VOLUME 56

KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, NOVEMBER 21, 1946

NO. 47

## INTERESTING HAPPENINGS FROM JULIAETTA AREA

Saturday business visitors in Lewiston were Mr. and Mrs. Mike Hedler and Mr. and Mrs. Lewis Lindquist.

Mr. and Mrs. Woodrow Nye and Buzz Nye, accompanied by Donna Jean Nye of Clarkston and nephew, Melvin Nye, also of Clarkston, motored to Lewiston on Saturday.

Little Connie Faye Howell, daughter of Mr. and Mrs. Bill Howell, has the chicken pox.

Gwendolyn Abrams, daughter of Mr. and Mrs. Harold Abrams, is confined to her home with rheumatic fever.

Sunday dinner guests of Mr. and Mrs. Eugene Taylor were Mr. and Mrs. Gordon Swears and family.

Eugene Taylor, Everett Kirkpatrick, Ray Howard and Gordon Swears motored to Moscow last Thursday night to attend a regular session of the Elks lodge there.

Friday, Nov. 15th, the Juliaetta-Kendrick Rebekah lodges held a joint special meeting in the lodge hall here. They were favored with the presence of their President of the Idaho Assembly, Mrs. Edith Florence, who was making her official visit. Following the meeting refreshments were served.

Mr. and Mrs. Christ Molden motored to Lewiston Sunday afternoon.

Friday night, Nov. 22nd, the basketball boys are having a pie social at the high school at 8:00. Proceeds for the athletic department. Let's get behind the boys and give them a boost — all of us!

Mr. and Mrs. Eben Adams enjoyed a visit from their son, Keith J. Adams, 1st Lieut., Marine Air Corps, who just returned from China on replacement duty. Lt. Adams is on terminal leave. He returns to San Diego for discharge Tuesday. Mrs. Keith Adams and son Michael were at Moscow to meet him, and will go with him to California for two weeks.

The Primary room enjoyed an apple and peanut show. Mr. and Mrs. Jack Hammond, Sr., who recently underwent major surgery at Benning hospital, Dayton, Wn., is recovering nicely and hopes to be home soon.

Recent big game hunters in the Lochsa country were E. A. Kirkpatrick, Lewis Lindquist, Ray Howard, Woodrow Nye and Buzz Nye. E. A. Kirkpatrick and Buzz Nye bagged a deer apiece.

Ray Howard and E. A. Kirkpatrick spent the week-end in Post Falls.

Thursday Lewiston shoppers were Mr. and Mrs. Claude Clark and daughters Claudine and JoAnne.

Sunday evening a supper party honoring several birthdays was held at the home of Mr. and Mrs. Walter Cochran. Guests hidden were Mr. and Mrs. Claude Clark and family, Mr. and Mrs. Fred Glenn and family, and Mr. and Mrs. Paul Hall and family. Two lovely birthday cakes were a part of the menu.

Mrs. Mary Jones of Los Angeles, Calif., who recently was called here by the death of her brother, Rufus Dudley, left for her home on Friday morning. On her return trip home-ward she will visit in Spokane. During her stay here she was a house guest of Mr. and Mrs. Fred Hadley.

Mr. and Mrs. Chet Sams spent Sunday in Orofino, where they met Bruce Sherman with his pack string, helping him return them to Juliaetta.

Arli Burns and daughter Betty spent Saturday with his son and daughter-in-law, Mr. and Mrs. Bob Burns in Moscow, and attended the U. of L. Portland U. football game. The occasion was "Dad's Day" on the University campus.

Mr. and Mrs. Gordon Penland and daughter Karen have been visiting friends and relatives here.

Mr. and Mrs. Clifford Nelson and daughter Karen of Bovill spent the week-end here.

George Denner was a Monday business caller in Lewiston.

A. P. T. O. regular business meeting has been called by the president, Mrs. Barline Taylor, for Wednesday, Nov. 20, at the high school. Program by the committee.

Mr. and Mrs. Gordon Swears and daughters Beverly-Jean and Carol Anne spent the Armistice Day vacation with friends and relatives in Coeur d'Alene.

Rebekah Lodge No. 9 held a special meeting Monday night, preparatory for initiation services tonight (Thursday) Nov. 21.

Juliaetta selected its Yell Queens last Friday, after a series of try-outs. Those selected were Arline Meyer, Frankie Peters and JoAnne Peters. In addition, a girls club has been organized at the high school.

Mr. and Mrs. Arnold Zimmerman and small son, Larry, of Texas ridge, called Sunday at the Asa Cook home.

Geraldine Dowdy celebrated her 16th birthday anniversary Sunday, a number of friends being invited in for dinner at her home.

Marvin Grayson, Rex Taber and Leonard Weber spent Monday in Moscow.

Betty Burns and Minnie Lou Peters spent Tuesday in Lewiston.

Idaho Wheat Crop Good

Idaho's 1946 wheat crop is estimated at 32,268,000 bushels, an increase over the 1945 production of 3,696,000 bushels. The state's acre yield was 28.8 bushels, exceeded in the northwest only by the state of Washington, which had 29.4 bushels per acre.

Both barley and potatoes in 1946 are estimated lower than 1945, however. The 1946 production of barley is set at 8,940,000 bushels, compared to 11,840,000 a year ago. Idaho's 1946 production of potatoes is estimated at 42,480,000 bushels, a drop from the 44,220,000 bushels produced in 1945.

## Takes Possession Of Building

E. M. Dammarell and son Don this week took possession of the Johnson Garage building, purchased some weeks ago, and they, with a crew, are busily at work tearing out the wood floor and knocking off the old plastering.

A cement floor will be laid, and the interior refinished, including a sheet steel ceiling.

We understand that, for the present at least, the building will be used to warehouse General Petroleum products.

Roy Johnson has accepted work in a machine shop in Lewiston. For the time being, however, the family will continue to make their home here.

## DEATH CALLS NAOMI ARM-ITAGE CUDDY, TUESDAY

Death came to Naomi Armitage Cuddy, wife of John Cuddy, Gold Hill, while she slept, early Tuesday morning, November 19, following an illness of about three years. She had returned Friday evening from the Davidson Nursing home at Kendrick where she had been receiving treatment for heart trouble, and, realizing the seriousness of her illness, expressed the desire to be at home. She apparently was feeling as well as usual when she retired Monday evening, but did not live out the night.

Naomi Armitage Cuddy was born September 21, 1917, at Southwick, a daughter of Mr. and Mrs. Tom Armitage. She grew up there, attending the Southwick grade and high schools and on graduation from the high school went to Spokane where she learned to be a beauty operator.

In February of 1937 she was united in marriage to John Cuddy, and the young couple moved to a farm in the Gold Hill section. To this union three children were born, Joe, 8; Patricia, 7, and Judith, 3.

Besides her husband, John Cuddy, and the three children, she leaves to mourn their loss her parents, Mr. and Mrs. Tom Armitage, Southwick; six brothers and one sister: Elbert Armitage, Spokane; Ross Armitage, Kendrick; Milford Armitage, Kootenai; Roland Armitage, Southwick; Jay Armitage, Orofino; Arlie Armitage, Southwick, and Mrs. Doris Armitage, Kellogg.

Funeral services will be conducted at the Gold Hill church on Friday, Nov. 21, at 11:00 a. m., with Dr. J. H. Coulter, Kendrick, bringing the message.

Mrs. Cuddy was beloved by all who knew her, her cheerfulness during the long illness preceding death endearing her all the more to friends and neighbors. Her passing leaves a gap in that community that will be hard to fill.

Crash Injuries Claim Mattoon

Orville John Mattoon, 20, Route No. 1, Lewiston, died at St. Joseph's hospital at 2:40 a. m. Saturday of injuries received a week ago Sunday in an accident on highway 42, three miles west of Juliaetta.

Mattoon and his brother, Morris, were traveling in the direction of Lewiston about dusk. Attached to their sedan was a trailer containing a horse. The horse caught one foot in the bars of the trailer and Mattoon pulled to the side of the highway and got out to correct the position of the horse. He was between the car and trailer when a car driven by Doyle Laws, Pierce, crashed the rear of the trailer. His left leg was fractured, right leg terribly mangled, and he sustained lacerations on the face and head. His condition was critical when he was received at the hospital.

Mr. Mattoon was born at Sweetwater, Sept. 20, 1926, and his entire life spent in the Lewiston area. He attended Lewiston high school. He entered the Marine Corps in February of 1944, and served two years overseas. Since his return from the service he had been employed by Potlatch Forests, Inc.

Survivors are his parents, Mr. and Mrs. George Mattoon, Lewiston. Orville has three sisters and four brothers: Mrs. Frieda Shirts, Yaldema; Maxine Mattoon, Margaret Mattoon, Morris Mattoon and Merrill Mattoon, all at home; George Mattoon and Norman Mattoon, both of Lewiston.

Funeral services were conducted from the Brower-Wann chapel at 2:00 o'clock Monday, with the Rev. Roy H. Branan as officiant. Interment was in Normal Hill cemetery. —Lewiston Tribune.

