## SCIENCE FAIR SLATED FOR K. H. S., MATERIALS NEEDED

On March 17, the Kendrick High School will hold a Science Fair, according to Instructor Robert Hall. It will be sponsored by the K. H. S. Science Club.

The students will have a choice of any entry, but it must be made by the student. "In making their own project, many materials will be needed," Mr. Hall said. He is asking that persons around the area take a peek into their basements, garages and attics, and see if they have any of the listed items that they could give to the students to help in their projects.

Needed are:

Wire, electrical; old radios, refrigerators, old telephone, alkali-seltzer bottles, green olive bottles, old clocks (wind or electric) old electric razors, brooder thermostats, wall thermostats, transformers, lenses of glass, old cameras.

They can also use: Cardboard tubes from linoleum or rug rolls, magnets, tubing (copper, glass, etc.), heating elements, reading glasses, curved mirrors, clear plastic containers, lamp sockets, switches, rods of different metals and flasher units.

If you have any of these items that you are no longer using, and wish to dispose of, either drop them off at the Kendrick High School, or call Mr. Hall at the school, and arrangements will be made to have them picked up.

## KENDRICK WINS 4TH AT DEARY, 65 - 54

The Kendrick Tigers won their fourth basketball game of the season Tuesday night over Deary High School, by a score of 65 to 54.

The score at halftime was knotted at 25-all, but Kendrick out ran the Deary zone in the third quarter and picked up a lead of 51 to 34 by the end of the third quarter of play.

Fred Foster led all scoring with 20 points, Burton Bowen had 15, and Bill Blewett had 14 for the victors.

The Tigers will travel to Kamiah on Friday night, and on Tuesday night they will meet the Orofino Maniacs at Orofino. Both games will be double headers.

On February 27, the Tigers will go into district basketball play at Moscow. All games will be played in the University of Idaho gymnasium.

## TROY DUMPS TIGERS 64-36 HERE FRIDAY

The Kendrick Tigers took one of the most decisive thumpings of the season last Friday evening at the hands of the Troy Trojans in Kendrick's gymnasium. The final score was: Troy 64 and Kendrick 36.

Troy was led in scoring by sophomore Rodney Bohman, who pumped in 31 points. Troy led at the half-way point by a score of 27 to 15.

Dennis Carlson added 18 points for Troy, and also was chiefly instrumental in setting Bohman up for most of his points, with key passes.

Fred Foster tallied 13 points for the Tigers, leading their scoring.

Troy's "B" squad won the preliminary 42 to 39, and recorded its eighth victory in a row.

## JR. HIGH SCHOOL NEWS NOTES

### Jr. Hi Kittens Win

The Kendrick Jr. Hi School Kittens played their final home game of the season on Thursday, Feb. 2, and pleased a fine home crowd by defeating Culesac 23-20.

It was a well-played game all the way with few fouls called until Culesac put on a full-court press in the final minutes of play.

At half-time the Wolves of Culesac led by a 12-11 count on a last second field goal.

High point men were Rowden and Silflow for Kendrick, each with 6. Blakely of Culesac led his team and game scoring with 7. No seventh grade preliminary was played due to the shortage of players for Culesac. The Kittens go to Genesee on Feb. 8. Their last game of the season will be at Troy, Feb. 16.

Half-time activity for the Culesac game was furnished by the B team majorettes consisting of Linda N., Janice T., Frances P., Janet and Jane W.

### Perfect Attendance

Those having perfect attendance for the first semester are as follows: Fred C., Norma E., Marlene E., Bill F., Charles L., Ralph L., Rick R., Sharon S., Linda S., Richard W., Ed. L., Dale S., Bruce V. and Elaine W.

## EVERETT FRASERS HONORED BY RECEPTION MARKING 39 YEARS AS MAIL CARRIER

Mr. and Mrs. Everett Fraser were honored at a reception Sunday afternoon, February 5, in the Big Bear Ridge Community Hall commemorating his 39 years of service as a rural mail carrier on that ridge.

