## JULIANN ROWDEN BRIDE OF RONALD PARKS IN CHURCH CEREMONY FRIDAY

Mr. and Mrs. Ronald Parks

Miss Juliann Rowden and Ronald LaVerne Parks were united in marriage October 21 at 8:00 p. m. in the Kendrick Community Church by the Rev. F. C. Schmidt, pastor.

Tall baskets of white mums and pink shasta daisies flanked by candelabra and lighted tapers formed the setting for the candle light double ring ceremony. White satin bows marked the pews, adding to the decor.

Parents of the bridal couple are Mr. and Mrs. Marion Rowden, Kendrick, and Mr. and Mrs. Harold Parks, Juliaetta.

Dee Magnuson, organist, played the traditional wedding marches and accompanied Dennis Abrams when he sang "I Love You Truly" and "God Made You Mine."

A floor-length gown of tulle and chantilly lace over nylon taffeta was the choice of the bride. It was designed with a lace-fitted bodice, V-neck and long tapered sleeves. The full gathered skirt of tulle over taffeta extended into a chapel train. Her fingertip veil of tulle was attached to a little crown of flowers studded with pearls. This she borrowed from a school chum, Mrs. Tom Bain. The bride carried a bouquet of white carnations and stephanotis atop a white Bible.

Ann Dagefoerde was maid of honor, and her aqua taffeta, waltz-length gown was of princess style, flaring into a wide hem line. She carried a nosegay of white and blue carnations, and wore a head band and wristlets of matching ruffled net. Her shoes matched her dress.

The bridesmaids wore two shades of pink lace over taffeta, styled with bouffant skirts. Their nosegays were the same as the maid of honor's, and their head bands and shoes matched their dresses. The girls were Sally Glenn and Irene Schmidt, all school mates of the bride.

Charles Parks, the bridegroom's brother, was best man. Ushers were Gary Browning and Gary Gertje. Tommy Rowden and Larry Corkill served as candlelighters.

For her daughter's wedding Mrs. Rowden chose a sheath dress of beige lace with brown accessories.

Mrs. Parks, mother of the groom, was attired in a wool jersey dress of loden green, accented with satin trim. Her accessories were black, and both had corsages of orange rose buds.

Arrangements of michaelmas daisies decked the church basement, where a reception was held immediately following the ceremony, for the couple's friends and relatives.

At the bride's table a four-tiered cake decorated in pink and white, and topped with pink satin bells was

cut and served by Karen Moores of Lewiston, a school friend of the bride, and Mrs. Louis Maio, an aunt of the bride. Tall pink tapers in crystal holders with a floral arrangement of pink and white carnations complimented the setting.

Mrs. Charles Parks of Moscow, a sister-in-law of the groom, poured coffee. Mrs. Eddie Galloway served punch, Rosalie Maio, a cousin of the bride, had charge of the guest book, and the bride's two sisters, Mrs. C. L. Allumbaugh and Mrs. John Hall, Lewiston, presided over the gift table. Joyce Ross, a friend of the couple, passed groom's cake.

The young couple have lived their entire lives here, both attended K. H. S., he graduating with the class of 1958. They are making their home on American ridge.

Out-of-town guests included Mr. and Mrs. Laurence Rosenfelt of Walla Walla, an uncle and aunt of the groom; Mr. and Mrs. Fred Ross of Lewiston; Mr. and Mrs. Tony Glunk of Lewiston; Mr. and Mrs. Charles Parks of Moscow, and Mrs. Leffa Rowden, Clarkston, grandmother of the bride.

Pre-nuptial parties included a miscellaneous bridal shower Oct. 14, held at the Kendrick Fire Hall. Hostesses were Sally Glenn, Ann Dagefoerde and Rosalie Maio. Highlight of the evening's entertainment was a mock wedding.

A rehearsal dinner for the wedding party was held at the home of the bride's parents, Mr. and Mrs. Marion Rowden, last Thursday evening, following the church rehearsal.

## WORK ON HOMES

Quite satisfactory progress is reported on the three new homes now under construction in Kendrick — that of Mr. and Mrs. Henry Wendt on West Main Street; Mr. and Mrs. Bob Watts at the foot of the school house hill, and Mr. and Mrs. Bud Eichner on the old school playground.

All are now under roof and can be worked on during inclement winter weather. Siding, doors and windows are now being put in on the Watts home, the last to go under construction. The other two have that work almost completed.

Concrete work on all three is nearly complete, although some sidewalks still remain to be poured.

## BIRDS SCARCE

Chinese pheasant hunting is described by local hunters as "rotten," with only one or two saying they have gotten the limit of three birds on any trip afield.

It is difficult to assign a reason, as several large plantings were made throughout the area in the early spring — and conditions have certainly been ideal for hatching and brooding this summer. However, the fact remains that birds are very scarce.

## HOME SOLD

Mrs. Francis Trout, Lewiston, a daughter of Mrs. Jessie Bateman, has purchased the home of Mr. and Mrs. Bob Watts on Main Street, and will move in Thursday.

The Watts family moved out Wednesday and into one of the Blewett apartments, where they will live until their new home is ready for occupancy.

## GENESEE BULLDOGS DUMP TIGERS IN FINAL GAME 46-18

The Kendrick Tigers ended their 1960 football season Friday night on Armitage Field, taking a spanking defeat at the hands of the Genesee Bulldogs, 46 to 18.

The win put Genesee in a tie for first place with Nezperce. Nezperce lost a game to Pierce, giving each of the two teams a one-loss record for the season. The championship game is to be played on a neutral field some time this week.

With the final game loss, the Tigers wound up the season with one win and six defeats, giving them the seventh place out of a field of eight.

Deary was the only team not to win a game this year.

In last Friday evening's game Genesee was ahead at the half-time by a score of 21 to 6. Doug Shepherd raced 40 yards for Kendrick's first score of the game, and was also responsible for the only two remaining scores.

This game closes the football season for the Tigers — with the next sport on tap being basketball.

## KENDRICK GRANGE BOOSTER NIGHT

Approximately ninety Grangers and their friends met at the Fraternal Temple Tuesday, Oct. 18, for their annual Grange Booster Night program. A 6:30 pot-luck dinner featuring Idaho Products preceded the program, which was arranged by the Lecturer, Ruth White.

Following a brief welcome by Wilbur Corkill, Master, a resume of the year's activities was presented by Mrs. Gerald Ingle, Community Service chairman.

