Potato Outlook Favorable for Consumers, Growers

For consumers and producers alike, good news was contained in a potato outlook report issued this week by Robert L. Sargent, extension agricultural economist at the University of Idaho.

Sargent said consumers will be pleased by the high quality of the 1974 potato crop—and they'll also find retail potato prices to be somewhat below the levels which prevailed earlier this year.

From the grower's standpoint, high yields and a strong market demand are indications that 1974 is shaping up as a good potato year, the College of Agriculture economist added.

"The 1974 Idaho potato crop is expected to total about 80.4 million hundredweight, or two percent larger than last year's crop," Sargent said. "With production in other states showing larger increases, the entire U. S. fall potato crop should be more than 12 per cent above last year's."

Processors of frozen potato products will contribute to the market demand as they replenish their potato holdings, he said.

"Cold storage stocks of frozen potato products on Aug. 31 were above last year's extremely low levels, but they were below the levels of 1971 and 1972," Sargent pointed out. With production at an all-time high

With production at an all-time high level, orderly movement of potatoes to market is essential this year, the UI economist said.

"A program of selling part of the crop at intervals through the marketing year would be a good plan for growers to follow," he sa id. "If market runs can be avoided, potato prices for the year should average out much better than in other years of peak production."

TERM "BAG LIMIT" DEFINED

The term "bag limit" is applied to the total number and species of birds which the hunter may take in one day of a legal, open hunting season. "Possession limit" applies to the total number of birds that a hunter may have in his possession—possession limit is usually double the daily bag limit.

The following are the proposed Constitutional Amendments to be voted on at the next General Election to be held November 5, 1974,

CONSTITUTIONAL AMENDMENTS

To yote on the following, mark a cross (X) in the square at the right of "Yes" or "No."

8.J.R. No. 114

"Shall Article VIII of Yes [the Constitution of the State of Idaho be amended No by the addition of a new Section 3A to provide for the issuance of revenue bonds by counties in the manner prescribed by law. with the assent of a majority of the qualified electors of the county voting at an election to be called and held for that purpose, for the acquisition of environmental pollution facilities to be financed for, or to be sold, leased or otherwise disposed of to, persons, associations and corporations other than municipal corporations or other political subdivisions; provided, that such revenue bonds shall not be secured by the full faith and credit or the taxing power of the state or of any political subdivision?"

ATTORNEY GENERAL'S STATEMENT OF MEANING AND PURPOSE

S.J.R. No. 114

Senate Joint Resolution 114 is a proposed amendment to Article VIII of the Constitution of the State of Idaho, which provides a new section to Article VIII relating to environmental pollution control facilities and tax free county revenue bonds for obtaining such facilities.

The proposed amendment provides that counties may issue revenue bonds upon approval of a majority of electors at a special bond election for the purpose of acquiring, constructing, installing, and equipping facilities designed for environmental pollution control. Such facilities could then be sold, leased, or otherwise disposed of by the county to private persons or leading the street of the county to private persons or leading the street of the county to private persons or leading the street of the s

The proposed amendment further provides that such bonds may not be secured by the taxing authority of the State or its political subdivisions. It is intended that the revenue from the sale, lease or other disposal of the facilities will provide the only source of payment of the bonds.

Among the results intended by this amendment is to enable business to obtain anti-poliution equipment at lower cost and in some cases enable some businesses to obtain such equipment which could not otherwise be firenced.

**Shall Section 1, Article Yes Color XX, of the Constitution of the State of Idaho, relating to how amendments may be proposed, be amended to strike the requirement that amendments shall be published for at least six consecutive weeks, and provide that amendments shall be published at least three times, such publication to provide arguments proposing

ATTORNEY GENERAL'S STATEMENT OF MEANING AND PURPOSE

and opposing the amend

S.J.R. No. 118

Senate Joint Resolution 118 is a proposed amendment to Section 1, Article XX of the Constitution of the State of Idaho, which would change the manner in which the legislature is required to publish the text of proposed constitutional amendments, and would add a new provision requiring the legislature to publish arguments for and against proposed

smendments.
Section 1, Article XX of the
Constitution of the State of Idaho prosently requires the legislature to submit proposed constitutional amendments to the people for ratification at
the next general election following the
legislative session at which the
amendment is proposed, and in connection therewith, to publish said.

mendments.
(1) For at least six consecutive
weeks prior to the next general
election; and

(2) In not less than one newspaper of general circulation published in each county in the

The proposed amendment would change the above stated requirements by providing that the legislature publish the text of proposed constitutional amendments, as well as arguments for and against such amendments:

(1) Three times, rather than "at least six times" prior to the next general election; and (2) In all newspapers qualified to publish legal notices, rather than "in not less than can newspaper of general circulation published in each county of the state."