Mr. Mattoon was quite well known here, as he had visited often in the Wm. and Perry Mattoon homes, and it is with exceeding regret that news of his passing was received.

Work On Roads Being Pushed

Despite early winter conditions plans and work on area market roads are being pushed. Frank Brocks, chairman of the Troy Chamber of Commerce road committee, said.

Right-of-way for the Troy-Kendrick state road is being secured as is the right-of-way for the Troy-Moscow highway between Miller trestle and Troy. It is expected a contract will be let by the state highway department on the Troy-Kendrick road soon, thus providing winter employment for residents in this section.

A. E. Campbell is operating a rock crusher about a mile northeast of Troy to supply crushed rock to the Troy Highway District, the town of Troy, and to farmers. The Troy town council expects to resurface streets as rock is available. Troy Press.

Cheerfulness keeps up a kind of daylight in the mind, filling it with a steady and perpetual serenity. —Addison.

## NEWS FROM LOCAL MEN IN THE ARMED FORCES

Warney May Home On Leave

Cpl. Warney May, Jr., U. S. M. C., son of Mr. and Mrs. Warney May, of American ridge, who arrived home Tuesday of last week, was a Gazette office caller Friday afternoon, to thank all concerned for the paper — which he got just now and then — if at all — but which was mightily appreciated when one did arrive.

Warney enlisted in the Marine Corps on October 23, 1943, and was promptly sent to the Marine base at San Diego for his boot training. On completion of this training he was assigned camp duty at once — thereby missing out on the usually allotted leave, and it was not until October of 1944 — almost a year to the day, that he drew a leave.

This leave, of but 10 days duration, was spent at his home here. Immediately on his return to San Diego his unit boarded ship for the Marshall Island (October 1944), taking part in the Marshall, Guam and Okinawa campaigns — about which Warney doesn't have much to say.

At the close of these campaigns the unit was sent to Tangku, China, then Tientsin, China, Pieping, Changsha (Great Wall), and then into the Mukden railroad area, where they directed and assisted the 94th A. Chinese Nationalist Army in clearing the sector of Japs and bandits — and later directed and assisted the operations of this army in patrol and guard work.

From this sector his unit worked its way through China, along the railroad, winding up at Shanghai.

After a rest there, they boarded ship for the states on July 1, 1946, sailing through the canal to the Marine Corps base at Camp La Juna, North Carolina, where Warney was promptly "plunked" into a hospital for treatment of a severe case of malaria, and he remained at the hospital until leaving for home, and is now enjoying "Mom's" cooking and a 60-day terminal leave.

Cpl. May, who looks the picture of health, says he feels that way, but with malaria, one never knows when an attack may re-occur. As mementoes of his Marine Corps service he wears two Bronze Battle Stars and two Expeditionary ribbons, the latter as a result of the successful China campaigns.

Cpl. May states he found the Chinese O. K., as they were friendly, dependable and willing. However, he says the average Chinese soldier has one peculiarity — he just doesn't like to fight in rain or snow.

And when inclement weather hit, he could always be found in the barracks, waiting for better weather to arrive before going on with the fight. Warney says they apparently feel that "the battle will be there waiting when the sun begins to shine, so why fight in the rain?"

This peculiarity, of course, didn't help a bit in the fight against the Japanese, but never-the-less, the Chinese are good fighters when conditions suit them. They apparently have no nerves, and are good shots when equipped with good weapons.

Probably the most highly prized of the souvenirs which Cpl. May sent or brought home with him (and there are quite a few of them) is a Chinese Army pocket knife, a heavy knife with plastic handles, and ring for lanyard. The knife itself has blades and tools opening up from both ends on top and bottom, and also on the sides. There are two blades, a screwdriver, can opener, scissors, nail file, needle, awl, etc., and it winds up with a metal tooth pick and ear spoon, which slide into grooves on the sides of the handle.

Included also in his souvenirs are a Chinese marriage license, a Jap medal given mothers for large families, Chinese currency, a Jap war bond, etc.

At the conclusion of his 60-day leave Warney reports to the nearest Marine Corps hospital for another check-up — and then may become a civilian — which he hopes comes to pass.

Very Interesting Letter

Lt. Barbara Long, P. T. A. N. C., whose address is now 161st St. Hospital, A. P. O. 1005, Co/P.M., San Francisco, Calif., has written a very interesting letter to her parents, Mr. and Mrs. Edgar Long, who have kindly allowed us to print parts of it, as follows:

Dear Folks:

They will have to build a bridge before I'll come home. Never again will I be seasick for 14 days straight. It was miserable. We had storms all the way. Lots of sympathy from the other P. T.s with cast-iron constitutions. Always helpful — bringing me a pork sandwich.

Cherry and Helen met me as the ship docked in Yokohama and the week I waited there for assignment. I took in Japan. The country is so small that it doesn't take long. Tokyo has more Americans than natives.

My assignment is terrific. I'm a 1,000 miles away from all the others who are in a 50-mile radius. Get out the map and look me up. It is on the island of Hokkaido, which is the northernmost island of Japan. And the city is Sapporo on the Japanese Sea. We can throw rocks across the channel to the Russians in Siberia. The snow gets 30 feet deep and up in the winter. Right now it is just a slightly cold October with turning leaves. Sapporo is the nicest city in Japan. It hasn't been bombed and doesn't stink like Tokyo. The streets are wide and paved and it would be an ideal set-

(Continued on last page)

## PERSONALS AND NEWS ABOUT KENDRICK FRIENDS

Mr. and Mrs. Ward Helton have purchased and moved into the house formerly owned by Mr. and Mrs. Sid LaHatt, on the school house hill.

Percy Ware and Ersel Hudson, who are employed by P. F. I., near Bovill, spent the week-end at their homes here.

Mr. and Mrs. Craig Henderson arrived Tuesday evening from California for a visit with his mother, Mrs. Ida Pemberton, and other relatives.

Mrs. Laura Watts, who has been visiting her daughter, Mrs. H. C. Schupfer and family for the past month, left Wednesday for her home in Burns Lake, B. C. The Schupfers took her as far as Spokane.

Mrs. A. O. Kanikkeberg and daughter, Mrs. Judson I. Lee, arrived Saturday from Seattle. Mrs. Lee will visit here for some time.

Those from here attending the Community concert Monday evening in Lewiston were Mrs. H. C. Schupfer and daughters Beverly and Marilyn, June Brown, Mrs. J. H. Coulter and sons Dick and Edwin, Dr. and Mrs. G. W. McKeever and daughter Chloe, Danny Crocker, Wilma Benscoter and Mrs. W. L. McCreary and daughter Patty.

Tom Keene was a Spokane business visitor Monday and Tuesday. His mother, Mrs. Wade Keene, accompanied him as far as Uniontown to stay with her daughter, Mrs. Geo. Jones and family.

George Davidson, Moscow, was a caller in town Sunday.

Mrs. R. H. Ramey, Mrs. Estella Leith and Mrs. Walter Koepf were Lewiston visitors Wednesday.

Mickey Harris, who is attending business college at Lewiston, spent the week-end at her home here.

Barbara White, Lewiston, spent Monday and Tuesday at her home here.

Mr. and Mrs. Virgil Phillips and son of Klamath Falls, Oregon, and his parents, Mr. and Mrs. J. H. Phillips of Moscow, Idaho, visited briefly in Kendrick Monday morning, while enroute to Southwick to spend the day with old friends and neighbors.

Students home over the week-end included Sidney and Allan Johnson, Charles and Teddy Deobald, Ossie Kanikkeberg, Gene and Bob Lind Van Wegner, Mr. and Mrs. W. A. Deobald, Paula McKeever, Gay Deobald and Ray Benscoter.

Miss Lois Deobald, who is teaching at Grangeville, spent the week-end at her home here.

Mr. and Mrs. Charles Andres were called to Palouse, Wash., Sunday, by the death of his grandmother, who suffered a paralytic stroke some ten days ago. They are expected home today (Thursday).

Dave Gentry, Ed. Deobald and Bill Holt were Bovill section visitors last Friday and Saturday, returning with an elk and a deer.

Mr. and Mrs. F. E. Griffith of Spokane were week-end guests in the home of their daughter, Mrs. W. L. McCreary and family.

Charles Jessup, Juliaetta, was a Kendrick business visitor Tuesday.

Mr. and Mrs. Paul Lind and sons Bob and Eugene and Mrs. Bina Raby were Gifford visitors Sunday.

Mrs. Kenneth Brocke received word this week that her brother and his wife, Mr. and Mrs. Leonard Stuart of Pocatello, were the proud parents of a baby boy, born Monday.

Mr. and Mrs. Kenneth Brocke and family were Lewiston visitors Sunday at the home of her parents, Mr. and Mrs. Stuart, the occasion honoring her mother's birthday anniversary.

Mrs. Frank Crocker received word Wednesday morning that her brother's wife, Mrs. Arthur E. Luckens of NezPerce, had passed away very suddenly Tuesday evening.

Dr. and Mrs. G. W. McKeever and daughters Paula and Chloe, accompanied by Danny Crocker and Dick Coulter, drove to Spokane Wednesday to attend a vocal concert by Lauritz Melchior, tenor.

