald's room donated 14 wash cloths; the boys in shop, under the direction of Ross Armitage, completed a fine group of articles made from wood; the Home Economics girls, under the direction of Miss Harshbarger turned out the largest number of articles.

Another shipment will be made at the close of school. The students of the Kendrick schools are to be congratulated in their splendid work in Junior Red Cross.

This week's shipment included: 69 bound stories, 75 joke books, 36 cross-word puzzles, 58 scratch pads, 14 wash cloths, three games, six writing pads, three lap boards, one flag stand, one ash tray, five cribbage boards, 26 pairs bed sock, 30 pillow tops, 48 bedpan covers, 23 card table covers, 100 hot water bottle covers, 180 bed side bags — total, 673 articles.

**Music Recital**

Mrs. Herman Schupfer will present a group of her pupils in a piano recital Sunday, May 7, at 3:00 p. m. in the Methodist church.

Those taking part are Nancy Callison, Roger Jones, Chloe McKeever, June Brown, Anita Johnson, Mrs. George Brocke, Carol Matton, Barbara Perry, Patty McCreary and Beverly Schupfer.

**Don't Burn That Book**

Don't burn that book, even though you don't like it, for the average book weighs one pound; one unused book turned into the waste paper drive will enable six cartons for the army emergency "K" ration to be wrapped.

A boost and not a knock is what the old home town can always use.

#### Heavy Frost Monday Night

The Potlatch section suffered a heavy white frost Monday night, following a cold wind all the previous day — and early gardens were not done a bit of good, many receiving severe set-backs.

However, the hills are green, pasture are doing nicely, cherry trees are white with blossoms and apple trees showing big buds — but best of all, the soil is now dry enough

so that the farmers can really get into their spring work, and the bark of tractors may be heard all day long, and the lights of many of them be seen at any time of the night.

#### Think This One Over

A single army division going overseas requires 150,000 tons of supplies — and there are 700,000 items made with paper wrappings.

TAKE A  
RAILROAD JOB!

### RAILROAD WORK IS WAR WORK ... MANY JOBS MUST BE FILLED...VACATION WITH PAY

The railroads of the United States have been called upon in this War to do the biggest transportation job in all history—twice as big as in the first World War—and the job still grows.

So far, the task has been done—and done with 500,000 fewer workers than in the first World War.

To keep on doing the job that *must* be done, the railroads must have more workers to operate trains and yards, to maintain tracks, bridges, signals and telegraph lines, to repair cars and engines, to man stations and offices.

No other work is more important to Victory—no other offers more real action and interest—for the railroads must keep on delivering the goods.

All kinds of positions for men and for women—in many departments of railroading—need filling.

You can help. Even though you may not be a prospect, perhaps you know of persons who are. Tell them about it, won't you?

You'll want to stick with railroading because it offers...

INTERESTING WORK, vital to the war effort.

A COLORFUL CAREER, with opportunity for advancement.

VACATION WITH PAY, seniority and promotion rights.

INSURANCE for retirement and unemployment, Federally administered.

WIDE CHOICE OF JOBS, a place for nearly every kind of skill and training.

Apply in person or write to the nearest  
U. S. RAILROAD RETIREMENT BOARD Employment Service or U. S. EMPLOYMENT SERVICE  
Or inquire of any railway agent, or at any railway office. If now employed at your highest skill in essential industry—do not apply!

### WOOD HAS A JOB IN PEACE ... as in war

SURE, wood can take it.

Right now it's doing its biggest job in history. Its lumber is housing tens of millions of soldiers, sailors, marines and war workers. Its boxes and crates are carrying vital war supplies of every nature to all the battle fronts. Its structural timbers have gone into great factories and vast hangars. Its cellulose provides the paper and plastics for myriads of war uses.

#### Forest Fact!

WPB estimates 11 billion board feet of lumber was required in 1943 for war-time boxes and crates, 6,700,000 more than in 1940. 1944 requirements for boxes and crates are estimated at 17 billion board feet.