The program of activities this year featured Civil Defense, International projects, Youth Recognition, Agricultural Education, and Community Fellowship.

Civil Defense Education included talks by the County Civil Defense chairman, State Police, Local "Ham" radio operators, the showing of the film "The Day Called 'X'", and a report and demonstration from our local firemen on current fire safety and the use of the resuscitator. The Red Cross informed of Recreational Safety Precautions and Farm Pond Water Safety.

The Grange cooperated with the P-T. A., Lions and W. S. C. S. to present a program on the United Nations. An Open House was held to present the I. F. Y. E. student from New Zealand, Dennis O'Sullivan.

Youth took the spotlight in the program of work this year. The Grange helped sponsor two Boy Scouts to attend the National Jamboree in Colorado Springs, Colo., this summer. The Grange paid one boy's registration and gave a dance to raise additional funds for them. It was well repaid by their glowing accounts given upon their return.

Annually a March of Dimes Dance is sponsored. To help with the landscaping of the grounds surrounding the new Jr.-Sr. High School the Grange provided the hauling of top soil for the yard and will assist in the landscaping.

An active Agricultural Committee kept all informed on current agricultural information available. An Agricultural Extension Day brought a varied program on current problems for both men and women. The Grange also participated in the County Grassman of the Year contest.

Socially, Grangers always have a good time. This year pie socials, card parties and a crab feed were held. There was participation in the Pomona Visitation contest, County Jamboree, Pomona Picnic, and held two interesting programs featuring hobbies.

The two local Boy Scouts attending the National Jamboree, Dana Magnuson and Charles Lackey, brought their pictures and told of a fine trip as a featured part of the Booster Night program.

Sixteen lovely young ladies from local 4-H Club modeled their outfits, which they had recently exhibited at County Fairs.

Plans were announced for an attendance, and membership contest, with the losers to provide an evening of entertainment.

Recognition was given to special guests, charter members and 25-year members.

The program closed with special get-acquainted community singing, and a prayer by the chaplain.

The next meeting will be Tuesday evening, Nov. 1st.

## AMONG INJURED

Word from Byard Davidson, Pullman, who was injured recently in a car accident is good — he is now at home and steadily improving.

Wayne Kuykendall, who suffered a fractured hip a couple of weeks ago while engaged in carpentry work, is now home from the hospital and on the mend.

## ON THE MEND

Mrs. Ernest Freytag is back on the job at the State Liquor Dispensary, after having been ill for some three weeks. A leg injury developed a ruptured blood vessel.

## RECIVES WINGS

(AHTNC), Special — Army Pvt. Orville H. Roberts, son of Mr. and Mrs. Harold Roberts, Route 1, Kendrick, Idaho, recently was graduated from the 82nd Airborne Division Jump School at Fort Bragg, N. C.

Roberts received his paratrooper wings after completing four weeks of intensive ground and aerial training, which included five parachute jumps. He entered the army last January and completed basic training at Fort Ord, Calif.

The 23-year-old soldier is a 1955 graduate of Kendrick High school and attended Pacific Bible College in Portland, Oregon. Before entering the army he was employed by Bob & Harry's Texaco Service Station, Portland, Oregon.

## GET CERTIFICATES

The final session of the Leadership Education courses for Church School workers was held at the Orofino Methodist Church on Monday. Of the 58 enrolled there were 36 who received Certificates of Recognition for having successfully completed the course.

Among those receiving the Certificate were Mrs. Bob Magnuson, Mrs. Marvin Long, Mrs. Dave Clayton, Mrs. Arnold Hoisington, Mrs. Bud Fey, Mrs. F. P. McCreary and Mrs. Robert Hutcheson, the latter of Juliaetta.

## EYE INJURED

Terry, five-year-old son of Mr. and Mrs. Keith Thornton, Peck, received a painful and serious injury when he was hit in the left eye with a rock, while playing.

At first it was thought the eye would be permanently damaged, but last reports are more favorable. His grandmother, Mrs. E. M. White, says he is improving satisfactorily.

## SURGERY PATIENT

Max Dammarell underwent surgery Friday in Spokane at the Sacred Heart Hospital, for an injured spinal disc. His wife, who stayed with him through the surgery was home over the week-end, bringing the news he is coming along fine, and expects to be able to come home in 10 to 12 days.

Max has been unable to work since last spring, when he hurt his back. All summer he has been under observation. His friends will be happy to know he is on the way to recovery.

Mrs. Bob Hutcheson, Juliaetta, is caring for the Dammarell children while their mother is in Spokane.

## BOWLING SCORES

Kendrick bowlers are springing in to action as the winter season begins, and while no team scores or individual scores are yet available, due to organizational procedures, the team wins and losses, as of Monday night, are:

## TROY ROAD SEEMS ASSURED

Inclusion of a Troy-Kendrick secondary road on the Idaho state highway system is practically assured, George F. Brocke, incumbent state representative from Latah county informed the Latah County Chambers of Commerce at their meeting in Moscow Wednesday evening of last week.

This step has been urged over the past several years by the County Chamber. At its June meeting, the last before a summer recess, the organization named a committee to work with the state highway crews in making an origin and destination check at Troy and Kendrick on travel between the two towns.

Brocke said he had been assured the route would be taken over as a state secondary link, subject to approval of the United State Bureau of Public Roads.

The Latah County Commissioners, by resolution, have also supported the taking over of this road link by the state, as has the Kendrick Commercial Club, Troy Chamber of Commerce, and other organizations.

## SUNDAY, OCT. 16. OPEN HOUSE HONORS MRS. ESTELLA LEITH "80 YEARS YOUNG"

The home of Mrs. Estella Leith, on Sunday, October 16th, was the scene of a large gathering of relatives and friends to honor her 80th birthday anniversary, which was on October 13th. Mrs. Leith's daughters, Mrs. Robert Spencer and Mrs. Ig. Flaig and their husbands were in charge of the happy occasion.

The guests enjoyed visiting and reminiscing over old times as "Estella" as she is affectionately called, has spent most of her life in this area.

Refreshments were served from a table, laid with a lace tablecloth and centered with a large, beautifully decorated birthday cake. A lovely arrangement of white pom pom mums and pink carnations were at one end of the table, and white tapers in crystal candelabras completed the setting.

Mrs. Donald Kuykendall poured, and Mrs. Dar. Cogswell presided at the punch bowl. Mrs. Robert West and Mrs. Don McFadden had charge of the guest book. All are granddaughters of Mrs. Leith.