Edwin Coulter has resigned his teaching position at Reubens, and will serve temporarily as pastor of the Indian Methodist church at Lapwai.

Dr. Coulter, Edwin Coulter, Ira Foster and Mr. and Mrs. E. O. McAllister, the latter of Juliaetta, went to Clarkston Sunday to hear Bishop Bruce R. Baxter.

Nutrition Meeting Scheduled

An expanded livestock nutrition meeting that will take in many phases of feeding and caring for swine, poultry and beef, and dairy cattle, will open for a one-day session in Lewiston November 23, according to information from the U. of I., Moscow.

The meeting's program calls for discussions of nutritional and sanitary problems from such authorities in the field as C. E. Lampman and C. F. Peterson of the university's poultry department; Dr. Glenn C. Holm, station veterinarian; W. P. Lehrer, Jr., assistant animal husbandman, and F. C. Fountaine, assistant dairy husbandman.

Although the meeting is called at the request of feed dealers over northern Idaho, the public will be welcomed at the program.

Crop Seed Goals

The Washington state office of the Production and Marketing Administration has announced final acreage goals for cover crop seeds for 1947. These are at substantially higher levels than the 1946 estimated production.

These Washington state goals call for 4,000 acres of Austrian winter peas; 2,000 acres of hairy vetch, and 3,000 acres of Wilamette and common vetch, for 1947.

The bulk of the nation's production of these seeds is concentrated in Idaho, Oregon and Washington.

## To Our Correspondents

Since our next publication day, Thursday, November 28, is Thanksgiving Day — and since we are just like everyone else on that day — (don't want to work) we are going to take the liberty of asking you to please help us out by sending in the news one day earlier than usual.

We realize that this is something of an imposition — but since it only happens "once in a blue moon" we are again asking that you help us enjoy one of our great national holidays.

We sincerely appreciate the effort you news gatherers put forth in our behalf at all times — but sometimes it seems like we must "just step over the line."

## LYBERGER-DENNER NUP-TIALS SOLMENIZED NOV. 18

On November 15th at high noon, the home of Mr. and Mrs. Walter Denner, Juliaetta, Idaho, was the scene of an impressive wedding ceremony in which Jewell Cummings Lyberger, daughter of Mr. and Mrs. B. H. Cummings, Spokane, became the bride of Thomas Denner, son of Mrs. Kuni Denner, Juliaetta. Officiating at the ceremony was the Rev. Otto G. Ehlen, brother-in-law of the groom, and pastor of Gideon Lutheran church, Lind, Wash.

The bride was attended by her sister, Mrs. G. F. Denner, and the groom by his brother, G. F. Denner.

The day being the wedding anniversary of the bride couple's attendants, the bride was attired in the gown worn by her sister at their marriage ceremony 10 years previously, a gown of charming white tulle. The bride carried a white chrysanthemum. The matron of honor wore a gown of dusty rose and a corsage of carnations and chrysanthemums.

The groom and best man wore the traditional dark suits, with white carnation boutonnieres.

Judith and Janice Denner, flower girls, wore identical dresses of pink and white.

Marie and Margaret Ehlen, nieces of the groom, played and sang "Because" and "The Lord's Prayer." The Lohengrin wedding march was played by Marie Ehlen.

A three-tiered wedding cake, topped by a miniature bride and groom was the center-piece of the wedding dinner table, the meal being prepared by Mrs. Walter Denner, Mrs. David Denner and Mrs. G. F. Denner, and served by Marie and Margaret Ehlen. After the bride and groom cut the first piece, the cake was served by Mrs. Theodore Meske.

After a honeymoon at coast points the couple will be at home near Juliaetta, where Mr. Denner is engaged in farming.

Those present at the wedding and reception were Mr. and Mrs. B. H. Cummings and Burneda Cummings, of Spokane; Mr. and Mrs. J. E. Lyberger of Farragut, Idaho; Rev. and Mrs. Otto G. Ehlen and family of Lind, Wash.; Rev. and Mrs. Theo Meske and daughter of Cameron; Mr. and Mrs. Hans Harder of Kahlotus, Wash.; Mrs. Kuni Denner, family, Mr. and Mrs. David Denner and family, Mr. and Mrs. Walter Denner and family and Herman Denner, all of Juliaetta.

Lillie-Halseth Nuptials

At the First Christian church in Lewiston, Monday, Nov. 4, Helen Lillie, daughter of Mrs. Bertha Lillie, Lapwai, and Ervin Halseth, son of Mr. and Mrs. Ed. Halseth of Kendrick, were married at a candlelight ceremony at 7 o'clock. The Rev. Marvin E. Smith officiated at the double-ring service.

Mrs. Lorena Altree, pianist, played "Oh Promise Me" Poem, Fibeck and Largo by Handel, Mrs. William Akins sang "Because" and "The Lord's Prayer," accompanied by Mr. Altree, who also played Lohengrin's wedding march and the recessional by Mendelssohn.

Miss Betty Halseth, sister of the groom, was maid of honor. Her gown was pale blue, with which she wore a shoulder-length veil and carried a pink and white nosegay with blue streamers attached.

Arnold Halseth, brother of the groom was best man, and Joe Forest, Willard Sampson and Miss Carolyn Heath were ushers. Miss Heath wore a pink gown and her corsage was pink.

The bride, given in marriage by her uncle, Burrell Sampson, wore a white satin and lace gown with long train and fingertip veil. Her bouquet was white and pink with deep rosebuds attached to long streamers.

A reception was held in the YW-CA lounge. Sharing honors were Mr. and Mrs. Thomas Lillie, brother of the bride, who were married in the afternoon. On the table were two four-tiered cakes, topped with a miniature bride and groom. After the first piece had been cut by the brides and grooms, the cake was served by Mrs. Carl Pearson, Mrs. Martin Tiberger and Mrs. Willard Sampson assisting with the coffee and ice cream. During the reception Mrs. Akins sang "Ich liebe dich!"

For going away, the bride wore a pale blue suit dress with blue coat and brown accessories.

During the past year Mrs. Halseth served a year with the Cadet Nurse Corps, and Mr. Halseth four years and nine months in the Pacific.

After a two-week honeymoon they are now at home to their friends in an apartment in the Blewett building.

First Winter Storm

The first real storm of this winter hit Kendrick and vicinity Wednesday, leaving about an inch of snow in Kendrick and three times that quantity atop the ridges.

## WHAT CAMERON FOLKS ARE DOING THESE DAYS

Mr. and Mrs. Harl Whiting left for Grants Pass, Oregon, Friday, to visit with their daughter, Mrs. Bill Huffman and family.

Kay Weyen visited with her aunt, Mrs. Ted Weyen, Saturday.

Mr. and Mrs. Albert Glenn and son Eldon were Sunday guests of Mr. and Mrs. John Glenn, the occasion being Mr. Glenn's birthday anniversary.

Mr. and Mrs. Fred Silflow and daughter Ida Marie, and Mr. and Mrs. Marvin Silflow were dinner guests of Mr. and Mrs. Herman Silflow Saturday evening.

Mrs. A. H. Blum returned home Wednesday from Lewiston where she spent a few weeks with her daughter, Mrs. Albright, convalescing from a recent operation. She thanks all her friends for the "get well" and birthday cards they sent her while she was in the hospital.

Mr. and Mrs. Ed. Mielke and daughters and Ted Mielke spent Saturday with W. C. Mielke in Lewiston.

Mrs. Clay Albright of Lewiston spent Wednesday with her parents, Mr. and Mrs. A. H. Blum.

Mr. and Mrs. Gus Kruger and daughters were Monday evening dinner guests of Mr. and Mrs. Herman Silflow.

Mr. and Mrs. Glen Wegner and family, Mr. and Mrs. Ed. Mielke and daughters, Mr. and Mrs. Herman Newman and daughter, James Whiting and Roy Silflow were Tuesday evening guests of Mr. and Mrs. Fred Newman and Harry.

Mrs. Theo Meske and children, Kenneth Slead and Wilbert Emsiek spent Sunday afternoon with Mr. and Mrs. August Brammer.

Rev. Leon Gehret of Gifford and Mr. and Mrs. George Berry of Genesee were Sunday dinner guests of Mr. and Mrs. Herman Silflow.

Mrs. Edwin Mielke spent Sunday with Mrs. Glen Wegner.

Mr. and Mrs. August Brammer, Mr. and Mrs. Fred Newman, Mr. and Mrs. Gus Kruger, Mr. and Mrs. Harold Silflow, Mr. and Mrs. Emil Silflow and son Freddy and Ernest Heimgartner were Sunday evening visitors in the home of Mr. and Mrs. Herman Silflow and Mrs. Ida Silflow.

Mr. and Mrs. Walter Koepf were Moscow visitors Tuesday.

Ida Marie Silflow, N. I. T. C. student, spent the week-end with her parents, Mr. and Mrs. Fred Silflow.

Mrs. Ida Stoneburner and Mrs. Emma Hartung entertained at dinner Sunday for Mrs. John Schwarz, Mr. and Mrs. Walter Denner and family, Mr. and Mrs. G. F. Cridlebaugh and daughters, Herbert, Ernest and Lawrence Schwarz and Ted Mielke.