Section 60-106, Idaho Code, currently details the qualifications of a newspaper that may publish legal votices in Idaho.

Ladies of the Monday Bridge Club

were entertained by Mrs. Berger at the home of her daughter, Mrs. Tom

Boyd Monday afternoon. Guests were Mrs. Bonnie Stanley of San Francisco and Mrs. Boyd, Prizes were won by Mrs. Olive Pederson and Mrs. Dave Kuehl.

Use The Want-Ads

Mrs. Everett Robinson has generoursly shared two of her favorite recipes this week and having sampled much of her good cooking, I know they are good—so why not try them:

Dilly Bread

1 pkg. dry yeast warm water

C cottage cheese warm 2 Tbl sugar Tbl butter 1 Tbl minced onion flakes

tsp dill seed tsp salt unbeaten egg

2½ C flour Mix well and bake in well-greased

bread plan at 350 degrees. Baked Doughnuts 11/2 C scalded milk

1 tsp salt
1 tsp salt
1 tsp cinnamon
2 tsp nutmeg

2 eggs % C warm water

Mix and raise as in bread dough, roll and cut with doughnut cutter, place on baking sheet; let raise and bake

at 425 degrees for 10 minutes. Roll in sugar or glaze as desired. **Employment Claims**

Unemployment claims in Latah County increased during the past week. Thirty-four new claims were filed in bringing the total to 162. This compares to 145 last week and 233 during the same period a year ago.

Moscow area residents receiving jobless pay total 87 in addition to 5 in Genesee, 45 in the Troy-Deary-Bovill area, 9 in Kendrick and 16 in Potlatch.

Job placements also increased during the week. Seventeen area workers were placed on jobs compared to 13 last week and 15 during the same period a year ago.

Fourteen new jobs were received and at the close of the week, there were 13 jobs available.

Vote November 5

HOW COME?

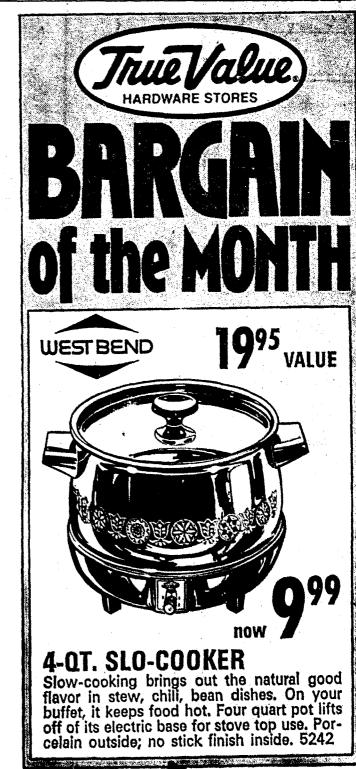

The present Democratic candidate for State Senator in Legislative District 7, while a State Representative, DID NOT ACTIVELY speak out in support of legislation necessary to finance the public schools, thus making it necessary to run special levies at the taxpayers' expense throughout legislative District 7?

The present Democratic candidate for State Senator in Legislative District 7, while a State Representative performed so poorly that the Tax Advisory Board, an independent group of taxpaying Democrats and Republicans, headquartered in Boise, has given him one of their lowest ratings as a legislator because of his voting for wasteful legistion and for his support of several bills of questionable constitution-

Economic Upturn Predicted by Bank Newsletter

Increases in Idaho employment, production, trade and personal income are anticipated in the fourth quarter of 1974.