Grueling tests of war are preparing wood for its greatest job in peace. We will end this war with the most serious housing shortage in our history, and, as soon as the conflict ends, wood will go to work to provide the homes we need.

 according to Dept. of Agriculture tests. 1000 burrows were treated in a series of 19 tests. Results showed 95% effective kill.

**CYANOLOGAS** is the most practical, low-cost way to rid your fields of destructive ground squirrels. Thousands of growers now use this approved standard method of extermination... Just throw a spoonful of CYANOLOGAS into each burrow. A gas is formed which rapidly fills the burrow system killing all squirrels. Can also be applied with footpump or knapsack duster. Your dealer has CYANOLOGAS in 1-5-25 and 100-pound cans.

 Next Sunday afternoon at 2:30 the Kendrick High school will play the Orofino high school a double-header baseball game on the local diamond. It is hoped that the weather will hold good, since it has prevented some previously scheduled games.  
 On Tuesday and Wednesday of this week the state seventh and eighth grade examinations were held. Of course no returns have yet been received, but good results are hoped for.  
 Ross Armitage, who has supervised the paper drive in this vicinity announced Tuesday that the rush of last-minute school work would prevent any further receipts or shipment of scrape paper for this year—but expected the drive to be resumed with the taking up of school next fall. In the meantime, he asks that no one destroy scrap paper, but carefully save it at home until such time as the drive can again be resumed.

## ARE YOU MARKETING CO-OPERATIVELY?

Today, under government directives and subsidies, complete marketing records of your cream are more important than ever before, not only as a matter of record but as a dollars and cents return to you.

When you are a member, or sell to us, these complete records are instantly available to you — and you no longer are forced to put complete dependence onto check stubs alone.

On the dollars and cents side co-operative marketing will pay you well. This selling is not done "willy-nilly," but systematically, to your benefit. If you are not now familiar with it, come in and talk it over — there is absolutely no obligation of any kind.

Remember, never ask for "butter." Always ask for "Potlatch Chief Brand" Butter. You'll like it.

We've been trying to figure out the extent of the injuries received by a lady in an auto accident. The account in the daily paper read: "Mrs. Wilson in attempting to get out of the way of the car, fell to the pavement, injuring her somewhat."

Today this often happens: A retailer, annoyed because he had to wait several months for a large order, wired the manufacturer: "Cancel order immediately." Back came the response: "Regret cannot cancel immediately. You must take your turn."

Doctor: "Is that the first pain in the neck you've had?"  
Patient: "Oh, no, sir, I divorced the first one."

"My feet were sticking out of the covers."  
"Why didn't you pull them in?"  
"I wasn't putting those cold things in bed with me!"

Dear Mom and Dad:  
I'm sure you will be glad to know that I am safe on the European side of the Atlantic. The trip was a pleasant one and I enjoyed it very much.

Things here are somewhat different, the people, their speech, customs and money, but in spite of it I feel at home. This is the first time in my military career that our (word censored) where (word censored) on green grass with tall shade trees. It's really God's country and I don't blame the British for wanting to give it up.

I went for a walk soon after arrival and the old buildings are very interesting. One in particular being an old church supposedly 700 years old and still going strong.

Do not send any packages unless I ask for them, and when I do they must be five pounds or less. It's the army's idea, not mine. I'm trying to contact Leon.

Mr. and Mrs. Forrest K. Grayson are in receipt of the following official letter, which is self-explanatory as follows:

Dear Mr. and Mrs. Grayson:

It is with the greatest pleasure and pride that I can tell you Technician Fifth Grade Beryldean R. Grayson, your son, was recently awarded the "Good Conduct Medal, U. S. Army, for exemplary service and great fidelity to duty" as a member of my command. He has been among my best men and a mainstay in his outfit.

He will go far while he is in the army. When he returns to life at home, which I pray will be soon, the qualities he has shown as a splendid soldier should be an equal asset to him for the future.

My very best always, to you and yours,

There has been a change in my address, so I figured I had better let you know right away, or I might miss a paper.

I have been getting the paper every week, and boy, I sure look forward to it. I want to thank you, and all of the folks that help us get it.

Well, Mac and Bill, I figure on

getting a furlough soon, and when I do I will drop in and see you. News is scarce, so will close for this time — thanks again for the paper.