Mr. and Mrs. Ed. Mielke and daughters, Ted Mielke and Cecil Brammer were Spokane visitors Friday.

Mr. and Mrs. Henry Wendt, Mr. and Mrs. Fred Newman, Mrs. Carl Koepf and Mrs. Ida Silflow were Lewiston visitors Monday.

Wild Game Storage Rules

Big game, upland game birds and fish legally taken may be kept indefinitely the state fish and game department advises sportsmen. The statement was in response to numerous requests about storage limits. Since the end of the big game and pheasant seasons in most parts of the state hunters who collected game have been wondering how long they may possess it in lockers or at home.

There is no time limit on any kind of Idaho wildlife except ducks and geese, which come under federal jurisdiction and may be kept 90 days after the season ends — December 9.

Game animals such as deer, elk and moose may be possessed as long as the hunter desires. The metal tag should be kept with the main portion of the carcass, whether at home or in commercial cold storage.

Game meat, hides, horns, etc., may be given away, but sale is prohibited. Sale of game birds and fish is also prohibited.

Possession limit of pheasants is three roosters. Limit of trout is 10 pounds and one fish, but not more than

# Kiddies, Listen: A Letter From Santa Claus!

North Pole  
Nov. 15, 1946

Kendrick Bean Growers  
Kendrick, Idaho.

Gentlemen:

In answer to your letter of Nov. 10 in regard to coming to Kendrick before Christmas to visit with the good girls and boys of your community. I am a very busy fellow now getting ready for Christmas. However, in looking over my calendar, I am pleased to state that I will be at Toyland in your store on Saturday, Nov. 30th. I will arrive at 2 o'clock in the afternoon, and I can stay from 2:00 until 5:00 or 5:30 p. m. Tell all the girls and boys that I will be there.

Sincerely yours  
SANTA CLAUS.

## When Santa Arrives

At 2:00 o'clock, Nov. 30 — We will have a treat for all the Girls and Boys under High school age — and Santa will pass them out.

Bring Dad and Mother and come see Santa Claus. For the grown-ups hot coffee and doughnuts will be served during the afternoon.

## It's A Big Day For Toyland Come All!

DO YOUR CHRISTMAS SHOPPING EARLY!

# Kendrick Bean Growers

## Electricity

### works for peanuts!

AND if you aren't up on today's expressive slang, *peanuts* means a very small amount of money. Like your electric bill. It really is *peanuts*, isn't it—compared to most other items in your family budget?

While the cost of most things climbed through the years—the price of electric service kept right on going down. Even in wartime, when practically *all* prices popped up, electricity actually became a few *peanuts* cheaper.

As a matter of fact, the average American family gets twice as much electricity for its money today as it did 20 years ago!

All of this goes to prove an important point. Sound *business* management—and experienced employees—together have given the American people dependable, low-priced electric service—the best and the most in the world! You'll enjoy that service even more in the electric years ahead.

## The Washington Water Power Co.

A SELF-SUPPORTING, TAX-PAYING, BUSINESS ENTERPRISE

### INTERESTING NEWS NOTES FROM KENDRICK SCHOOLS

**Home Economics News**  
Home Ec. classes I and II cooked breakfasts last week. From the pleasant aromas reaching the study hall, it is assumed they were highly successful.

**"Tish"**  
An all-high school play entitled "Tish" will be presented at the high school gym, tonight (Thursday) at 8 o'clock. This is a comedy in three acts, directed by Mrs. Werner Brammer. The public is cordially invited to attend this two-hour entertainment.

**Basketball Open House**  
Coach Ross Armitage announces that next Tuesday evening, at the Kendrick gym., an open house will be held as the start of the basketball season. Beginning at 7:00 p. m. there will be a series of inter-class games, giving all a chance to play and the public a chance to see the squad candidates in action.

**Sports**  
A basketball game schedule has been drawn for the season, and will appear in next week's issue. Watch for it.

**Carnival**  
The Kendrick School carnival, held at the gym, last Friday, was very successful. Mr. Long, chairman of the carnival, reports that after all expenses are paid, approximately \$425 was realized. Patrons and friends who contributed toward the success of this venture, either by donating or attending, are to be thanked.

**Assembly Program**  
On Friday morning at 9:00, Nov. 22, another National Assemblies program will be presented. This is a musical show, presented by "The Mortons." The community is invited to attend.

**Schedule Changed**  
The High school class schedule has been changed slightly this week in order to accommodate those who are turning out for basketball. The new school schedule for the gym is: Grades 1 to 6, inclusive, morning; 7th and 8th, Dee Miller coach, 12:30 to 12:45; Frosh. and Sophs., Elroy Kuykendall, coach, 1:30 to 2:30; Mon., Wed. and Friday, girls' P. E., 2:30 to 3:15; Juniors and Seniors, Monday, Wednesday and Friday, 3:15 to 5:00, and on Tuesdays and Thursdays, 2:30 to 3:15. Later the A and B squads will fill the period now used by the Juniors and Seniors. Those not on these squads will be called the "C Squad."

**First and Second Grades**  
The first and second grade room had two visitors this week, David Stucker on Monday and Karen Louden on Tuesday.

**Third and Fourth Grades**  
The third and fourth grades are presenting a Thanksgiving program next Wednesday, and the mothers are invited.

### LINDEN

Mrs. Stewart Wilson returned Saturday evening from Caldwell, Idaho, where, with Mr. and Mrs. Fred Zimmerman of Kendrick, and Mrs. Oscar Torgerson of Lewiston, they visited a sister.

Mr. and Mrs. Clem Israel and Mr. and Mrs. Lloyd Israel attended the bazaar and dinner at Cream ridge Saturday evening.

Mrs. Annie Weaver and daughter Dama and son Clarence spent Sunday with Mr. and Mrs. Adolph Denner at Juliaetta.

Mrs. John Cuddy came home from the Davidson Nursing home at Kendrick Friday evening.

Mr. and Mrs. Ted Grinolds were Spokane visitors over the week-end.

Mrs. Clem Israel and Mrs. Louis Alexander visited Mrs. Louisa Fry in Clarkston recently. Mrs. Fry is in very poor health.

Rev. George D. Calvert will preach at the church Nov. 24 and Dec. 1st. Everyone is cordially invited.

Mr. and Mrs. Stewart Wilson and children were Sunday evening dinner guests of Mr. and Mrs. Leonard Wolf at Leland.

Mr. and Mrs. Louis Alexander and Mr. and Mrs. Clem Israel spent Sunday evening in the Smith home.

Miss Pearl Brown was a Lewiston shopper Saturday.

Mrs. Marion Souders visited Miss Lella Grayson and Mrs. Arley Allen over the week-end, while her husband was on a hunting trip.

Mr. and Mrs. Arthur Foster visited Sunday at Southwick with Mr. and Mrs. Commie Perry.

### BIG BEAR RIDGE NEWS

Mr. and Mrs. Ollis Sherbon and son John of Pullman were Sunday dinner guests at the Claude Jones home.

Mr. and Mrs. Roy Emmett were Lewiston visitors Monday.

Mr. and Mrs. Henry Galloway and Larry are visiting Mrs. Galloway's brother, Bill Huffman and family and her sisters, at Grants Pass, Oregon.

Mrs. D. J. Ingle is visiting relatives in Ontario, Oregon, enroute to Kalamazoo, Mich., where she will spend the winter with her son, Dr. Dwight Ingle and family.

Mr. and Mrs. Earl Wilson and family of Lewiston were Sunday dinner guests at the Henry Kortemeier home.

Mr. and Mrs. Mark Suen of Parkland, Wash., visited Mr. Stuen's cousins, Halvor, Andrew and Hans Lien, Friday.

Miss Esther Nystrom showed a simplified way of putting in zippers and making bound button holes at the Happy Home club meeting Friday afternoon. Mrs. Gerald Ingle served a lovely lunch. It was decided to sponsor a community Christmas program, to be given at the hall.

Misses Betty Halseth and Norma Broemmeling of Lewiston; Mr. and Mrs. Boyd Leland of Clarkston came up for the charavari honoring Mr. and Mrs. Ervin Halseth, Thursday evening.

Remember the Ladies Guild supper and sale at the Community hall, Friday evening, Nov. 22nd. Mrs. Leonard Fairfield, Mrs. Edna Nelson, Louella Forest and Mr. and Mrs. Robert Clemenhagen and family of Kendrick were here for the Halseth charavari Thursday evening.

**Commercial Broiler Industry****Enjoys Spectacular Growth**

Commercial broiler production has been developed by areas with about one-third of the total production in one locality in the East known as the Del-Mar-Va Peninsula located in Delaware, Maryland and Virginia. In this area, the early growth of the business was most rapid and the present day business is most commercialized. Large concentrated sections are located in Connecticut, Massachusetts, Georgia, Texas, Indiana, Ohio, and California. Most operators in these areas handle 5,000 to 10,000 birds at one time, but some have several hundred thousand birds on one farm.

