P.-T. A. Meeting

The regular monthly meeting of the Kendrick P.-T. A. was held on Monday evening in the High school auditorium with Mrs. Herman Travis, president, presiding.

Mr. Armitage reported the grade school students had made \$50.00 selling Christmas cards, which money would go toward the piano.

A round-table discussion was held on the "Peabody" plan for the reorganization of Idaho's school system, this information proving of interest to all present.

Dr. J. H. Coulter gave a most interesting talk on "Planning Good Times For The Family."

The group then adjourned to the Home Ec. room, where the Big Bear ridge ladies served refreshments.

MISS JEAN RAMEY BRIDE
OF ERNEST H. BRAMMER

The home of Mr. and Mrs. Roy Ramey in Kendrick was the scene of a quiet but impressive candle-light, double-ring marriage ceremony on Saturday, Nov. 23, at 6:30 p. m., when their daughter, Jeanne Shirley Ramey became the bride of Ernest Henry Brammer, son of Mr. and Mrs. Henry Brammer of Kendrick. Officiating at the ceremony, held in the presence of immediate relatives only, was the Rev. Theo Meske of Cameron.

The bride wore a suit dress of golden wool. Her corsage was gardenias and tulle. The old tradition of something new and something old was carried out by wearing a brooch handed down by her great-grandmother, dating back much over 100 years.

The bride's attendant was her sister, Mrs. Walter Koeppe, who was attired in a rust-colored dress of princess style, with a corsage of tulle and roses. The groom wore a gray suit with carnation boutonniere. His brother, Werner Brammer, best man, wore a dark suit with carnation boutonniere.

The bride's mother wore a golden dress, and the groom's mother a dress of aqua-blue crepe.

The home was decorated in a color scheme of gold and white, the big bouquets of erysanthemums and poinsettias, banked against ferns and illuminated with yellow candlelight forming the beautiful setting for the ceremony.

After the ceremony a delicious light buffet supper was served. The first piece of the three-tiered wedding cake, topped with miniature bride and groom was cut by the bride and groom, after which Mrs. Roy Ramey, Jr., assisted by Mrs. Werner Brammer, served. Mrs. Walter Koeppe poured.

Mr. and Mrs. Ernest Brammer left immediately after the supper for a week's honeymoon trip to Spokane, Kellogg, Coulee Dam and other places. They will make their home in Kendrick in the spring, but Mrs. Brammer will continue her teaching at the Russell school in Moscow until the present term ends.

Mr. Brammer is a World War II veteran, serving with the navy in the Atlantic theatre for nearly four years.

Those present at the ceremony and supper were Mr. and Mrs. Henry Brammer, Mr. and Mrs. Walter Koeppe, Mr. and Mrs. Werner Brammer, Mr. and Mrs. George Havens and four sons, Mr. and Mrs. Roy Ramey, Jr., Pullman, Rev. and Mrs. Theo Meske and Mr. and Mrs. Roy Ramey, Sr.

Car Overtures

Monty Loudon had a narrow escape from serious injury or possible death when the car in which he was driving turned over and landed on its wheels at the edge of Potlatch creek on the Kendrick side of the Wauncher gulch bridge.

Mr. Loudon was proceeding toward Cameron, and flying water from little chuck holes in the road obscured his vision to such an extent that he was "on the turn" before he realized it. The car just missed a large light pole on the corner, rolled over, and back onto its wheels at the edge of the creek.

Mr. Loudon suffered a scratched left hand and a good shaking up, otherwise was uninjured. The car was quite badly damaged.

Christmas Seal Sale This Week

Thousands of Idaho residents will receive 1946 Christmas Seals in their mail this week. The Seals will bring greetings from the Anti-Tuberculosis association, and a reminder that the continued work of the association in fighting tuberculosis in this area depends upon the use local residents make of the seals.

In many communities school children will act as Christmas Seal salesmen and messengers, calling upon their families and neighbors to purchase the bright-colored "messengers of good health."

The 1946 Christmas Seal shows a lamplighter lighting his lamp against a starry blue sky, and is symbolic of the returning hope of the world after the dark years of war.

Funds derived from the sale of these Seals are the sole support of the tuberculosis association, and are used to provide chest X-rays for diagnostic purposes, to maintain a chest X-ray consultation service for physicians and hospitals, tuberculosis testing programs in the high schools and colleges, aid to tuberculosis cases and their families, and to help provide public health nursing services in schools, homes and communities.

In addition a year-round program of education about tuberculosis, its cause, treatment and prevention, is conducted through the distribution of literature, motion pictures, posters, newspaper and radio publicity, and talks before community groups.

Mrs. Ruth Perkins, Moscow, is the local chairman in Latah county.

