Easterbrook-Locke Nuptials
In an impressive wedding ceremony solemnized at 8:00 o'clock on Saturday evening, October 11, in the Marysville Mission church, Mrs. Bonnie Easterbrook, daughter of Mr. and Mrs. Claude Craig, Route 5, became the bride of Arthur Locke, Everett, Wash. The Rev. C. Elroy Shikels officiated at the double ring ceremony, assisted by Rev. Thomas Howard.

Miss Verna Easterbrook, Richland, Wash., a daughter of the bride, and Albert Locke, Renton, Wash., a son of the groom, were the couples attendants. The bride's elder sons, Charles and Raymond Easterbrook, were ushers.

Mrs. Alfred Locke and Mrs. Floyd Funke, twin granddaughters of Mr. and Mrs. Ed. Womack, sang "I Love You Truly" and "Always," accompanied at the piano by Mrs. Otto Sather, who also played the wedding march.

The bride was attired in a grey suit with black accessories and her bridal bouquet was of pink and white carnations. The groom wore the conventional dark suit with white boutonniere.

The altar was banked with huge baskets of beautiful fall flowers.

After the wedding ceremony a reception was held in the church basement.

After the traditional first piece of cake had been cut by the bride and groom Mrs. Zachery, a cousin of the bride, finished cutting and serving, assisted by Mrs. Teachant. Mrs. Tom Thompson presided at the punch bowl. Mrs. Glen Zachery was in charge of the guest book.

Mr. and Mrs. Locke are not at home to their friends at Route 2, Marysville, Wash.

Victor Anderson, 77, Passes
Victor Anderson, 77, a Clarkston resident of 34 years, died Monday, Nov. 24, at 8:45 at the Riverview Sanatorium, Clarkston. He had been in ill health for several years and a patient at the sanatorium for about seven months.

Mr. Anderson was born May 22, 1875, in Minnesota. He came to Clarkston in 1918 from Troy, Idaho. Survivors include four sisters: Mrs. Hulda Lundquist of Moscow; Mrs. Selma Nelson of Kendrick; Mrs. Jenny Barthele of Spokane; Mrs. Jenny Wolkling of Lockhart, Fla.; two brothers, Arthur Anderson of Lewiston and Emil Anderson of Spokane.

Funeral services were conducted on Nov. 28 at Merchant's Chapel, Clarkston. George Reeve sang hymns, accompanied at the organ by Mrs. DeVoe Miller. Burial was at Dry Creek cemetery, near Troy. Pallbearers were Melvin Lundquist, Leroy Anderson, Victor Ingebritsen, Glen Stevens, Lester Nelson and Wallace Lundquist, all nephews of the deceased. Rev. Ewan L. Knutson brought

Weather Warms, Rain Falls

A little of the moisture farmers have been waiting and hoping for for the past many weeks, began falling Monday morning, a little fall of snow here in the canyon being followed by a drizzly rain that lasted most of Monday, Monday night and part of Tuesday.

On top the hills the snow reached a depth of about 1½ inches, Gustav Nelson and Gerald Ingle reporting that depth at their ranch on Big Bear ridge. However, it did not stay long, the warmer temperature and rain making it disappear quickly.

Saturday night was undoubtedly our coldest of the year to date, the mercury hitting a low of 10 above. The rise in temperature was most welcome, as well as the rain.

TWO AREA PIONEERS; C. W. MOORE, W. SCHETZLE, PASS

Charles W. Moore
Charles W. Moore, pioneer farmer of the Kendrick area, passed away at the Virginia Mason hospital in Seattle, Nov. 22, 1952. Death was attributed to an infiltrated tumor on the brain.

Mr. Moore, the only son of Amos and Julia Moore, was born at the pioneer home of his grandparents on Big Bear ridge, August 13, 1894. His entire life had been spent in this community with the exception of a brief interval which the family spent at Clarkston, Wash., and at Freewater, Oregon.

Charley retired from active farming about nine years ago. He had since devoted his time to the management of his real estate, his gardening, and to his favorite pastime — hunting and fishing.