A money tree, cleverly decorated and unique in its appearance, composed of silver-colored branches with currency giving the appearance of flowers, was presented Mrs. Leith by her family. She also received numerous other gifts from friends and relatives.

Mrs. Leith was attractively dressed in a black lace sheath dress with a corsage of pink and white carnations.

Estella has many enthusiasms, one of which is working in her flower gardens and watching them grow. She says, "They turn toward the sun as people should." Her flowers and yard are a credit to this community and admired by all passers-by. She is most generous in sharing her plants with neighbors and friends.

Her love for work and life is her secret of being young and happy.

All of her children and grandchildren were present with the exception of her only grandson, Donald Spencer, who lives with his family at Merced, Calif. The granddaughters and their husbands include: Mr. and Mrs. Donald Kuykendall of Lewiston; Mr. and Mrs. Dar. Cogswell of Sandpoint; Mr. and Mrs. Robert West of Post Falls, and Mr. and Mrs. Werner McFadden of Spokane. Mrs. Leith's daughters and their husbands, Mr. and Mrs. Robert Spencer and Mr. and Mrs. Ig. Flaig, reside at Coeur d'Alene.

Out-of-town guests included Mrs. Wilda Anderson, Sweet Home, Ore.; Mr. and Mrs. John Johanson, Mrs. Jean Dickerson and Mr. and Mrs. Wade T. Keene, all of Lewiston, Ida.

A host of local friends and neighbors called during the afternoon to extend congratulations and best wishes.

## BIG LOGGING TRUCK ENDS JOURNEY IN POTLATCH CREEK MONDAY

Owner E. L. Farrington Reports Truck Sustained Only Minor Damage

(Photo by - Vern Choate)

## LOGGING TRUCK TAKES NOSE DIVE INTO POTLATCH

A big Mack logging truck, owned by Everett Farrington, Juliaetta, logging contractor, and driven by W. R. Brown, Jr., Kendrick, took a nose dive into the Potlatch river just above the Roy Glenn ranch at the northeast edge of Kendrick Monday about 12:25 p. m.

E. L. Farrington, owner of the truck, reported to the Gazette Tuesday morning, after the truck had been taken from the river, that the apparent cause of the mishap was the clamps on a front spring coming loose and dropping two leaves, finally slipping back and throwing the truck into enough of a bind to snap the log "blinder" and start the logs

moving. Witnesses estimated the speed of the truck at between 25 and 30 miles an hour at the time of the accident.

The big truck and trailer combination, loaded with long logs, was descending the Big Bear Ridge grade and had just reached the foot of the descent when a "wrapper" holding the logs broke, allowing them to "fan" and dig into the pavement with the forward motion of the big vehicle. This, in turn, swung the truck from the right into the left hand lane, and up against the guard rail, while Mr. Brown fought to gain control and keep the vehicle from upsetting.

In this latter he was successful, but the other wrapper on the load parted, and the truck swung almost straight across the highway, smashed through the guard rail and dropped, almost nose first into the Potlatch river, but did not upset, and the shallow

water reached just to the bottom of the radiator.

The logs, freed when the second wrapper broke, scattered along the edge of the highway, and a few went into the river.

The bunks were torn from the truck and trailer, couplers bent, and brake lines broken. However, considering what might have happened, very little damage was suffered by either truck or trailer. A considerable portion of guard rail will have to be replaced, and route and directional signs replaced — but it might have been much worse.

Mr. Brown suffered a good shaking up, and some bruises, but no serious injury.

Monday afternoon the remainder of the logs were pushed into the river in order to clear the highway, and Tuesday morning the truck was taken out — a tractor being required to do this job.

## NEW ARRIVALS

### School Auction

Items have been coming in for the auction sale this Friday evening, Oct. 28, at the Juliaetta school gym. The 28s have arrived for the free show for the children. The cartoon "Haredevil Hare" and the shows, "A Mile to El Dorado" and "Treasure Island."

Clerks for the sale will be Mr. Nelson, Mr. Perryman and Mr. Taylor. Clerks' helpers will be Mrs. Nelson and Mrs. Perryman. Mrs. Erlewine and Mrs. Callison will check at the door for more items, and the numbers.

Mrs. Gruell and Mrs. Taylor will keep the auctioneer, Roy Glenn, busy by handing him the items to be auctioned off. Mr. Manfill will be in charge of the auction and the showing of the films.

SIXTH GRADE — The sixth grade has finished the unit on Mexico, and are modeling Mexican women and men.

Joan Thornton, Louise Hoffman, Nancy Holsington and Pat Johnson will assist in passing out the merchandise at the auction sale Friday evening.

FOURTH GRADE — Our room has taken on the appearance of Halloween, with witches, pumpkins, owls, and original drawings being used as decorations.

Mark Heimgartner has added to the Halloween spirit by wearing a black patch over one eye, entirely closed.

We have learned to play the Flutophone in music class, and will present a selection at our fall sale, Friday evening.

One night in October I heard the door creak.

Then a window opened with a squeak, squeak, squeak.

Then out of the darkness came big

black bats,  
And out of the door ugly black cats.

Do not fear,  
On Halloween night,  
When pumpkins are near,  
They might give you a fright.

— By Christine Henry.

GRADE TWO NEWS — Last Wednesday we copied a "taffy" recipe in writing practice period. It was taken from a Halloween poem, but several children tried it at home and pronounced it very "tasty."

Two visitors called in our room last week, Mrs. Holsington on Wednesday, and Mrs. Wayne Thornton on Friday.

Richard May is our host for the week.

Mrs. Kenneth Wilken and Mrs. Marvin Silflow visited in Mrs. Callison's room last week.

## MORE GLORIOUS WEATHER

We of the Juliaetta-Kendrick area have been enjoying some of the most glorious fall weather that anyone could wish — truly "Indian Summer."

The days have been filled almost entirely with sunshine, and at night the skies are speckled with stars. A couple of brief rain showers arrived and were most welcome — but they were brief in duration.

Last week-end the canyon was truly a "bower of beauty" as the leaves on the sumach and poison oak (yes, it's pretty, too) were a brilliant red, the cottonwood and maple just as yellow. The Old Master's paint brush had created the loveliest time of the year.