The big room was made festive with decorations of evergreens and streamers of red and blue crepe paper. Miniature mail boxes labeled with the names of older patrons were placed in the windows, which added to the decor.

Charles Bower acted as Master of Ceremonies for the following program:

"God Bless America," group song, accompanied on the piano by Mrs. Oscar Slind.

Grandchildren of Mr. and Mrs. Fraser, Patty, Elaine and David Fraser sang a song, and Kathy Fraser sang a solo. All were accompanied at the piano by Mrs. Slind.

Linda and Janie Fey sang a duet, accompanied on the guitar by Sharon Fey.

Duane Fraser played an accordion solo.

Songs were sung by Wanda Hoskins, Iva Johns and Joy Swan, accompanied on the piano by Mrs. Robert Smith.

A short history of the establishment of the mail route, and carriers who had served it preceding himself, was given by Everett Fraser. He told briefly of some of the long-ago problems encountered on the route.

The refreshment table carried out the theme, with a beautiful tiered cake topped with a flag, depicting years of service, and side cakes that were decorated as envelopes and packages.

Ladies of the Big Bear Ridge Community Club, acting as hostesses, served cake, mints, coffee and punch to the 150 guests present to honor Mr. Fraser's retirement, and Mrs. Fraser as substitute mail carrier for many years.

Serving at the guest book was Miss Bernice Fraser, a niece of Mr. and Mrs. Everett Fraser.

Mr. and Mrs. Fraser were presented a money gift from the group. It was contained in a miniature mail

## PANCAKE FEED IS SCHEDULED

The Kendrick Community Lions Club Annual Pancake Feed will be held on Saturday, February 18, with the proceeds going toward the purchase of a Seeing-Eye Dog for a blind child — and these dogs are no longer do they come from the east.

The menu will consist of hotcakes, (all you can eat), syrup, side dish of ham and coffee (all you can drink).

The hotcakes will be something new (or old) in as much as they will be of the sour-dough variety, a former Alaska resident furnishing the starter required. The feed will be at the Kendrick High School cafeteria. And as last year, an auction sale of small and useful items will be held.

Every Lion is asked to keep this date clear on his calendar — for the chances are he will be drafted to help!

Never was there a more worthy cause, say the Lions, and all feel certain the community will get behind this annual event.

Advance ticket sales will begin this week-end!

sack, complete even to lock and key. Many cards and letters of congratulation were also received by the honor guests.

Attending from the greatest distance were Mr. and Mrs. Fred Bailey of The Dalles, Oregon. Mr. Bailey had carried mail on the route before Mr. Fraser took over.

Other friends from Moscow, Nezperce, Princeton, Juliaetta and Kendrick were present to honor their old friends.

Immediate family members present included: Mr. and Mrs. Fraser's daughter, Mrs. Ethel Greene of Lafayette, Calif., and two sons and families, Mr. and Mrs. Bob Fraser and children of Calder, Idaho, and Mr. and Mrs. Arthur Fraser and children of Lewiston. Two other sons, Mr. and Mrs. Wallace Fraser and family, and Mr. and Mrs. Donald Fraser and family were unable to be present.

## CUB SCOUT PACK MEETING

The Cub Scouts held their monthly Pack Meeting for January at the High School. The theme for this month was "South America" and the program was along those lines, as well as their costumes.

The following boys received awards: Ricky Candler, Bobcat Pin; Billy Hudson, Bobcat Pin; Bradley Thornton, Bear Badge with one Gold Arrow; Donnie Meserve, Bear Badge with one Gold Arrow; Dennis Deobald, Bear Badge; Orrin Riebold, one Silver Arrow on his Bear Badge; Stanley Riebold, one Silver Arrow on his Wolf Badge; and a Gold Arrow on his Bear Badge; Joe Guyer, Lion Badge; Ronnie Dammarell, two Silver Arrows on his Wolf Rank; Edwin Calkins, one Gold and two Silver Arrows on his Wolf Rank; Gary Pea, one Silver Arrow on his Bear Badge.