On Aug. 30 he was stricken ill, and after medical treatment and rest he appeared to be regaining his health. On Oct. 7 he was taken to Seattle to the home of his sister, Mrs. Allie Kremmin, and appeared to be well on the way to complete recovery — the end coming suddenly.

He is survived by three sisters, Miss Alta Moore, at the family home, Mrs. Allie Kremmin, Seattle, and Mrs. Charibel Switzer, Portland. Also a niece and nephew at Portland.

Funeral services were held at the White Center Funeral Home, Seattle, Monday, Nov. 24, with the Rev. Clark Lambert, officiating. Interment was in Riverton Crest cemetery.

Mr. Moore was a quiet, unassuming man, who always had a kind word for a neighbor and a helping hand for the entire community. His sudden passing comes as a severe shock to all who knew him.

George William Schetzle
George William Schetzle, known to all his friends as "Bill," retired farmer, died at 6:30 p. m. Thursday at his home in Juliaetta after suffering a stroke. He was 73 years old. Mr. Schetzle was a life-long resident of the eastern Washington-north central Idaho area. He was born Dec. 17, 1878, at Dayton, Wn. In 1880 he moved with his parents to Asotin, and in 1891 the family moved again to Fix ridge, near Juliaetta. Mr. Schetzle farmed on Fix ridge for a number of years, moving in 1908 to Potlatch ridge, where he farmed until his retirement in 1943.

He was married at Fix ridge on Dec. 15, 1897, to Fay Scott, who survives him.

Other survivors are two sons, Ralph Schetzle, Seattle, and John Schetzle, Oroville, Wash.; two daughters, Mrs. Arletta Carlton, Seattle, and Mrs. Emma Doyle, Richland; two grandchildren and one great-grandchild.

Funeral services were held at the Methodist church in Juliaetta Monday morning at 11 o'clock with the Rev. F. C. Schmidt officiating, assisted by Rev. Earl Gaskill.

Singers were Burke Sower, soloist; Ann Kanikkeberg, Jane Racicot and Donna Kanikkeberg, trio. Mrs. M. C. Halliday was the accompanist.

Pallbearers were Lawrence, Ray and Leslie Helmgartner, Lude Groseclose, Charles Schultz and Clelis Hoisington. Interment was in Normal Hill cemetery, Lewiston.

TV To Bring New Era
In line with progress, Geo. F. Brocke, Sr., well known business man in this area, is working feverishly to bring television to this section.

It is said that Spokane will lead the nation in powerful television stations when KHQ-TV and KXLY-TV go on the air. The 100,000-watt KHQ-TV will be the first of its power to begin telecasting in this country.

The unit will be many times more powerful than any now in operation and will have twice the power of any TV station in the Inland Empire.

Since Spokane is only about 80 airline miles away, Mr. Brocke feels sure Kendrick area residents will soon be able to enjoy TV reception in their homes, by means of reflector antennas.

So sure is Mr. Brocke that this is possible, he is going ahead with the installation of a master antenna and four reflector antennas on the hills surrounding Kendrick. He is further offering to install antennas on the homes of prospective purchasers of TV sets. A page ad. in this issue fully explains Mr. Brocke's beliefs along this line.

Parents Of Son
Mr. and Mrs. Keith Thornton, Kendrick, are the parents of a son, born to them at 1:13 a. m., Sunday, Nov. 30, at the St. Joseph's hospital, Lewiston, weight 8 pounds and 7 ounces. The little fellow has been named Stephen Dale. Mother and babe are doing nicely.

Official Bridge Word At Last
The long wait for official information regarding the new Bear Creek bridge has finally reached the Gazette office in an official dispatch from the Idaho Department of Highways, under date of November 27.

This bridge, to be 140 feet in length, is listed as being one of the 1953 projects in Latah county.

Coming as a surprise, also, is the information that a new bridge, 100 feet in length, is to be built in 1953 across the Middle Potlatch at the edge of Juliaetta.

No information is given as to the location of either bridge.

Another project listed — but in the 1954-55 secondary highway program, is the grading and surfacing of the Cavendish-Kendrick road.

Anyone interested is welcome to inspect this entire report and program at the Gazette office.