Commercial producing of poultry for meat purposes has grown from almost nothing in 1930 until now 20 per cent of our frying chickens are produced commercially. Discovery of an intensified feeding program to bring certain breeds of both sexes to fryer weight in a short time was the basis of the commercial broiler industry.

Improved breeding has meant more eggs per pullet, thus fewer pullets to take care of the egg demand, and a corresponding decrease in surplus cockerels for meat purposes. When the demand came for more poultry meat, the man who raised chickens solely for meat was able to fill it.

**Shah's Trick Unravels****Mystery of Court Plot**

An interesting story is told about the skill of rug weavers of Persia by Manucci, the Venetian traveler who visited the country during the reign of Shah Abbas, who ruled from 1586 to 1629. The monarch was disturbed over the stealing of papers from a carpet bag, which was cut open and then reweoven without obvious repair. Secretly the Shah burned a hole in a beautiful rug which he prized so greatly that he sat on it only on fete days. The court lackey, upon discovering the damage, was greatly alarmed and feared that his hand might be cut off for negligence in caring for such a prized possession. He secretly removed the rug to his home and sought the most skilled weaver in the city so that it could be repaired without detection. Chance favored the lackey, and he obtained the services of the very man who had repaired the Shah's carpet bag from which the important papers had been purloined. After a few days had elapsed, the king called for his prized rug. It was brought out and the king seated himself upon it. He searched for the hole, but could not find even the place where the rug had been repaired. Thereupon he learned from the lackey the name of the weaver who so cleverly had repaired the damage, and from the weaver he learned the names of the court conspirators who had stolen the papers in plotting his downfall.

**Poor Posture**

Certain things tend to prevent good posture, says Dr. Beckett Howorth of New York. For example, fatigue, lack of sleep, malnutrition or mental depression causes drooping, and the pelvis shifts and tilts forward, the abdomen protrudes and the chest flattens. The corpulent abdomen throws the body off balance and the upper part of the trunk and the head are thrown back to maintain balance, resulting in a swayback posture and back strain. The tall person may stoop to reduce his height to that of his neighbors or to fit his clothes, doorways, stairs, furniture and pullman berths. Clothes which are too small or too tight also tend to cause imbalanced posture. High heels tend to throw the weight forward; this effect must be counter-balanced by swaying the back or flexing the knees and hips; either of these compensations is apt to be uncomfortable and fatiguing. Certain occupations, such as desk work, favor poor posture, especially when long hours are spent in one position.

**Simmer Proteins**

"Boiled" ham is not boiled by good cooks today and neither are eggs nor fish. Instead, these protein foods are cooked in water just below the boiling point. Home economists explain that the high heat of boiling toughens protein, greater tenderness resulting from cooking longer at a lower temperature. Even "boiled" coffee is a dated phrase that no longer means quite what it says. The finest flavor in coffee is achieved by having the water just below boiling, brewing tests have shown. The common use of "boiled" for these foods is simply a case of an old term that has lagged behind modern cooking techniques.

**Coated Spectacles**

During the past year the use of coated spectacle lenses has increased, points out the Better Vision Institute. Such lenses reduce reflections and increase the amount of light transmitted by the glass. Coated lenses are chiefly valuable to persons with low visual acuity. Coating of lenses is effected by fusing on the surface a metallic fluoride film, less than one ten-thousandth of an inch in thickness. Any ophthalmic lens can be coated, except laminated non-shatter lenses, whose laminating substance cannot stand the heat of processing. Cemented bifocals are coated before fabricating.

**Experts Advise Shooting****With Both Eyes Open**

Two eyes are better than one in any form of shooting, whether it be shooting at game in the field or at still or moving targets, the beginner should start out by learning to shoot with both eyes open. This will enable him to get a clearer "sight picture" much quicker and improve his chances to score a clean hit.

Everyone has a "master eye" and the other is merely an auxiliary, experts say. This can be proved simply by pointing your finger at some object on the wall with both eyes open. Then close one eye at a time. You will find that one eye will retain the sighting alignment along the finger, while the finger seems to jump off the target when the other eye is used exclusively. When both eyes are opened, the experimenter will find that the finger is still pointing at the target. The eye which retains the sighting alignment is the "master eye." The domination of sighting by the "master eye" when both eyes are open is called "sight accommodation."

The great majority of expert riflemen shoot with both eyes open. This is particularly true when open sights are used. When peep sights are used, one eye is often closed until the sights are properly aligned and then opened. This greatly reduces eye-strain. In shooting with a telescope sight, a considerably lower percentage of experts shoot with both eyes open, but many of them wear a patch over the "extra" eye to ease the strain of keeping it closed and some have tabs placed on the rear of the sight so that the eye which is snugged up close to the aperture is not interfered with.

**Artificial Breeding Aid****To Improving Dairy Herd**

Breeding dairy cows artificially is a development that holds great possibilities for improving dairy herds. This type of sire service is usually limited to areas where at least 1,000 cows within a radius of 25 miles can be enrolled for the service. Unless the income from this volume of business is available, the service cannot be maintained profitably.

There are several advantages in artificial breeding, experts say. One advantage is the wide use that can be made of good bulls. For example, processes have been worked out by which 100 cows may be bred, under ideal conditions, with the single service of one bull.

The risk usually involved in using young bulls is also taken away in artificial breeding. Young bulls that go into the service are selected with care from proved parent stock. These selected young bulls are somewhat surer breeders than the old ones and therefore the use of the young males should be encouraged.

**Ropy Bread**

"Ropy" bread is caused by certain bacteria which thrive in hot weather and may hide in the flour. It may also get into the liquid yeast used from week to week, into potato water used in bread making or into cracks and seams of sifters, kettles, and other utensils. To get rid of "ropy" bread, boil or scrub all utensils for bread making in a mixture of 1 part vinegar to 3 parts water. If liquid yeast has been used from week to week, get a fresh "starter." Keep flour and equipment away from open windows and dirt. Keep all flour tightly covered. Another way to prevent ropiness is to mix 1 tablespoon of good vinegar to each cup of liquid used in making the bread. This does not change the flavor, as all odor passes off when the bread is thoroughly baked.

**New Southern Industry**

The sweet potato, one of Louisiana's oldest crops, is about to begin a new role in the state's agriculture and industry, with dehydration to produce a high carbohydrate-content livestock feed of a type in which the south generally has been deficient. More than 50 dehydrators will operate in Louisiana this fall as compared with less than 10 a year ago. Within a few years, it is expected hundreds of these plants in the state will be producing greatly needed livestock feed from the sweet potato. The bulk of the potatoes that will be processed by the plants will be the culls of table stock varieties, most of which could not be used in the past because of lack of farm storage space or poor keeping quality.

**Penicillin Types**

Penicillin is produced by a mold but the type of mold used and the medium or "food" on which it grows produce a mixture of types each differing in ability to control different kinds of bacteria. Chemically, the penicillins differ only in the arrangement of atoms in one part of the penicillin molecule. By adding certain chemicals to the medium for the mold, researchers changed the proportion of different penicillins produced by the mold. The resulting drug thus could be designed to have a greater amount of a particular type of penicillin to combat a given kind of bacteria more effectively. Moreover, the studies found that the addition of these chemicals increased the total yield of penicillin in one case by 50 per cent.

**Confined Turkeys May Be Profitable****Many Advantages Seen For This System—But!**

Excellent turkeys may be raised in confinement. Better control can be secured. The method is well adapted for growers with small-sized flocks, for late-hatched birds that are not ready for range before fall weather begins, where there is danger of soil contamination, on high-priced land or on farms with limited acreage. Also the problem

Turkeys on range at Pennsylvania experiment station. Range is seeded to orchard grass and Ladino clover.

of predators, etc., may make it advisable to grow turkeys confined.

Acreage, topography, drainage and texture of the soil are other important factors that H. H. Kauffman of Pennsylvania state college recommends be considered when ranging turkeys.

Labor, expense of equipment, overhead expenses, etc., are often smaller when large flocks are reared on range than in confinement.

In hilly country the turkeys should be moved to the valleys in the fall, as they reach maturity and the season of stormy weather approaches.

**Japanese Long-Horned****Weevil Invades U. S.**

Another native insect pest of Japan may prove a menace to America if not destroyed in time, says Harry B. Weiss, chief of the N. J. bureau of plant industry. The

Japanese long-horned weevil which has been introduced into the United States.

Japanese long-horned weevil was first discovered by Weiss in 1916. The adults are primarily foliage feeders on more than 100 host plants, including annuals, perennials, shrubs, deciduous trees and evergreens. The use of 25 per cent Cryolite dust was found effective at Connecticut in the control of the Japanese long-horned weevil.

**Fertilize Your Apple****Trees During October**

Late September, October and November is the time for making a fall application of fertilizer on bearing apple trees.

The nitrogen which gets into the trees this fall is an insurance that the trees will get off to a good start next spring, believes D. S. Brown of the University of Illinois.

For trees of good vigor, an application of sulfate of ammonia, or its equivalent in another nitrogen carrier, at the rate of from one-fourth to one-half pound per year of tree age may be used. The fall application should be followed by another at or before time of bloom in the spring.