New Garbage Collection

Beginning Friday of this week, and thereafter on Mondays and Thursdays of each week, garbage will be collected about town. However, there are a couple of new rules in this respect: Wet or regular garbage need not be wrapped (as before) but must be kept separate from cans and bottles, and especially broken glass of any kind, or broken dishes.

The reason for this is that the refuse is to be used for hog feed — and hogs don't thrive on broken glass, chinaware, etc.

All items will be collected — but must be kept separate. An official notice will be found in this issue.

Many Hunt And Fish

A new annual record for number of persons fishing and hunting in Idaho has been set, the fish and game department announced this week. On the basis of figures received up to October 31, the total number of licenses issued in 1946 was 177,161. The previous record was 163,462 in the entire year of 1945.

Government Scholarships Available

Scholarships worth a minimum of \$4,000 each will be awarded by competitive examination to more than 5,000 high school seniors and graduates throughout the nation, the navy department announced this week.

The examination for the four-year college courses at government expense will be held on January 16, 1947, in 555 cities in the United States, Hawaii, Alaska, Canal Zone and Puerto Rico, naval officials said. Full information on the program is available on application to high school principals, college deans and officers of naval procurement.

Applications must be received by the navy department by December 17, 1946, to be considered. The candidates selected may choose either Naval Reserve Officers' Training Corps (NROTC) or Naval Aviation College program (NACAP) sponsorship of their college education, and qualify for commissions in the Navy or Marine Corps upon graduation.

Students will be able to take courses leading to bachelor degrees of their own choice, while still meeting the minimum requirements in naval subjects.

The program is designed primarily to provide a steady flow of qualified officers for the navy, but the graduates who prefer to accept Reserve Commissions may elect to do so after they have completed an initial tour of duty amounting to two years under the NROTC plan and three years under the NACAP agreement.

Over 4,000 Elk Killed To Date

T. D. Biladeau, big game supervisor for the state fish and game department said Monday that hunters killed 4,000 elk in north-central Idaho during the 1946 season. The actual count by checking stations showed an increase of more than 40 per cent in comparison with 1945 when the same area, which includes the Selway, reported a kill of 2,800 head.

In making the preliminary report, which still lacks data from some vicinities, Biladeau pointed out that the figure of 4,000 does not take into consideration the elk shot on some ranges where stations were not maintained and for which no definite count was made.

Number of elk hunters in the district reached an all-time high of 9,700. Last year there were about 6,000.

The Koonkin checking station at the gateway to the Lochsa and Selway areas, where primitive terrain provides some of the best hunting in the northwest, had the heaviest load. Biladeau reported that 2,658 hunters checked in during the season that lasted from October 5 to November 10. They killed 1,094 elk.

Trade at home — it pays!

Buildings Now Moved

Last week a house-moving concern began moving the Bob DePeel and E. E. McAllister homes and a large barn across the road and over several lots from their former location in the west part of town, completing the moving Tuesday, and work is now underway putting in concrete foundations and otherwise readying the homes for permanent occupancy in their new location.

This job was made necessary by the new highway approach to town, which required the ground on which the houses were formerly located in the west part of town for right-of-way.

This week a state crew is expected to be on the job ditching and draining the "lake" which now exists across the highway at the local ball diamond.

MRS. LEONA PARKS TAKEN
FOLLOWING LONG ILLNESS

Mrs. Leona Parks, 66, former Lewiston resident, died at the home of her son, Homer, at Leland, at 3:05 a. m. Friday. She had been in failing health for two years. Heart trouble was the immediate cause of death.

She was a true central Idaho and Potlatch ridge pioneer, having moved to the Leland area in 1888.

Mrs. Parks, who was the widow of R. B. Parks, who died April 30, 1944, was born at Colfax, Washington, March 25, 1880, and with her parents moved to the Leland area when she was but eight years old.

Her marriage to Mr. Parks took place at Lewiston on Nov. 5, 1898.

She was a member of the Leland W. S. C. S., the Rebekah lodge in Lewiston, and a life-long member of the Methodist church. During her Lewiston residence she lived at 1208 14th Ave.

In 1939 Mr. and Mrs. Parks retired, moving to Kendrick in October of that year, but in July of 1943 they again moved back to their Leland family, moving that fall to Lewiston.

Survivors include three sons: Hugh Parks and Harold Parks, Jallietta, and Homer Parks, Kendrick; her mother, Mrs. Addie Hamilton, Roseburg, Oregon; five sisters and one brother: Mrs. Eleanor Gluck, Pullman, Wash.; Mrs. Jessie Ennis, Chatteroy, Wash.; Mrs. Ruth Carcher, Roseburg, Oregon; Mrs. Hazel Goodman, Coquille, Oregon; Mrs. Della Miller, Colfax, Wash.; Carver Hamilton, Oakland, Ore., and 11 grandchildren and five great-grandchildren.