This is the report of the quarterly First Security economic News Letter being distributed this week, it was announced by James Hoogland, Jr., Manager of Kendrick's First Security Bank of Idaho.

The News Letter reports that per centage increases from last year will be lower, but will continue above the national average. Declines in output in lumber and the mobile home in-dustry are expected but should be offet in part by increases in food pro-cessing, apparel, electronics and household goods. Some increases in employment are expected primarily in the service industries, says First

The publication reports that business conditions in Idaho for the first three quarters of 1974 have been good. Increases have been shown in employment, producton and trade somewhat above the national average. Cash receipts from farm marketing through July were considerably above 1973 levels due principally to increased receipts from the sale

of crops.
Total employment in August at 344,000 represents an increase of 2.7 per cent above last year. Nonagricultural wages and salary employ-ment increased by 3.1 percent from one year ago. Total manufacturing employment was down slightly, while employment in the mining segments

was above last year. Cash receipts from farm marketing in the Gem State for the January-July period totaled \$692.2 million, an increase of 38.2 percent from the same period last year. Receipts for crops for the first seven months of 1974 amounted to \$431.1 million, o 68.5 percent above lastyear.Livestock and livestock product receipts totaled \$258.1 million, an increase of 6.29

percent. Silver production for the January-July period totaled eight million ounces, an increase of 6.5 percent from last year. Idaho's production of gold increased by 8.5 percent, but production of lead and zinc both decreased

from last year. Building permit construction authorized in Idaho's leading cities totaled \$141 millon for the first eight months of 1974, an increase of 25.5 percent from one year ago. Value for residential construction was, up 38 percent , while commercial and industrial construction was valued at \$43.8 million, or 13.6 per cent above last

Retail trade for fiscal 1974 in Idaho, reports the News Letter, totaled \$2.3 billion, an increase of 25 percent from the fiscal year ending June of

On the national scene, First Security said that economic uncertainty has continued to mount during the third quarter. No easy answers exist, says the News Letter, but it does seem clear that expanding productive capacity is necessary to alleviate the dilemma of shortages, recession and

Governor Andrus is helping keep Idaho's No. 1 industry, number 1.

Four years ago Cecil Andrus promised Idaho farmers a Department of Agriculture that would work for the farmer and the rancher, not the special interests. And that's just what he's been doing.

Last year, for example, farm income in Idaho exceeded one billion dollars for the first time in history, thanks in part to the Governor's personal effort to help develop new markets for Îdaho crops and to increase our share of existing markets. It was a shirt-sleeved marketing campaign that included trade missions, negotiations and national advertising to help sell Idaho farm products.

The Governor has been looking out for the farmer on the home. front, too. He dipped into his emergency funds to fight grasshopper infestation and the weak calf syndrome. He built a new seed laboratory to serve our farmers. He launched a veterinary science program. And he's been making sure the Department of Agriculture defends our farmers' interests at PUC hearings.

Governor Andrus will keep working to put money into the pockets of Idaho farmers instead of into the bank accounts of middlemen. Because he believes an industry that helped make Idaho strong deserves all the help Idaho's Governor can give.

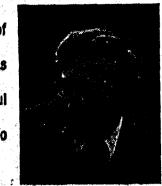

We have a good Governor, let's keep him. for by Citizens for Andrus, Carol Humphrey, Joe McCarter, Co-chairmen

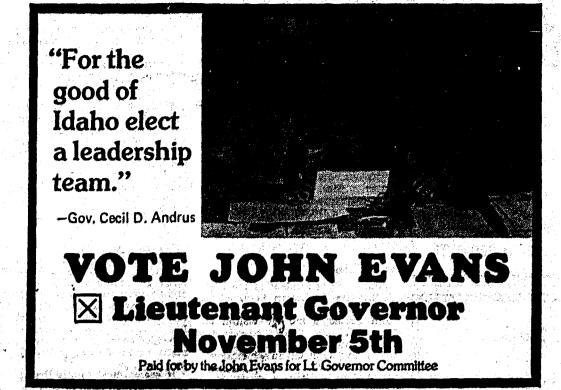

A Man of Conscience

stands, the issues of freedom. Wayne prefers self reliance whenever possible, rather than leaning on the federal government whenever we have a problem. Wayne Kidwell is the man who is needed in the Statehouse as idaho's Attorney General.