**Partition for Calves**

When calves are placed in the barn for feeding, complete partitions should be erected in order that each calf secures its proper amount of food. Proper growth cannot be accomplished when calves of various ages and sizes are allowed to compete for their daily ration.

**Outbreaks of European****Red Mites in Orchards**

Because of the fact that DDT does not kill European red mites but does destroy certain of the insects that prey on this pest, the increase of the mites in orchards is of vital concern.

While the feeding of the insect during September and October will have little effect upon the fruit crop, they do injure the tree permanently. A dinitro spray, D-4, or summer oil spray is effective.

**"Stop — Look — Live!"**

Word comes to us through an article in the current issue of Collier's of the effective accident prevention campaign program of the Traffic Safety Association of Detroit, which reveals a thing or two that we believe all safety officials—and the people too—should know. We are particularly struck by the following accident-prevention methods, as employed by the TSA, and the results.

Method No. 1: TSA determined the spots in Detroit where the most accidents occurred and called them "Traffic Danger Spots." Police marked lanes for cars, painted the roads with danger signals, placed danger signs near the intersections, and rigidly enforced all traffic laws in these areas. Result: Within three months after the campaign started, fatal accidents in the "Traffic Danger Spots" had dropped 80 per cent and injury accidents 14 per cent.

Method No. 2: TSA officials studied the psychological reaction of motorists to posters warning against traffic violations and accidents, finding that the old horror posters, such as a man carrying a dead child in his arms, was of very doubtful value. "Drivers just can't identify themselves with such a tragedy," it was said. But they did find that motorists, on being given a "realistic" warning such as a threat of arrest or loss of license, drove more carefully. Results: The TSA fearing a tremendous increase in traffic accidents during the past Christmas season, covered the city with posters which read, "Drunk Drivers Go To Jail." When the season was over it was found that the traffic death toll was 40 per cent below that of the previous holiday season, and on three days there was no drunk-driving arrests, something no Detroit policeman had believed possible.

Method No. 3: The TSA bought three "drunkometers" for the city—gadgets which "accurately measure the degree of alcoholic intoxication," according to the article. This is said to make it more difficult for drunks "to beat the rap." Result: Since purchase of the "drunkometers" only one per cent of the city's accidents have been traceable to drunken driving.

Give to the Living War Memorial Swim Pool. Remember, it's yours, not Kendrick's!

**Soil Replacement  
Is Now Essential**

**Soil Food Drainage  
Must Be Replaced**

No enemy bombs hit American soil during World War II, but the nation's farm land nevertheless was "mined" in order to produce the gigantic crop yield which helped make victory possible, according to a statement made public by the Middle West Soil Improvement committee.

"Wartime crop goals which were necessary to produce foodstuffs, meat, dairy products, oil and fiber crops at a rate never before attained in history," says the statement, "drained the soil's resources

Adding life-giving substance to pasture in New London county, Connecticut.

of nitrogen, phosphorus and potash faster than they could be replaced. "As a result the need for carrying out soil-rebuilding and erosion-control practices will be great for many years to come.

"American farmers increased their production at least one-third above prewar records. In order to meet world food demands and prevent famine overseas, they are being asked to continue their crop output at high levels.

"Steps to repair the damage done to the soil's fertility level during the war and to make the land continue to yield crops enough to solve the world food crisis, are therefore imperatively necessary.

"The means for accomplishing this lie in providing the soil with all available plant food containing nitrogen, phosphorus and potash and in following intelligent farm management practices such as the raising of nitrogen-fixing legumes, regular crop rotation, pasture improvement and where necessary, contour plowing."

**Milk Can Range Waterer**

Ten gallon milk can makes an excellent water container for range and other use. Rusted cans no longer suitable for milk are satisfactory. Fill the cans with water and invert them into pans large enough to permit plenty of drinking space. This North Dakota station idea will prove a labor saver.

**Two-Row Fertilizer**

This two-row, horse drawn fertilizer distributor has been converted from a one-row planter by the Texas Agricultural Experiment station. The machine may be used for putting down commercial fertilizer in listed furrows in advance of rebedding land or for side dressing row crops.

**2,4-D Use on Irish**

**Potatoes Discouraged**

The use of 2,4-D as a weed killer in potato patches has not always proved satisfactory. Herbicidal agents selected in character might find widespread use if they removed undesirable weeds without causing concurrent injury to a growing crop, according to studies conducted at Camp Detrick, Md.

It was found that the use of substituted phenoxyacetic acids, such as 2-methyl-4-chlorophenoxyacetic acid and 2,4-dichlorophenoxyacetic acid, may be of value for the selected control of weeds in potato fields.

**Dairy Cows Need More**

**Room in Their Mangers**

One of the greatest needs in barns on the average farm is larger mangers, according to Carl Huffman of Michigan State college. He states that some mangers just aren't big enough to hold all the roughage that a cow should eat, while others which are large enough do not get enough hay put into them to produce milk cheaply. Good roughage will cut down the amount of grain cows need.

**Newcastle Poultry Disease**

**Spreads to Twenty States**

Although Newcastle poultry disease has been found in several foreign countries, no outbreaks occurred in the United States until recent years when the malady was reported in 20 states. Chickens of all ages may be affected, although reports show that losses have been less than 20 per cent in individual flocks.

Common practices of good sanitation with particular emphasis on careful poultry house ventilation during the early fall is a good way to forestall any trouble. Chickens, need fresh air, but they should not be exposed to direct drafts.

No vaccine has proved successful in the control of the disease as yet, although extensive field trials are being conducted where it is prevalent. First symptoms of Newcastle occurrence usually include difficulty in breathing with coughing, sneezing, and a rattling sound in breathing. Fever and diarrhea also appear, and the birds will generally be dull and listless. Mucous discharges and accumulations from the nostrils may lead to frequent swallowing and shaking of the head. Nervous reactions such as weakness progressing to paralysis may involve the legs and wings. Periodic shivering, twitching, inco-ordination, and convulsive seizures are common evidences too.

**Quaint Arabian City Towers**

**Above Bleak Desert Waste**

At the southwestern corner of the Arabian peninsula, 90 miles inland from the Red Sea, the city of San'a, in Yemen, rises from a plateau site 7,900 feet above the water, points out the National Geographic society. Towering above desert wastes for eight, ten, and twelve stories, its buildings with their colored glass windows are massed together like great apartment houses. Tall minarets and mosque domes cut this skyline.

Yet San'a is one of the most medieval of cities. It is surrounded by a high octagonal brick wall, with many semi-circular bastions. The wall symbolizes long isolation against outside influence. Entrance at any of the eight massive gates dispels any impression of modernity which a distant view of the buildings might give. Strictly speaking, there are no streets—just uneven earth packed by centuries of traffic.

No one is permitted to enter this holy city of 48 mosques and 39 synagogues without permission of the Imam, or king. In fact, travelers may not come to Yemen without royal consent.

**Ate Away Sea Coast**

From the 13th to the beginning of the 19th century it was estimated that 18 feet of Europe's North sea coast were being eaten away every year. A settling of the land in the 13th century may have aggravated conditions, but as early as 1066 the sea swept away Mellum castle, on Jade bay. A tempest drove the sea up the Ems estuary in 1277, wiped out forty villages, and formed the Follart gulf. Germany's hinterland there was low lagoon country, long a no-man's land. It was the site of gypsy camps and the refuge of outcasts, possibly those driven from their homes by the Thirty Years' war. Swarthy descendants of the Romany people are still seen.

**Chemical By-Products**

A process making better gasoline now can be harnessed to produce at the same time chemicals for plastics, synthetic rubber, and explosives, Standard Oil Company of New Jersey chemists announced. This large source of chemical raw materials for other kinds of products lies in new controls over the catalytic cracking of gasoline. Through variations in the catalytic cracking process, they said, it was found possible to produce a number of hydrocarbons useful as raw materials for chemical manufacture. Hydrocarbon by-products include toluene for TNT, xylenes for manufacture of plastics, and olefins for making synthetic rubber and rubber-like substances.

**Pioneer in Fungicides**

As though by poetic justice, the first and still greatest defense against the cotton boll weevil was invented by a Southerner, William C. Piver. In 1907 "young Bill," son of a wholesale grocer, graduated from the University of North Carolina in industrial chemistry. Within his first five years out of school he took part in the first commercial promotion of lead arsenate; conceived the idea of calcium arsenate; and worked out a successful method for making it. In less than another decade he saw the boll weevil invade Southern cotton, boosting calcium arsenate demand from pounds to thousands of tons.

**Indians Mined Copper**

Prehistoric Indians knew Isle Royale, Mich., for its copper deposits. Their diggings, still visible, are computed to be 600 to 800 years old. The stone hammers with which the small particles of copper were pounded out of rock have occasionally been found. Before pounding the rocks, the aborigines heated them, then poured on cold water to crack them into workable pieces.

# MAIN STREET

Photographed in Northern Pacific's new car shops at Brainerd, Minnesota

## Any future railroad executives here?

These young war veterans have returned to Northern Pacific and are now taking an apprentice training course in our shops, later to become machinists, blacksmiths, boilermakers, electricians and carmen.