Funeral services were conducted Monday at 2:00 from the Brower-Wann chapel with the Rev. Marvin E. Smith as officiant. Pall bearers were W. A. Watts, Herman Meyer, Edward C. Butler, Ed. Gertje, L. L. Yenni and Rev. Theo Meske. Music was furnished by Mr. and Mrs. Earl Wilson, who sang "Whispering Hope" and "Abide With Me."

During their long residence at Leland and Kendrick, Mr. and Mrs. Parks made a host of friends, Mrs. Parks taking an active part in church and community work, and the news of her death will be received with deep regret, even though not unexpected, for her illness had been a long one.

Edward Darby Passes Away

Edward Darby, a former resident of the Southwick area, died suddenly of a heart attack at his home in Chico, California, on Tuesday of last week. He was born in Kansas in 1873, and came with his family in 1893 to Southwick.

Surviving are three sons; three daughters; seven grandchildren, all in California. Brothers and sisters surviving are Mrs. E. B. Keller and Miss Elsie Darby of Coeur d'Alene; Mrs. Ella Bozarth of Bloomington, Ill.; Fred and William Darby, Moscow; John of Southwick, and Arthur in Chico, Calif. Burial will be in California.

Mr. Darby lived for many years on a ranch in the Linden area before moving to California — and it is with real regret that old-time residents will learn of his passing.

Nov. 24, 1946

Dear Sirs:

I have a different address now. It is Co. C, 60th E. T. B. N., North Fort Lewis, Wash., so please change that address on my papers. I sure enjoy getting it.

I have seen Buck Langdon, Chuck Easterbrook and Maurice Long here. I surely enjoyed my leave while at home. I don't know how long I will be here, but probably quite a few weeks yet. My mail has been slow getting here since I came back.

We had six inches of snow here last Monday. I suppose there is some over there.

Sincerely
Pvt. Robert Tschantz.

Constructing Workshop

Everett Farrington, his father, Jim Farrington, and various helpers have been busy the past few weeks erecting a shop for welding and tractor repair adjoining his father's place of business.

The new building, of frame construction, is being covered with corrugated aluminum. This covering is said to have the advantage of higher heat reflection in the summer, as well as being rust and corrosion proof.

Attends Travel Meeting

Tom K. Cuning, general manager of the North Idaho Scenic-Land association, while attending the November 13-14-15 meeting of the National Association of Travel Officials at Chicago, was named a member of a committee to study the establishment of a United States Tourist bureau, says a dispatch.

The bureau, if created, will become a part of either the United States Department of Agriculture or the United States Chamber of Commerce.

Cuning was one of 92 travel officials in attendance at the three-day meeting who voted for the promotion of extended tourist seasons and year-round travel.

Speakers at the convention pointed out that travel is the key to peace. Travel, they said, permits citizens to know and love our country, and "anyone who loves America will allow nothing to happen to it."

To Have New Trains

President C. E. Denny announced this week that the Northern Pacific railway began Saturday, Nov. 2, a series of transcontinental diesel-powered passenger train test runs preliminary to inauguration early next summer of fast, streamlined service between Chicago, the Twin Cities and the Pacific coast.

The test train, comparable in dead weight to the new North Coast Limited trains now being built, will be powered by a 4,500 horse-power General Motors diesel locomotive, similar to a fleet being constructed for the N. P. railway by the Electro-Motive division of General Motors.

A group of N. P. and G. M. officers and engineers will ride the train for some time to observe the new power under actual operating conditions over the various divisions of the railway.

"The Northern Pacific has spent many millions reducing track curvatures and grades and laying heavy rock ballast and heavier rails to enable us to speed up both passenger and freight service, and the railroad is in the 'best physical condition' in its history," Mr. Denny said.

GARBAGE COLLECTION NOTICE

Beginning this week, garbage will be collected twice a week — Mondays and Thursdays. Regular garbage, which will be used for hog feed, need not be wrapped, but must be kept separate from cans and bottles, especially broken glass. Collection this week will be on Friday.

Bounty Payment Funds Out

Funds for payment of coyote and
wildcat bounty have been exhausted,
R. E. Hoffman, chief clerk of the
fish and game department, reported
this week. A bounty of \$3.00 each
has been paid since last April. The
fish and game commission set aside
\$22,000 for bounty and \$18,000 for
hire of predator trappers during the
winter months. Most of the trappers
are now at work in areas where coy-
otes prey heavily on game.