Wounded In Korea
Members of the Blewett family received word Thursday from Mrs. Rex Blewett in Seattle, saying her husband, Capt. Rex Blewett, had been wounded in action in Korea. He was leading an infantry company in front line duty.

Capt. Blewett called his wife from his bed in a military hospital in Japan, telling briefly of his injury and adding not to worry — that he was alive and going to be all right. He had been hit in both legs and the left arm with shrapnel.

Takes Skunk For Bedfellow

Sleeping with a skunk might not be your idea of comfort, but for the big Black Labrador retriever belonging to Mr. and Mrs. James Legg of Seattle (nee Lois Deobald) it proves to be quite satisfactory. When Mr. and Mrs. Legg made the trip over by car last week, the two pets came along, sharing the back seat in perfect harmony.

While the dog has been a member of the family for some time, the pet skunk is a new addition. Recently purchased at a pet store, where she had been "deodorized," she is now an accepted member of the household and has free run of the premises as any other pet. However, she prefers to sleep cuddled between the front paws of the big Labrador retriever, who apparently enjoys the furry little bed fellow.

SCHOOL NOTES

Play Is Success
 The all-school fall play, "He Who Hesitates," directed by Mr. McGeachy, was a great success. The cast gave an afternoon performance for the High school students and an evening performance for the public. The cast and prompters presented Mr. McGeachy with a Ronson cigarette lighter, Bernadine Glenn and Priscilla Benscoter did a good job of prompting.

Bean Growers Program
 The Kendrick Bean Growers annual free show was given Monday afternoon in the High school gym. The grade school children were brought up from Juliaetta for the program and the high school students also attended. The show consisted of tumbling, magic, singing and clowning. After the vaudeville performance there was a movie about International Harvester equipment.

New Books
 The Kendrick High school library received several new books this past week. They are: "The Robe" by Lloyd C. Douglas; "Confessors of the Name" by Gladys Schmitt; "The Tiger in the Smoke" by Marie Killiam; "Karen" by Edna Ferber; "God's Men" by Pearl S. Buck; "The Greatest Story Ever Told" by Fulton Oursler; "Sun-up" by Will James.

More good books are on order and should be arriving soon.

GRAIN MARKETS WEAKEN PRICES GENERALLY LOWER

Grain markets weakened during the past week, and prices of most grains declined, according to the Market News Service of the Department of Agriculture. General precipitation greatly relieved the drought conditions in the far west, the eastern portions of the Great Plains, and the central and upper portions of the Mississippi valley. However, soil moisture is still inadequate in the

western portions of the great plains. The rains had a weakening influence on the markets and wheat declined from 2c to 4c per bushel. Durum wheat showed independent strength and premiums of medium and choice milling grades advanced 6c to 8c per bushel at Minneapolis. Oats dropped 4c to 5c and barley 2c to 3c per bushel during the period.

In 1952 Canadian farmers harvested record crops of wheat, barley and soybeans, according to official Dominion statistics. The 1952 Canadian

wheat crop, estimated on November 1 at 688 million bushels, is 121 million bushels above the previous record of 567 million bushels harvested in 1928. The average yield of 26.5 bushels per acre exceeded by a half bushel the record set in 1915. Exports of wheat from Canada, August through October, amounted to over 90 million bushels. This compares with 75.4 million bushels for the same period a year ago and 49.3 million bushels two years ago.

The 1952 Canadian barley crop, estimated at 291 million bushels, is 46 million greater than in 1951, and 32 million above the previous record harvested in 1942. United States imports of barley from Canada, through October, totaled 6.4 million bushels this year, compared with 4.5 million last year. Production of oats in 1952, estimated at 466 million bushels, is 22 million less than in 1951. Imports of oats from Canada, through October, this season, amounted to about 23.9 million bushels, compared with 23.5 million for the same period in 1951.

The Pacific Northwest wheat market displayed an irregular tone at the close of the week, with export white wheat turning weak, while other classes maintained a fairly steady trend. As a result, prices on soft white and white club declined as much as 1c per bushel, but hard red winter and hard white types held steady and unchanged. The failure of expected export business to materialize, plus slightly larger offerings early in the week were the principal weakening factors in white wheat, while light offerings were the steadying factor in other classes. Dry weather continued in most of the important winter wheat producing areas, following rain showers of a week ago. Winter wheat conditions, particularly in much of Washington and western Montana, continue very poor.