Some of them will become foremen, superintendents, department heads.

How do we know? Because this is the way N. P., like most American industries, builds its leaders—from the ranks. Our own officers come up from the shops, the train crews, the track gangs, the offices and the engine crews.

• This "American Way" method of building sound management has been a good thing for us, and for you who live along the Main Street of the Northwest. To name a few of the tangible results: N. P. paychecks go regularly into 25,000 of your homes. N. P. taxes—over \$6,000,000 in '45—go into your state, county, municipal and school district coffers. And right now we are spending millions to make your travels on

"Main Street" even more pleasurable and to further improve our freight service.

If you know a better way to run a railroad, we'd like to hear from you. We'd like to hear from you anyway.

vites all the girls to be present, as  
this is her last meeting with them.

**P-T. A. Meeting**  
The regular monthly meeting of  
the Kendrick P-T. A. will be held  
in the school auditorium next Mon-  
day evening, Nov. 25, at 8:00. All  
patrons and friends are urged to at-  
tend.

## Notice For Publication

NOTICE OF PROOF APPLICATION  
OF WATER TO BENEFICIAL  
USE

Notice is hereby given that at  
10:00 A. M. on the 18th day of  
December, 1946, at Moscow, County  
of Latah, State of Idaho, before J.  
M. O'Donnell, Notary Public for  
State of Idaho, proof will be sub-  
mitted of the application to bene-  
ficial use of 0.25 cubic feet per  
second of the waters of Big Potlatch  
River in accordance with the terms  
and conditions of Permit No. 19936  
heretofore issued by the Depart-  
ment of Reclamation of the State of  
Idaho.

The name and postoffice address  
of the person or corporation holding  
said permit are Phil A. Johns and  
Iva E. Johns, husband and wife,  
Juliaetta, Idaho.

The use to which said water has  
been applied is agricultural irriga-  
tion, and stock watering.  
The amount applied to beneficial  
use is 0.25 of a cubic foot per sec-  
ond.

The place where said water is  
used are Blocks 14 and 15 of the  
Pleasant Homes Addition to the Vil-  
lage of Juliaetta, County of Latah,  
State of Idaho.

The name of the canal or ditch  
or other works by which said water  
is conducted to such place of use  
is a pipe.

The right to take water from such  
works is based upon Permit No.  
19936.

The source of supply from which  
such water is diverted is Big Pot-  
latch River.

The date of priority which said  
user is prepared to establish is Octo-  
ber 2, 1946.

MARK R. KULP,  
State Reclamation Engineer  
First pub. Nov. 21, 1946.  
Last pub. Dec. 12, 1946.

## GOLDEN RULE

Miss Mabel Cowger is home for an  
indefinite vacation.  
Mr. and Mrs. John Knez have  
moved into the Rudolph Kazda house.  
Little Joanne and Gary Bowles,  
who have made their home with the  
Glen Betts family the past two and  
a half months, have gone to Lew-  
iston to live with an aunt and uncle.  
Mr. and Mrs. D. V. Kuykendall,  
Mrs. Glen Betts and Eugene attend-  
ed the Cavendish community supper  
and sale Saturday night, from our  
neighborhood.

Jack Kelsey of Lewiston visited  
Finke Brothers, Monday.  
Archie Betts, Lewiston, spent  
Sunday and Monday at the Betts  
home.

The W. A. Cowger family and the  
Ernest Cowger family were Lewiston  
visitors Wednesday.

Mr. and Mrs. Frank Cowger and  
son of Harpster spent the week-end  
at the W. A. Cowger home.

## Relieving The Steel Shortage

If steel producers are able to keep  
producing at their present record-  
breaking rate for peacetime, the  
shortages reported by some steel  
consuming industries should shortly  
be made up. That is the encouraging  
statement from Walter S. Tower,  
president of the Iron and Steel Insti-  
tute.

The reason for the shortage, of  
course, is the strikes that plagued  
the industry not so long ago. The  
month-long strike that took place  
in January and February of this  
year, for instance, cost the country  
more than 6,000,000 tons of finished  
steel. The coal strike resulted in the  
loss of over 3,500,000 tons. Production  
since has been hampered by a  
series of small strikes and by the  
shortage of scrap and other raw ma-  
terials.

All in all, the total loss was some-  
thing like 12,000,000 tons of finish-  
ed steel. That, Mr. Tower says, is  
enough steel for 900,000 automobiles;  
70,000 farm tractors; 570,000 wash-  
ing machines; 1,144,000 kitchen  
stoves; 1,416,000 refrigerators and  
7,000,000,000 tin cans, and after all  
those articles were made there would  
remain 9,000,000 tons of steel for  
other purposes.

That is what strikes do to a na-  
tion's economy — and that's one big  
reason why you're having to wait  
for a car, a stove, or some product  
requiring a substantial amount of  
steel — not to mention nails, hand  
tools, and thousands of small items.  
The bright side of the picture is  
found in the fact that steel output  
now is at an extremely high rate,  
and the industry is doing everything  
in its power to meet the enormous  
demand.

The continued rate of production,  
depends right now, of course, on Mr.  
Lewis and his miners. "To be or not  
to be — that is the question."

**Something To Think About.**  
You can't make a silk purse out  
of a sow's ear — but you can make  
Kendrick a better town by trading  
at home!

NOTICE OF SPECIAL MUNI-  
CIPAL BOND ELECTION

Pursuant to the laws of the  
State of Idaho and pursuant to  
Ordinance No. 100 of the Vil-  
lage of Juliaetta, Latah County,  
Idaho, PUBLIC NOTICE IS  
HEREBY GIVEN, that a special  
municipal bond election will be  
held in the Village of Juliaetta,  
Latah County, Idaho, at the vot-  
ing place hereinafter designated,  
on the 10th day of December,  
A. D., 1946, beginning at the  
hour of 9 o'clock A. M. and  
closing at the hour of 7 o'clock  
P. M., of said day, for the pur-  
pose of taking a vote of the  
qualified electors of the Village  
of Juliaetta, Latah County, Ida-  
ho, who are taxpayers of said  
Village, upon the following ques-  
tion, to-wit:

"Shall the Village of Juliaetta,  
Latah County, Idaho, issue ne-  
gotiable coupon bonds in the  
amount of \$8,000.00 to provide  
funds with which to construct,  
reconstruct, enlarge, extend, re-  
pair, alter, and improve the  
water works system and plant  
of the Village of Juliaetta, by  
purchasing the necessary ma-  
terials, by drilling a well, in-  
stalling a pumping plant, con-  
structing, reconstructing, and  
improving the water storage  
plant and water distribution sys-  
tem of the Village of Juliaetta,  
Idaho, as prescribed by Village  
Ordinance No. 100, approved the  
15th day of October, 1946."

Said election shall be held in  
the Village of Juliaetta, Latah  
County, Idaho, and a vote upon  
said question taken within said  
Village, and the Village Hall of  
said Village of Juliaetta has been  
and is the designated voting  
place for said election.

NOTICE IS HEREBY FUR-  
THER GIVEN, that each and  
every person in order to vote  
at said election, is required to  
register, as provided by  
the laws of the State of Idaho.

Ed. H. Taylor, Village Clerk,  
office at Village Hall, is ex-of-  
ficio registrar of the Village of  
Juliaetta, Latah County, Idaho,  
and the person with whom all  
voters must register in order to  
vote at said election.

Persons may register at any  
time during office hours begin-  
ning with the day that the no-  
tice of election is given, and  
each day thereafter until and  
including the Saturday next pre-  
ceding the election, and on  
Thursday, Friday and Saturday  
next preceding said election per-  
sons may register between the  
hours of 9 o'clock A. M. and  
5 o'clock P. M., and between  
the hours of 7 o'clock P. M.  
and 9 o'clock P. M.

The voting at said election  
shall be by ballot. The ballot to  
be supplied to the voters for  
their use at said election shall  
be in the form set forth in  
Ordinance No. 100.

Dated at Juliaetta, Idaho, this  
25th day of October, 1946.

ED. H. TAYLOR  
Village Clerk, Village of Julia-  
etta, Idaho

## TEAKEAN GOSSIP

(Last Week)  
Mr. and Mrs. Elwood Pearson of  
Lewiston visited several days with  
Mr. and Mrs. Cecil Choate. Mrs.  
Pearson is Mrs. Choate's mother.  
Saturday night was election for  
the Evergreen Grange. Al Heimark  
was elected Master; replacing Cecil  
Choate, who had served the past  
year.

H. L. and Lesse Groseclose finish-  
ed rounding up their cattle and took  
them out to winter range Wednesday.  
Carroll Groseclose butchered a beef  
Tuesday; sending part to the locker  
and the rest was canned.

(This Week)  
Mrs. Gordon Choate is quite ill  
with tonsillitis.

Mr. and Mrs. Al Heimark and Mr.  
and Mrs. Cecil Choate returned Sun-  
day from Portland, Oregon, where  
they attended the National Grange  
convention.