Mr. Meserve announced that the Cub's share of the Christmas tree sale money was \$51.09 — and this is the time to thank everyone who participated and purchased trees from the Scouts.

New 50-star nylon flags were presented to the Dens of Juliaetta and Kendrick by Mrs. Charles Deobald, from the Baker-Lind V. F. W. Auxiliary No. 3913, and Flag Etiquette booklets on "How to Display and Respect Our Flag" were passed out to the parents.

The Cubs displayed many projects and collections at this meeting, which shows that they are really working. The annual Scout Blue and Gold dinner will be held later this month — so watch for the date.

## T. B. TESTS KNOWN

The results of the school-wide T. B. testing program on January 27, are as follows:

There were 323 who took the tests, and 316 were negative. The remaining seven are receiving further tests for a double check.

The thanks of all go to Dr. D. A. Christensen and Public Health Nurses Grace Smith, Nancy Fordham and Martha Tomlinson, and former public Health Nurse Betty Hendrick.

Also assisting were Mrs. Everett Farrington, Mrs. Henry Galloway and Mrs. Lauren Holsington. The assistance of these volunteer mothers was greatly appreciated.

## WELL DRILLERS BACK ON SCENE, WORK TO RETRIEVE BAILER

Workmen from the Oliver Zink-graff and sons drilling operations of Spokane appeared in Kendrick on Monday to resume work on the in-completed city well.

Before the present hole can be further drilled, a bailing bucket must be removed from the shaft. The drillers plan to use air to clean out around the bucket and then attempts will be made to hook the bailer and remove it.

When the bailer is removed, the shaft will be reamed out to a 10 inch bore to a depth of 300 feet.

At the present time the well is drilled to a depth of about 260 feet with a six-inch bore, but plans are to ream the hole to 10 inches and then go on to 300 feet.

## CHOIR GREATLY ENJOYED

The Choir of the West from Pacific Lutheran University, Tacoma, was greeted by a fair-sized crowd Wednesday evening — and those present were unanimous in their comment: "It was wonderful!"

It is to be regretted that more were not able to attend, but to those who did, it paid real dividends in fine music.

There was no admission fee, but a silver offering to help defray expenses was taken.

Proceeding the concert the Choir were guests of the Emmanuel Lutheran Church at a dinner served in the K. H. S. school cafeteria.

## FEBRUARY WEATHER MILD, WET - SOGGY

To most of the old-time residents this winter, to date, is being described as "one of the mildest I can remember" — but to others it has become "rain, rain, rain and more rain" — and that certainly has been the case.

Of course there have been days of sunshine and mild temperatures — but on the whole, rain has been the regular item.

The Potlatch river is high, and rolling thick with silt. At Troy Bear creek looks so thick you wonder how it is able to run — and it probably wouldn't if the fall were not so steep. At Arrow Junction a very plain line can be picked out where the two rivers meet.

Daytime temperatures have been in the high 40's, with a 50 degree reading being recorded Saturday, and another on Monday. Hill are beginning to show a light green color, and lawns are quite green. However, all may be described as a "soggy" mess due to the steady rains of the past week.

Country and county roads are said to be exceedingly soft, and very strict load limits have been imposed. Quite strict load limits are also in effect on all state highways.

## ANNIVERSARIES ARE REMEMBERED

A surprise party honoring the birthday anniversaries of Mrs. Harold Parks and Jesse Heffel, was held at the Harold Parks home Wednesday evening.

Guests included: Mr. and Mrs. Wm. Johnson, Mr. and Mrs. Howard Wolff, Mr. and Mrs. Eddie Galloway, Mr. and Mrs. Ed. Galloway, Mr. and Mrs. Gordon Peters, Mr. and Mrs. Cecil Chamberlain, Mr. and Mrs. Ronald Parks, Mr. and Mrs. Wilbur Corkill, Harold Parks, and the honorees.