Receipts of wheat at the principal coast terminals was well maintained at 665 cars during the week compared with 661 a week ago and 618 a year earlier. Demand from exporters was active earlier in the week following sales of three cargoes of white wheat to India; one cargo of red and white to the CCC for shipment to Formosa and one cargo of hard red wheat to Brazil, and the expected additional buying by Egypt, Pakistan and India. Failure of the additional business to develop plus weakness in the major futures resulted in a slightly easier tone at the close of the week. Mills were reported as fairly steady buyers of milling wheat, and this contributed to the steady situation.

At the close of the week No. 1 soft white and white club were being quoted at \$2.41 and No. 1 hard red winter at \$2.49, track basis, Portland.

Pacific Northwest oats prices advanced and here again light offerings appeared to be the strengthening influence. No. 2 white oats, 38 pounds, delivered coast, were quoted at \$73.00 per ton, track basis, while the same grade for Portland delivery, was at a discount of \$1.00 per ton. Demand was only moderate but exceeded the small volume of offerings. Receipts totaled 38 cars for the week.

Washington Water Power Company Electric Rates are

2nd LOWEST in the Nation!

In only one city in the U.S.A. of 50,000 population or more, do residents pay less for 250 kilowatt hours of electricity than do residents of Spokane, served by the Washington Water Power Co. This covers public and private power.

Figures just released by the Federal Power Commission show that in 242 out of 244 cities, residence users pay more for electricity than in Spokane.

The Washington Water Power Co. carries a tax load of some 23 cents out of each revenue dollar, which is not equaled by public power systems. W.W.P. Co. rates nevertheless are among the lowest in the nation.

EVEN WITH THE SMALL RATE INCREASE APPLICATION PENDING BEFORE THE WASHINGTON AND IDAHO PUBLIC SERVICE COMMISSIONS, W.W.P. CO. ELECTRIC RATES ARE STILL AMONG THE LOWEST IN THE NATION.

Find Glue to Mortality Among Baby Calves, Pigs

Nobody knows definitely why many newborn calves and pigs die shortly after they begin to nurse, but a theory advanced by research veterinarians is winning acceptance because it seems to be the most logical explanation yet offered.

Picture a starving man who eats food that makes him violently ill, only to die from the illness rather than from starvation, and you will have an idea of what is believed to be happening to countless pigs, and calves too, on the nation's farms. The main difference is that the newborn animals die after consuming their mother's milk—the very thing upon which they depend for life.

This is how the trouble starts: While the cow or sow is pregnant, she is attacked by a virus disease that may or may not be apparent to the owner. Her natural body forces produce substances called antibodies that fight off the infection, and at the same time some of these antibodies find their way to the unborn calf or pig.

Large amounts of them also go into the colostrum or first milk, that will nourish the youngster after birth. These disease-fighting substances have a sensitizing effect on the unborn animal. Then, after birth, when the youngster starts to consume colostrum, it gets a large dose of the antibodies and dies from shock.

Prevention of such losses is a problem now confronting veterinarians. While the colostrum from affected cows and sows is obviously harmful, it also has many properties vital to the survival and health of calves and pigs. Ordinary milk and other feedstuffs do not contain all of these essential properties, and so far satisfactory artificial foods have not been developed for practical farm use.

Veterinarians Tell Ways To Prevent Pig Scours

These five suggestions for keeping scours out of the spring pig crop are offered by swine disease authorities of the American veterinary medical association:

1. Set up a definite schedule for feeding the sow. Irregular feeding results in an uneven flow of milk that causes nursing pigs to go hungry at one feeding and then scour from overeating at the next.
2. Don't overfeed the sow. Newborn pigs often scour because the brood sow is being overfed. Give her only warm water and no solid feed the first day after farrowing and a small amount of bran or oats the second day. After that, the ration can be increased a little each day so that she is on full feed within two weeks.
3. Feed a balanced ration. If the sow gets too much corn, her litter is almost sure to scour.
4. Keep sows away from mud holes, manure, and filth. Many cases of pig scours are traceable to filth consumed while nursing.
5. Protect pigs against sharp changes in temperature. Failure to keep pigs warm when the weather suddenly turns cold will cause outbreaks of digestive trouble.