- ★ Former Majority Leader of the Idaho Senate.
- * Served with Distinction as Prosecuting Attorney.
- * A Respected, Successful Working Lawyer.
- * A Lifetime Idahoan Who Cares About Idaho.

Put your vote where it will count . . . for you and your family.

Equitable Savings. A little different from other savings associations.

Perhaps you thought all savings associations were alike. Then, chances are, you've never been in an Equitable Savings office. Because at Equitable, you know we're different the minute you walk through the door. Maybe it's the warm atmosphere. A glad-to-see-you smile here. A friendly nod there. The quick efficient service we've learned from 84 years of helping people.

Maybe it's the bright yellow signs that say

"Equitable Savings is People." A philosophy that has become our identity in each of our 38 offices in Idaho, Washington and Oregon. Or maybe it's the unique set of high interest savings programs that we are proud to offer for the first time to the people of Lewiston. Let's look at a few.

\$1000 Minimum. Our \$1000 minimum, 4-year Certificate of Deposit, for example. It earns you a big 7½ % * interest! Which only goes to show that you really don't need a lot of money to earn a high rate of interest at Equitable. Or, if you think 4 years is too long, there's our 1-year Certificate of Deposit. Again,

to earn a high 61/2 % * interest. We've even got a plan with a little bit of everything good in it for everybody (71/2 % * interest, much like a Certificate of Deposit, withdrawal privileges similar to a passbook and accident insurance, to name a few.) It's called the PassBook Plus plan. Ask us about it.

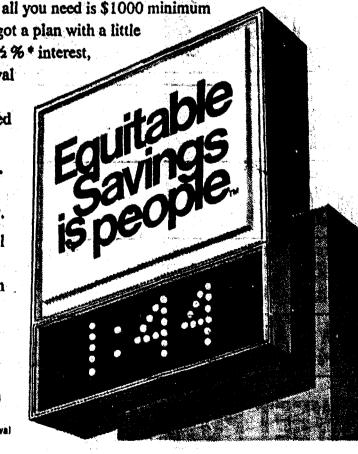

We'll explain all our savings plans to you . . . including the popular 51/4 % passbook plan featuring the highest interest allowed by law.

Grand Opening. Our new Lewiston office will be open next week. Be sure to come down and join us for our grand opening celebration November 4-8. Watch for our newspaper ad next week for all the details.

EQUITABLE SAVINGS, 615 21st Street, Lewiston, Idaho

Of course, substantial interest penalty is required for early withdrawal

Letters to the Editor . . .

Genesee, Idaho

As election time draws near, voters are asking themselves, "who will I vote for? - who will do the best job for the most people? - and keep doing the job throughout their tenure and not forget the plank that puts them in office". All too often I have heard people say, I voted for he or she because I thought they had the best platform. Now he or she seems to have forgotten all the things they were going to try and accomplish.

As people in Genesee know, I for one, am opposed to the various forms of school consolidation that have been presented to us and I cannot see waiting until it is nearly too late to stop some of these proposals. After the flood of opposition that hit Boise via telephone, telegram the last time consolidation was proposed I think the people in the State of Idaho generally are against consolidation.

As I depart the voting booth this year, I will have voted for a person who I feel will stand by what he says and will do his utmost to pursue the ends—be it in the interest of education, farming, business or whatever, my vote will go to Ed Morken. I feel I know Ed. He will do the best job for the most people in our district and also statewise. Although the ballot allows a voter to cast for more than one candidate, if I feel I do not know a candidate or how they will respond in office, it is senseless to me to cast another vote and in essence nulify the vote I cast for the person I know and feel will have our best interests at heart.

Don Grieser

Well Tuned Cars SAVE GAS!

It has been proven that a well-tuned conditioned car or truck provides better gas milage. With the energy crunch and high prices, motorists just can't afford to pour dollars out of the exhaust pipe.

That's why we recommend keeping your car or truck in the best mechanical shape at all times. And—we can help with a good tune-up job. Why not drop in or call and set up an appointment? It'll mean sayings in money and gasoline.