Several people from Teakean at-  
tended the bazaar and sale at the  
Cavendish church Saturday night.  
Visitors at the W. L. Brown home  
Sunday were Myrtle Powell, Beverly  
Dodge, Mr. and Mrs. Gifford Brown  
and family, Bill Marsh, and Mr. and  
Mrs. Raleigh Brown.

Mr. and Mrs. Gifford Brown and  
family and Don Wright visited the  
Gordon Choate family Sunday even-  
ing. Myrtle Powell and Beverly  
Dodge returned home with them.

Mr. and Mrs. Gifford Brown, Mrs.  
W. L. Brown and Myrtle Powell were  
Lewiston visitors Tuesday. Myrtle  
Powell remained to visit a few days.

We have been having lovely warm  
weather — but it is snow at the  
present time — though warm!

## Grange Meeting Scheduled

The regular business session of  
the Kendrick Grange will be held  
on Tuesday evening, Dec. 3. It is  
election of officers, and all members  
are urged to be present.  
Refreshments will be served at  
the close of the session.

Get acquainted with you neighbors,  
meet them in Kendrick when you  
come in to trade.

## WANT ADS

FOR SALE — 20 sacks Idaed spring  
wheat. Werner Brammer. 47-2x

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

## HI, THERE, FOLKS:

**Fall Chicks Can Be Profitable!**—Erving's Winlock Hatchery has New Hampshire baby chicks available at \$17.00 per 100 on the following days:

November 25th  
November 28th  
December 2nd  
December 5th

If you are interested in getting some fall chicks, here's your chance! Telephone your order to us and we will telegraph the order to them.

Buy baby chicks now and have them laying by spring!

## About Those Cream Checks —

Keep your cows producing milk. Your cream check grows big in a hurry these days with butterfat at 87c per pound. Always bring your cream to our creamery, where you not only get the market price for that cream, but you receive as well, your share of the profits of the business.

## Remember:

Market your produce the co-operative way — and bring it to the Kendrick Co-operative Creamery!

Hostess: "Willie, you seem to be in very deep thought."  
Willie: "Yessum! Mama told me something to say if you should ask me to have some cake, candy or anything, and I can't remember what it was!"

Irate Parent: "I'll teach you to make love to my daughter, young man!"

Suitor: "I wish you would, sir. I'm not making much headway."

Dumb: "So your husband is one of those 'big guns' of industry?"  
Dumber: "Yes, he's been fired seven times in the past month."  
Famous last words: "Well, if he won't dim his, I won't dim mine."

Sell us your cream!

## MORE ABOUT ARMED FORCES

up except for the cold and remoteness.

I'm at the 161st Station hospital, attached to the 11th Airborne troops. There are only five nurses, two Red Cross, one P. T., and one dietitian. The hospital is a beautiful all-glass building. My room is as large as the living room and dining room at home. Windows all along one side, two dressers, couch, soft bed, lamps, two chairs and a huge closet. A Japanese personal maid does all my cleaning and laundry.

The clinic has very modern equipment and few patients, but there will be more patients next month because that is when the paratroopers make their next jump.

I have a ward man and one Japanese working with me. The Japanese doesn't understand English, so we rave and scream at each other and he smiles to show all his teeth and bows low — then goes on doing as he pleases.

There are hardly any white women to Sapporo, so in size and color of hair I'm quite a blow to the natives. They all giggle and point.

Most of the people wear their native costumes, and pull the carts up and down the street. It is fun to prowl in their stores but the prices are terrific — tourist trade.

Anything is a good excuse for a holiday. They dance and sing in the streets. The songs are all chants, pitched high and very weird. The oldest tribe of people in the world live on this island called the Amnir. They have hair all over their body, ape-like features and worship the bear. The bear is their food and drink — tasty blood.

We can't eat any Japanese food and the dietitian has a rough time with the menu since we are on the last of the supply line from the states. Sauerkraut comes in tremendous quantities.

There is one local radio station that re-broadcasts programs sent over by record. I hear a lot of them now, that were home four months ago. The popular songs are further behind than that. There is no schedule to the programs. You may hear Jack Benny every day for a week and then not again all year. So all

of the popular radio programs are not heard. Most of the station time is taken with local requests.

For entertainment, one Japanese theater has been taken over. The emperor's race horses are stabled here, so they bet on the races, the 11th Airborne plays football against the other units in Japan, and in the winter everyone has to ski in self defense.

It doesn't take long to learn a few phrases of Japanese in order to get around. But most of mine consists of frantic sign language.

Love.—Barbara.

## SOUTHWICK NEWS

George Douglas of Dayton, Wash., spent from Monday until Wednesday visiting in the Lettenmaier home.

Mr. and Mrs. Gordon Harris were dinner guests in the Given Mustoe home Sunday.

Mrs. Al. Frazier of Pierce; Mrs. "Red" Jordan and baby and Mrs. Vernon Storey and daughter of Orofino, were visitors in the Lou Watson home Monday.

Mr. and Mrs. Harry Smith spent Wednesday with Mr. and Mrs. Elton McCoy.

Several parties from this community attended the dinner and bazaar at Cavendish Saturday evening.

Mr. and Mrs. Don Cantrill and daughter Sandra were dinner guests of Mrs. Annie Longetelg, Sunday.

Mr. and Mrs. Gordon Harris spent Tuesday, Wednesday and Thursday at Pullman and Lewiston.

Dick Watson spent the week-end in Kendrick with Mr. and Mrs. Clarence Wilson.

The Southwick Ladies Aid will hold their bazaar and supper on December 4th, at the Ladies Aid hall.

## Southwick School News

Our school has received a receipt from the "Heart Sale" for \$17.00. Last year it was \$25.00.

Both rooms have sent in their Junior Red Cross memberships and received their pins.

Joe Tschantz, Margaret Kazda, Charles Cuddy and Dick Watson have absence marks for the week, due to illness.

The students of both rooms, Mrs. Tarry and the cooks, surprised Mrs. Brilwine on her birthday last week with a handkerchief shower. The cooks prepared a pretty and delicious hot lunch, including a cake with candles.

The upper grade room is beginning art work on plaster of paris plaques.

Turkeys and other Thanksgiving decorations are up in both rooms now.

Roy Bradley and George Pressnall have been gathering tree cones to bronze for Christmas decorations.

The fifth and sixth grade classes made "potato turkeys" last week, complete with spreading tails of chicken and "chink" feathers.

The eighth grade arithmetic class is beginning a study of Algebraic equations.

The fifth grade class is beginning to study fractions.

Mrs. Tarry was ill Thursday and Friday. Mrs. Virgil Harris taught the lower grade room Friday.

Arlie Armitage and his helpers have finished rearranging the library books and listing all book authors alphabetically. There are about 300, besides the reference books. The book list, when posted, will help the librarian keep the books in their proper places.

## PINE CREEK GOSSIP

Mr. and Mrs. Cleo Shaw and daughter were Sunday visitors in the home of Mrs. Amelia Riley.

Mr. and Mrs. Arthur Fraser and son were Sunday visitors in the home of her parents, Mr. and Mrs. Chas. Fey.

Arlene Riley was a Tuesday night guest of Donna Arnett.

Mr. and Mrs. Carl Cox and daughters, Delores and Dorothy, were Lewiston visitors Friday.

Betty Glenn spent Friday night with Donna Arnett.

Mr. and Mrs. Roy Glenn and family were Sunday visitors in the home of his parents, Mr. and Mrs. John Glenn, at Fairview.

Roy Riley was a Wednesday night guest of Jerry Chamberlain.

Paul Richardson was a visitor in the home of his sister, Mrs. Roy Glenn and family, Tuesday.

Mr. and Mrs. Estel Richardson and daughter of Simi, Calif., and Paul Richardson of Fix ridge, were Monday visitors in the home of Mr. and Mrs. Roy Glenn.

**New Sugar Substitute**  
A new sweetening agent, said to be 4,000 times as sweet as sugar and eight times as sweet as saccharin, is a powder-like substance produced in the form of orange crystals. It is already in use as a sugar substitute in Europe, where it is said, the usual practice is to dilute it with lactose to provide a product 500 times as sweet as sugar. The new sweetening agent is now in production in the Netherlands and is covered by European patents. An application has been made for a U. S. patent, according to Prof. Pieter Verkade of Delft University, Holland, who recently discussed the new chemical before the Chicago section of the American Chemical Society. The name of the sweet substance is 1-N-propoxy 2-amino 4-nitrobenzine — which alone is enough to keep it from being a serious competitor of American sugar, if there were any sugar.

THESE ARE

# THE FACTS

AS WE FACE THEM TODAY!

## ANTI-FREEZE . . .

Get it anywhere you can find it. There will be very little of the "permanent type" available anywhere. However, we have lots of radiator alcohol.

## TIRES . . .

Buy what you can find, where you can find it, if you wish to keep on rolling. However, we get a few now and then — and that Goodyear is worth waiting for.

## HYDRAULIC BUMPER JACKS . . .

Please be patient. Production limited, due to the war, which is not officially ended.

## STORAGE BATTERIES . . .

Conditions are steadily worsening. However, we do get a few now and then. Please don't buy one unless you absolutely need it. They won't keep, you know.

**KENDRICK GARAGE CO.**