Saturday night was indeed warm for late October, the low being 54 degrees, and Sunday the mercury recorded a high of 75 degrees — and the leaves were tumbling down. Sunday the sky was dotted with the smoke of leaf fires, as homeowners raked lawns and burned.

Sunday night there was a brief rain squall and windstorm — and the leaves needed raking all over again.

Monday was partially overcast, but the temperature hit 60 degrees!

## JR. RED CROSS

The Kendrick Jr. High School has formed a chapter of the Junior Red Cross. Officers were chosen as follows: Dana Magnuson, president; Lynda Fey, vice president; Dean Brocke secretary-treasurer.

The Junior Red Cross council is made up of the three officers and two eighth graders, who are Andy Sue Cox and Keith Fish, and two seventh graders, Janey Westendahl and John Farrington. Janet Westendahl is the reporter.

Guyia Warriner and Jerry Polumsky were appointed to the membership committee, and it is expected to have 100 percent enrollment.

The sponsors are Dee Magnuson and Mrs. Jones.

The first project of the Jr. Red Cross is a campaign for a clean and neat hall. To promote the campaign the eighth grade presented a skit to the high school assembly.

## HOBGOBLIN PARADE

The annual Hobgoblin Parade will be held on Monday, October 31, at 7:00 p. m., beginning at the Kendrick Community Church.

There will be prizes in many categories, treats for all and games for all. Prizes will be awarded for the best costume, and the largest uncarved pumpkin.

All children of the community are most cordially invited — everyone is welcome.

## FUN NITE PLANNED

An evening of fun for all teenagers is planned at the Leland schoolhouse, Monday evening, October 31, beginning at 8:00 p. m. — just come as you are — and we'll all have fun.

On the agenda are the activities all teenagers enjoy.

The evening is sponsored and directed by the Leland and Southwick 4-H Club leaders.

Hunters, let us cut, wrap and care for your meat. Blewett's.

## LELAND AREA HAS MANY ACTIVITIES

## VOTE SENSIBLY JAYCEES ADVISE OWN AGE GROUP

Moscow — Election eve advice for their own age group was offered this week by citizenship-conscious officials of the Idaho Junior Chamber of Commerce.

"First-time voters may be fuzzy-cheeked, but need not be fuzzy-minded," Andy Callahan, Coeur d'Alene, Idaho Jaycee governmental affairs chairman, cautions.

Callahan explains that intelligent appraisal of candidates and issues is important to make first franchise votes count for good government.

"A young voter's first ballot truly can be a real milestone only if he or she has assumed the responsibility of becoming informed before acting," Callahan says.

The number of eligible first-time voters, age-wise, among Idaho's 372,000 citizens of voting age is not known by state election officials.

"The percentage of eligibles exercising their newly acquired privilege is very high, historically, how-

ever," Callahan says. "Almost every-one votes upon becoming of age."

Callahan asserts that such a vote will be a mature one if the new ballot caster has looked beyond slick campaign promises to determine what good or bad effects the candidates and issues will have upon sound, responsible government.

Concern for voting habits of still another segment of their age group is expressed by E. W. (Woody) Wayland, Longview, Wash., national governmental affairs chairman for the U. S. Junior Chamber of Commerce.

"It is the non-voting habits of the 25 to 30 year age group, actually, that is my concern," Wayland said. "They are more likely to miss voting than any other group, past performance indicates."

Wayland explained that the inactivity, poll-wise, usually is occasioned by marriage and efforts of beginning a home and family.

"Isn't it ironic that in establishing a stake in America's future this group forfeits its voice in that future?" Wayland asks. "Not only do we get the kind of government we deserve — we pay for it!"

Wayland is convinced that income tax reform, stimulating citizens to peak efficiency, is a key to America's growth and future. He agrees with Callahan that uninformed voting

is worse than not voting at all.

Unwarranted growth of government reduces individual freedoms, and Jaycees stand for government economy with the conviction that they are entitled to those freedoms — and to full measure of value for their tax dollars, Wayland says.

## BOY SCOUT DRIVE BEGINS NEXT WEEK

Lewiston — Seventeen communities of the Lewis-Clark Council will be ready to start their "Friends of Scouting" Boy Scout campaign this week, according to William E. Simon, campaign chairman for the council. The other five communities are being delayed in their organization, but will be ready to go soon. All of these campaigns are in communities that do not conduct a "United Fund" drive.

Chairman of the Kendrick campaign will be Wally Fleming. The Kendrick Community Lion Club will again sponsor the local drive.

Plans are for the local "Friends of Scouting" drive to start on Nov. 3rd, and to be completed Nov. 16th.

A special "Kick Off" meeting of all those helping will be held at the Lions Club meeting on Nov. 3rd.

According to Mr. Fleming, Kendrick does not have a definite quota of money to raise but we have been asked to give everyone an opportunity to show their interest in the Boy Scout program by making a contribution. Money from the drive goes to the Lewis-Clark Council for its operational cost in serving our community, plus the other towns in the Council area. We receive our portion of the Council services for our local Scouting units.

Q. I understand there actually are three steps in the sanding process, graduating from coarse abrasives to fine. Could you tell me the proper grit designations for smoothing rough plastic with a portable electric sander?

A. Three different grades of abrasives are enough to get a good finish on most material, though some perfectionists use up to six different abrasives, going from

Three different grades of abrasive are enough to get a good finish on most material.

coarse to very fine. The best progression for finishing plastics begins with 36 or 40 grit, goes to 60 or 80 grit and winds up with 100. Here is a chart by SpeedWay power tool specialists which provides an accurate guide for sanding a wide range of material:

Material	Coarse	Medium	Fine
Hardwoods	36-40	60-80	100-120
Softwoods	40-50	60-80	100
Aluminum	40	60-80	100
Brass	36-40	60-80	80-120
Composition	40-50	60	80
Copper	40-50	80-100	100-120
Cork	24	50	80
Iron	24-30	60-80	100
Paint removal	24-30	60-80	100
Steel	24-30	60-80	100

Abrasives are designated in two ways, by symbol or grit size. The most common sizes (first number is the symbol): 3=24 grains per square inch; 2½=30, 2=36, 1½=40, ½=60, 1/0=80, 2/0=100, 3/0=120, 4/0=150, 5/0=180, 6/0=220, 7/0=240, 8/0=280, 9/0=320, 10/0=400, 11/0=500, 12/0=600.

Silicon carbide abrasives cover this entire range; aluminum oxide covers all but the very-fine grits, and garnet goes only to 8/0.