Pinocle was played with high scores going to Wilbur Corkill and Mrs. Cecil Chamberlain; lows to Howard Wolff and Mrs. Wilbur Corkill. The "galloping goose" was taken home by Eddie Galloway.

Delicious refreshments were served at the close of the evening.

## V. F. W. INITIATION

Baker-Lind Post No. 3913 V. F. W. will hold an open meeting with initiation ceremonies on Thursday, February 9, 8:00 p. m. in the V. F. W. hall (old K. H. S. gym).

The Moscow Ritual team will be in charge of the ceremonies. Refreshments will be served. The public is most welcome.

## TO V. A. HOSPITAL

Stanley (Smokey) Murphy was admitted as a patient at the Veterans' Administration Hospital at Walla Walla on Thursday of last week, being taken down by Herb Millard, accompanied by Joe Forest, of the local V. F. W. Post.

Stanley is reported to be suffering with diabetes and associated complications. We have not learned how long he may be a patient there.

Hostesses will be Mmes. Tom Denner, George Denner, Adolph Denner and Herbert Schwarz.

## SALE IS SUCCESS

The public auction held last Saturday afternoon by the V. F. W., of items from the old school house, was well attended.

V. F. W. members described the prices realized as "satisfactory." Pipe, pipe fitting, toilets, wash-bowls, valves, tanks, etc., were auctioned for them by Roy Glenn.

## K. H. S. STUDENTS SET DANCE RULES

In a recent meeting of the K. H. S. Student Council, the following rules were prepared, to become effective regulations governing school dances, taking effect immediately.

The rules were a joint effort of the students and the faculty at K. H. S. It was made clear at the meeting that the rules were not new, but this is the first time they have been put down on paper, and approved by the Council.

They are as follows:  
I. No one may re-enter a dance after leaving for any reason. The faculty chaperone may provide for escort to cars and busses in cases of justifiable need.

II. Students will conduct themselves in a decorous manner at all times. This includes dancing with a proper amount of light and acting like ladies and gentlemen in their relations both with fellow students and chaperones. Public displays of affection are especially to be avoided. A chaperone may require a student to leave the dance at any time when or if his behavior warrants such action. Chaperones may close a dance at any time when, in their opinion, students' behavior justifies it.

III. All dances will end at 11:00 p. m. unless prior arrangements have been made to have the closing time later.

IV. A properly filled out dance form must be submitted to the student council and/or the office by the day before the dance.  
V. For the purposes of these rules, all people who attend a dance as participants rather than chaperones, will be considered as students and be required to fulfill all the obligations of students, especially in student-chaperone relations. — Steven Groseclose, president; Delbert K. Clear, H. S. Principal.

Q. The original owners of our home laid asphalt tile over the wooden floors in the kitchen, and we plan to resurface the floor with rubber tile to conform with a remodeling theme. Is it possible to lay rubber tile right over the asphalt?

A. You can put the new tile directly over the asphalt, but probably would find it a lot simpler if you removed the present floor covering. Since tile adheres by suction rather than cement, uprooting the asphalt is no difficult task.

Clearing the floor to the wood is recommended for these reasons: The added height of the floor often appears awkward where the new tile meets the doorway to another room, and, too, doors which presently swing over

When re-tiling a floor, it may simplify the job to first remove the old floor covering.

the asphalt tile may not move freely with the floor raised.

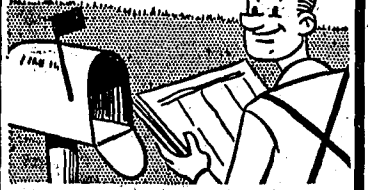

If neither of these factors enters into the picture, two preparatory steps must be taken before laying the rubber tile over the present floor: (1) Remove all wax from the asphalt tile and (2) "rough up" the asphalt tile with open-face production paper because the adhesive will not adhere to a smooth surface.