Saws Used in Home

The saws commonly used in the home are the hacksaw and the handsaw. The hacksaw is used to cut metal and the handsaw to cut wood. There are two types of handsaws, the rip saw to cut with the grain and the crosscut to saw across the grain. All saws should be kept sharp. In starting a saw cut, the thumb of the left hand should be used to guide the blade until the cut is started at the desired location. The first stroke of the saw should be in the up direction. Sufficient pressure should be used when starting the cut so that the saw immediately begins to bite into the wood.

Warning to Cattlemen

Stock owners who use grazing land that adjoins oil lines and tanks are warned to watch out for crude oil poisoning in their herds. A bulletin from veterinary medical authorities cautions that the lines and tanks occasionally spring leaks, leaving pools of oil, and cattle may consume enough of it to be fatally poisoned. Animals on poor grazing land seem to have a special liking for crude oil, the bulletin adds. Cattlemen also are advised to keep their animals off pastures fronting recently oiled roads, particularly during rainy weather. The reason is that rain may wash enough oil onto the pasture to poison all or part of a herd.

Early Days of Indiana

Indiana territory's initial 1,000 settlers came from Kentucky, Virginia, and the Carolinas. They built their cabins in the south, along the Ohio and lower Wabash. They found the farm land rich, and when, in 1813, they moved their capital to Corydon, 20 trail miles west of Louisville, their number was 30,000. The total had jumped to 75,000 by late 1816, when statehood was won. There were a million and a half Hoosiers in Civil War days. By that time, the state's "naturals" in crops—corn, wheat, and hogs—had been found. Hominy and hogs continue to be good Hoosier fare.

TELEVISION!

WITHIN THE NEXT FEW WEEKS TELEVISION, WITH ALL OF ITS GLAMOR, WILL BECOME A REALITY IN THE INLAND EMPIRE. SPOKANE WILL HAVE IN OPERATION TWO POWERFUL STATIONS — AND MANY PEOPLE WILL BE ABLE TO ENJOY TELEVISION IN THEIR HOMES.

NO. 1 QUESTION OF THE DAY -

WILL WE HAVE T V IN THIS AREA? This is the Number 1 Question that we have to answer every day. And to this question the answer is: "We don't know!" We will not know the answer until signals are received from those two new stations in Spokane. Still we are not asleep. We are going ahead with a program that we feel is designed so that if a signal is received we can immediately bring T V to the many homes in this area.

NO. 2 QUESTION OF THE DAY -

WHAT TELEVISION RECEIVER SHOULD I BUY? — Our answer to this is: We have spent the past four months at different times going into the features of a large number of Television sets. In making a selection for a set to sell in this area, we found only one answer: **ADMIRAL. Admiral D X Receivers—mighty in power and range.** A truly long distance receiver — that will operate on one-quarter the signal strength of other makes. A set made by the world's largest Television manufacturer. The world's finest set — ALL NEW — with the revolutionary new electronic supercharger. A set that will perform in difficult areas where ordinary sets "blank out."

NO. 3 QUESTION OF THE DAY -

WHAT WILL TELEVISION COST? — Our answer to this question is that it depends almost entirely on what you want to spend for T V. **ADMIRAL** has a set that sells for **\$179.95** for a 17-inch picture tube — and for **\$199.95** *Admiral has the greatest buy in T V today...* A 21-inch viewer. From these prices you can have a set installed in your home for around \$250.00, including antenna and installation. Or you can buy an **ADMIRAL Combination T V, Radio and Record Player** at a price you won't believe! A full line of models with table and console stylings—choice of different woods. A wonderful piece of furniture for any room.

NO. 4 QUESTION OF THE DAY -

SHOULD I BUY A SET NOW? *Our answer is NO!* Not until a signal is beamed from the station so that we know that you will receive Television. But here is what you can do: Have us install an antenna at this time so that you will be ready to receive T V as soon as telecasting starts. If you have us install an antenna and then it is found that you cannot receive Television — we will take the antenna back and refund the cost to you. You stand to lose nothing — and if you wait until snow and bad weather comes along, it may be impossible to make the installation.