Carbigrat, a lifetime abrasive material made of carbide bonded to metal, is available in three popular grades: 80 (medium coarse), 120 (medium), and 150 (medium fine).

**WASTE PRODUCTS  
POSE PROBLEMS**

U. of I., Moscow — Whey, 90 pounds of it for every 10 pounds of cheese produced — is plaguing the American dairy industry.

Dr. Robert A. Hibbs, assistant dairy scientist at the University of Idaho, says disposal of this waste product from the cheese manufacturing industry is difficult because of the odor it produces in small streams or other areas where it is dumped. Even by law whey is considered pollution when poured into streams of most states. To add to the difficulty, whey does not break down readily for disposal as sewage.

Idaho, 11th state in cheese production, annually produces 3 billion

pounds of whey as a "side product" from its 30 million pounds of Swiss, cheddar, Monterey and Colby cheese.

Main uses of liquid sweet whey are in swine and poultry feed. Condensed or in powder form, it is used in bakery products, soups, gravies, and fermentation of beverages. Whey not only adds flavoring, moisture and crust browning qualities, but also gives protein, lactose, vitamins and minerals to foods. It compares favorably with buttermilk, except that bettermilk has a higher protein content from its casein. Casein is removed from whey in cheese making, Hibbs said.

In spite of its high food value, less than 10 per cent of America's whey

is used, Hibbs points out. In some cases it is piped directly from factory to ranch for animal feeding, but most of it is dumped as industrial waste.

To dry whey economically for bakery use, a plant must dry some 200,000 to 300,000 pounds daily. A few midwest factories are condensing the whey and transporting it to other plants for complete drying, because of long distances in Idaho, such cooperative measures are not feasible here, Hibbs declared.

**CHRISTMAS GIFT  
SUGGESTIONS**

U. of I., Moscow — Christmas is still quite a number of weeks away — time enough to give the potential Christmas shopper an opportunity for good planning in the yearly buying.

To Miss Hilda Frederick, home management specialist for the University of Idaho, extra time allows for planning special gifts rather than last-minute buying. It allows for the personal touch that means giving more than a gift, that certain something that fits both the personality of the giver and the receiver.

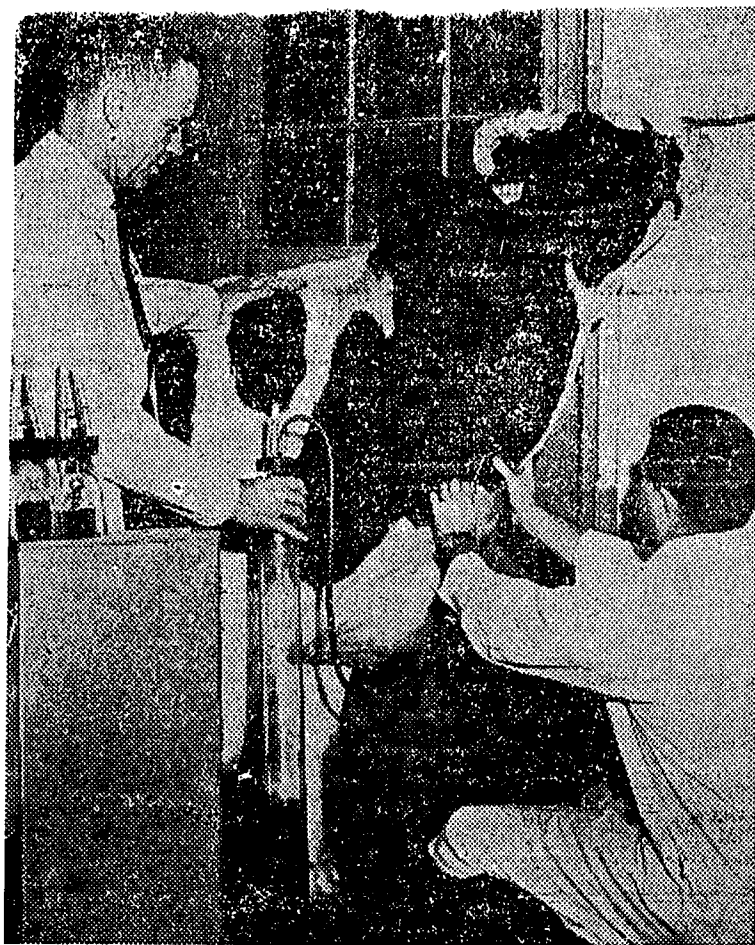

Miss Frederick harks back to the Christmas of 1957 and the lady who had little money for buying, but sent certificates saying that she would baby sit for two or three of the friendly families on her list.

Another lady bought simple baking pans and delivered them on Christmas Day, well wrapped and full of hot rolls right out of her oven. Others make small or large garments, candies and numerous other items. Men who are handy with tools turn out innumerable handy things for the kitchen, garden or home.

"The end result of such planning," says Miss Frederick, "is that no one is in debt for Christmas gifts, but the fun of giving is there."

**SORE THROATS**

Boise — Parents should pay special attention to children's severe sore throats. They might be "strep" throats. Only a physician can tell. He can also control "strep" infections through the use of modern drugs, thus reducing the risk of rheumatic fever and rheumatic heart disease.

The cow—nameless contributor to research—donates her blood which will be tested against cancer cells. Dr. Lewis L. Coriell (left), research director of the South Jersey Medical Research Foundation, Camden, N. J., holds a six-quart tube as Veterinarian Dr. William C. Lawrence guides the needle into the cow's vein. One cow can contribute large amounts of immune serum for laboratory tests. This project is one of many now being supported by the New March of Dimes.

## GAME DEPARTMENT KILLS TRASH FISH

Fish and Game Department workers had hundreds of observers recently, when Magic Reservoir just north of Shoshone received chemical treatment to destroy rough fish pop-

ulation of perch, suckers and other species. The department's prior estimate that 7 of these were trout proved high, if anything, and persons bent on salvaging rainbows had

slim picking. Rotenone, the chemical used to kill rough fish, affects the respiratory systems of aquatic creatures, but is harmless to human beings and livestock.

## STATE ROAD PROGRAM IS SET

Boise — The Board of Highway directors this month (October) approved a 1961 highway construction program estimated at \$31 million for road construction projects, engineering work and acquisition of needed

right of way. Approximately \$18.2 million is to be spent on projects on the Interstate Highway System; \$10.2 million on primary highways, and \$2.6 million on the state secondary system. Almost 78 percent of the total amount (or \$24,684,000) for the road work will consist of Federal Aid funds, and the remainder (or \$6,197,000) is necessary state-matching dollars.