Q. Could you tell me when, and how, pin rivets are used as wall fasteners?

A. These hammer-driven fasteners are for use on masonry or concrete walls. Holes to receive pin rivets should be bored with your electric drill the same diameter as the shank of the rivet and about 1/8 deeper. The rivet is pushed through the roughing or work piece into the hole, then expanded and secured in the wall by hitting the rivet head with a hammer. In that the expansion is only slight, nail shields or machine bolt anchors should be used if heavy loads must be supported by the wall fasteners.

## U. I. SLATES SCHOOL FOR HOG PRODUCERS

Farmers interested in the latest methods of pork production will attend school at the University of Idaho on February 17, 1961. With the many new methods and problems facing the hog producer, this school will be of great value.

Of particular interest will be the use of lagoons to dispose of the liquid manure from the hog barns. The use of lagoons is new in this area, and the Agriculture Engineering staff will tell farmers how to con-

struct and use this system.

Dr. James Bailey, veterinarian at the University, will not only tell the reasons why a good sanitation program is necessary but will present in detail a complete sanitation and disease prevention program.

Rations for different age pigs, using feeds plentiful in this area, will be given by Dr. T. B. Kleth and Dr. John Baker, Animal Husbandry Department, University of Idaho. Demonstrations on selecting the meat type hog both alive and with carcasses will be a part of the program.

Farmers raising hogs will find this program covers every phase of hog production and will show methods that will increase the dollar profit.

The school will start at 9 a. m. at the Student Union Building, University of Idaho campus, and there are no registration fees with everyone welcome to attend.

## FOUR DOCTORS GET HEART RESEARCH GRANTS IN IDAHO

Four doctor-scientists in the Northwest have received renewed "heart" grants totaling \$5,390 from the Idaho Heart Association for continuing of "heart" research studies during 1961, according to an announcement made by Dr. Richard A. Forney, chairman of the association's Research Committee.

"Heart Dollars," collected during the annual February Heart Fund campaign, will continue to be used

in support of area doctors in their research work. This ultimately will increase medical services to Idahoans stricken with heart disease — this state's number one killer and crippling points out Dr. R. G. Kloss of Boise, Heart Fund Chairman.

At the L. D. S. Hospital in Salt Lake City, Dr. J. D. Mortensen is conducting and testing two artificial heart valves, those most frequently damaged by rheumatic fever, with an added grant of \$1,550.00.

Dr. Robert E. Rushmer of the University of Washington School of Medicine, is continuing under a \$1,280 grant, his research on the distribution of blood flow to various organs and the pumping action of the heart.

With an additional \$1,280 research grant, Dr. Arthur J. Seaman at the University of Oregon at Portland, is at work on a long-term study of antithrombotic drugs.

Dr. John Osborn at the Presbyterian Medical Center in San Francisco with this year's grant of \$1,280.

## ELEPHANT BRAND FERTILIZER PAID FOR THIS CAR

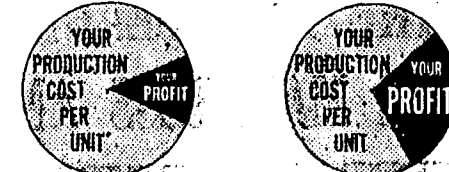

This is not an exaggeration. By the proper and effective use of Elephant Brand fertilizer thousands of farmers have been able to make the money for something they wanted, such as a new car or new farm machinery.

your better-grade crops bring higher prices; second, your bigger yields give you more to sell and third, you get a greater profit on each crop unit of whatever you grow.

With Elephant Brand fertilizer you grow bigger crops. Your cost of growing the crop is spread over more crop units (more bushels, bales, tons or pounds) so you grow each unit for less. Lower production cost per unit means you increase the difference between cost price and selling price — that difference is your profit.

Using Elephant Brand will mean more money for you in three ways: first,

## GRADING TROUT

Fish and Game department workers grade trout at Hagerman hatchery in Magic Valley as part of the wintertime routine to supply about 20 percent of over 11 million fish now caught in Idaho during average

season.