Approximately 7,000 coyotes and
135 wildcats have been killed for
bounty this year.

IT'S THANKSGIVING AGAIN!

Thanksgiving! The day when we give thanks for living in a free country, for having plenty of food and clothing and for all the other wonderful things we Americans take so for granted. Maybe you can't get all the pineapple, bananas and marshmallows you want, or cheap house dresses and inexpensive shoes, but we can all be thankful that we don't have to go hungry or barefooted, or go out in the cold without warm clothing. Yep! We've all got a lot to be thankful for, it's just a matter of thinking about all the things we have, instead of all the things we haven't!

Speaking of Thanksgiving, doesn't it make you think of food, and when you think of food, doesn't it make you think of a good salad, and when you think of a good salad, doesn't it make you think of a cottage cheese salad with fruit? And when you think of cottage cheese, always

think of Potlatch Chief Cottage Cheese — it's the best. Now let's quit thinking about it and buy some.

And Remember:

When buying your other dairy products, such as butter, milk and ice cream, always ask for "Potlatch Chief" Dairy Products by name. They satisfy!

Speaking before a group of school children the temperance worker placed a very-much-alive worm in a jar of water. The worm kept wiggling until the speaker removed it from the water and dropped it into a jar of alcohol. It wiggled a couple of times and settled to the bottom, dead.

"What lesson do we learn from this demonstration?" the lecturer asked the pupils.

Up shot the hand of an eager little girl. "I know. When you've got worms, drink alcohol!"

Sell us your cream!

Hunting Season Almost Over

Although hunters in most parts of Idaho have hung up their rifles after what is probably the most successful big game season in the history of the state, deer as still in season in a couple of districts, and one small area has elk on the schedule. The sportsmen who did not get in on the big push that ended November 10, are reminded that deer hunting continues until November 30 in the panhandle counties and in a portion of the primitive area along the middle fork of the Salmon river in central Idaho.

In Boundary, Bonner, Benewah, Kootenai and most of Shoshone county, the deer season is Nov. 1 to Nov. 30. Snow has fallen over much of the area, and this sort of weather is desired by most men familiar with hunting conditions. The deer are whitetails and are frequently found by tracking through snow in stands of pine and fir thickets.

Latah, Lewis and Nez Perce counties also have deer shooting Nov. 1 to Nov. 30. In Latah county and a small portion of Clearwater county, elk hunting is permitted until the end of November.

Pheasant and Hungarian partridge shooting ended Nov. 11. Duck hunting continues throughout Idaho until December 9 — but the flight has been extremely light this year.

The Plague Of Strikes

Important labor strikes were few and far between up to about a dozen years ago, when the automobile industry became the main target. Then the strike disease spread very rapidly to include the other principal industries.

For the first ten years after the passage of the Wagner Act the records show that there were more than 77,000 cases of labor disputes brought before the National Labor Relations board.

Have we got to go on endlessly with labor strikes? Do they promise any reasonable way of improving our national economy, or in the relations between our employing industries and wage earners?

Isn't it true that the time lost in most all of these strikes results in greater losses of wages than can be made up in months, or possibly in years? On the other hand, our great American industries have lost tremendous sums of money and worse still, every major strike has affected the public and pushed up the cost of living, higher and higher, year after year.

Congress has made futile "passes" ever since 1933 to solve the strike problem — but our opinion, frankly, is that the problem will never be solved until such cases are settled in the courts of law, just as are all civil suits. This is a land of liberty and justice — and our courts have made it so. Let's give them a chance to prove their mettle in the future. Surely they could do no worse.

Many Law Violations

Violations of fish and game laws took a sharp climb during October, officers of that state department

state, reporting 181 arrests. Conservation officers in all parts of the state found an unprecedented number of hunters and fishermen in the field, and violations increased in proportion.

In September, before the general big game and bird season began, there were 79 arrests. A year ago

in October the number of cases was approximately half what it was in 1946.

Charges brought last month were about evenly divided between game and bird infractions. Penalties ordered by courts ranged up to \$300 fine for illegal killing of elk.

THESE ARE

THE FACTS

AS WE FACE THEM TODAY!

ANTI-FREEZE . . .

Get it anywhere you can find it. There will be very little of the "permanent type" available anywhere. However, we have lots of radiator alcohol.

TIRES

Buy what you can find, where you can find it, if you wish to keep on rolling. However, we get a few now and then — and that Goodyear is worth waiting for.

HYDRAULIC BUMPER JACKS

Please be patient. Production limited, due to the war, which is not officially ended.

STORAGE BATTERIES

Conditions are steadily worsening. However, we do get a few now and then. Please don't buy one unless you absolutely need it. They won't keep, you know.