The above mentioned figures do not include the following:

100 percent Federal Aid, estimated at \$3.2 million, for projects on the Forest Highway system.

Projects estimated at \$2½ million on the county Federal-Aid secondary system

100 percent state fund expenditures which are required for routine and special maintenance work on the state highway system.

Projects now approved by the Board of Highway Directors for construction, preliminary engineering and right of way in 1961 are in conformance with Federal-Aid funds which are expected to be available under the reimbursement planning program established by the federal government. This approval authorizes the Department of Highways to proceed with work on these projects when plans and specifications are completed, right of way acquired, approval of U. S. Bureau of Public Roads is obtained and funds become available.

Included in the District IV (Lewiston) area are:

Primary System — U. S. 95, Lapwai-Coyote Gulch: Preliminary Engineering, right of way, grading, drainage, base material, bituminous surface treatment, surfacing.

Spalding bridge, west, State Highway 9 — 1.1 miles: Preliminary engineering, right of way, grading, drainage, bituminous surface, channelization.

Secondary System: Juliaetta-Kendrick, State Highway 42 — 2 miles — Preliminary engineering, right of way, grading, drainage, base material, roadmix surface. Deary-Bovill: State Highway 8 — preliminary engineering, plant mix surface.

## POULTRYMEN HAVE PROBLEMS

U. of I., Moscow — The cannibal pullet — problem-child of poultrymen, can be reformed.

Charlie F. Peterson, poultry husbandman at the University of Idaho, says reforming the cannibal before she becomes a costly nuisance, is done by cutting off one-third to one-half of her upper beak. "Debeaking" is the term for the operation. Incidentally, it's as painless as filing fingernails. And it's best done as the pullets are moved into the laying house at this time of year.

Before moving the pullets in, the laying house must be swept very thoroughly — ceiling, walls and floor. Peterson suggests disinfecting with a solution of 1 pound of lye to 5 gallons of water, or with some of the cresote products.

Early fall equipment checks save trouble later on. The checks should include repairing equipment for water, feed and ventilation systems, and installing fan ventilation and automatic water supply, if these are not already available.

For a clean, dry, warm house, a litter of chopped straw or dry wood shavings 4 to 6 inches deep makes a good "floor." More is added every few weeks until the depth reaches 8 to 12 inches.

To maintain the litter and keep it dry, the poultry husbandman suggests that all water and some or all of the feed be placed on a rack, and that damp spots on the litter be "cleaned" with 1 pound of lime added to every 3 to 5 square feet of floor space. Regulated ventilation of the laying house, coupled with frequent stirring of litter, keeps a warm, dry cushion under the layers' feet.

Nests treated with carbolineum remain free of mites or lice. One nest for not more than four or five hens prevents broken eggs.

Young pullets should be moved to the laying house a few at a time to allow adjustment to the new surroundings, Peterson warned.

## NEW ADDRESS

## SPECIAL LICENSE NUMBERS AVAILABLE

License plates for 1961 will go on

sale at the Assessor's office, Latah county courthouse, December 1st. However, starting this week, the office will again offer the opportunity for persons to reserve special and favorite numbers, according to

Norine Clutter, deputy assessor in charge of licensing. Those who had reserved numbers last year will be entitled to the same number this year, provided they contact the office and confirm their number before Nov. 1st. On Nov. 1st, the numbers will be available to the first ones requesting them.

Numbers 1L 1 through 1L 6 will again be reserved for county officials and 1L 7 up to and including 1L 100 will be reserved for those early risers who annually stand in line at the Assessor's office door on the first day of licensing.

Fees for reserved tags, plus 50c handling and mailing charges, should be paid when reservations are made. These plates will then be mailed to arrive as near December 1st as possible.

Plates that have been reserved, but have not been paid for, will not be held after the 15th of December.

Those desiring special numbers can call TU 3-1451 or come into the Assessor's office to ascertain whether or not their choice is available to them. Those writing to reserve plates should send in several numbers, in order that a second or third choice can be allocated if the first one is taken.

Passenger car fees are as follows:  
1961, 1960, 1959 ..... \$17.50  
1958-1957 ..... \$15.00  
1956, 1955 ..... \$12.50  
1954, 1953 ..... \$10.00  
1952 and older ..... \$ 7.50

## SAMPLE FARM SURVEY COMING

Washington, D. C. — The 1960

Sample Survey of Agriculture will be conducted in this county during the next several weeks, it was announced this week by the Bureau of the Census, U. S. Dept. of Commerce.

The 1960 Sample Survey of Agriculture will collect information on ownership and size of farms, acreage and harvest of crops, livestock production and inventories. Information will be collected also on farm equipment, farm income, construction of new farm buildings, farm contracts, and farm operator debts.

Farms in the county which will be covered in the survey were selected at random under the Census Bureau's scientific sampling program to provide a representative cross-section of all farms in the country. Information collected locally will be combined with that collected in other areas of the county to provide national estimates. Local interviews for the survey

will be conducted by Mrs. Bernice O. Lewis.

## BAZAAR DATE OCT. 29

Q. My portable power saw has been acting sluggish lately and occasionally burns the work. Could you tell me what is responsible for this condition?

A. There's a strong possibility the blade you are using is dull. An unsharpened blade can reduce power by as much as 50 per cent and burn the work by friction heat. If the condition persists after sharpening the blade, I'd suggest you have an authorized tool serviceman investigate the trouble.

Q. Is it all right to use a combination blade when cutting soft material with a portable electric saw?

A. The combination blade is satisfactory—and the most popular—for all general wood cutting, but a fine-tooth blade, if available

Select the saw blade that will do the job best.

is recommended for ripping such soft materials as fiberboard, plywood, and wallboard up to 1/2 inch thick.

Here is a list of saw blades and the jobs they do best:

Rip blade—Use for rough-cutting with grain of wood. Its large teeth minimize binding and sticking.

Miter blade—This blade is hollow ground to provide extremely smooth cuts without tearing, so should be used where accuracy (interior trim, cabinet work), not speed, is desired.

Cross-cut blade—It produces a smoother cut on cross cut (cutting across the grain) than combination blade. Suitable for extremely hard woods and some metals.

Friction blade—A derivation of the combination blade. It holds edge longer when sawing material which contains nails, grit, and other obstacles.