Fish are netted from raceway and dumped into holding box, from which they are worked over the openings in the grader. Angles last year averaged more than 50 trout apiece. Bulk of state-wide harvest is wild trout.

FORESTERS PROMOTE  
HOMES FOR WILDLIFE

Definite steps to improve homes for fish and wildlife were made on national lands in the Northern Region during the year just ending.

The work included protection of trout streams during road construction, stream improvement, removal of spawning barriers, and range and browse studies.

According to Charles L. Tebbe, regional forester, Stream improvement work including removal of steelhead spawning barriers on tributaries of the Lochsa and Selway Rivers. He said work to protect badly eroded stream banks was done on the Beaverhead National Forest. This included fencing and the installation of bank protection structures.

"While the stream improvement program is small at present," Tebbe said, "it will be expanded considerably as money becomes available."

"One of the big jobs the Forestry Service faces is coordinating fish and wildlife needs with management of timber, rangelands and watersheds," the forester stated. He said that protection of trout streams in road construction has been given special attention during the year, and that a good deal was accomplished. Streams on nearly all of the Region's national forests were involved. Inspections before and during road construction were made to assure that damage to fisheries was kept to a minimum.

Tebbe stated that livestock and game range analysis was emphasized during the past year, with stress on proper use of forage by both livestock and big game. The number of browse transects on important big game ranges was substantially increased during the year. Sportsmen and stockmen were encouraged to take part in the analysis programs.

"On key winter areas, maintaining the supply of browse for game animals is a primary objective," the regional forester said. "Herbicide sprays were used on such key areas last year and the year before in an experiment to kill back the tops of tall browse plants and cause resprouting at a level which game animals can reach." He added that the 200-acre experiment on the Fish Creek area of the Clearwater National Forest shows promise. "We hope that a suitable technique can be developed so we can do this type of browse regeneration on a wider scale," he said. Tebbe reported that prescribed burning to improve browse for game

attempted on a small scale on Colville, St. Joe and Nezperce National Forests.

A pilot watershed, range and wildlife habitat improvement project has been started on the Ruby River drain, age of the Beaverhead National Forest. It will serve as a pilot study area to guide management and rehabilitation on similar land in other parts of the drainage and on similar Forest service lands.

Tebbe stated that the timing and location of timber sales where they will produce needed forage is another potential big-game management tool that needs further development.

Tebbe pointed out that the key to successful wildlife habitat management on national forest is close cooperation with the state Fish and Game Departments which have the responsibility of managing fish and game.

Besides the on-the-ground projects, there are several other items that will serve to improve national forest wildlife habitat, the forester said.

He listed a planned expansion in wildlife habitat research, wildlife habitat improvement that would result from the proposed program for the national forests, and the new national forest multiple use law that gives wildlife values a legal as well as an actual place in forest resource management.

Q. Last summer I painted my roof gutters with a paint especially made for use on galvanized steel, and they're peeling again. Isn't there some way to keep paint on those gutters for any length of time?

A. Gutters have troubled man ever since he put a roof over his head. Although we obviously cannot expect to achieve a permanent paint job, one that lasts several years is possible if the surface is properly prepared and paint correctly applied.

There are several good paints on the market to cover galvanized steel, but even the most expensive will be wasted if the surface is not clean. After scraping off the entire coat of old paint, give the gutters a vigorous going-

Wire-brush surface of galvanized gutters, then clean with vinegar and water before repainting.

over with a wire brush, then wash them down with vinegar and water.

Apply the paint as soon as the gutters have dried, and be careful not to lay it on too thick using only enough paint to cover the surface. Then relax and hope for the best.

If you have a portable electric jig saw, personalized coasters are just some of the unusual homelcraft items that can be made with this versatile tool, which dispels the guess work formerly associated with circle cutting.

After cutting them out, mark the family name or initial on the coasters with an electric hand grinder, wood-burning or wood-carving tool. Or, you may want to name a coaster for each member of the family.