NO. 5 QUESTION OF THE DAY -

WHAT KIND OF AN AERIAL OR T V ANTENNA MUST I HAVE? This is a problem that can be answered only by people who are experienced in Television. We have been schooled in this field and assure you that we can make the proper installation of an antenna — and also give you the correct antenna for your location.

Remember: For T V at it's Best Buy --- ADMIRAL!!

UP TO DATE TELEVISION NEWS

Our good friends — the Kendrick Gazette, will carry a news item each week on T V — giving you the latest in our program to bring Television to your home.

For Better Health
For giving relief from painful conditions, such as headaches, back ache, sciatic, etc., osteopathy has established a wonderful reputation. The same is true of many chronic disorders. If you are ill investigate osteopathy for yourself. Many people are healthier and happier today because they investigated and tried osteopathy "yesterday."

Syringa Discovered By Lewis
The syringa, Idaho's state flower, is said to have been discovered by Captain Lewis of the Lewis and Clark expedition. It is a native variety of mock orange, a tall bush that grows from 6 to 12 feet in height and is usually found on mountainsides, forest borders and along the mountain streams. Its white bloom is usually seen in June and July.
The Indians found many uses for the syringa. The squaws used the stems to cradle their infants. These stems were also sometimes used for bows and the macerated leaves for soap. Sometimes the Indian dug the pith from the new stem shoots, and then used them in tobacco pipes.

"HIGHEST WHEAT YIELD I CAN REMEMBER"

Before 1950, M. L. Neace and his sons Merwin and Lawrence, Dayton, Wash., farmers, rotated wheat and green peas—without a weed control or fertilizer program. (Morning glory had long infested their ranch.)
"This year, by fertilizing and weed spraying—under guidance of Warten Marshall, now head agronomist for Knettle Farm Management Service—we obtained the highest wheat yield I can remember. His advice as to kind and amount of fertilizer, time of application and amount of herbicide to use, the reclaiming of areas improperly treated with salt, and diagnosis of sulfur deficiency—PROVED VERY HELPFUL AND PROFITABLE."

Not Much As Cows Go
The Lapps use the reindeer for virtually everything. The cows, however, are not much as milk producers. According to the current Reader's Digest, a cow reindeer gives about half a teacup of milk at one milking. But the reindeer's milk has about four times the butterfat of the average cow's milk. A few drops will turn coffee white.

Real Letter Fan
In Egypt, where only one of every six persons can write, the new Premier Mohammed Naguib gets 1,000 letters a day, says the Reader's Digest.

Potlatch Chief Sez

Published by the Kendrick Creamery

HELLO, THERE, FOLKS —

You Can't Beat The Game —
No folks, no matter how hard you try, you just can't "beat the game of living," so why not live on the "good health side," by drinking lots of pure, pasteurized "Potlatch Chief" brand milk every day. Milk is a most important food, supply nourishment as well as the chemicals the human body needs, particularly in winter, when sunshine is lacking. See to it that your children have a bountiful supply.

A proud parent called the newspaper to report the birth of twins. The girl at the desk didn't quite get the message and said, "Will you repeat that, please?" "Not if I can help it," the man replied.

Are you one who believes that the coming of winter signals the end of the ice cream season? If

you are, let us make a suggestion. Serve "Potlatch Chief" ice cream for dessert the next time you entertain, and you can be sure your guests will say: "That ice cream tasted awfully good. I'm getting so tired of heavy desserts." Or, try a big scoop of "Potlatch Chief" ice cream on apple or mince pie. Man, that's a dessert fit for a king!

Disgusted Mechanic to "tightwad" driver: "My advice is to keep that car of yours moving." Driver: "Why?" Mechanic: "Well, if you ever stop, the cops will think it's an accident!"

Like hot biscuits and honey? Who doesn't? But, as a little tip to get the finest flavor, put gobs of that wonderful "Potlatch Chief" butter on the biscuits before adding the honey — it gives them the finest flavor you ever tried.