Metal-cutting blade—Designed for accurate work with non-ferrous metals.

Grooving blade—Ideal for dadoing (grooving against grain), and planing (grooving with grain).

## Good for IDAHO HOP GROWERS Good for YOU

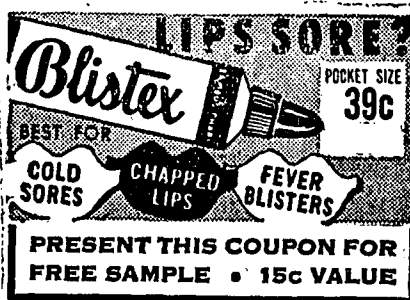

The Brewing Industry buys the entire crop of Idaho's fast growing hop industry.

This hop growing industry spends nearly \$3 million annually in Idaho for supplies, payroll, etc.

Of added importance to Idaho's economy is the nearly \$3.5 million paid annually by the Brewing Industry in Idaho to local, state and federal governments in taxes and license fees; indeed a fair share in support of the Gem State.

Oct. 24 — At the last meeting of  
the Friendship Club, new officers  
were elected for the year. They are:  
Mrs. Roy Heimgartner, president;  
Mrs. Marion Stevens, vice president;  
Mrs. Eldon Heimgartner, secretary;  
Mrs. Leslie Heimgartner, treasurer.  
The next meeting will be on October  
27th at the home of Mrs. Leslie  
Heimgartner.

Mr. and Mrs. Burgess and grand-  
son, Lyle, have moved into the Geo.  
Stedman place. Mr. Burgess is em-  
ployed on the Pierce Blewett farm,  
and Lyle is a first grader at Lapwai.  
They are former residents of On-  
tario, Oregon.

Mr. and Mrs. Don Bayle were Sat-  
urday evening guests of Mr. and  
Mrs. Eugene Heimgartner.

Mr. and Mrs. Eldon Heimgartner  
and Mr. and Mrs. Everett Custer of  
Pullman visited with Mr. and Mrs.  
Harold Gruell in Ontario, Oregon,  
Saturday.

Mr. and Mrs. Marion Stevens and  
family, Mr. and Mrs. Eldon Heimg-  
artner, and Earl and Wilbur Heimg-  
artner were among those honoring  
Mrs. Albert Heimgartner (one day  
before her birthday anniversary) at  
a family dinner in the Alvin Steigers  
home near Gifford, Sunday.

Mrs. Norma Rugg and son Jerry  
were Saturday over-night guests of  
Mr. and Mrs. Newt Heath.

Mr. and Mrs. Leslie Heimgartner  
and Elaine, and Mrs. Lene Zum-  
Hoffe were guests at Mr. and Mrs.  
Adolph Denner's Silver Wedding An-  
niversary observance at the Juliaetta  
Lutheran Church, Sunday.

Ernest, Kenneth and William Steig-  
ers, Jim Coffland and his four-year-  
old son Steven, went on a week-end  
deer hunt in the Lucille section of the  
Salmon river. The group killed three  
deer.

Sunday Mr. and Mrs. Jim Roberts  
and son Mike and Bob Coffland were  
early and late callers in the Ernest  
Steigers home, enroute up-river on a  
bird hunting expedition.

Clifford Johnson of Headquarters  
was a Thursday evening supper  
guest, and his brother, Alvin, of Bo-  
vill, a Monday evening supper guest  
in the Ernest Steigers home last  
week.

Everett Heimgartner was a week-  
end guest in the Wayne Heimgartner  
home.

Mrs. Wayne Heimgartner and Mrs.  
Leslie Heimgartner attended the din-  
ner which preceded the Leland Ba-  
zaar, Thursday of last week.

Mr. and Mrs. Edgar Heath and  
family visited Sunday in the Newt  
Heath home.

Mr. and Mrs. Mart Klopfer drove  
to Spokane Wednesday. They planned  
to remain a week.

HOW TRICK OR  
TREAT BEGAN

In October, 1950, a small Sunday  
School class in Pennsylvania decided  
to go "trick or treating" for the  
benefit of the world's needy children.  
Two years later nearly 500 commu-  
nities had taken up the project. As the  
idea took hold throughout the nation,  
contributions grew. In 1958 over  
9,000 communities participated. U.  
N. I. C. E. F. symbol is a child drink-  
ing a cup of milk. This is appropriate,  
for hunger has always been the first  
enemy of the world's children, and  
U. N. I. C. E. F. has attacked it on  
a huge scale. As a result, the United  
of milk is known literally around  
the world. So are its initials. "I know  
what U. N. I. C. E. F. means," said  
a little Italian girl. "It is the 'Ameri-  
can word for cow'."

On the local scene, members of  
the M. Y. F. of the Kendrick Com-  
munity Church, will be calling at  
your door on Monday, Oct. 31 —  
their way of "trick or treat" will be  
to collect funds for U. N. I. C. E. F.  
(United National International Child-  
ren's Emergency Fund).  
Please support this project.

## COULD THIS BE YOU

Weeks are spent in costume anti-  
pation.  
And gay plans for Hallow'en  
celebration.

Now very brave, out in the night  
dark and black;  
Ghostly white sheet draped on a  
trembling small back.

What was that eerie, low, moaning  
noise just now?

A spook, or a witch, or the neighbor's  
sick cow?

Squeaking, a gate swings — a loud  
bang out of sight.

Jack o'Lantern is grinning King of  
this night.

Goblins of all sizes are out sneaking  
around.

Their knees shaking, clatter like  
skeletons sound.

Reluctant feet drag some brooms on  
witches' flight.

Bats and black cats fill big pumpkin  
heads with fright.

Someone is terrified by each little  
ghost.

But what was that moving behind  
yonder post?

Evening is still young, but strong  
courage grows weak —

"Let me in quick Mom!" is the last  
scary squeak.

— Lucille Magnuson.

## P.-T. A. STUDY

"Using Television Wisely" was the  
subject discussed at the P.-T. A.  
study group meeting Tuesday at the  
home of Mrs. Robert Magnuson.