This not only will delight the children, but encourage them to spare those valuable table tops when glasses are taken out of the kitchen.

ALCOHOL STUDIES  
ENDED SUNDAY EVE

"It's the Brain That Counts" was  
the title of the movie shown at the  
final alcohol study session Sunday  
evening at the Kendrick Community  
Church.

The expected speaker could not at-  
tend, but he sent his comments on  
the film, which Gerald Ingle  
read to the group after showing of  
the picture. It stressed a physician's  
concern for the welfare of children  
of drinking parents, and showed how  
a small amount of alcohol dulls the  
vision and slows reactions. Also the  
reasons for high insurance costs due  
to accident rates was discussed.

Mrs. Ingle also summarized the  
text book, "Stumbling Block," which  
outlines the churches' responsibilities  
in a Christian attitude of education,  
understanding, and awareness of the  
modern alcohol problems.

The children's class displayed a  
scrapbook of pictures of responsible  
helpers such as doctors, nurses, po-  
licemen, teachers, ministers, and the  
best way to keep the strongest and  
healthiest body.

Refreshments were served by Mrs.  
Howard Hoffman, Mrs. Paul Lind  
and Mrs. Gerald Ingle.

## SPECIAL SERVICES

Special Evangelistic Services were  
begun at the Kendrick Assembly of  
God Church on Sunday, Feb. 5th,  
with Evangelists John and Frances  
Vosika of Cheyenne, Wyo.

The Vosikas are versatile music-  
ians and singers, in addition to be-  
ing ministers of the gospel. Their  
instruments include the saxophone,  
clarinet, violin, piano, and an elec-  
tronic bass. The latter instrument  
is of Rev. Vosika's own construction.

Services will be held every night  
except Monday and Saturday, and  
will continue through Feb. 19. Special  
children's services are being held at  
10 o'clock each Saturday morning at  
the church. The public is invited.

## VIEW OLD BIBLE

Junior Class members of the Ken-  
drick Community Church School  
visited Mrs. Liddie Ameling Sunday  
morning during the class period.  
Mrs. Ameling showed the youngsters  
her large family Bible, which was  
purchased in 1880 from a traveling  
book salesman. She explained the  
pictures and record pages, and also  
had many news clippings and pic-  
tures to show.

Among her mementos were some  
very old Christmas postcards which  
were quite different from the mod-  
ern styles.

This interesting trip culminated a  
study of kinds of Bibles and ways  
of distributing Bibles around the  
world. Those who visited Mrs.  
Ameling wish to thank her for her  
gracious hospitality. They include  
her great granddaughter, Pat John-  
son, Louise and Loren Hoffman, Bob-  
bie Meserve, Danny Fey, and their  
teacher, Mrs. Robert Magnuson.

Published Weekly by the Union Oil Service at Kendrick  
W. L. "Bill" Rogers, Editor

## HELLO, FOLKS:

There's no such thing as a warm home without heat these days — and there's nothing better to heat it than Union Fuel Oils. Give us a call at 4251 — we'll be there in a flash!

Police Officer: "I say, Miss, did you see this terrible smashup?"  
Ravishing Redhead: "No, I did not. I was bending over at the time it happened to straighten the seam in a stocking!"

Spring mud and slush call for good tread on car, pickup or truck tires. Do yours have it? If not, come in and talk it over. You'll be surprised at how cheaply you can drive out on a new set.

Glady's: "What would you do if somebody left you a million dol-

lars?"

Pete: "If somebody left me a million bucks, I wouldn't do nothing — from then on!"

Let us serve your car, pickup or truck. We do the job right, using the proper lubricant for every spot — including special items where they are called for.

Voice on phone: "This is the second hand store."  
Druck: "Shwell. I wan' one for my wris' watch!"

Old bus start hard on chilly mornings? If so, come in and fill the tank with Union 76 Royal or 7600 Gasolines — drain the crankcase and refill it with Royal Triton Motor Oil — then you'll be set for quick, easy starts.