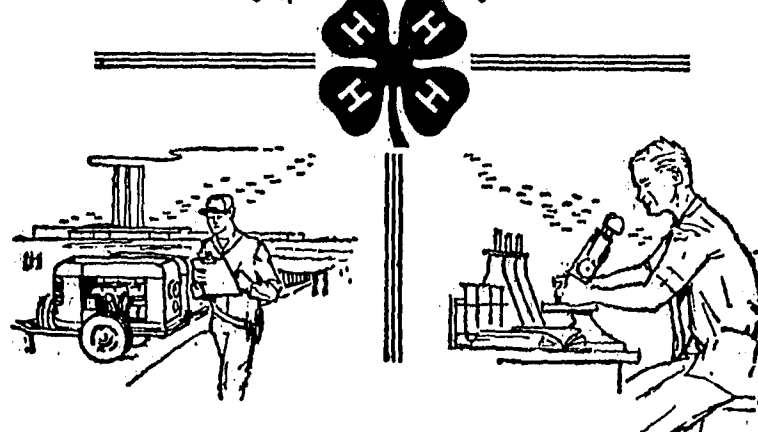

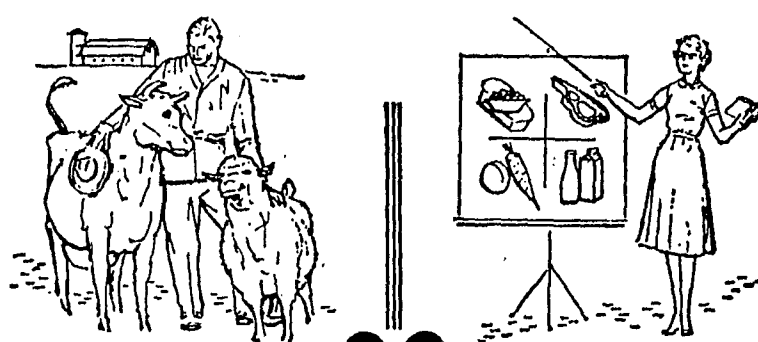

The next study will be held Nov.  
8, at the Robert Meserve home. De-  
tails will be in next week's Gazette.

## BITS OF THIS AND THAT

No man can be expected to pay as  
he goes if he is always going broke.  
The habit of striking back when  
adversity hits you is sure to be a  
winning policy.

It's no sin to go motoring on Sun-  
day, but the way some people drive  
is a crime.

## 4-H'ERS GEAR FOR OFF-THE-FARM JOBS

Economists now predict that  
only one out of nine farm youth  
will make his livelihood by own-  
ing or operating a farm.

When this ratio is applied to  
4-H Club members who are  
brought up on farms and ranches,  
several hundred thousand each  
year will choose off-the-farm oc-  
cupations. To better prepare  
these young people for jobs in  
industry, education and else-  
where, the Cooperative Extension  
Service of every state land-  
grant college or university is  
keying 4-H educational programs  
to current trends in jobs.

"The 4-H projects serve as  
apprenticeships to career ex-  
plorations," stated Dr. E. W.  
Alton of the Federal Extension  
Service, addressing a group of  
business men and women whose  
firms contribute about a million  
dollars to 4-H work each year.

"Club leaders are placing more  
emphasis on vocational guid-  
ance," he said. Only two out of  
10 high schools today offer voca-  
tional counseling, and most of  
these schools are in large cities.  
Extension workers are teaching  
boys and girls to "convert the  
complex cluster of 4-H experi-  
ences to day-to-day events," he  
added.

A recent report states that  
there are now three jobs await-  
ing every agricultural college  
graduate. They relate to re-  
search, industry, business, con-  
servation service, and farming.

More than 80 business firms,  
educational foundations and in-

dividuals annually contribute  
\$200,000 in college scholarships  
besides other incentives in a col-  
lective effort to help 4-H Club  
boys and girls become respon-  
sible self-supporting citizens.  
This support is provided through  
national and regional 4-H pro-  
grams arranged by the National  
4-H Service Committee and the  
Extension Service.

Award donors whose support  
of 4-H programs ranges from 15  
to 43 years are: International  
Harvester — agricultural; Fire-  
stone Tire & Rubber — automo-  
tive care and safety; Mrs.  
Charles R. Walgreen — beautifi-  
cation of home grounds; Kerr  
Glass — canning; Cotte & Clark  
— clothing; Westinghouse Edu-  
cational Foundation — electric;  
Allis-Chalmers — garden; Mont-  
gomery Ward — home economics;  
Sears-Roebuck Foundation —  
home improvement; Edward  
Foss Wilson — leadership; Gen-  
eral Motors — safety; Sunbeam —  
home economics.

The Armour, Cudahy and Wil-  
son companies plus Livestock  
Conservation, Inc., each provide  
awards in livestock projects. The  
following railroads contribute  
educational awards: North West-  
ern, Burlington, Santa Fe, Mil-  
waukee, and Illinois Central.

Long-time supporters of the  
4-H tractor program are Ameri-  
can Oil, Standard Oil Foundation  
(Chicago), Standard Oil (Ken-  
tucky), Standard Oil (Ohio),  
Utah Oil Refining, and more re-  
cently, Humble Oil Refining.

OTHER ITEMS — Mrs. Charles  
Gudmundsen made two trips to Deary  
to visit last week. Tuesday she vis-  
ited Mrs. Bill Dahlberg and on Wed-  
nesday with her daughter, Mrs. Cla-  
iss Ireland, and her grandchildren.

One case of the three-day measles  
was reported in Park last week.

**HELLO, FOLKS:**  
We've had weeks of wonderful weather — but, according to the predictors — it's almost at an end. So, better be prepared. Check that fuel oil tank right now and give us a call at 4251. We'll be there in a flash with Union Burner Oil. It gives clean, hot burning.

A gentleman sat down at the bar and ordered a martini. "Very dry," he insisted. "Twenty parts of gin to one part vermouth." "Very good, sir," said the bartender. "Shall I twist a bit of lemon peel over it?" "My good man," came the reply, "when I want lemonade, I'll ask for it."

Are you ready for the winter weather that lies ahead? Do you have mud and snow tires? Anti-

freeze, chains, chain tighteners? If not, come in and see us. You'll be surprised at how cheaply you can drive out — ready for any road or condition.

It was Monday morning and the small-town minister was greatly shocked when he unexpectedly came upon his wife with her hand in the coins gathered during the Sunday church collection.

"Martha, what are you doing?" he exclaimed.

"What do you think I'm doing?" she replied, annoyed. "I'm looking for a button to sew on your coat!"

See us for mud and snow tires, chains, chain tighteners. Better be safe than sorry.

There are no better products than Union. Try them.
